Naked Lunch - William S. Burroughs 2007-12-01

Since its original publication in Paris in 1959, *Naked Lunch* has become one of the most important novels of the twentieth century. Exerting its influence on the relationship of art and obscenity, it is one of the books that redefined not just literature but American culture. For the Burroughs enthusiast and the neophyte, this volume—that contains final-draft typescripts, numerous unpublished contemporaneous writings by Burroughs, his own later introductions to the book, and his essay on psychoactive drugs—is a valuable and fresh experience of a novel that has lost none of its relevance or satirical bite.

The Drunkard's Walk - Leonard Mlodinow 2008-05-13

Miles and Me - Quincy Troupe 2000-03-08

Quincy Troupe's candid account of his friendship with Miles Davis is a revealing portrait of a great musician and an intimate study of a unique relationship. It is also an engrossing chronicle of the author's own development, both artistic and personal. As Davis's collaborator on *Miles: The Autobiography*, Troupe—one of the major poets to emerge from the 1960s--had exceptional access to the musician. This memoir goes beyond the life portrayed in the autobiography to describe in detail the processes of Davis's spectacular creativity and the joys and difficulties

his passionate, contradictory temperament posed to the men's friendship. It shows how Miles Davis, both as a black man and an artist, influenced not only Quincy Troupe but whole generations. Troupe has written that Miles Davis was "irascible, contemptuous, brutally honest, ill-tempered when things didn't go his way, complex, fair-minded, humble, kind and a son-of-a-bitch." The author's love and appreciation for Davis make him a keen, though not uncritical, observer. He captures and conveys the power of the musician's presence, the mesmerizing force of his personality, and the restless energy that lay at the root of his creativity. He also shows Davis's lighter side: cooking, prowling the streets of Manhattan, painting, riding his horse at his Malibu home. Troupe discusses Davis's musical output, situating his albums in the context of the times--both political and musical--out of which they emerged. *Miles and Me* is an unparalleled look at the act of creation and the forces behind it, at how the innovations of one person can inspire both those he knows and loves and the world at large.

Wolf Winter - Cecilia Ekbäck 2015-01-27

Swedish Lapland, 1717. Maj, her husband Jan-Erik and her daughters Frederika and Marit arrive from their native Finland, hoping to forget the traumas of their past and put down new roots in this harsh but beautiful land. Above them looms Blackåsen, a mountain whose foreboding presence looms over the valley and whose dark history seems to haunt the lives of those who live in its shadow. While herding the family's goats on the mountain, Frederika happens upon the mutilated body of one of their neighbors, Eriksson. The death is dismissed as a wolf attack, but Maj feels certain that the wounds could only have been inflicted by another man. Compelled to investigate despite her neighbors' strange disinterest in the death and the fate of Eriksson's widow, Maj is drawn into the dark history of tragedies and betrayals that have taken place on Blackåsen. Young Frederika finds herself pulled towards the mountain as well, feeling something none of the adults around her seem to notice. As the seasons change, and the Öwolf winter, Ó the harshest winter in memory, descends upon the settlers, Jan-Erik travels to find work, and Maj finds herself struggling for her family's survival in this land of winter-long darkness. As the snow gathers, the settlers' secrets are increasingly laid bare. Scarce resources and the never-ending darkness force them to come together, but Maj, not knowing who to trust and who may betray her, is determined to find the answers for herself. Vasoplegic Endothelial Dysfunction - Paulo Roberto Barbosa Evora 2021-05-31

This unique work presents one of the most significant organ failure condition - cardiocirculatory shock - and the prominent role of Methylene Blue (MB). Through their extensive experience, the authors' consider that the lifesaving feature of MB is still underestimated. For this reason they outline key concepts of MB, mentioning essential experimental data, yet focusing mainly on its application in the care of critically ill patients. In an easy-to-read format, the 18 chapters were organized in a didactically structured order, distributed in four parts. The first part introduces the general conceptual aspects and physiology of the endothelium. The second part presents the particularities of endothelial dysfunction in different types of shock. Methylene blue is discussed in detail in the third part. In the fourth part, particular situations of endothelial dysfunction, such as heart surgery and organ transplantation, are described. Additionally, the two complementary subjects of acid-base balance and the therapeutic use of inhaled nitric oxide are mentioned. Finally, looking for therapeutic alternatives for what we classify as "vasoplegic endothelial dysfunction", MB remains promising as an adjuvant to sympathomimetic amines. The combination

of three recently proposed concepts may be useful in obtaining better results against the high mortality rates in critically ill patients. These three concepts are "wide-spectrum vasopressors", vasopressor economy strategies, and microcirculation protection against the harmful effects of using high concentrations of amines. This book's translational approach will appeal to a variety of readers within the health specialties of medicine, biomedicine, physiotherapy, nursing, odontology, and basic science.

How Emotions Are Made - Lisa Feldman Barrett 2017-03-07

Preeminent psychologist Lisa Barrett lays out how the brain constructs emotions in a way that could revolutionize psychology, health care, the legal system, and our understanding of the human mind. A thought-provoking journey into emotion science."—The Wall Street Journal "A singular book, remarkable for the freshness of its ideas and the boldness and clarity with which they are presented."—Scientific American "A brilliant and original book on the science of emotion, by the deepest thinker about this topic since Darwin."—Daniel Gilbert, best-selling author of *Stumbling on Happiness* The science of emotion is in the midst of a revolution on par with the discovery of relativity in physics and natural selection in biology. Leading the charge is psychologist and neuroscientist Lisa Feldman Barrett, whose research overturns the long-standing belief that emotions are automatic, universal, and hardwired in different brain regions. Instead, Barrett shows, we construct each instance of emotion through a unique interplay of brain, body, and culture. A lucid report from the cutting edge of emotion science, *How Emotions Are Made* reveals the profound real-world consequences of this breakthrough for everything from neuroscience and medicine to the legal system and even national security, laying bare the immense implications of our latest and most intimate scientific revolution.

El aclaramiento de tus más oscuros pensamientos - María Céspedes Balongo 2021-08-27

¿Hay personas que te intimidan o directamente (por ir al grano) te hacen daño? ¿Dañas o criticas a todo hijo de vecina próximo o lejano? ¿Acaso te sientes buena o tal vez mala persona? Si pondríamos sobre la mesa todos nuestros pensamientos, tanto los del día a día como lo que ya tienen solera, jugaríamos la mejor partida de nuestra vida, pues al reconocerlos como propios o ajenos, ¡cambiaríamos!, con lo cual nuestros sentimientos serían otros. El aclaramiento de tus más oscuros pensamientos es un libro de relatos hechos con el alma. Son honestos, irónicos y claros, aunque muchas veces piquen. Ya que el hecho de ver los aciertos, los errores, los defectos, las virtudes y cualquier cualidad con la que carguemos por nuestra caprichosa y variable mente, implica tenerlo que mirar de frente para borrar o seguir escribiendo... Puedes leerlos con o sin orden. Comenzar por el principio siguiendo la senda hasta llegar a la meta o al azar abriendo el libro por cualquier página y ¡a ver lo que te toca! Seguro que al sentirte reflejado en muchos, algunos o en unos pocos relatos, ¡te aclararás por dentro...! The DUFF - Kody Keplinger 2015-01-13

The New York Times bestseller is now a major motion picture! Seventeen-year-old Bianca Piper may not be the prettiest girl in her high school, but she has a loyal group of friends, a biting wit, and a spot-on BS detector. She's also way too smart to fall for the charms of man-slut and slimy school hottie Wesley Rush, who calls Bianca the Duff--the designated ugly fat friend--of her crew. But things aren't so great at home and Bianca, desperate for a distraction, ends up kissing Wesley. Worse, she likes it. Eager for escape, Bianca throws herself into a closeted enemies-with-benefits relationship with him. Until it all goes horribly awry. It turns out Wesley isn't such a bad listener, and his life is pretty screwed up, too. Suddenly Bianca realizes with absolute horror that she's falling for the guy she thought she hated more than anyone.

Tender Is the Flesh - Agustina Bazterrica 2020-08-04

Working at the local processing plant, Marcos is in the business of slaughtering humans--though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the "Transition." Now, eating human meat--"special meat"--is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he's given a gift: a live specimen of the finest quality. Though he's aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost--and what might still be saved.
