**Physics for Scientists and Engineers: Foundations and Connections** - Debora M. Katz 2016-01-01  
Cengage Learning is pleased to announce the publication of Debora Katz's ground-breaking calculus-based physics program, PHYSICS FOR SCIENTISTS AND ENGINEERS: FOUNDATIONS AND CONNECTIONS. The author's one-of-a-kind case study approach enables students to connect mathematical formalism and physics concepts in a modern, interactive way. By leveraging physics education research (PER) best practices and her extensive classroom experience, Debora Katz addresses the areas students struggle with the most: linking physics to the real world, overcoming common preconceptions, and connecting the concept being taught and the mathematical steps to follow. How Dr. Katz deals with these challenges—with case studies, student dialogues, and detailed two-column examples—distinguishes this text from any other on the market and will assist you in taking your students "beyond the quantitative." Speak Nothing of the Dead But Good - William C. Harris Jr.

In a time when money is scarce and there is mounting public pressure to win the war on drugs, states are forced to explore controversial solutions. In William C. Harris Jr.'s revolutionary new book, *Speak Nothing of the Dead But Good*, the State of Georgia turns to a shadowy company called Executive Outcomes to create the first drug colony on U.S. soil. Fans of Harris' previous books will see their favorite characters taken to a place where they have never gone before. Prepare for a ride filled with death and despair, faith and redemption, all on the mysterious island of Ossabaw.
