Economy, Finance and Business in Southeastern and Central Europe -

Anastasios Karasavoglou 2018-05-02

This volume comprises papers presented at the 8th international conference "The Economies of the Balkan and Eastern European Countries in the Changing World" (EBEEC) held in Split,

Croatia in 2016. The papers cover a wide range of current issues relevant for the whole of Eastern Europe, such as European integration, economic growth, labour markets, education and tourism. Written by experienced researchers in the field of economic challenges for Eastern Europe, the papers not only analyse recent

problems, but also offer policies to resolve them. Furthermore, they offer insights into the theoretical and empirical foundations of the economic processes described. The proceedings of the conference appeals to all those interested in the further economic development of the Balkan and Eastern European countries.

Princes of the Yen - Richard Werner 2015-03-04
This eye-opening book offers a disturbing new look at Japan's post-war economy and the key factors that shaped it. It gives special emphasis

to the 1980s and 1990s when Japan's economy experienced vast swings in activity. According to the author, the most recent upheaval in the Japanese economy is the result of the policies of a central bank less concerned with stimulating the economy than with its own turf battles and its ideological agenda to change Japan's economic structure. The book combines new historical research with an in-depth behind-the-scenes account of the bureaucratic competition between Japan's most important institutions: the Ministry of Finance and the Bank of Japan. Drawing on new economic data and first-hand eyewitness accounts, it reveals little known monetary policy tools at the core of Japan's business cycle, identifies the key figures behind Japan's economy, and discusses their agenda. The book also highlights the implications for the rest of the world, and raises important questions about the concentration of power within central banks.

Bellman & Black - Diane Setterfield 2014-06-10

Killing a bird with his slingshot as a boy, William Bellman grows up a wealthy family man unaware of how his act of childhood cruelty will have terrible consequences until a wrenching tragedy compels him to enter into a macabre bargain with a stranger in black. Reprint.

Blog Theory - Jodi Dean 2013-04-17

Blog Theory offers a critical theory of contemporary media. Furthering her account of communicative capitalism, Jodi Dean explores the ways new media practices like blogging and texting capture their users in intensive networks of enjoyment, production, and surveillance. Her wide-ranging and theoretically rich analysis extends from her personal experiences as a blogger, through media histories, to newly emerging social network platforms and applications. Set against the background of the economic crisis wrought by neoliberalism, the book engages with recent work in contemporary media theory as well as with thinkers such as Giorgio Agamben, Jean Baudrillard, Guy Debord, Jacques Lacan, and Slavoj Žižek. Through these engagements, Dean defends the provocative thesis that reflexivity in complex networks is best understood via the psychoanalytic notion of the drives. She contends, moreover, that reading networks in terms of the drives enables us to

grasp their real, human dimension, that is, the feelings and affects that embed us in the system. In remarkably clear and lucid prose, Dean links seemingly trivial and transitory updates from the new mass culture of the internet to more fundamental changes in subjectivity and politics. Everyday communicative exchangesÑfrom blog posts to text messagesÑhave widespread effects, effects that not only undermine capacities for democracy but also entrap us in circuits of domination.

Toward Our Reformation (Bosnian Language) - Mohammad Omar Farooq
2020-01-01

It is the author’s contention that at the heart of the Muslim predicament lies ignorance and/or lack of commitment to core Islamic values, thus what is advocated throughout this work is a

return to what is termed a “value-oriented” approach. We further learn that with the passage of time what we today consider to be the Shariah is in effect an original hub enveloped in a labyrinthine shroud of scholastic views and deductions hindering Muslim development, and to rely on fraudulent hadith and fallacious implementation of hudud law is not only to betray the spirit of the Qur’an and the Prophet’s message, but a disastrous exercise. Consequences being blatant abuse of the Muslim populace under cover of implementing a bogus Shariah. This abuse and misapplication is explored throughout the work. *Englesko-hrvatski rječnik prava* - Milica Gačić 2004

Debating the End of Yugoslavia - Florian Bieber 2016-05-13

Countries rarely disappear off the map. In the 20th century, only a few countries shared this fate with Yugoslavia. The dissolution of Yugoslavia led to the largest war in Europe since 1945, massive human rights violations and over 100,000 victims. Debating the End of Yugoslavia is less an attempt to re-write the dissolution of Yugoslavia, or to provide a different narrative, than to take stock and reflect on the scholarship to date. New sources and data offer fresh avenues of research avoiding the passion of the

moment that often characterized research published during the wars and provide contemporary perspectives on the dissolution. The book outlines the state of the debate rather than focusing on controversies alone and maps how different scholarly communities have reflected on the dissolution of the country, what arguments remain open in scholarly discourse and highlights new, innovative paths to study the period.
