

La Bibliometria

Getting the books **La Bibliometria** now is not type of inspiring means. You could not unaided going past books collection or library or borrowing from your connections to entrance them. This is an very easy means to specifically acquire lead by on-line. This online notice La Bibliometria can be one of the options to accompany you once having additional time.

It will not waste your time. admit me, the e-book will categorically spread you new business to read. Just invest tiny grow old to contact this on-line broadcast **La Bibliometria** as without difficulty as evaluation them wherever you are now.

Contribución al estudio de algunos elementos de la bibliometría - María Josefa Curiel Carías 1999

Advances in Human Factors in Training, Education, and Learning Sciences - Salman Nazir 2020-06-30

This book addresses the importance of human factors in optimizing the learning and training process. It reports on the latest research and best practices, and discusses key principles of behavioral and cognitive science, which are

extremely relevant to the design of instructional content and new technologies to support mobile and multimedia learning, virtual training and web-based learning, among others, as well as performance measurements, social and adaptive learning and many other types of educational technology, with a special emphasis on those important in the corporate, higher education, healthcare and military training contexts. Gathering contributions to the AHFE 2020 Virtual Conference

on Human Factors in Training, Education, and Learning Sciences, held on July 16-20, 2020, the book offers a timely perspective on the role of human factors in education. It highlights important new approaches and ideas, and fosters new discussions on how to optimally design learning experiences.

Entrepreneurship and Structural Change in Dynamic Territories - Luísa Cagica Carvalho 2018-05-03

Entrepreneurial ecosystems involve a complex synergy of factors, including social and structural changes that are frequently cumulative within territories, promoting the improvement of citizens' quality of life and higher development levels. Further, dynamic territories are characterized by constant change, activity and progress. Each chapter in this volume examines a specific entrepreneurial ecosystem in an effort to describe why and how certain companies and organizations manage to overcome adversities and

achieve strong performance, while others fail. Unlike the conventional focus, the volume examines microenterprises and Small and Medium Enterprises (SMEs), while also discussing selected experiences and case studies from developed and developing countries alike.

Análisis Bibliométrico del Trabajo Social Internacional Basado en Mapas de Ciencia - M^á

Angeles Martínez S^ánchez 2015-10-29

El presente libro muestra un análisis de la investigación desarrollada a nivel internacional de acuerdo al Web of Science.

El tratado de documentación - Paul Otlet 2008-01-18

Esta obra esencial representa la fundamentación de la Ciencia de la Documentación. En ella Paul Otlet le da objetivos, finalidad y método científico a la nueva ciencia, creando una rica y abundante terminología específica que indica el significado que Otlet daba a cada concepto/término. El autor relaciona la Documentación con otras

ciencias, humanas, sociales, estadísticas, etc. siguiendo la tradición bibliográfica clásica de la época, concibe su Tratado como una gran enciclopedia del libro, de la bibliología de la documentación donde reúne los trabajos esenciales de toda una vida y expone las conceptualizaciones teóricas más significativas del conjunto de sus escritos. El Tratado de Documentación supone además una apuesta por la internacionalización de la información y del trabajo intelectual, tendencias tan en boga en este actual mundo global.

Advanced Intelligent Technologies for Industry - Kazumi Nakamatsu

The book includes new research results of scholars from the Second International Conference on Advanced Intelligent Technologies (ICAIT 2021) subtitled Intelligent Technology and Industry organized by IRNet International Academic Communication Center, held during October 15-17, 2021. The book covers research work

from active researchers who are working on collaboration of industry and various intelligent technologies such as intelligent technologies applicable/applied to manufacturing and distribution of industrial products, factory automation, business, etc. The book focuses on theory, design, development, testing, and evaluation of all intelligent technologies applicable/applied to various parts of industry and its infrastructure. The topics included are all computational intelligence techniques applicable/applied to industry, intelligent techniques in data science applicable/applied to business and management, intelligent network systems applicable/applied to industrial production, intelligent technologies applicable to smart agriculture, and intelligent information systems for agriculture.

Anuario ThinkEPI 2015 -

Tomàs Baiget (dir.) 2015-07-10

El Anuario ThinkEPI es el resultado de las reflexiones de los miembros del Grupo de Análisis sobre Estrategia y Prospectiva de la Información (ThinkEPI), fundado en mayo de 2005 por profesionales y académicos de la biblioteconomía, la documentación y la comunicación. En esta obra se recogen, revisadas y aumentadas, las notas publicadas por el Grupo en 2014, a través de distintos canales de difusión, principalmente la lista de discusión IweTel. La finalidad de estos escritos es contribuir al desarrollo de la profesión y la investigación en biblioteconomía, documentación, comunicación, ciencias e industrias de la información; plantear temas de debate y compartir puntos de vista; en definitiva, mostrar el presente y avanzar el futuro de estas disciplinas. Se incluye también una serie de reseñas

de informes anuales, españoles e internacionales realizados a lo largo del año por los miembros del Blok de BiD.

e-Research y español LE/L2 -

Mar Cruz Piñol 2021-05-03

e-Research y español LE/L2:

Investigar en la era digital es el primer volumen que aborda de manera conjunta las aportaciones al español LE/L2 de la lingüística de corpus, la biblioteconomía y la edición digital. Es excelente para mejorar las técnicas de investigación a la vez que se toma conciencia sobre el uso de las tecnologías en los estudios sobre el español LE/L2. Características principales: visión interdisciplinar e internacional a partir del trabajo de expertos que ejercen su actividad docente, investigadora y profesional en diferentes ámbitos y en distintos países; planteamiento teórico-práctico mediante la exposición de una reflexión teórica y la descripción de casos prácticos; sólido marco teórico que se presenta en los dos primeros capítulos; estructura

homogénea dividida en útiles apartados (necesidades, cómo ayudan las tecnologías y casos concretos) para que el lector pueda localizar los contenidos con facilidad; lectura del volumen que puede ser lineal (capítulo tras capítulo) o transversal (por ejemplo, los casos prácticos que se presentan en cada capítulo); materiales complementarios en línea, como, por ejemplo, glosario hipertextual y enlaces a los corpus y programas mencionados en los capítulos. Escrito en español, de manera clara y accesible, y con abundantes ejemplos e ilustraciones, e-Research y español LE/L2: Investigar en la era digital es ideal para todas aquellas personas vinculadas con la investigación en torno al español LE/L2: estudiantes de máster y doctorado, directores de tesis (PhD o máster) y profesores. e-Research y español LE/L2: Investigar en la era digital is the first volume that jointly addresses the contributions of corpus linguistics, librarianship and digital publishing to Spanish as

a second or foreign language (LE/L2). It is excellent for improving research techniques while raising awareness about the use of technologies in studies of Spanish LE/L2. Main features: interdisciplinary and international vision based on the work of experts who carry out their teaching, research and professional activities in different fields and in different countries; theoretical-practical approach through the presentation of a theoretical reflection and the description of practical cases; solid theoretical framework which is presented in the first two chapters; each chapter is divided into three useful sections (needs, how technologies help, and specific cases) so that the reader can easily locate the contents; reading can be linear (chapter by chapter) or transversal (for example, the practical cases presented in each chapter); supplementary online materials include a hypertext glossary and links to the corpus and programs mentioned in the chapters. Written in Spanish, in

Futuristic Trends for Sustainable Development and Sustainable Ecosystems

- Ortiz-Rodriguez, Fernando
2022-06-24

A key focus in recent years has been on sustainable development and promoting environmentally conscious practices. In today's rapidly evolving technological world, it is important to consider how technology can be applied to solve problems across disciplines and fields in these areas. Further study is needed in order to understand how technology can be applied to sustainability and the best practices, considerations, and challenges that follow.

Futuristic Trends for Sustainable Development and

Sustainable Ecosystems discusses recent advances and innovative research in the area of information and communication technology for sustainable development and covers practices in several artificial intelligence fields such as knowledge representation and reasoning, natural language processing, machine learning, and the semantic web. Covering topics such as blockchain, deep learning, and renewable energy, this reference work is ideal for computer scientists, industry professionals, researchers, academicians, scholars, instructors, and students.

Engineering Digital Transformation - Ángel Ortiz
2018-09-18

This book outlining the latest developments in engineering digital transformation gathers a selection of the best papers presented at the 11th International Conference on Industrial Engineering and Industrial Management (CIO 2017), held in Valencia, Spain, from July 5th to 6th, 2017. The

papers discuss topics in the following areas: strategy and entrepreneurship, OR, modelling and simulation, production, logistics and supply chain management, information systems, quality and product management, knowledge and project management, service systems, and education.

SEO - Jorge Serrano-Cobos
2016-06-30

El reto de ser encontrados por los buscadores como Google puede ser pequeño o grande, pero todo profesional de la web hoy día necesita entender de optimización y posicionamiento en buscadores, y conocer unas técnicas mínimas para desarrollar una estrategia estable a largo plazo, solo o coordinado con otros profesionales. Este libro trata de poner a un gestor de contenidos en el buen camino para iniciarse en el arte y la ciencia del SEO, no importa el presupuesto, sin miedo a los cambios del buscador. Hay muchos factores en el SEO, pero la combinación correcta la pondrá el lector.

Gender Inequality in Latin America - 2020-11-30

In *Gender Inequality in Latin America: The Case of Ecuador* Pablo Quiñonez and Claudia Maldonado-Eraza bring together a collection of articles that critically examine the origins and social and economic implications of gender inequality in Latin America, focusing on Ecuador. *Cumulated Index Medicus* - 1992

Evaluating and financing university research - Silvia Zanazzi 2014-09-01

Il lavoro di ricerca ha come oggetto di studio la valutazione della ricerca universitaria, in un momento in cui il tema della distribuzione delle risorse pubbliche in base a criteri di efficienza e merito è al centro del dibattito politico ed economico. Vengono esaminate e messe a confronto cinque realtà universitarie di paesi europei, al tempo stesso si cerca di evidenziare, attraverso un'indagine campionaria, la percezione dei sistemi di valutazione da parte di

Downloaded from
latitudenews.com on by
guest

ricercatori degli stessi paesi. Lo studio si propone di verificare l'ipotesi che un sistema rigoroso di valutazione della ricerca sia condizione necessaria, ma non sufficiente per produrre un innalzamento qualitativo della ricerca universitaria. Nel nostro paese è imprescindibile un intervento in termini di politiche pubbliche, che valorizzi la ricerca a partire da un più adeguato investimento economico. - The research project focuses on the evaluation of university research, at a moment when a central issue in the political and economic debate is the distribution of public resources based on criteria of efficiency and merit. Five universities in European countries are analyzed and compared, and the perceptions held by the researchers in those countries about evaluation systems are assessed through a survey. The study aims to demonstrate that a rigorous system of research evaluation is a necessary, though insufficient, condition to create an increase in the

quality of university research. In our country, what is needed is the enactment of public policies supporting research, beginning with a more adequate economic investment. *Revista de educación no 297. Razón práctica y educación - Ministerio de Educación*

Enhancement of Public Real-estate Assets and Cultural Heritage - Lucia Della Spina
2021-01-21

The management of cultural heritage and public real-estate assets is one of the most crucial challenges concerning the sustainable use of these resources, involving dynamic methods to stimulate preservation, development, renewal, and transmission to future generations of these essential assets. The contributions presented in this book provide a rich and varied panorama of research experiences and innovative tools, capable of promoting the re-use of cultural heritage in European cities and cultural landscapes, using a circular economy logic as a model of

*Downloaded from
latitudenews.com on by

sustainable development. From this point of view, cultural capital becomes the driver of a regeneration process on the local, urban, and metropolitan scales, in which the transversal interconnections between the production cycles of the adaptive re-use of the available heritage, both in the adaptation and in the management phase, configure a circular process of multidimensional production of value. Therefore, future territorial redevelopment projects can base their idea strength on an open system of appropriately selected social attractors, whose enhancement and use have the objective of triggering widespread regeneration effects on the whole territory of influence, receiving inducement and resources to progress.

Documentacion Cientifica - 2009

The Routledge Companion to Family Business - Franz W. Kellermanns 2016-09-13
The Routledge Companion to Family Business offers a definitive survey of a field that

has seen rapid growth in research in recent years. Edited by leading scholars with contributions from the top minds in family business from around the world, this volume provides researchers and scholars with a comprehensive understanding of the state of the discipline. Over 25 chapters address a wide variety of subjects, providing readers with a thorough review of the key research themes in the modern family firm, such as corporate social responsibility and bank debt rationing. International examples cover a wide range of economies including China, Europe, and Latin America. The book will appeal to undergraduates, postgraduates and business instructors seeking a definitive view of the issues and solutions that affect and support family business.

Sciences and Humanities. It is based on recent experiences carried out in Italy (2011-2015) in the fields of research assessment, peer review, journal classification, and construction of indicators, and presents a systematic review of theoretical issues influencing the evaluation of Social Sciences and Humanities. Several chapters analyse original data made available through research assessment exercises. Other chapters are the result of dedicated and independent research carried out in 2014-2015 aimed at addressing some of the debated and open issues, for example in the evaluation of books, the use of Library Catalog Analysis or Google Scholar, the definition of research quality criteria on internationalization, as well as opening the way to innovative indicators. The book is therefore a timely and important contribution to the international debate.

Open Source Innovation -
Cornelius Herstatt 2015-02-11
Open Source Innovation (OSI)

has gained considerable momentum within the last years. Academic and management practice interest grows as more and more end-users consider and even participate in Open Source product development like Linux, Android, or Wikipedia. *Open Source Innovation: Phenomenon, Participant Behaviour, Impact* brings together rigorous academic research and business importance in scrutinizing OCI from three perspectives: The Phenomenon, Participants' Behavior, and Business Implications. The first section introduces OCI artefacts, including who is participating and why, and provides a systematic overview of the literature. The second section stresses the behaviour of participants, highlighting participation progression, community selection, user entrepreneurship and fair behaviour, and answering key questions like how to manage governance rules, openness and community design aspects. The third explores the impact

Downloaded from
latitudenews.com on by
guest

and implications of OSI for firms and economies by evaluating business models, uncovering opportunities for firms to interact with communities, and presenting value capture mechanisms. Open Source Innovation provides a full picture of the movement to help readers understand and engage with OSI from the micro perspective of individuals, to the community, to the macro perspective of firms and economies.

Soft Computing and Fuzzy Methodologies in Innovation Management and Sustainability - Ernesto León-Castro

This book provides recent research on soft computing and fuzzy methodologies in innovation management and sustainability. The uncertainty in the business world is increasing. Significant changes are generated unexpectedly, so using fuzzy logic and soft computing methods allows us

to create flexible scenarios adaptable to new realities. Within the book, we will find different applications of fuzzy methodologies that can apply to various topics such as sustainability, innovation, tourism, costs, exports, systems administration, among others. The book's main contribution is the applicability of the various methodologies to specific cases, which allows generating a relationship between theory and practice. In addition, it has some bibliometric studies on various topics that give us a visualization of what has happened and where multiple topics are headed. This book is recommended mainly for students who wish to know how the various fuzzy and soft computing tools can be taken to real situations, allowing a better understanding of these and generating new visions of future applicability.

Handbook of Research on Strategic Retailing of Private Label Products in a Recovering Economy -
Gómez-Suárez, Mónica

Downloaded from
latitudenews.com on by
guest

2016-06-20

As the global market continues to recuperate from economic downfall, it is essential for private label products to find ways to compete with alternatives offered by wholesale and national retailers. In many cases, it becomes difficult for off-brand products to generate market appeal when consumers have preconceived notions about the quality of generic products and loyalty to branded products. The Handbook of Research on Strategic Retailing of Private Label Products in a Recovering Economy emphasizes advertising and promotional approaches being utilized, as well as consumer behavior and satisfaction in response to marketing strategies and the sensitive pricing techniques being implemented to endorse generic and store-brand products available on the market. Highlighting brand competition between wholesalers, retailers, and private brand names following a global economic crisis, this publication is an extensive

resource for researchers, graduate-students, economists, and business professionals.

Enlarging one's vision - S.

Polenghi 2015-05-22

Il processo di internazionalizzazione della ricerca negli ultimi anni ha subito una rapida accelerazione ed ha comportato una serie di innovazioni. Il volume fornisce una serie di indicazioni e strumenti, per facilitare l'acquisizione di una certa dimestichezza con tali processi: come partecipare a congressi rispondendo a call for paper, come pubblicare su riviste straniere, come trascorrere un periodo di studio all'estero e via dicendo. Il libro raccoglie 15 saggi brevi, chiari, concreti e critici al contempo, opera di studiosi già noti e altri più giovani, tutti esperti dell'argomento (G.Bandini, A.Barausse, P.Bianchini, M.Brunelli A.Cagnolati, L.Cappelli, D.Caroli, D.De Salvo, A.Debè, J.L.Hernández Huerta, F.Loparco, J.Meda, E.Patrizi. BIBLIOMETRÍA - Gregorio González Alcaide 2016-11-24
La Bibliometría se ha configurado a lo largo del siglo XX como una disciplina métrico-cuantitativa que permite a partir del análisis estadístico de las publicaciones científicas, la descripción y evaluación de la actividad investigadora. Desde su introducción en España, los estudios y las investigaciones desarrolladas mediante el empleo de metodologías bibliométricas han experimentado un notable desarrollo, presentando además la Bibliometría un uso cada vez más extendido en los procesos de evaluación de los investigadores y en la planificación de las políticas científicas. En este contexto, resulta fundamental potenciar la docencia de esta materia, desarrollando recursos didácticos y reflexionando acerca de los contenidos y enfoques pedagógicos más adecuados para ello. La presente obra constituye una aportación a la vertiente docente de la Bibliometría en

el marco del Espacio Europeo de Educación Superior, en el que tiene una importancia capital el aprendizaje significativo, el conocimiento autoconstruido y las actividades prácticas. Se describen y justifican los contenidos que se deben incluir en un curso introductorio a la Bibliometría correspondiente a un nivel de Grado universitario, se presenta una exhaustiva recopilación de recursos bibliográficos y una selección de actividades prácticas considerando diferentes metodologías docentes: lectura de textos, aprendizaje basado en problemas, estudio de caso, discusión guiada, exposiciones orales y trabajos individuales y en grupo. La escasa disponibilidad de materiales didácticos sobre la docencia de la Bibliometría unida a la dilatada experiencia docente e investigadora del autor en la disciplina, sitúan esta obra como una aportación novedosa que puede servir de referente para docentes, alumnos, profesionales e investigadores interesados en el conocimiento

*Downloaded from

de los principios básicos de la Bibliometría y en las lecturas y materiales que se pueden utilizar desde el punto de vista didáctico e introductorio para el conocimiento y la aplicación de los métodos bibliométricos.

Strategic Technology Partnering and Supply Chain Risk Management -

Irène Kilubi 2017-11-11

With her work, Irène Kilubi builds a bridge between two areas of business research, on the one hand the supply chain management, and on the other hand innovation and technology management. In the context of her work, she proposes to expand the usual instruments of supply chain risk management by strategic technology partnerships, which not only provide procurement alternatives but also the possibility to develop technological alternatives at short notice. More precisely, she advocates that the capabilities needed for STP serve as enablers for effective SCRM. Accordingly, connections between supply chain risk management and

strategic technology partnering are presented and a conceptual framework is correspondingly created.

Educational innovations in pandemic learning contexts: multidisciplinary perspectives.

- Carmen Burgos Videla
2021-07-28

This work aborded educative innovation in pandemic context and how the teachers' different levels and matters have resolved their teaching circumstances. The educators, through creative proposals, sometimes using ICTs and put on the effort in others aspects of the teaching like emotions and actitudes of students in these new situations of teaching and learning. As coordinators, we have count with expert authors worldwide in their field of work about this first title. This work has nine chapters; four of them show one panoramic of pandemic generated by COVID.

Cienciometría - Michel Callon 1995

La aparición de la revista *Scientometrics* en 1979 supuso la consolidación de un grupo de investigaciones que pretenden dar cuenta de ciertos aspectos de la actividad científica y tecnológica a través del estudio de documentos como las publicaciones en revistas o los expedientes de registros de patentes. Desde entonces, se han ido refinando progresivamente sus métodos y, a través de procedimientos como el estudio de las citas o del empleo de palabras-clave, se han obtenido observaciones valiosas sobre el aislamiento o integración de las comunidades

científicas nacionales, la relación entre investigación académica y aplicaciones tecnológicas o las relaciones entre campos de investigación diversos. Este libro ofrece un panorama de la situación actual de esos estudios, de sus métodos y avances, y permite conocer posibles vías de uso de la información contenida en bases de datos.

Economy, Business and Uncertainty: New Ideas for a Euro-Mediterranean Industrial Policy - Jaime Gil-Lafuente 2018-10-13

This book presents original research articles addressing various aspects of economics, management and optimization. The topics discussed include economics, finance, marketing, resource allocation strategies, fuzzy logic, and network-based techniques for the analysis of economics, management and mathematical optimization. Combining the input of contributing professors and researchers from various Spanish, Italian and Latin American universities, the book will be of interest to students,

Políticas y prácticas de publicación en Cirugía Oral y Maxilofacial -

MONTESERÍN GONZÁLEZ, Bárbara 2016-09-01

La aplicación de métodos bibliométricos para la evaluación de la ciencia, más concretamente en las disciplinas del ámbito de las Ciencias de la Salud está cada vez más difundido. No ocurre lo mismo con la Cirugía Oral y Maxilofacial, especialidad médico-quirúrgica que se ocupa de la prevención, estudio, diagnóstico,

tratamiento y rehabilitación de la patología de la boca, cara y territorio craneofacial, así como de los órganos y estructuras cervicales relacionadas directa o indirectamente con los mismos.

Los estudios bibliométricos sobre una especialidad, a través de las publicaciones científicas, permiten extraer información cuantitativa y cualitativa sobre la misma, con el fin de determinar patrones de comportamiento y tendencias en el consumo, elaboración y difusión de la información científica.

Comprobada la escasez de investigaciones a nivel mundial y corroborando que al inicio de nuestro estudio no existían estudios bibliométricos sobre la Cirugía Oral y Maxilofacial de ningún país situado entre los 20 primeros productores científicos del mundo, se planificó y desarrolló el presente estudio, con el fin de aportar los datos pertinentes que hagan posible dilucidar la participación de autores españoles en la literatura científica internacional de la

A Nation of Emigrants -

David FitzGerald 2008-12-02
What do governments do when much of their population simply gets up and walks away? In Mexico and other migrant-sending countries, mass emigration prompts governments to negotiate a new social contract with their citizens abroad. After decades of failed efforts to control outflow, the Mexican state now emphasizes voluntary ties, dual nationality, and rights over

obligations. In this groundbreaking book, David Fitzgerald examines a region of Mexico whose citizens have been migrating to the United States for more than a century. He finds that emigrant citizenship does not signal the decline of the nation-state but does lead to a new form of citizenship, and that bureaucratic efforts to manage emigration and its effects are based on the membership model of the Catholic Church.

El sistema de I+D en Andalucía dentro del contexto nacional y europeo
