**The Real Truth Unraveled About Sedition and Free Speech in India** - Abhishek Sharma Padmanabhan B.A. LL.B, LL.M. Assistant Professor of Law 2022-01-01

The expression Sedition generally means of defamation of the State but the legal meaning of Sedition is different. Sedition is crime against the State and includes the misdemeanour of publishing verbally or otherwise any words or documents with the intention of exciting disaffection, hatred or contempt, against the Sovereign or the Government and Constitution of the Kingdom or either house of Parliament and the Administration of Justice. The gist of the offence of Sedition is incitement to violence, mere abusive words are not enough. The acts or words complained of must incite public disorder or must cause reasonable anticipation or likelihood of public disorder in order to constitute disaffection. The intention of the speaker writer or publisher may be inferred from the particular speech, Article or letter. The requisite intention cannot be attributed if the person was not aware of the contents of the seditious publication. Feeling of hatred, contempt or

disaffection would be excited towards the Government.

**Death Penalty: A Punishment or Problem** - Dr Ashutosh Mishra  
2021-07-05

The death penalty, otherwise called capital punishment, is an administration authorised practice whereby the State executes an individual as a punishment for a crime. The sentence requesting that somebody is penalised in such a way is alluded to as a death sentence, though the demonstration of such a sentence is known as an execution. A prisoner who has been sentenced to death and is anticipating execution is alluded to as condemned, and is said in certain nations to be on "death row". Violations that are deserving of death are known as capital crimes, capital offences or capital felonies, and changes according to jurisdiction, yet in most of the circumstances involve heinous attacks, for example, murder, mass homicide, aggravated cases of rape, child assault, child sexual abuse, terrorism, treason, espionage, sedition, offences against the State, for example, endeavouring to overthrow the government, airplane hijacking, drug dealing, and drug possession, violations against humanity and slaughter, and sometimes, the cruelest act of recidivism and exasperated robbery. Deterrence is presumably the most generally communicated reason for the death penalty. The pith of the theory is that the danger of being executed later on will be adequate to make a critical number of individuals avoid from committing an appalling crime they had in any case planned. Deterrence isn't mainly worried about the

anticipation of further killing by a previously convicted death penalty defendant. That falls under the subject of incapacitation. Retentionists of Capital Punishment believe that capital punishment is essential to preserve stability in the world because it serves as a deterrent to potential offenders. In the beginning, public opinion was still in favour of capital punishment rather than life imprisonment. The objective of this research article is to find out whether death penalty is a problem or a punishment for society.

**Comparative and Global Environmental Law and Policy** - Tseming Yang 2019-09-13

Written by leading scholars and experts with extensive practice and teaching experience in the field, *Comparative and Global Environmental Law and Policy* offers a student-friendly approach to the study of a rapidly evolving and important area of law. Its multi-jurisdictional selection of judicial opinions and legal materials introduces students to the worldwide reach of environmental law. Through its substance, the book familiarizes students not only with governing and emerging legal principles but also demonstrates how legal norms are applied to specific issues and contexts, illustrating how law-on-the-books becomes law-in-action. Student understanding is reinforced by problem exercises and discussion questions. Professors and students will benefit from: A multi-jurisdictional selection of environmental law cases and regulatory materials from across the world, with many cases from the developing world and emerging economies. Separate chapters on rapidly evolving and critical topics such as rights of nature, sustainability, corporations and private environmental governance, human rights and the environment, and climate change. Presentation of basic background principles of environmental law, institutions, and governance and their operation in international, national and subnational systems, including indigenous governance systems. Emphasis across the book on issues of institutions and governance as well as enforcement and effectiveness. Judicial opinions providing an authoritative articulation of how legal

principles are applied in various systems. Numerous problem exercises and discussion questions to introduce topics and reinforce concepts and materials. Integrated perspective on the relationship of international and transnational environmental law, national environmental law, environmental norms and principles in other settings such as in private environmental governance, and governance institutions.

**The Politics of Personal Law in South Asia** - Partha S. Ghosh  
2018-05-11

The viability of the Uniform Civil Code (UCC) has always been a bone of contention in socially and politically plural South Asia. It is entangled within the polemics of identity politics, minority rights, women's rights, national integration, uniform citizenry and, of late, global Islamic politics and universal human rights. While champions of each category view the issue from their own perspectives, making the debate extremely complex, this book takes up the challenge of providing a holistic political analysis. As most of the South Asian states today subscribe to a decentralised view and share a common history, this study is an excellent comparative analysis of the applicability of the UCC. In this work, India figures prominently, being the most plural and vibrant democracy, as well as accounting for almost three-fourths of the region's population. This provides the backdrop for an analysis of the other states in the region. This second edition will be indispensable for scholars, researchers and students of law, political science and South Asian Studies.

**Industrial Relations and Labour Laws, 6th Edition** - S.C. Srivastava  
2012

The sixth revised edition of *Industrial Relations and Labour Laws* captures the significant developments that have taken place in the realm

of labour laws and industrial relations in the recent past. The most notable development in the legislative sphere is the amendment in the Industrial Disputes Act, 1947 in 2010. In the judicial sphere, there has been a marked shift in the approach of the Indian judiciary in the area of discipline and disciplinary procedure. Moreover, new norms/principles have been evolved to determine the classification of a person as a workman, provide relief in case of illegal/wrongful termination of service of workmen, determine notice period for strike/lock-out in public utility services and for regularization of services of daily, temporary, casual or contract workers. Extensively revised and updated in line with the changes in the law, this edition also gives a new and more holistic dimension to the subject of labour-management relations. □ Part I provides the contextual and constitutional framework of labour law and an overview of industrial relations. □ Part II deals with the trade union movement, employers' organizations and laws relating to trade unions, collective bargaining, unfair labour practices and victimization. □ Part III deals with regulation of industrial disputes, persuasive, coercive and voluntary processes for settlement of industrial disputes, grievance procedure, government's power of reference, laws relating to instruments of economic coercion, management of discipline, laws relating to change in conditions of service and lay-off, retrenchment, transfer and closure. □ Part IV examines laws relating to standing orders. □ Part V is on workers' participation in management. This edition will serve as a comprehensive textbook for students of LLB, LLM, MBA, MSW, MPA, CS, and masters and diploma programmes in personnel management, industrial relations and labour law. It is indispensable for personnel managers, law officers, lawyers, trade union officials/members, officials of labour department and members of the labour judiciary.

*Simulation Modeling and Analysis* - Averill M. Law 2007

Since the publication of the first edition in 1982, the goal of Simulation Modeling and Analysis has always been to provide a comprehensive, state-of-the-art, and technically correct treatment of all important aspects of a simulation study. The book strives to make this material understandable by the use of intuition and numerous figures, examples, and problems. It is equally well suited for use in university courses, simulation practice, and self study. The book is widely regarded as the "bible" of simulation and now has more than 100,000 copies in print. The book can serve as the primary text for a variety of courses; for example: \*A first course in simulation at the junior, senior, or beginning-graduate-student level in engineering, manufacturing, business, or computer science (Chaps. 1 through 4, and parts of Chaps. 5 through 9). At the end of such a course, the students will be prepared to carry out complete and effective simulation studies, and to take advanced simulation courses. \*A second course in simulation for graduate students in any of the above disciplines (most of Chaps. 5 through 12). After completing this course, the student should be familiar with the more advanced methodological issues involved in a simulation study, and should be prepared to understand and conduct simulation research. \*An introduction to simulation as part of a general course in operations research or management science (part of Chaps. 1, 3, 5, 6, and 9).

*Contemporary Issues in International Law* - B.C. Nirmal 2018-02-13  
This book explores the changing nature of international law and its ability to respond to the contemporary issues related to international environment, trade and information technology. The evolution of international law has reached a stage where we are witnessing diminishing power of the state and its capacity to deal with the economic

matters challenging the existing notions of territory and sovereignty. Recent trends in international law and international relations show that states no longer have exclusive control over the decision-making process at the global level. Keeping this in mind, the book brings together the perspectives of various international and national scholars. The book considers diverse issues such as, sustainable development, climate change, global warming, Rio+20, technology transfer, agro-biodiversity and genetic resource, authority for protection of environment, human right to water, globalization, human rights, sui generis options in IP laws, impact of liberalization on higher education, regulation of international trade, intellectual property rights, collective administration of copyright, broadcast reproduction rights, implementation of copyright law, communication rights under copyright law, arbitration for IP disputes, doctrine of exhaustion of rights, trans-border reputation of trademark, information as an asset, cyber obscenity and pornography, e-governance, taxation of e-commerce, computer crime, information technology, domain names, research excellence in legal education, ideological perspective on legal education, challenges for law teachers, and clinical legal education. The topics, though diverse, are closely interrelated, with the common concern throughout being that the global environment, international trade, information technology and legal education need appropriate national normative and institutional responses as well as the global cooperation of members of the international community. Presenting reflections of a number of Asian, African and European scholars on these varied facets, the book is of great value to scholars, practitioners, teachers and students associated with contemporary international law.
