Plant Resistance to Arthropods - C. Michael Smith 2006-01-19

This book synthesizes new information about the environmental advantages of plant resistance, transgenic resistance, the molecular bases of resistance, and the use of molecular markers to map resistance genes. Readers are presented in-depth descriptions of techniques to quantify resistance, factors affecting resistance expression, and the deployment of resistance genes. New information about gene-for-gene interactions between resistant plants and arthropod biotypes is discussed along with the recent examples of using arthropod resistant plants in integrated pest management systems.

Cases on E-Learning Management: Development and Implementation - Yang, Harrison Hao 2012-07-31

New technologies can help teachers and trainers empower learners and create exciting new learning opportunities for students. However, these facilitators must also create e-learning contexts which are properly

scaffolded to serve the needs of learners. Cases on E-Learning Management: Development and Implementation meets this challenge by providing innovative case studies covering a range of topics such as teacher education, mobile and blended learning strategies, e-learning tutorial content, digital cognitive games, Science, Technology, Engineering, and Mathematics (STEM) education, and distance education. This casebook will enhance the work of educators, instructional designers, trainers, administrators, and researchers in the areas of online learning and distance learning.
