The Death and Life of the Great American School System - Diane Ravitch 2010-03-02

Discusses how school choice, misapplied standards of accountability, the No Child Left Behind mandate, and the use of a corporate model have all led to a decline in public education and presents arguments for a return to strong neighborhood schools and quality teaching.

Expelling Hope - Christopher G. Robbins 2008-07-15

Demonstrates the many devastating and interrelated threats that punitive policies like “zero tolerance” pose to youth, schooling, and democracy.

Understanding Neoliberal Rule in K-12 Schools - Mark Abendroth 2015-06-01

The word fundamentalism usually conjures up images of religions and their most zealous followers. Much less often the word appears in connection with political economy. The phrase “free market” gives the connotation that capitalism is freedom. Neoliberalism is the rise of global free-market fundamentalism. It reaches into nearly every aspect of our

daily lives as it seeks to dominate and eliminate the last vestiges of public domains through wanton privatization and deregulation. It degrades all that is public. The good news is that a global community of resistance continues to struggle against neoliberal oppression. Formal and informal education entities contribute to these struggles, offering visions and strategies for creating a better future. The purpose of this volume is twofold. Several contributors will highlight how the neoliberal agenda is impacting educational policy formation, teaching and learning, and relationships between K-12 schools and communities. Other contributors will highlight how the global community has gradually become conscious of the ideological doctrine and how it is responsible for human suffering and misery. The volume is needed because the growing body of educational research linked to exploring the impact of neoliberalism on schools and society fails to provide conceptual or historical understanding of this ideology. It is also an important scholarly intervention because it provides insights as to why educators, scholars, and other global citizens have challenged the intrusion of market forces over life inside K-12 schools. Teacher educators, schoolteachers, and anyone who yearns to understand what is behind the debilitating trend of commercial forces subverting humanizing educational projects would benefit from this volume. Activists, educators, youth, and scholars who seek strategies and visions for building democratic schools and a society

would consider this volume essential reading.

Market Education - Andrew Coulson 2017-09-08

Discontent with public education has been on the rise in recent years, as parents complain that their children are not being taught the basics, that they are not pushed to excel, and that their classrooms are too chaotic to encourage any real learning. The public has begun to reject school bond levies with regularity, frustrated by what it perceives to be mounting education costs unaccompanied by increased achievement or accountability. Coulson explores the educational problems facing parents and shows how these problems can best be addressed. He begins with a discussion of what people want from their school systems, tracing their views of the kinds of knowledge, skills, and values education should impart, and their concerns over discipline, drugs, and violence in public schools. Using this survey of goals and attitudes as a guide, Coulson sets out to compare the school systems of civilizations both ancient and modern, seeking to determine which systems successfully educated generations past and which did not. His historical study ranges from classical Greece and ancient Rome, through the Islamic world of the Middle Ages, to nineteenth-century England and modern America. Drawing on the historical evidence of how these various systems operated, Coulson concludes that free educational markets have consistently done a better job of serving the public's needs than state-run school systems have. He sets out a blueprint for competitive, free-market educational reform that would make schools more flexible, more innovative, and more responsive to the needs of parents and students. He describes how education for low-income children might be funded under a market system, and how the transition from monopolistic public education to market education might be achieved. Coulson's *Market Education* touches on a wide range of issues, including declines in academic achievement, minority education, the role of public school teachers, and mismanagement and corruption in educational bureaucracies. Coulson examines alternative reform proposals from vouchers and charter schools to national standards for school curricula. This timely and engaging book will appeal to parents, educators, and

others concerned with the quality and cost of schooling, and will serve as an excellent resource in college courses on the economics and history of education.

Drugs and Drug Policy - Clayton J. Mosher 2020-11-10

Engaging and thoroughly updated, this text provides a global perspective on the use and regulation of legal and illegal drugs. It examines drug policies in terms of their scope, goals, and effectiveness, as well as the effects of drugs, the patterns and correlates of use, and theories of the causes of drug use.

School Discipline and Safety - Suzanne E. Eckes 2012-08-14

Education of America's school children always has been and always will be a hot-button issue. From what should be taught to how to pay for education to how to keep kids safe in schools, impassioned debates emerge and mushroom, both within the scholarly community and among the general public. This volume in the point/counterpoint *Debating Issues in American Education* reference series tackles the topic of school discipline and safety. Fifteen to twenty chapters explore such varied issues as child abuse reporting, corporal punishment, student uniforms, zero tolerance policies, and more. Each chapter opens with an introductory essay by the volume editor, followed by point/counterpoint articles written and signed by invited experts, and concludes with Further Readings and Resources, thus providing readers with views on multiple sides of school discipline and safety issues and pointing them toward more in-depth resources for further exploration.

School Governance - Richard C. Hunter 2012-09-06

This volume in the point/counterpoint Debating Issues in American Education reference series tackles the topic of school governance, providing readers with views on multiple sides of governance issues and pointing them toward more in-depth resources for further exploration.

Who's in Charge Here? - Noel Epstein 2004

Few Americans are aware that their nation long ago created a separate government for education, supposedly to shield it from political interference. Some experts believe that at the heart of today's school debates is a push to put the larger government-- presidents, governors, mayors-- in the drivers seat, or even to dump democratic school governance entirely. The results are mixed. One clear result, however, is a vexing tangle of authority and accountability. "Whos in Charge Here?" untangles it all.

Rape Investigation Handbook - John O. Savino 2011-08-23

Rape Investigation Handbook details specific investigative and forensic processes related to sex crimes casework invaluable to those in law enforcement, the legal community, and the private sector. It takes the reader through these processes in a logical sequence, showing how investigations of rape and sexual assault can and should be conducted from start to finish. The second edition is reorganized to flow from the alleged assault to a courtroom trial. Section heads have been introduced and it includes six new chapters on sex crimes, sex trafficking, forensic victimology, eyewitness reports, rape trauma syndrome and rapist motivations. The remaining 12 chapters are entirely overhauled and in some cases completely rewritten by new, highly qualified contributors, such as "Sexual Assault Examination and Reconstruction" by Brent E. Turvey and Charla Jamerson and "Rapist Motivations" by Brent E. Turvey and Jodi Freeman. An additional appendix was added to provide current case studies. Includes six new chapters on sex crimes, sex trafficking, forensic victimology, eyewitness reports, rape trauma syndrome and rapist motivations Written in a clear, practical style, ideal for sex crime investigators including: professionals in forensic nursing, forensic laboratories, law enforcement and the legal community Authored by qualified investigators and forensic professionals with over 30 years of collective experience working cases, preparing them for court and offering testimony

Chief - Daryl F. Gates 1992

The author recounts his forty-three-year career in the L.A.P.D. and discusses the Watts riots, the Hillside Strangler, Patty Hearst, and the Rodney King case

Student Discipline Strategies - Oliver C. Moles 1990-08-27

Almost a third of public school teachers have considered leaving teaching because of student misbehavior. When asked what were the greatest problems facing their local schools, respondents to Gallup polls have cited discipline first almost every year back to the early 1970s. Discipline problems may range from crimes in schools, such as robbery and drug dealing committed by students or intruders, to lack of respectful behavior toward teachers and classmates, and the spectrum from crimes to disrespect is discussed in the chapters of this ground-

breaking volume. This collection by leading scholars should be useful to social scientists, educational researchers, educators, and school administrators—all those who need to understand how specific and manipulable features of schools, classrooms, and their surrounding environments affect the course of student behavior and prospects for sustained improvement in the discipline climate in schools. The information in these chapters provides many practical ideas, as well as some cautions, for trying new approaches to make schools more orderly learning environments for all students.

The Dream Endures - Kevin Starr 2002-11-28

What we now call "the good life" first appeared in California during the 1930s. Motels, home trailers, drive-ins, barbecues, beach life and surfing, sports from polo and tennis and golf to mountain climbing and skiing, "sportswear" (a word coined at the time), and sun suits were all a part of the good life--perhaps California's most distinctive influence of the 1930s. In *The Dream Endures*, Kevin Starr shows how the good life prospered in California--in pursuits such as film, fiction, leisure, and architecture--and helped to define American culture and society then and for years to come. Starr previously chronicled how Californians absorbed the thousand natural shocks of the Great Depression--unemployment, strikes, Communist agitation, reactionary conspiracies--in *Endangered*

Dreams, the fourth volume of his classic history of California. In *The Dream Endures*, Starr reveals the other side of the picture, examining the newly important places where the good life flourished, like Los Angeles (where Hollywood lived), Palm Springs (where Hollywood vacationed), San Diego (where the Navy went), the California Institute of Technology in Pasadena (where Einstein went and changed his view of the universe), and college towns like Berkeley. We read about the rich urban life of San Francisco and Los Angeles, and in newly important communities like Carmel and San Simeon, the home of William Randolph Hearst, where, each Thursday afternoon, automobiles packed with Hollywood celebrities would arrive from Southern California for the long weekend at Hearst Castle. The 1930s were the heyday of the Hollywood studios, and Starr brilliantly captures Hollywood films and the society that surrounded the studios. Starr offers an astute discussion of the European refugees who arrived in Hollywood during the period: prominent European film actors and artists and the creative refugees who were drawn to Hollywood and Southern California in these years--Igor Stravinsky, Arnold Schoenberg, Man Ray, Bertolt Brecht, Christopher Isherwood, Aldous Huxley, Thomas Mann, and Franz Werfel. Starr gives a fascinating account of how many of them attempted to recreate their European world in California and how others, like Samuel Goldwyn, provided stories and dreams for their adopted nation. Starr reserves his greatest attention and most memorable writing for San Francisco. For Starr, despite the city's beauty and commercial importance, San Francisco's most important achievement was the sense of well-being it conferred on its citizens. It was a city that "magically belonged to everyone." Whether discussing photographers like Edward Weston and Ansel Adams, "hard-boiled fiction" writers, or the new breed of female star--Marlene Dietrich, Jean Harlow, Bette Davis, Carole Lombard, and the improbable Mae West--*The Dream Endures* is a brilliant social and cultural history--in many ways the most far-reaching and important of Starr's California books.

Policing Los Angeles - Max Felker-Kantor 2018-09-25

When the Los Angeles neighborhood of Watts erupted in violent protest in August 1965, the uprising drew strength from decades of pent-up frustration with employment discrimination, residential segregation, and poverty. But the more immediate grievance was anger at the racist and abusive practices of the Los Angeles Police Department. Yet in the decades after Watts, the LAPD resisted all but the most limited demands for reform made by activists and residents of color, instead intensifying its power. In *Policing Los Angeles*, Max Felker-Kantor narrates the dynamic history of policing, anti-police abuse movements, race, and politics in Los Angeles from the 1965 Watts uprising to the 1992 Los Angeles rebellion. Using the explosions of two large-scale uprisings in Los Angeles as bookends, Felker-Kantor highlights the racism at the heart of the city's expansive police power through a range of previously unused and rare archival sources. His book is a gripping and timely account of the transformation in police power, the convergence of interests in support of law and order policies, and African American and Mexican American resistance to police violence after the Watts uprising.
