**Indian Fashion** - Arti Sandhu 2014-12-18

Fashion in India is distinctly unique, in its aesthetics, systems, designers and influences. Indian Fashion is the first study of its kind to examine the social, political, global and local elements that give shape to this multifaceted center. Spanning India's long historical contribution to global fashion to the emergence of today's vibrant local fashion scene, Sandhu provides a comprehensive overview of the Indian fashion world. From elite high-end to street style of the masses, the book explores the complex realities of Indian dress through key issues such as identity, class, youth and media. This ground-breaking book does not simply apply western fashion theory to an Indian context, but allows for a holistic understanding of how fashion is created, worn, displayed and viewed in India.

Accessibly written, Indian Fashion will be a fantastic resource for students of fashion, cultural studies and anthropology.

**The Sari** - Mukulika Banerjee 2008-08-15

Drawing on experiences from villagers in Bengal to scientists in Bangalore, this book explores the beauty, adaptability and personality of India's most iconic garment. Banerjee and Miller show why the sari has survived and indeed flourished as everyday dress when most of the world has adopted western clothing. Their book presents both an intimate portrait of the lives of women in India today and an alternative way for us all to think about our relationship to the clothes we wear. A new bride is unable to move from her husband's motorbike as her sari comes undone. A young man wonders how he will cope with the saris complicated folds in a romantic clinch. A villager's soft, worn sari is her main comfort during a fever. Throughout the book, these and other remarkable stories place the sari at the heart of relationships between mothers and infants, mistresses and maids, designers and soap opera stars. Illustrated and rich in personal testimony, The Sari expertly shows how one of the world's most simply constructed garments can reveal the intricate design of life in modern India.

**A History of the Paper Pattern Industry** - Joy Spanabel Emery 2014-04-24

Sewing patterns have been the principle blueprint for making garments in the home for centuries. From their origins in the tailoring manuals of the 16th century to the widely produced pamphlets of the 18th and 19th centuries, through to the full size packet patterns of today, their history and development has reflected major changes in technology (such as the advent of the sewing machine), retailing and marketing practices (the fashion periodical), and shifts in social and cultural influences. This accessible book explores this history, outlining innovations in patternmaking by the companies who produced patterns and how these reflected the fashions and demands of the market.

Showcasing beautiful illustrations from original pattern pamphlets, packets and ads, as well as 9 complete patterns from which readers can reproduce vintage garments of different eras, the book provides a unique visual guide to homemade fashions as well as essential exploration of the industry that produced them.

**The Grace of Four Moons** - Pravina Shukla 2015-10-16

Because clothing, food, and shelter are basic human needs, they provide excellent entries to cultural values and individual aesthetics. Everyone gets dressed every day, but body art has not received the attention it deserves as the most common and universal of material expressions of culture. The Grace of Four Moons aims to document the clothing decisions made by ordinary people in their everyday lives. Based on fieldwork conducted primarily in the city of Banaras, India, Pravina Shukla conceptualizes and realizes a total model for the study of body art—understood as all aesthetic modifications and supplementations to the body. Shukla urges the study of the entire process of body art, from the assembly of raw materials and the manufacture of objects, through their sale and the interactions between merchants and consumers, to the consumer's use of objects in creating personal decoration.
