## **Children with Traumatic Brain Injury** - Lisa Schoenbrodt 2001

This is a comprehensive, must-have reference that provides parents with the support and information they need to help their child recover from a closed-head injury and prevent further incidents. Coping with traumatic brain injury (TBI) involves a complex process of readjustment to the changes in a once healthy child and affects everyone in the family. Traumatic brain injury occurs when the brain abruptly and violently moves within the skull as a result of extreme force to the head during an automobile, biking, or playground accident, for example. The effects of TBI can range from mild to severe and recovery can take from weeks to years. Although each child's condition is unique, all TBI patients experience impairment in one or more of the following areas: cognition; emotion/behaviour; and motor skills. While TBI can happen to anyone, children, particularly teens, are susceptible. And, children who have already had one TBI are at greatest risk. Written by a team of medical specialists, therapists, educators, and an attorney, the book covers: what is traumatic brain injury?; medical concerns; rehabilitation and treatments; coping and adjustment; effects on learning and thinking, speech and language, and behaviour; educational needs; and legal issues. Throughout the book, a case study of a boy who was injured at age eight, illustrates the effects of TBI on education, socialisation and

independence. Parent statements at the end of each chapter attest to the variety of response families have, and offer insight about the experience of raising a child with TBI. A resource guide of support and advocacy organisations, a reading list, and glossary round out this authoritative guide. This book is useful to professionals who provide services to children with TBI and their families. General and special educators will find it essential reading to help their students with TBI. But most of all, the book gives parents the hope and facts they need to improve the outcome of their child's recovery.

*Learning Stories* - Margaret Carr 2012-03-19  
Shortlisted for the 2013 Nursery World Awards! Margaret Carr's seminal work on *Learning Stories* was first published by SAGE in 2001, and this widely acclaimed approach to assessment has since gained a huge international following. In this new full-colour book, the authors outline

the philosophy behind Learning Stories and refer to the latest findings from the research projects they have led with teachers on learning dispositions and learning power, to argue that Learning Stories can construct learner identities in early childhood settings and schools. By making the connection between sociocultural approaches to pedagogy and assessment, and narrative inquiry, this book contextualizes Learning Stories as a philosophical approach to education, learning and pedagogy. Chapters explore how Learning Stories: - help make connections with families - support the inclusion of children and family voices - tell us stories about babies - allow children to dictate their own stories - can be used to revisit children's learning journeys - can contribute to teaching and learning wisdom This ground-breaking book expands on the concept of Learning Stories and includes examples from practice in both New Zealand and the UK. It outlines the philosophy behind this pedagogical tool for documenting how learning identities are constructed and shows, through research evidence, why the early years is such a critical time in the formation of learning dispositions. Margaret Carr is a Professor of Education at the University of Waikato, New Zealand. Wendy Lee is Director of the Educational Leadership Project, New Zealand.

2011

As she prepares for her graduation ceremony, a first grader-to-be remembers her enjoyable year in kindergarten.

Constructive Wallowing - Tina Gilbertson  
2014-05-19

"Constructive wallowing" seems like an oxymoron. Constructive is a good thing, but wallowing is bad. Right? But wait a minute; is it really so terrible to give ourselves a time-out to feel our feelings? Or is it possible that wallowing is an act of loving kindness, right when we need it most? Just about everyone loves the idea of self-compassion -- the notion that maybe in spite of our messy emotions and questionable behavior, we really aren't all that bad. In recent years there's been an explosion of books that encourage readers to stop beating themselves up for being human, which is terrific.

Unfortunately, readers who aren't interested in Buddhism or meditation have been left out in the cold. Self-compassion is an everyday habit that everyone can learn, even if they a) aren't particularly spiritual, b) find most books about self-compassion too serious, or else c) have already overdosed on meditation. Constructive Wallowing: How to Beat Bad Feelings by Letting Yourself Have Them is the first book to cut right to the chase, bypassing descriptions of Eastern philosophy and meditation techniques to teach readers exactly how to accept and feel their feelings with self-compassion for greater emotional health and well-being ... while making them laugh from time to time. It seems that the wisdom of "keeping your friends close and your enemies closer" applies to emotions as well as people. It's tempting to turn away from menacing, uncomfortable feelings like anger, grief or regret and treat them like unwanted guests; however, ignoring them just seems to make them stick around. They lurk in the background like punks with switchblades, waiting to pounce as soon as they see an opening. By learning to accept and embrace, rather than suppress, difficult feelings, people

can keep their sense of personal power and, better yet, gain greater understanding and ultimately esteem for themselves. Feeling bad can actually lead to feeling better, faster!

**Invisible Child** - Andrea Elliott 2021-10-05

PULITZER PRIZE WINNER • A "vivid and devastating" (The New York Times) portrait of an indomitable girl—from acclaimed journalist Andrea Elliott "From its first indelible pages to

its rich and startling conclusion, *Invisible Child* had me, by turns, stricken, inspired, outraged, illuminated, in tears, and hungering for reimmersion in its Dickensian depths.”—Ayad Akhtar, author of *Homeland Elegies* ONE OF THE TEN BEST BOOKS OF THE YEAR: *The New York Times* • ONE OF THE BEST BOOKS OF THE YEAR: *The Atlantic*, *The New York Times Book Review*, *Time*, *NPR*, *Library Journal* In *Invisible Child*, Pulitzer Prize winner Andrea Elliott follows eight dramatic years in the life of Dasani, a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. In this sweeping narrative, Elliott weaves the story of Dasani’s childhood with the history of her ancestors, tracing their passage from slavery to the Great Migration north. As Dasani comes of age, New York City’s homeless crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. Out on the street, Dasani becomes a fierce fighter “to protect those who I love.” When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? A work of luminous and riveting prose, Elliott’s *Invisible Child* reads like a page-turning novel. It is an astonishing story about the power of resilience, the importance of family and the cost of inequality—told through the crucible of one remarkable girl. Winner of the J. Anthony Lukas Book Prize • Finalist for the Bernstein Award and the PEN/John Kenneth Galbraith Award

**Child Care Handbook** - 1980

**Encountering Illness** - Michael Ignatieff 1989

**Child Protective Services** - Diane DePanfilis 2003

From the Preface: This manual, *Child Protective Services: A Guide for Caseworkers*, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to

accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in *A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice*. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based—including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.

*Good Inside* - Dr. Becky Kennedy 2022-09-13  
“This book is for any parent who has ever struggled under the substantial weight of caregiving—which is to say, all of us. *Good Inside* is not only a wise and practical guide to raising resilient, emotionally healthy kids, it’s also a supportive resource for overwhelmed parents who need more compassion and less stress. Dr. Becky is the smart, thoughtful, in-the-trenches parenting expert we’ve been waiting for!”—Eve Rodsky, *New York Times* bestselling author of *Fair Play* and *Find Your Unicorn Space*  
Dr. Becky Kennedy, wildly popular parenting expert and creator of @drbeckyatgoodinside, shares her groundbreaking approach to raising kids and offers practical strategies for parenting in a way that feels good. Over the past several years, Dr. Becky Kennedy—known to her

followers as “Dr. Becky”—has been sparking a parenting revolution. Millions of parents, tired of following advice that either doesn’t work or simply doesn’t feel good, have embraced Dr. Becky’s empowering and effective approach, a model that prioritizes connecting with our kids over correcting them. Parents have long been sold a model of childrearing that simply doesn’t work. From reward charts to time outs, many popular parenting approaches are based on shaping behavior, not raising humans. These techniques don’t build the skills kids need for life, or account for their complex emotional needs. Add to that parents’ complicated relationships with their own upbringings, and it’s easy to see why so many caretakers feel lost, burned out, and worried they’re failing their kids. In *Good Inside*, Dr. Becky shares her parenting philosophy, complete with actionable strategies, that will help parents move from uncertainty and self-blame to confidence and sturdy leadership. Offering perspective-shifting parenting principles and troubleshooting for specific scenarios—including sibling rivalry, separation anxiety, tantrums, and more—*Good Inside* is a comprehensive resource for a generation of parents looking for a new way to raise their kids while still setting them up for a lifetime of self-regulation, confidence, and resilience.

### **The Abuse of Innocence - Paul Eberle 2010-01-28**

On August 12, 1983, Judy Johnson called the police and told them her two-year-old son had been sexually abused at Virginia McMartin's Preschool in Manhattan Beach, California. Mrs. Johnson accused a teacher, Raymond Buckey. After searching the school and the homes of the owners and teachers, police distributed a letter to parents of children attending the McMartin Preschool urging them to ask their children if they had witnessed any acts of sexual molestation by Buckey. The result was mass hysteria. Although the children denied being molested or witnessing any molestations, the D.A.'s office began sending them to a private clinic to be interviewed by "evaluators" and examined by pediatricians. Parents were then informed that every child who had attended the McMartin Preschool had been sexually abused, which led to charges being filed against Virginia McMartin, Peggy McMartin Buckey, Raymond and Peggy Ann Buckey and three other teachers at the school. During the hearings, children described how teachers had raped them, forced them to engage in satanic rituals, and slaughtered animals before their eyes. The ensuing trial triggered a nationwide epidemic of child sexual abuse cases with allegations of infants being raped by devil worshippers and of blood sacrifices. The McMartin trial itself clogged the courts for over seven years and cost taxpayers over sixteen million dollars. None of the allegations were true. Investigative journalists Paul and Shirley Eberle witnessed the McMartin Trial and uncovered stunning amounts of prosecutorial misconduct, all revealed in this disturbing book.
