*The Art of Prehistoric Textile Making* - Karina Grömer

Textiles, textile production and clothing were essentials of living in prehistory, locked into the

system of society at every level "social, economic and even religious. Textile crafts not only produced essential goods for everyday use, most notably clothing, but also utilitarian objects as well as representative and luxury items.

Prehistoric clothing and their role in identity creation for the individual and for the group are also addressed by means of archaeological finds from Stone the Iron Age in Central Europe.

Cannabis - Robert Clarke 2016-06-28

Cannabis: Evolution and Ethnobotany is a comprehensive, interdisciplinary exploration of the natural origins and early evolution of this famous plant, highlighting its historic role in the development of human societies. Cannabis has long been prized for the strong and durable fiber in its stalks, its edible and oil-rich seeds, and the psychoactive and medicinal compounds produced by its female flowers. The culturally valuable and often irreplaceable goods derived from cannabis deeply influenced the commercial, medical, ritual, and religious practices of

cultures throughout the ages, and human desire for these commodities directed the evolution of the plant toward its contemporary varieties. As interest in cannabis grows and public debate over its many uses rises, this book will help us understand why humanity continues to rely on this plant and adapts it to suit our needs.

**Empire and Identity in Guizhou** - Jodi L. Weinstein 2013-10-13

This historical investigation describes the Qing imperial authorities' attempts to consolidate control over the Zhongjia, a non-Han population, in eighteenth-century Guizhou, a poor, remote, and environmentally harsh province in Southwest China. Far from submitting peaceably to the state's quest for hegemony, the locals clung steadfastly to livelihood choices chiefly illegal activities such as robbery, raiding, and

banditry that had played an integral role in their cultural and economic survival. Using archival materials, indigenous folk narratives, and ethnographic research, Jodi Weinstein shows how these seemingly subordinate populations challenged state power.

The Palaung in Northern Thailand - Michael C. Howard 2001

Today over 2000 Palaung--a group of mountain peoples speaking Mon-Khmer--live in a handful of villages north of Chiang Mai in Thailand. They fled from Burma in the 1980s to escape the fighting between communist insurgents and Burmese army troops. Though granted sanctuary, in the late 1990s many of the Palaung in Thailand found themselves involved in a new conflict over land use in northern Thailand's environmentally degraded highlands. This is the first book written on the Palaung in Thailand, a compelling collaborative effort by anthropologist Michael Howard and Thai artist Wattana Wattanapun. They introduce the Palaung culture and way of life, telling the story of the Palaung's flight from Burma and settlement in Thailand. Howard's photographs and Wattana's drawings enliven the account.

**A Little History of the World** - E. H. Gombrich  
2014-10-01

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost

thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

**Himalayan Bridge** - Niraj Kumar 2020-11-18

The centrality of the Himalayas as a connecting point or perhaps a sacred core for the Asian continent and its civilisations has captivated every explorer and scholar. The Himalaya is the meeting point of two geotectonic plates, three biogeographical realms, two ancient civilisations, two different language streams and six religions. This book is about the determinant factors which are at work in the Himalayas in the context of what it constitutes in terms of its spatiality, legends and myths, religious beliefs, rituals and traditions. The book suggests that there is no single way for understanding the Himalayas. There are layers of structures, imposition and superimposition of human history, religious traits and beliefs that continue to shape the Asian dynamics. An understanding of the ultimate union of the Himalayas, its confluences and its bridging role is essential for Asian balance. This book is a collaborative effort of an internationally acclaimed linguist, a diplomat-cum-geopolitician and a young Asianist.

It provides countless themes that will be intellectually stimulating to scholars and students with varied interests. Please note: This title is co-published with KW Publishers, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

The Art of Ethnography - David Michael Deal  
2006

The Art of Ethnography is a fully illustrated translation of a "Miao album" -- a Chinese genre originating in the eighteenth century that used prose, poetry, and detailed illustrations to represent minority ethnic groups living in frontier regions under imperial Chinese control. These bound collections of hand-painted illustrations and handwritten text reveal how imperial China viewed culturally "other" frontier populations. They also contain valuable information for anthropologists, geographers, and historians, and are coveted by art collectors for their beautiful imagery. "Miao" in this

context refers not just to groups that called themselves Miao (Hmong) or were classified as such by the majority Han culture, but generally to the many minority peoples in China's southwest. This lovely volume reproduces each of the eighty-two illustrations from the original album and the corresponding Chinese calligraphic text, along with an annotated English translation. Each entry depicts a different ethnic group residing in Guizhou. The album is anonymous and dates from sometime after 1797. Laura Hostetler's Introduction discusses the genesis and evolution of the Miao album genre and the sociopolitical context in which the albums were first made, the ethnographic content of the texts, the composition of the illustrations, and the albums' authorship and production. She situates the albums within the context of early modern imperial expansion internationally by introducing comparative examples of Japanese and Ottoman ethnography. Color illustrations

from other Miao albums and comparable works from other cultures give the reader a sense of the chromatic richness of Miao album illustrations and of their place in world ethnography.

**Threads of Life** - Clare Hunter 2019-10-15

This globe-spanning history of sewing and embroidery, culture and protest, is “an astonishing feat . . . richly textured and moving” (The Sunday Times, UK). In 1970s Argentina, mothers marched in headscarves embroidered with the names of their “disappeared” children. In Tudor, England, when Mary, Queen of Scots, was under house arrest, her needlework carried her messages to the outside world. From the political propaganda of the Bayeux Tapestry, World War I soldiers coping with PTSD, and the maps sewn by schoolgirls in the New World, to the AIDS quilt, Hmong story clothes, and pink pussyhats, women and men have used the language of sewing to make their voices heard, even in the most desperate of circumstances. *Threads of Life* is a chronicle of identity, memory, power, and politics told through the stories of needlework. Clare Hunter, master of the craft, threads her own narrative as she takes us over centuries and across continents—from

medieval France to contemporary Mexico and the United States, and from a POW camp in

Singapore to a family attic in Scotland—to celebrate the universal beauty and power of sewing.
