The author of such classics as *My Granson Lew*, *Williams's Doll*, and *Over and Over* needs no introduction. Neither does her collaborator Maurice Sendak, who has illustrated so many of today's best-loved, as well as most distinguished, books for children. The heroine of their book has a problem. And at first it does not look as though Mr. Rabbit is going to be much help in solving it. For everyone knows you cannot give your mother a red roof, a yellow taxi-cab, a green caterpillar, or a blue lake for her birthday. But then all the little girl had said was that her mother liked red, yellow, green and blue -- and so Mr. Rabbit was trying. How he and the little girl come up with the absolutely perfect present makes a story the the youngest reader will love. And the wonderously bright full-color pictures will bring hours of pleasure to readers and lookers of all ages.

Natural History Dioramas - Sue Dale Tunnicliffe 2014-12-05

This book brings together in a unique perspective aspects of natural history dioramas, their history, construction and rationale, interpretation and educational importance, from a number of different countries, from the west coast of the USA, across Europe to China. It describes the journey of dioramas from their inception through development to visions of their future. A complementary journey is that of visitors and their individual sense making and construction of their understanding from their own starting points, often interacting with others (e.g. teachers, peers, parents) as well as media (e.g. labels). Dioramas have been, hitherto, a rather neglected area of museum exhibits but a renaissance is beginning for them and their educational importance in contributing to people's understanding of the natural world. This volume showcases how dioramas can reach a wide audience and increase access to biological knowledge.

*Still Life* - Melissa Milgrom 2010-02-14

After her curiosity is piqued by a safari gone awry, a journalist delves into the curious world of taxidermy and shares her findings. It's easy to dismiss taxidermy as a kitschy or morbid sideline, the realm of trophy fish and jackalopes or an anachronistic throwback to the dusty diorama. Yet theirs is a world of intrepid hunter-explorers, eccentric naturalists, and gifted museum artisans, all devoted to the paradoxical pursuit of creating the illusion of life. Into this subculture of passionate animal-lovers ventures journalist Melissa Milgrom, whose journey stretches from the anachronistic family workshop of the last chief taxidermist for the American Museum of Natural History to the studio where an English sculptor, granddaughter of a surrealist artist, preserves the animals for Damien Hirst's most disturbing artworks. She wanders through Mr. Potter's Museum of Curiosities in the final days of its existence to watch dealers vie for preserved Victorian oddities, and visits the Smithsonian's offsite lab, where taxidermists transform zoo skins into vivacious beasts. She tags along with a Canadian bear trapper and former Roy Orbison impersonator—the three-time World Taxidermy Champion—as he resurrects an extinct Irish elk using DNA studies and Paleolithic cave art for reference; she even ultimately picks up a scalpel and stuffs her own squirrel.

Transformed from a curious onlooker to an empathetic participant, Milgrom takes us deep into the world of

taxidermy and reveals its uncanny appeal. "Hilarious but respectful." —Washington Post "Engrossing."

—New Yorker "[A] delightful debut . . . Milgrom has in *Still Life* opened up a whole world to readers."

—Chicago Tribune "Milgrom's lively account will appeal to readers who enjoyed Mary Roach's quirky science books." —Library Journal

**Virtual Art** - Oliver Grau 2004-09-17

An overview of the art historical antecedents to virtual reality and the impact of virtual reality on contemporary conceptions of art. Although many people view virtual reality as a totally new phenomenon, it has its foundations in an unrecognized history of immersive images. Indeed, the search for illusionary visual space can be traced back to antiquity. In this book, Oliver Grau shows how virtual art fits into the art history of illusion and immersion. He describes the metamorphosis of the concepts of art and the image and relates those concepts to interactive art, interface design, agents, telepresence, and image evolution. Grau retells art history as media history, helping us to understand the phenomenon of virtual reality beyond the hype. Grau shows how each epoch used the technical means available to produce maximum illusion. He discusses frescoes such as those in the Villa dei Misteri in Pompeii and the gardens of the Villa Livia near Prima Porta, Renaissance and Baroque illusion spaces, and panoramas, which were the most developed form of illusion achieved through traditional methods of painting and the mass image medium before film.

Through a detailed analysis of perhaps the most important German panorama, Anton von Werner's 1883 *The Battle of Sedan*, Grau shows how immersion produced emotional responses. He traces immersive cinema through Cinerama, Sensorama, Expanded Cinema, 3-D, Omnimax and IMAX, and the head mounted display with its military origins. He also examines those characteristics of virtual reality that distinguish it from earlier forms of illusionary art. His analysis draws on the work of contemporary artists and groups ART+COM, Maurice Benayoun, Charlotte Davies, Monika Fleischmann, Ken Goldberg, Agnes Hegedues, Eduardo Kac, Knowbotic Research, Laurent Mignonneau, Michael Naimark, Simon Penny, Daniela Plewe, Paul Sermon, Jeffrey Shaw, Karl Sims, Christa Sommerer, and Wolfgang Strauss. Grau offers not just a history of illusionary space but also a theoretical framework for analyzing its phenomenologies, functions, and strategies throughout history and into the future.

The Rabbit Factory - Larry Brown 2003

Larry Brown's idiosyncratic and powerful Southern novels have earned him widespread critical acclaim. Now, in an ambitious narrative structure reminiscent of Robert Altman's classic film Nashville, this "true original" (Chicago Tribune) weaves together the stories of a sprawling cast of eccentric and lovable characters, each embarked on a quest for meaning, fulfillment, and love -- with poignant and uproarious results. Set in Memphis and north Mississippi, The Rabbit Factory follows the colliding lives of, among

others, Arthur, an older, socially ill-at-ease man of considerable wealth married to the much younger Helen, whose desperate need for satisfaction sweeps her into the arms of other men; Eric, who has run away from home thinking his father doesn't want him and becomes Arthur's unlikely surrogate son; Domino, an ex-con now involved in the drug trade, who runs afoul of a twisted cop; and Anjalee, a big-hearted prostitute with her own set of troubles, who crashes into the lives of the others like a one-woman hurricane. Teeming with pitch-perfect creations that include quirky gangsters, colorful locals, seemingly straitlaced professors, and fast-and-loose police officers, Brown tells a spellbinding and often hilarious story about the botched choices and missed chances that separate people -- and the tenuous threads of love and coincidence that connect them. With all the subtlety and surprise of life itself, the story turns on a dime from comical to violent to moving. Masterful, profound, and full of spirit, The Rabbit Factory is literary entertainment of the highest order.
