**Plant Invasions in Protected Areas** - Llewellyn C. Foxcroft  
2013-11-27

This book is the first comprehensive global review of all aspects of alien plant invasions in protected areas. It provides insights into advances in invasion ecology emanating from work in protected areas, and the link to locally relevant management support for protected areas. The book provides in-depth case studies, illuminating interesting and

insightful knowledge that can be shared across the global protected area network. The book includes the collective understanding of 80 ecologists and managers to extract as much information as possible that will support the long-term management of protected areas, and the biodiversity and associated ecosystem services they maintain. "This outstanding volume draws together pretty much all that can be said on this topic,

ranging from the science, through policy, to practical action". Dr. Simon N. Stuart, IUCN Species Survival Commission, UK. "This important and timely volume addresses two of the most serious problems affecting biodiversity conservation today: assessing the extent to which protected areas are impacted by biological invasions and the complex problems of managing these impacts. Written by leading specialists, it provides a comprehensive overview of the issues and gives detailed examples drawn from protected areas across the world". Professor Vernon H. Heywood, School of Biological Sciences, University of Reading, UK

**The Spanish Second Republic Revisited** - Manuel Alvarez Tardio 2013-02-04  
The Spanish Civil War is one of the most studied events in modern European history. Its origins, that is to say the politics of the Second Republic (1931-1936), have been much debated. The republican period has been much idealised and in particular the myth of Spanish democracy beset by fascism, of which Franco was its leading figure, has been much cultivated. But was this really the case? Recently historians of the Republic have proposed a new and non-ideological perspective on the 1930s. Spains path was at once different yet in many ways similar to that of Europe during the inter-war period. The Spanish Second Republic Revisited brings together leading and innovative specialists to analyse the main obstacles to the consolidation

of democracy in Spain and to debate the principal stereotypes of the traditional historiography of both left and right. The issues addressed include: the breakdown of democracy; whether the CEDA was an opportunity or a threat; the centrist appeal under the Republic; how the elections were viewed and conducted; the transformation of fascism; new revelations about the Communist party; the politics of exclusion at the local level; the perceived necessity for repression; new perspectives on the Civil Guard; the role of intellectuals in the Republic; and revisionism and sectarian history. The Spanish Second Republic Revisited offers a new and dynamic vision of why Spanish democracy failed to consolidate itself and why it finally fell into the terror of civil war. The book is essential reading for all those interested in modern European history.

The Politics of Survival - Marc Abélès 2009-12-11

In this provocative analysis of global politics, the anthropologist Marc Abélès

argues that the meaning and aims of political action have radically changed in the era of globalization. As dangers such as terrorism and global warming have moved to the fore of global consciousness, foreboding has replaced the belief that tomorrow will be better than today. Survival, outlasting the uncertainties and threats of a precarious future, has supplanted harmonious coexistence as the primary goal of politics. Abélès contends that this political reorientation has changed our priorities and modes of political action, and generated new debates and initiatives. The proliferation of supranational and transnational organizations—from the European Union to the World Trade Organization (WTO) to Oxfam—is the visible effect of this radical transformation in our relationship to the political realm. Areas of governance as diverse as the economy, the environment, and human rights have been partially taken over by such agencies. Non-governmental organizations in

particular have become linked with the mindset of risk and uncertainty; they both reflect and help produce the politics of survival. Abélès examines the new global politics, which assumes many forms and is enacted by diverse figures with varied sympathies: the officials at meetings of the WTO and the demonstrators outside them, celebrity activists, and online contributors to international charities. He makes an impassioned case that our accounts of globalization need to reckon with the preoccupations and affiliations now driving global politics. The Politics of Survival was first published in France in 2006. This English-language edition has been revised and includes a new preface.

Expedite - Denise Alvarado  
2013-12-25

He could quite possibly be the most effective unofficial saint of urban legend ever to have been discovered. For a variety of reasons, the Roman Catholic Church will not officially recognize St. Expedite; but, at the same time, they won't discount him either. That's because he's just too damned popular. And, according to his devotees, he's just that damned good. But that's okay, New Orleans Voudou has no problem embracing St. Expedite as one of her patron saints. And hoodoos, rootworkers, conjure doctors, spiritualists and sorcerers appreciate his worth, as well. No officialities are needed in these camps. Because when a saint works as well-and more importantly, as quickly-as St. Expedite works, he is more than welcome in the wide world of conjure. Indeed, St. Expedite is the go-to saint for fast solutions to problems of all kinds. His quick response makes him extremely popular among those who strive to put

an end to procrastination and delays and to those who seek financial success. He is petitioned for prompt solutions to business problems and has recently been coined the Patron Saint of Nerds due to his association with computer programmers and hackers. St. Expedite is also known as one of the lawyers of impossible causes, and as such, is petitioned for court cases and legal issues, as well. Written for the individual interested in the mystical and folk magic aspects of the Minute Saint - St. Expedite - this book delves into areas of his history and patronage never before found in one publication. This book contains more than the usual description, wordplay, prayers and suggested offerings of pound cake and public gratitude. A detailed description of where he is found around the world and how he fits into the various religeomagical landscapes, including contemporary cults of devotion and decapitation, Haitian Vodou expeditions and death conjure, individual and

community relationships, and public and secret celebrations and workings are described. His origin stories, legend as a member of the Thundering Legion, and other presuppositions are explored. And, the campaign to denounce and erase any legitimacy associated with St. Expedite by the Catholic Church is presented as a curious quandary, given the multitudes of peoples across the globe who revere him and love him and swear by his legendary ability to fix problems with lightning speed. An examination of references to St. Expedite or St. Espidee as he is referred to, in the Hyatt texts is also provided in this book. Many of the works are provided in contemporary language so it is easy to understand for the reader, while others are kept in their original transcriptions for historical value. Learn how informants petitioned him for court scrapes, banishing, road opening, getting a job and many other purposes. In addition, St. Expedite is

discussed within the context of New Orleans Voodoo as Baron Samedi, including his relationship to the Skull and Bones Gang and Mardi Gras, not as public celebration, but as the underlying Spirit who kicks off and drives the festival of decadence and debauchery. This book provides details for working with St. Expedite within the context of folk Catholicism, hoodoo and New Orleans Voodoo. From setting up an altar, to an obscure nine hour novena similar to the one developed by students in the Ursuline convent in the late 1700s, to many additional, original conjures never before revealed to the public will keep the modern conjurer busy for years to come as the problems of daily life inevitably present themselves again and again. For the first time ever, find all of the information available on St. Expedite, and then some, at your fingertips in this excellent reference book.

### Memoirs of War, 1914-15 -

Marc Bloch 1989-01-27

Great historians have seldom described the notable events in which they themselves participated. Marc Bloch - author of Feudal Society, the classic study of medieval social systems and co-founder of the

influential French historical journal Annales - is an exception, In his powerful memoir The Strange Defeat, he analysed the fall of France in 1940 from the viewpoint of combatant as well as historian. And in his Memoirs of War, 1914-15, here in its first English translation (originally published in hard covers in 1980 by Cornell University Press), Bloch left a keen and affecting account of his earliest experience of war. Carole Fink's introduction includes a brief biography of Bloch, discusses the effect of the war upon his intellectual development, and assesses his achievements as a historian. Though Bloch survived the savage trench warfare of the First World War, he was shot by a Gestapo firing squad in 1944 for his participation in the Resistance. Trenchant, inspiring, and tersely written, Memoirs of War, 1914-15 is a monument to a great scholar and fierce patriot.

### **Creoles in Education -**

Bettina Migge 2010

This volume offers a first survey of projects from around the world that seek to implement Creole languages in education. In contrast to previous works, this volume takes a holistic approach. Chapters discuss the sociolinguistic, educational and ideological context of projects, policy developments and project implementation, development and evaluation. It compares different kinds of educational activities focusing on Creoles and discusses a list of procedures that are necessary for successfully developing, evaluating and reforming educational activities that aim to integrate Creole languages in a viable and sustainable manner into formal education. The chapters are written by practitioners and academics involved in educational projects. They

serve as a resource for practitioners, academics and persons wishing to devise or adapt educational initiatives. It is suitable for use in upper level undergraduate and post-graduate modules dealing with language and education with a focus on lesser used languages.

### **Dictionary of Jamaican**

**English** - Frederic G. Cassidy 2002

The method and plan of this dictionary of Jamaican English are basically the same as those of the Oxford English Dictionary, but oral sources have been extensively tapped in addition to detailed coverage of literature published in or about Jamaica since 1655. It contains information about the Caribbean and its dialects, and about Creole languages and general linguistic processes. Entries give the pronunciation, part-of-speech and usage of labels, spelling variants, etymologies and dated citations, as well as definitions. Systematic indexing indicates the extent to which the lexis is shared with other Caribbean countries.

**Glass** - Virginia Woolf

2011-02-15

'People should not leave looking-glasses hanging in their rooms any more than they should leave open cheque books or letters confessing some hideous crime.' 'If she concealed so much and knew so much one must prize her open with the first tool that came to hand - the imagination.' Virginia Woolf's writing tested the boundaries of modern fiction, exploring the depths of human consciousness and creating a new language of sensation and thought.

Sometimes impressionistic, sometimes experimental, sometimes brutally cruel, sometimes surprisingly warm and funny, these five stories describe love lost, friendships formed and lives questioned. This book includes *The Lady in the Looking Glass*, *A Society*, *The Mark on the Wall*, *Solid Objects* and *Lappin and Lapinova*.

Mezzrow 2016-02-23

Mezz Mezzrow was a boy from Chicago who learned to play the sax in reform school and pursued a life in music and a life of crime. He moved from Chicago to New Orleans to New York, working in brothels and bars, bootlegging, dealing drugs, getting hooked, doing time, producing records, and playing with the greats, among them Louis Armstrong, Bix Beiderbecke, and Fats Waller. *Really the Blues*, the jive-talking memoir that Mezzrow wrote at the insistence of, and with the help of, the novelist Bernard Wolfe, is the story of an unusual and unusually American life, and a portrait of a man who moved freely across racial boundaries when few could or did, "the odyssey of an individualist . . . the saga of a guy who wanted to make friends in a jungle where everyone was too busy making money."

**The Art of Mbira** - Paul F. Berliner 2019-12-24  
Growing out of the collaborative research of an American ethnomusicologist and Zimbabwean musician, Paul F. Berliner's *The Art of Mbira* documents the repertory for a keyboard instrument known generally as mbira. At the heart of this work lies the analysis of the improvisatory processes that propel mbira music's magnificent creativity. In this book, Berliner provides insight into the communities of study, performance, and worship that surround mbira. He chronicles how master player Cosmas Magaya and his associates have developed their repertory and practices over more than four decades, shaped by musical interaction, social and political dynamics in Zimbabwe, and the global economy of the music industry. At once a detailed exposition of the music's forms and practices, it is also an indispensable historical and cultural guide to mbira in a changing world. Together with Berliner and Magaya's

compendium of mbira compositions, *Mbira's Restless Dance*, *The Art of Mbira* breaks new ground in the depth and specificity of its exploration of an African musical tradition, and in the entwining of the authors' collaborative voices. It is a testament to the powerful relationship between music and social life—and the rewards of lifelong musical study, performance, and friendship.

**Perspectives on French Colonial Madagascar** - Eric T. Jennings 2017-09-08

This book is a vivid history of Madagascar from the pre-colonial era to decolonization, examining a set of French colonial projects and perceptions that revolve around issues of power, vulnerability, health, conflict, control and identity. It focuses on three lines of inquiry: the relationship between domination and health fears, the island's role during the two world wars, and the mystery of Malagasy origins. The Madagascar that emerges is plural and fractured. It is the site of colonial dystopias, grand schemes gone awry, and diverse indigenous reactions. Bringing together deep archival research and recent scholarship, Jennings sheds light on the colonial project in Madagascar, and more broadly, on the ideas which underpin colonialism.

*From Gutenberg to the Global Information Infrastructure* -

Christine L. Borgman  
2003-01-24

Will the emerging global information infrastructure (GII) create a revolution in communication equivalent to that wrought by Gutenberg, or will the result be simply the evolutionary adaptation of existing behavior and institutions to new media? Will the GII improve access to information for all? Will it replace libraries and publishers? How can computers and information systems be made easier to use? What are the trade-offs between tailoring information systems to user communities and standardizing them to interconnect with systems designed for other communities, cultures, and languages? This book takes a close look at these and other questions of technology, behavior, and policy surrounding the GII. Topics covered include the design and use of digital libraries; behavioral and institutional aspects of electronic publishing; the evolving role of libraries; the life cycle of creating, using, and seeking

information; and the adoption and adaptation of information technologies. The book takes a human-centered perspective, focusing on how well the GII fits into the daily lives of the people it is supposed to benefit. Taking a unique holistic approach to information access, the book draws on research and practice in computer science, communications, library and information science, information policy, business, economics, law, political science, sociology, history, education, and archival and museum studies. It explores both domestic and international issues. The author's own empirical research is complemented by extensive literature reviews and analyses.

*Verb Movement* - David

Lightfoot 1994-03-31

Work on the movement of phrase categories, mostly Noun Phrases, has been a central element of syntactic theorizing almost since the earliest work on generative grammar. Work on the movement of lexical elements, heads, has been much less central until recent years. Verb movement is now, however, the center of current research in syntax. Parallel to the theoretical interest has been the attention focused on the description of verb-second languages and on the movement operations that place the verb in its "second" position. This volume represents the latest work from many of the leading researchers in an important field, and draws on analyses from a wide range of languages. It will have a significant impact on its field.

**Tropicopolitans** - Srinivas Aravamudan 1999

In *Tropicopolitans* Srinivas Aravamudan reconstructs the colonial imagination of the eighteenth century. By exploring representations of

peoples and cultures subjected to colonial discourse, he makes a case for the agency—or the capacity to resist domination—of those oppressed. Aravamudan's analysis of texts that accompanied European commercial and imperial expansion from the Glorious Revolution through the French Revolution reveals the development of anticolonial consciousness prior to the nineteenth century.

“Tropicalization” is the central metaphor of this analysis, a term that incorporates both the construction of various dynamic tropes by which the colonized are viewed and the site of the study, primarily the tropics. Tropicopolitans, then, are those people who bear and resist the representations of colonialist discourse. In readings that expose new relationships between literary representation and colonialism in the eighteenth century, Aravamudan considers such texts as Behn's *Oroonoko*, Defoe's *Robinson Crusoe* and Captain Singleton, Addison's

Cato, and Swift's *Gulliver's Travels* and *The Drapier's Letters*. He extends his argument to include analyses of Johnson's *Rasselas*, Beckford's *Vathek*, Montagu's travel letters, Equiano's autobiography, Burke's political and aesthetic writings, and Abbé de Raynal's *Histoire des deux Indes*. Offering a radical approach to literary history, this study provides new mechanisms for understanding the development of anticolonial agency. Introducing eighteenth-century studies to a postcolonial hermeneutics, *Tropicopolitans* will interest scholars engaged in postcolonial studies, eighteenth-century literature, and literary theory.

Russians Versus Fischer -

Dmitry Plisetsky 2005

This magnificent volume contains the extraordinary story of the prolonged battle between Bobby Fischer, the lone American genius who is perhaps the most famous chess player of all time, and the long-standing and all-dominating Soviet chess machine. For the first time readers will be able to view virtually all the secret documents on "the Fischer problem", many of which have never previously been published. These include papers from the archives of the KGB, the Communist Party Central Committee, the USSR Sports Committee, and the Chess Federation. Together with this, there are reports and analysis of Fischer's personality and play, written at the demand of the Soviet authorities by the country's leading Grandmasters, legends such as Mikhail Tal, Tigran Petrosian, Vassily Smyslov, Paul Keres, Victor Korchnoi, and Efim Geller. Also contained

in *Russians Versus Fischer* are annotations and the stories on all of the 158 chess encounters between Fischer and his Soviet adversaries, and a large number of rare photographs and drawings. This book is a significantly enlarged and updated version of the one first published in Russia in 1994.

*Gold, Festivals, and Music in Southeast Brazil: Sounding Portugueseness* is a study of the musical legacy of the eighteenth century Brazilian gold rush that integrates ethnographic research of the main genres of former mining communities in Brazil - from liturgical music in the style of European art music to Afro-Brazilian musical expressions. Its content and structure are

informed by Norbert Elias's idea of the civilizing process, which is explored regarding its relevance in interpreting sociocultural processes and choreo-musical expressions in the small town of Morro Vermelho. The book's innovative feature is its focus on a little-known area to non-Brazilian scholars, and its focus on the colonial and European heritage in Brazil. Morro Vermelho's cultural traditions have received relatively limited attention. The Catholic festival of Our Lady of Nazareth provides a setting for the documentation and analysis of the musical setting and is thus placed at the center of the discussion. It leads through the vast writings on Brazilian identity and challenges the view on Brazilian-ness as constructed in terms of the mixing of races. Norbert Elias's concept of the "civilizing

process" structures the book and is relevant for understanding the cultural sphere of the festival of Our Lady of Nazareth. The book combines discourses of Portugueseness with historical sources and observations from fieldwork and community building in the virtual world. The focus on the music to support social constructions of "Portugueseness" is supported with evidence from diverse data sources: music (literature and fieldwork recordings), original interviews, marketing materials and historical narratives. The combination of archival, ethnographic, and bibliographic research methods attempts a seamless narrative. Its approach to fieldwork and frank reflections on the process and relevant issues help to contextualize the analyses and serve as useful advice for future researchers.
