Pirate Journey - Philip Anderson 2013-01-25

Dave Adams is a teenager standing at a crossroads in his life. He's lonely, a bully in need of direction. Through the pages of an ancient, leather-bound journal, Dave makes contact with an ancestor, James Adams, captain of a seventeenth century sailing-ship. Captain Adams is also straddling a fence, and the life of an honest sea-going merchant pales in comparison to the excitement and opportunities available for a captain willing to do what it takes to get ahead. Will the captain's decisions take him and his crew where they want to go? And how will those decisions affect Dave as he makes his way through high school and finds his first summer job? *Pirate Journey* explores the parallel lives of a scurvy sea captain and a high school bully as they make decisions and face the consequences of their choices, both good and bad.

The Stout Stick - Brent Monahan 2016-06-15

Powerful D.C. politicians are being removed from office by something other than elections - execution-style killings for which FBI Special Agent Nick Nettles is under pressure to find answers and suspects. That's when a weapons smuggling investigation drops Nick in the middle of an international scheme to expand gun distribution, block tighter U.S. gun laws and manipulate the public conversation on Second Amendment rights. For Nick, a lawman and gun-control advocate, uncovering the truth is personal - and could destroy his career and rock the nation, from the heights of government and industry to every citizen. But he isn't alone - someone else has bought into the high-stakes game and is going all-in to run guns off the table. Who will win when Death calls? **THE STOUT STICK** is a work of fiction. However, its central argument we see as no less outrageous than those being presented by the gun manufacturers and their lobbies, or the so-called "public servants" who pander to those manufacturers and lobbies for campaign contributions. No less outrageous, either, than the attitudes of that small, but vocal, portion of the electorate that sees even reasonable limitations to gun ownership as assaults on the Constitution and their perceived "God-given rights."

Turning This Thing Around - Keith Maginn 2012-12-22

Turning This Thing Around is an inspiring memoir of overcoming personal struggles. This brutally honest, deeply personal account of redemption takes readers on a moving spiritual journey. Confronted with a myriad of obstacles—a debilitating arthritic disease, narcolepsy, anxiety and depression—the author was outwardly happy, but inwardly miserable. Pushed to the lowest point of his life, Maginn shares how he gradually turned things around and used his experiences to grow as a person. Supplemented by heartfelt poetry by the author and with quotes from Gandhi to Dr. Wayne Dyer to Eckhart Tolle, Turning This Thing Around has universal themes that speak to nearly everyone, as we all must face challenges as part of being human. It is a self-help memoir of sorts: the author discusses not only what he overcame, but also how he did so—and how others can, too. Unlike many popular memoirs on the market, this is a story that more people can relate to. Maginn was not raised in an eccentric family (Jeannette Walls in *The Glass Castle*, memoirs by Augusten Burroughs), nor did he travel to Italy, India and Indonesia, as Elizabeth Gilbert did in *Eat, Pray, Love*. Rather, Turning This Thing Around is a story of a normal young man's resiliency when battling extraordinary circumstances.

Conversations on the Plurality of Worlds - M. de (Bernard Le Bovier) Fontenelle 1990

Surveying the night sky, a charming philosopher and his hostess, the Marquise, are considering the possibility of travelers from the moon. "What if they were skillful enough to navigate on the outer surface of our air, and from there, through their curiosity to see us, they angled for us

like fish? Would that please you?" asks the philosopher. "Why not?" the Marquise replies. "As for me, I'd put myself into their nets of my own volition just to have the pleasure of seeing those who caught me." In this imaginary conversation of three hundred years ago, readers can share the excitement of a new, extremely daring view of the universe. Conversations on the Plurality of Worlds (Entretiens sur la pluralité des mondes), first published in 1686, is one of the best loved classics of the early French enlightenment. Through a series of informal dialogues that take place on successive evenings in the marquise's moonlit gardens, Fontenelle describes the new cosmology of the Copernican world view with matchless clarity, imagination, and wit. Moreover, he boldly makes his interlocutor a woman, inviting female participation in the almost exclusively male province of scientific discourse. The popular Fontenelle lived through an entire century, from 1657 to 1757, and wrote prolifically. H. A. Hargreaves's fresh, appealing translation brings the author's masterpiece to new generations of readers, while the introduction by Nina Rattner Gelbart clearly demonstrates the importance of the Conversations for the history of science, of women, of literature, and of French civilization, and for the popularization of culture.

Conversations on the Plurality of Worlds ... Translated [by W. Gardiner] from the Last Edition of the French. Illustrated with Notes, Etc - M. de Fontenelle (Bernard Le Bovier) 1761

Of a Fire on the Moon - Norman Mailer 2014-06-03

For many, the moon landing was the defining event of the twentieth century. So it seems only fitting that Norman Mailer—the literary provocateur who altered the landscape of American nonfiction—wrote the most wide-ranging, far-seeing chronicle of the Apollo 11 mission. A classic chronicle of America's reach for greatness in the midst of the Cold War, *Of a Fire on the Moon* compiles the reportage Mailer published between 1969 and 1970 in *Life* magazine: gripping firsthand dispatches from inside NASA's clandestine operations in Houston and Cape Kennedy; technical insights into the magnitude of their awe-inspiring feat; and prescient meditations that place the event in human context as only Mailer could. Praise for *Of a Fire on the Moon* "The gift of a genius . . . a twentieth-century American epic—a *Moby Dick* of space."—*New York Times* "Mailer's account of Apollo 11 stands as a stunning image of human energy and purposefulness. . . . It is an act of revelation—the only verbal deed to be worthy of the dream and the reality it celebrates."—*Saturday Review* "A wild and dazzling book."—*The New York Times Book Review* "Still the most challenging and stimulating account of [the] mission to appear in print."—*The Washington Post* Praise for Norman Mailer "[Norman Mailer] loomed over American letters longer and larger than any other writer of his generation."—*The New York Times* "A writer of the greatest and most reckless talent."—*The New Yorker* "Mailer is indispensable, an American treasure."—*The Washington Post* "A devastatingly alive and original creative mind."—*Life* "Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance."—*The New York Review of Books* "The largest mind and imagination [in modern] American literature . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book."—*Chicago Tribune* "Mailer is a master of

his craft. His language carries you through the story like a leaf on a stream.”—The Cincinnati Post

The Moon Is Always Round - Jonathan Gibson 2019-09-23

Even young children want answers to the hard questions about God and suffering. In *The Moon Is Always Round*, seminary professor and author Jonathan Gibson uses the vivid imagery of the moon to explain to children how God's goodness is always present, even when it might appear to be obscured by upsetting or difficult circumstances. In this beautiful, full-color illustrated book, he allows readers to eavesdrop on the conversations he had with his young son in response to his sister's death. Father and son share a simple liturgy together that reminds them that, just as the moon is always round despite its different phases, so also the goodness of God is always present throughout the different phases of life. A section in the back of the book offers further biblical help for parents and caregivers in explaining God's goodness to children.

Jonathan Gibson reminds children of all ages that God's goodness is present in the most difficult of times, even if we can't always see it.

The Conversation That Matters Most - Dewitt Rowe 2010-05-03

In *The Conversation That Matters Most*, DeWitt Rowe takes his readers on a unique and fascinating journey of self-exploration and discovery. The author not only guides us toward a complete reevaluation of how we view success; he convinces us that the way we define it and pursue it must also be reexamined. How often do we stop and question the assumptions that have defined us? Are we more intelligent than we have been led to believe? Do our idiosyncrasies make us strange...or simply unique? How often do we make a decision based on what's expected of us, rather than on our innate sense of what works? DeWitt delves into areas that are rarely discussed, areas that reward us with a richness of comprehension, awareness, discovery, and wisdom. Every page is a reminder of the control we have over our lives if only we can understand how to use that control in a positive and result-oriented manner. Utilizing this book's guides and lessons, we can be assured of a fuller and more satisfying life.

The Mind and the Moon - Daniel Bergner 2022-05-17

“A profound and powerful work of essential reporting.” —The New York Times Book Review An important—and intimate—interrogation of how we treat mental illness and how we understand ourselves In the early 1960s, JFK declared that science would take us to the moon. He also declared that science would make the “remote reaches of the mind accessible” and cure psychiatric illness with breakthrough medications. We were walking on the moon within the decade. But today, psychiatric cures continue to elude us—as does the mind itself. Why is it that we still don't understand how the mind works? What is the difference between the mind and the brain? And given all that we still don't know, how can we make insightful, transformative choices about our psychiatric conditions? When Daniel Bergner's younger brother was diagnosed as bipolar and put on a locked ward in the 1980s, psychiatry seemed to have achieved what JFK promised: a revolution of chemical solutions to treat mental illness. Yet as Bergner's brother was deemed a dire risk for suicide and he and his family were told his disorder would be lifelong, he found himself taking heavy doses of medications with devastating side effects. Now, in recounting his brother's journey alongside the gripping, illuminating stories of Caroline, who is beset by the hallucinations of psychosis, and David, who is overtaken by depression, Bergner examines the evolution of how we treat our psyches. He reveals how the pharmaceutical industry has perpetuated our biological view of the mind and our drug-based assumptions about treatment—despite the shocking price paid by many patients and the problematic evidence of drug efficacy. And he takes us into the pioneering labs of today's preeminent neuroscientists, sharing their remarkably candid reflections and fascinating new theories of treatment. *The Mind and the Moon* raises profound questions about how we understand ourselves and the essential human divide between our brains and our minds. This is a book of thought-provoking reframings, delving into the science—and spirit—of our psyches. It is about vulnerability and personal dignity, the terrifying choices confronted by families and patients, and the prospect of alternatives. In *The Mind and the Moon*, Bergner beautifully explores how to seek a deeper engagement with ourselves and one another—and

how to find a better path toward caring for our minds.

Calliope - Mark Pucci 2013-07-21

Calliope is a literary novel. In its simplest form, it is the story of a man longing to become the young, idealistic person he once was when the world seemed completely open to promise. It is the desire to re-experience life with all the naiveté and hope of romantic youth. In its allegorical form, the story explores such themes as purpose, morality, social convention, materialism and happiness. When the protagonist meets an orange-haired girl, his life is forever altered. Her name is Calliope, and what occurs throughout the rest of the novel is a wild, episodic fugue. The flight becomes a frenetic interlacing through

wilderness and civilization, this being an allusion to Jean-Jacques Rousseau's Discourse on Inequality. The wilderness comes to represent a path back to the primal self, while civilization is more dubious representing both the potential for corruption, as well as the great heights of artistic and rational endeavors. Yet while on the journey, the protagonist is forced to look at life anew in part due to the somewhat unscrupulous efforts of Calliope. Morality is examined through the eyes of Calliope, who is by all intensive purposes Greek, which means pre-Christian. Her moral code is not affected by the guilt of Christianity. Her nakedness throughout the novel in part symbolizes a complete lack of shame. As for her beliefs, an understanding of Friedrich Nietzsche's perspectivism best represents her values. This allows the protagonist an opportunity to erase everything that he has learned. All custom, all forms of etiquette, religious belief, habit and convention must be forgotten in order to re-experience the world with the sense of wonderment he so eagerly longs for. With no ties to the world, he embarks upon an epic voyage of silliness and profound examination. Lured along by this electric, orange-haired muse, he becomes convinced that she is either bent upon his supreme salvation or utter damnation. What is so amazing about the entire journey is where they both end up—a location which seems to be the last place the protagonist was in complete control of his destiny. Therefore, a true chance to begin again is perhaps realized.

Book of Sun and Moon (I Ching) - Stuart Alve Olson 2014-10-18

The books in this two-volume series present the most important tools and information on how to utilize the "Book of Changes (I Ching)." The "Book of Sun and Moon, "an alternative-though accurate-translation for the title of the "I Ching, "is both a book of divination and calculation. Its use in divination means to apply intuition concerning the oracle of the hexagrams (the sixty-four images of broken and unbroken Yin-and-Yang lines). Its ability to calculate and determine possible outcomes for any situation involves examining the logical correlations associated with each of the hexagrams and what images they change into and head toward. Using the "Book of Sun and Moon" is like being a detective or tracker. The images are the clues and tracks, and a good detective or tracker needs

not only tools of deduction and observation, but also a strong sense of intuition. Hence, the "Book of Sun and Moon" provides the main tools for both. Some questions put to the "Book of Sun and Moon" may only seem to need an understanding of the oracle portion, while others may only seem to require the use of logic and calculation. Without applying both intuition and logic, however, you are only receiving half the picture and limiting the amount of information the "Book of Sun and Moon" can provide. Volume I contains background historical information and explanations of the "I Ching's" construction and uses for divination and calculation. Volume II contains the translations of the original "Book of Sun and Moon, "along with specific correlations for the hexagrams and trigrams for interpretation, as well as Stuart Alve Olson's commentaries derived from various Chinese sources. These new editions of the "Book of Sun and Moon" provide a distinctly Daoist perspective on the work, which sets them apart from the majority of other translations of the "I Ching" that contain commentaries based on Confucian ideals and philosophy.

Under the Ramadan Moon - Sylvia Whitman 2011-03-01

"We wait for the moon. We watch for the moon. We watch for the Ramadan moon. We give to the poor, and read Qur'an, under the moon. We live our faith, until next year under the moon, under the moon, under the Ramadan moon." Ramadan is one of the most special months of the Islamic year, when Muslims pray, fast, and help those in need. The lyrical story, with luminous illustrations, serves as an introduction to Ramadan—a time for reflection and ritual with family and friends. A detailed note about Ramadan is included.

Crazy - H. R. Stokes, III 2012-07-26

CRAZY A MEMOIR is a humorous, adventuresome romp about weed smuggling in the seventies and eighties. The author chronicles his early life in San Antonio and the influence of the growing drug culture during his teen years. He then comically depicts his required military service as a "tie-dyed hippie in army greens" and his determined attempts to stay

out of Viet Nam. Lost and unsure about life following the drug related deaths of most of his friends, he later hitchhikes around Mexico and ends up attending college in Cholula where he begins his career in weed smuggling. His entrepreneurial efforts in this area are humorously described in great detail. The book captures a slice of time, tying in political and cultural events with the author's concomitant psychological development during the hippie movement as well as his evolving career as a drug smuggler for the Cause.

Principle Or Profit - Ryheim Scott 2016-01-06

Ever since Malcolm James was a child, cold blooded murder has played a significant part in his life. Whether it be from both of his parents being brutally assassinated right in front of him, or having blood on his own hands, murder has been his reality. Constantly haunted and consumed by his own actions, the only thing stronger than Malcolm's thirst for blood, is his hunger for money and power! Flooding the crime ridden and gang infested inner city streets of Denver, Colorado with Cocaine and pounds of Kush, grindin, as his "Gang Green" squad of misfits commit robberies, mayhem and murder while on their way to the top. However, the sudden murder of Malcolm's friend and right hand man, not only cause the homicide rate to shoot through the roof, but also derails their mission. Why Principle or Profit you ask? Because nine times outta ten every time a life is taken out in these streets, it's a direct result of one or the other. To profit is self explanatory; however, principle could be ones personal belief, or even a weak emotion like jealousy and greed, to killing over territory, a debt, turf, stripes, or other principles of the streets. At the end of the day we all gotta go, so which one are you willing to die for?

Let the Moon Be Free - Eric Baret 2018-09-27

Shaped and sustained by the nondual tradition of Kashmir Shivaism, Eric Baret's words take us back to the simple observation of our felt sense of emotion and ultimately, to pure listening. This allows a liberating realization: the root of suffering is an illusion, and all claims to knowledge are a pretense. The dialogues recorded in this book are an invitation to celebrate life in the present moment, free from the fear of

an imaginary future. "You don't need anything in life, because it all ends in the present moment. You do not have the time to build a conscious life. You cannot become anything."

Embracing Survival - Dydine Umunyana 2016-08-10

Embracing Survival, a memoir by Dydine Umunyana, tells the story of

the Rwandan Genocide against the Tutsis at the hands of the Hutu perpetrators in Rwanda (1994) through the eyes of the four-year-old-child that she was when the horrific massacre occurred. Separated from her family, she barely survived the conflict. While the physical killing finally stopped, the mental and emotional 'killing' continued, affecting her and her family. She writes that "I have learned that we cannot do for others what we cannot do for ourselves. By nourishing the light within ourselves, we find strength we never knew was there....I came to realize that one's own life experiences are not theirs to keep but ours to teach."
