The Accountant's Tale - Andrew P. Porter 2021-06-08

Three problems in the life of the church: (1) For the past millennium, theologians have done a brisk trade in proofs, arguments for the so-called "existence" of God, the validity of the Christian faith, and so on. I think this is a mistake; Christianity is a choice. (2) Typical Christian theology begins with Jesus rather than with the Common Documents, the documents shared in common by Christianity and rabbinic Judaism. This is Marcionite Theology, so called for a second-century figure who wanted to delete the Common Documents from the Bible. Many problems in theology become much more tractable if the Common Documents, the Exodus focally, are treated as a model rather than as a mere prologue to the New Testament. (3) There are problems with God interfering with nature, and they have become worse with modern science. God interfering with nature doesn't just injure the sciences, it also generates serious pathologies in theology. The theme is choices made by the church, and the book is called The Accountant's Tale because somebody once asked an accountant, "What is two times two?" and got the answer,

"What do you want it to be?"

Healing - How our health returns - Michael Herz 2021-06-28

What influence do we have on our health? This book arose out of my own incurable illness, while an alternative practitioner brought me back to life so casually. That made me wonder and so began this path of healing, because we are all more ill than healthy. Real health has little to do with what we understand by health. Somehow the earlier knowledge of healing has been lost, so that we can hardly help ourselves. Yet this valuable knowledge is still there, albeit scattered in books, films and on the internet. This forgotten knowledge actually enables us to heal ourselves and thus build up our health, which (finally) allows us to live a healthy and timeless life again until the last day. Everything in this book is set up in such a way that we can apply the therapies without deep knowledge and thus get our health back year after year and stay healthy with it - forever.

Angel Children: Those who Die Before Accountability - Mary V. Hill 1975

Angel Children is a careful presentation of Latter-day Saint doctrine concerning the status of children who pass away before being baptized. It is a compassionate book which brings comfort and consolation through increased understanding to those who read it. The author, Mary V Hill, lost her own child and shares the emotions she felt during that trying period. She deals with aspects of religious life when serious illness develops: effective prayer, faith and healing, priesthood administration, man's appointed time to die, and one's attitude towards death. The subject then shifts to the status of little children after their passing. She shows how little children need no baptism, that they are heirs of the Celestial Kingdom, and that they are redeemed from the temptations of Satan. Life in the Spirit World is discussed, then the resurrection and the status of children following the resurrection is considered. Another chapter is devoted to the status of retarded children here on earth. The author shows that the eternal spirit of a retarded child is not affected by

the illness and discusses the eternal plan for such children. Great comfort is found in the final chapter: Overcoming the Challenge. The author tells of the necessity for having a positive attitude, mourning and being comforted, and ends with the reassurance that after much tribulation come the blessings. *Angel Children* is readable and inspirational. It is also a valuable collection of doctrinal materials on this important subject, including the scriptures and words of instruction and counsel by General Authorities of The Church of Jesus Christ of Latter-day Saints. Horizon Publishers is pleased to recommend it highly!

Book Excerpt: he," said Billy, "to leave us out all night? It will save him a broken shed door, though he will never know it." "What time do you suppose it is?" asked Stubby. "From the height of the moon I should say it must be about half past ten," answered Button. "That will give us an hour and a half to think up what we are going to talk about at the club tonight. What are you going to tell them, Billy?" said Stubby. "I really don't know. Guess I will wait for the inspiration of the moment." "You better think up something extra exciting. Why not tell them about the time you were blown out of the trenches and lost a piece of your tail? Or, better yet, when you broke into the German headquarters and butted the great Hindenburg himself," advised Button. "Very well, I will, as probably that would be as interesting as anything I could recount. What are you two fellows going to relate to them?" How Big-Tech Barons Smash Innovation--And How to Strike Back
- Ariel Ezrachi 2022-06-28

Two market experts deconstruct the drivers and inhibitors to innovation in the digital economy, explain how large tech companies can stifle disruption, assess the toll of their technologies on our well-being and democracy, and outline policy changes to take power away from big tech and return it to entrepreneurs. Silicon Valley's genius combined with limited corporate regulation promised a new age of technological innovation in which entrepreneurs would create companies that would in turn fuel unprecedented job growth. Yet disruptive innovation has stagnated even as the five leading tech giants, which account for approximately 25 percent of the S&P 500's market capitalization, are expanding to unimaginable scale and power. In *How Big-Tech Barons Smash Innovation--and How to Strike Back*, Ariel Ezrachi and Maurice E. Stucke explain why this is happening and what we can do to reverse it.

While many distrust the Big-Tech Barons, the prevailing belief is that innovation is thriving online. It isn't. Rather than disruptive innovations that create significant value, we are getting technologies that primarily extract value and reduce well-being. Using vivid examples and relying on their work in the field, the authors explain how the leading tech companies design their sprawling ecosystems to extract more profits (while crushing any entrepreneur that poses a threat). As a result, we get less innovation that benefits us and more innovations that surpass the dreams of yesteryears' autocracies. The Tech Barons' technologies, which seek to decode our emotions and thoughts to better manipulate our behavior, are undermining political stability and democracy while fueling tribalism and hate. But it's not hopeless. The authors reveal that sustained innovation scales with cities not companies, and that we, as a society, should profoundly alter our investment strategy and priorities to certain entrepreneurs ("Tech Pirates") and cities' infrastructure.

[Making Music in Los Angeles](#) - Catherine Parsons Smith 2007-10-16

In this fascinating social history of music in Los Angeles from the 1880s to 1940, Catherine Parsons Smith ventures into an often neglected period to discover that during America's Progressive Era, Los Angeles was a center for making music long before it became a major metropolis. She describes the thriving music scene over some sixty years, including opera, concert giving and promotion, and the struggles of individuals who pursued music as an ideal, a career, a trade, a business--or all those things at once. Smith demonstrates that music making was closely tied to broader Progressive Era issues, including political and economic developments, the new roles played by women, and issues of race, ethnicity, and class.

Dictionary of Environmental Protection - Otto E. Tutzauer 1979

The Butterfly Effect of Grace - Rex G. Russell 2011-08

For over 25 years, Rex has taught with one simple theme; you matter to God. Somehow we have missed that. The unconditional mercy and grace that flow from the heart of God draws us to Him. Nothing we will ever do, good or bad, would ever cause the heart of God to love us any more or less than he does right now. When that truth soaks in, you and I will be able to live the life that God has called us to live. The smallest of things we do and say, matter deeply to God and to those around us. Grace, extended to others, has a ripple effect. When we step out of our comfort zone and touch the world around us, something happens. Broken-hearted people start to mend. They begin to connect the dots to God. That is a good thing, a very good thing. It can cause a butterfly effect of grace.

Understanding Reddit - Elliot T. Panek 2021-12

"This book offers a comprehensive scholarly overview of Reddit, one of the most popular and least studied social platforms of the early 21st

century. The book inspires new ways of thinking about it Reddit, considering it from multiple perspectives: through a historical lens, as a site where identity is forged, as a democracy, as a community, and as a news aggregator and distributor. By bringing theories from computer-mediated communication, communication studies, and sociology to bear on original, large-scale observational analyses of Reddit's communities, this book provides a uniquely comprehensive overview of the platform's first 15 years. Understanding Reddit will help us make sense of how rapidly growing communities function in an era of mass online anonymity. Serving both as a primer on how social behavior on Reddit plays out, and as a way of locating it within multiple theoretical traditions, the book will offer important insights to scholars and students in the disciplines of communication, media studies, information science, internet and emerging media studies, and sociology"--

What a Godly Privilege to Be Born a Man - Tabitha Biel Luak 2021-08-05

This book is inspired by true events. Chosen from among the mob of her boyfriend's girlfriends, married in the most secure, respectful, and honourable way known to the people, Nyayang Jock, a girl born without a brother, won the race, defeating her top co-girlfriend, Sarah, by being the youngest over Sarah born with brothers. At the least, unlike ninety-nine percent of the girls of her generation and how they were married, it is safe for Nyayang to say she was married for love to Chuol Malual, a businessman who was born into a big, rich family. Nonetheless, unlike the expectation of her in-laws, the unattended attitude of the nature secretly stabbed Nyayang in the back, leaving her to fail and creating the family Chuol and his family fundamentally paid the forty cows for. After waiting for what seemed like a decade for her to get pregnant, she gave birth to a girl, a thing that only fueled the resultant anger. Taking a long time to get pregnant and only giving birth to a girl when she should have birthed a boy called for a quick search for another wife. For Chuol's parents, this was a search for a working womb, but for Chuol it was just a search for wife number two, which he found hard now that he realized most girls showed many of the characteristics Nyayang had shown; however, eventually all displayed some problem. But that all changed

when he accidentally stumbled upon Sarah again, who instantly restored his manhood. Sarah not only filled Chuol's life with the boys he had been looking for, but she had her chance one more time to not only show Nyayang that it is the woman born with brothers who wins, but that the woman who has the ability to birth boys is the ultimate winner. But values-setting, worth-determining, and love are all weaknesses in society. There is only one true winner, and that is the neighbor, the seasonal enemy, the chaff buyer, the Murlen man.

Alienation and Emancipation in the Work of Karl Marx - George C. Comninel 2018-08-18

This book considers Karl Marx's ideas in relation to the social and political context in which he lived and wrote. It emphasizes both the continuity of his commitment to the cause of full human emancipation, and the role of his critique of political economy in conceiving history to be the history of class struggles. The book follows his developing ideas from before he encountered political economy, through the politics of 1848 and the Bonapartist "farce," the maturation of the critique of political economy in the *Grundrisse* and *Capital*, and his engagement with the politics of the First International and the legacy of the Paris Commune. Notwithstanding errors in historical judgment largely reflecting the influence of dominant liberal historiography, Marx laid the foundations for a new social theory premised upon the historical consequences of alienation and the potential for human freedom.

Modern Shunga - Matthew Martin 2015-10-27

In a series of 24 full-color drawings, satirical cartoonist Matthew Martin, captures of the essence of Modern Shunga, and updates it with witty-and often unlikely-cultural and artistic references. Discreetly packaged in a postcard-sized fold-out accordion format, *Modern Shunga* is perfect gift for lovers of, well, high-class dirty pictures. The project began when Martin, a well-known Australian cartoonist and illustrator, was asked by a friend to paint the identifying icons on the mens and ladies room doors in a new, upscale Japanese restaurant out of Sydney. After countless and generally inappropriate attempts, Martin rekindled his great admiration for shunga, and developed the series of drawings in this book. The works

were exhibited at a distinguished Sydney gallery to rave reviews and the development of a cult following.
