My Father Was a Toltec - Ana Castillo
2004-04-13

Mixing the lyrical with the colloquial, the tender with the tough, Ana Castillo has a deserved reputation as one of the country's most powerful

and entrancing novelists, but she began her literary career as a poet of uncompromising commitment and passion. *My Father Was a Toltec* is the sassy and street-wise collection of poems that established and secured Castillo's place in the popular canon. It is included here in its entirety along with the best of her early poems. Ana Castillo's poetry speaks—in English and Spanish—to every reader who has felt the pangs of exile, the uninterrupted joy of love, and the deep despair of love lost.

Blueprint for Black Power - Amos N. Wilson 1998

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the

power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. (Back cover).

The Garden of Eros - Oscar Wilde 2014-12-25
Oscar Fingal O'Flahertie Wills Wilde (16 October 1854 - 30 November 1900) was an Irish writer and poet. After writing in different forms throughout the 1880s, he became one of London's most popular playwrights in the early 1890s. Today he is remembered for his epigrams, his novel *The Picture of Dorian Gray*, his plays, and the circumstances of his imprisonment and early death. Wilde's parents were successful Anglo-Irish Dublin intellectuals. Their son became fluent in French and German early in life. At university, Wilde read Greats; he proved himself to be an outstanding classicist, first at Dublin, then at Oxford. He became known for his involvement in the rising philosophy of aestheticism, led by two of his tutors, Walter Pater and John Ruskin. After

university, Wilde moved to London into fashionable cultural and social circles. As a spokesman for aestheticism, he tried his hand at various literary activities: he published a book of poems, lectured in the United States and Canada on the new "English Renaissance in Art," and then returned to London where he worked prolifically as a journalist. Known for his biting wit, flamboyant dress and glittering conversation, Wilde became one of the best-known personalities of his day. At the turn of the 1890s, he refined his ideas about the supremacy of art in a series of dialogues and essays, and incorporated themes of decadence, duplicity, and beauty into his only novel, *The Picture of Dorian Gray* (1890). The opportunity to construct aesthetic details precisely, and combine them with larger social themes, drew Wilde to write drama. He wrote *Salome* (1891) in French in Paris but it was refused a licence for England due to the absolute prohibition of Biblical subjects on the English stage.

Unperturbed, Wilde produced four society comedies in the early 1890s, which made him one of the most successful playwrights of late Victorian London. At the height of his fame and success, while his masterpiece, *The Importance of Being Earnest* (1895), was still on stage in London, Wilde had the Marquess of Queensberry prosecuted for libel. The Marquess was the father of Wilde's lover, Lord Alfred Douglas. The charge carried a penalty of up to two years in prison. The trial unearthed evidence that caused Wilde to drop his charges and led to his own arrest and trial for gross indecency with other men. After two more trials he was convicted and imprisoned for two years' hard labour. In 1897, in prison, he wrote *De Profundis*, which was published in 1905, a long letter which discusses his spiritual journey through his trials, forming a dark counterpoint to his earlier philosophy of pleasure. Upon his release he left immediately for France, never to return to Ireland or Britain. There he wrote his last work, *The Ballad of*

Reading Gaol (1898), a long poem commemorating the harsh rhythms of prison life. He died destitute in Paris at the age of 46.

Vanguard Corporation, an agricultural company led by a greedy and mercurial CEO, has developed a new line of genetically modified

seed products. Designed to significantly increase crop yields and resist drought, pests, and disease in the hopes of reducing hunger in Third World countries, the seeds should also earn huge profits for the firm. Vanguard's testing in Belarus, Colombia, and India initially goes well, but midway through the crops' development, reports begin to emerge of bizarre insect observations linked to incidents of domestic animal slaughter, and eventually, the death of several people. The high-growth genetic enhancements engineered into the seeds have been transferred into the insects through their ingestion of the test crops. The strains of these super insects are much larger, more aggressive, and increasingly resistant to pesticides and disease than their natural counterparts. As the insects become more plentiful and widespread, Vanguard desperately combats them while dealing with the media, environmentalists, the government, and other distractions. Meanwhile, scientists, entomologists, and field operatives

frantically work together to eradicate the new species and deal with the fallout of mankind's apathy toward environmental meddling.

Nerd Haiku - Robb Pearlman 2012-06-22

Behold, mortals, a celebratory homage to all things nerdy. For years we have longed to escape the confines of our parents' basements, but today we Matrix mavens and Lovecraft lovers have emerged from our AV Squad closets and seized the reins of popular culture. Of course, our chronic asthma and social anxiety still keep us from talking to the girl at GameStop, so we have a way to go. Good thing there's Nerd Haiku, a light-hearted, lightsaber-pointed poke at the absurdities, stereotypes, and truths of nerd culture. These fun, thoughtful, clever poems speak to the core elements of our nerd universe: science fiction, fantasy, comic books, super heroes, big-budget movies, role-playing games, TV series, animation, cosplay, and more, as well as our celebrated (and derided) authors, artists, actors,

and franchises. All of us—from comic book and comedy nerds to computer and design nerds—will appreciate and cherish these gems of poetic wisdom.

2003-05-01

It's tough to be an out-of-work princess. After her royal father decides to retire and become a wood carver, Princess Paulina has no idea what to do with herself. She can't survey the kingdom from her leaky cottage roof, and no one waves back when she proceeds through the town on her father's cart. But it will take all her wit and determination to pass the Queen's tests. . . . and in the end, maybe there are better fates than a royal marriage. Full of tongue-in-cheek references to stories like Rapunzel, Snow White,

and the Princess and the Pea, this fractured fairy tale is an hilarious twist on traditional tales in which a young woman's practicality, good humor, and intelligence let her shape her own happy ending— with extra cheese and all the toppings her heart desires.

Humanity is all but extinguished after a war with Partials—engineered organic beings identical to humans—has decimated the population. Reduced to only tens of thousands by a weaponized virus to which only a fraction of humanity is immune, the survivors in North America have huddled together on Long Island. But sixteen-year-old Kira is determined to find a solution. As she tries desperately to save what is

left of her race, she discovers that that the survival of both humans and Partials rests in her attempts to answer questions about the war's origin that she never knew to ask. Playing on our curiosity of and fascination with the complete collapse of civilization, Partials is, at its heart, a story of survival, one that explores the individual narratives and complex relationships of those left behind, both humans and Partials alike—and of the way in which the concept of what is right and wrong in this world is greatly dependent on one's own point of view. Supports the Common Core State Standards
