**Massif des Bauges** - Catherine Lansard 2017-05-10

Le petit massif des Bauges, niché au cœur des Alpes du Nord, à cheval entre Savoie et Haute-Savoie, est comme une île douce et verte, perdue entre les lacs d'Annecy, du Bourget et la combe de Savoie. Ici, les chamois sont presque aussi nombreux que les habitants et ce petit joyau a tout pour plaire aux amoureux de la nature. Une multitude de sentiers parcourent ses forêts et pelouses alpines, gravissent ses nombreux sommets vertigineux s'échelonnant entre 1 500 et 2 200 mètres d'altitude et dévoilent des panoramas saisissants de beauté. Ce petit massif n'a rien à envier au plus grands grâce à l'extraordinaire diversité de ses paysages, la richesse de sa faune et de sa flore, mais aussi de son patrimoine architectural. Parc naturel régional depuis 1996, il a obtenu le label Géopark Unesco en 2011 au regard de ces attraits géologiques remarquables. Cet ouvrage, élaboré en complète collaboration avec le Parc naturel régional du massif des Bauges, guidera les randonneurs sur les sentiers, les sommets, dans les zones autorisées qui viennent d'être redéfinies, mais aussi dans les villages pour goûter à l'accueil et déguster des produits de qualité à l'image de ce territoire. Les 41 randonnées sont présentées par niveau de difficulté : de très facile à difficile.

Mike, a crewmember, insists he believes the crazy Island story that Melissa time-traveled to Colonial Boston. His eerie interest in constantly tracking Rebecca's whereabouts rattles her nerves. Her first night onboard, Rebecca drifts off to sleep...and wakes the following morning with memories of a secretive conversation about a battle with Britain. Monday night Rebecca crawls into her bunk after an adventurous day of sailing, swimming, and overseeing students. Tenerife - Klaus Wolfsperger 2021-12-20

Tenerife can easily be described as the most versatile hiking paradise of the Canary Islands. The "Island of Bliss" not only offers the highest peak of the Canary archipelago and the whole of Spain - the Pico de Teide measuring 3718m - it also unites countless, completely different types of landscape: the extremely bare, almost desert-like south, holiday destination of sun aficionados, is in strict contrast to the picture landscape of the fertile north with its sumptuous nature. The mountain regions are covered in evergreen laurel and heathered forests as well as extensive woods of pine tree. A scenic highlight is bound to be the moon landscape of the Cañadas del Teide National Park. As a result, Tenerife is not only a refuge for central Europeans who shy away from winter, but mainly an ideal island for hiking. With the wide ocean at all times in sight, the range of the 85 hiking tours presented in this guide includes easy paths over rough cliffs and picturesque trips to heights as well as ascents to peaks that offer a fabulous view - hiking paths through fairytale-like nebulous primeval forests are also included, such as the partially paved Caminos, which in the early days where the main connecting routes between villages. Many tour suggestions in this hiking guide are suitable for less experienced hikers. Skilled mountaineers who do not fear "tours of the drastic kind" and who are in for a touch of adventure and a bit of a kick will also find a rich offering: daring cliff tours, spectacular ravine excursions and extensive mountain trips whose highlight must be the parade summit of the National Park. Atmospheric pictures and excellent hiking maps at an ideal scale of 1:50,000/1:75,000 and informative height profiles round off the picture and ignite curiosity for ever new tours into this bizarre and charming world of mountains. An overall successful guide brought up to date, which leaves nothing to desire!

*Effortless Skiing* - Natalia Dounskaia 2021-03-09

Whether you are a recreational or expert skier or ski instructor, this book is for you! Are you a recreational skier, have taken lessons, and still your movements are not quite right and your leg muscles get tired and sore? You will be amazed how quickly you can improve your skiing and get rid of the muscle sourness forever by using the two-step technique presented here. Are you an expert? Knowing what your body does during skiing will allow you to ski even better and teach novices more effectively! Reading this book will make you look at skiing as you have never yet before. Forget about all instructions you have been given. Skiing is simple: It includes only two actions performed successively, in two steps. Many skiing movement features you have been taught to produce will emerge naturally, as a consequence of the two-step technique. The two-step technique is a result of recent advances in research of control and coordination of complex human movements. Discovering the biomechanics of skiing overturns our previous understanding of how we ski. If you think that skiing is difficult, this means you were given wrong instructions. This book explains it all in a simple way!

**Rise** - Lindsey Vonn 2022-01-11

The first ever memoir from the most decorated female skier of all time, revealing never-before-told stories of her life in the fast lane, her struggle with depression, and the bold decisions that helped her break down barriers on and off the slopes. 82 World Cup wins. 20 World Cup titles. 3 Olympic medals. 7 World Championship Medals. A fixture in the American sports landscape for almost twenty years, Lindsey Vonn is a legend. With a career that spanned a transformation in how America recognizes and celebrates female athletes, Vonn—who retired in 2019 as the most decorated American skier of all time—was in the vanguard of that change, helping blaze a trail for other world-class female athletes and reimagining what it meant to pursue speed at all costs. In *Rise*, Vonn shares her incredible journey for the first time, going behind the scenes of a badass life built around resilience and risk-taking. One of the most aggressive skiers ever, Vonn offers a fascinating glimpse into the relentless pursuit of her limits, a pursuit so focused on one-upping herself that she pushed her body past its breaking point as she achieved greatness. While this iconic grit and perseverance helped her battle a catalog of injuries, these injuries came with a cost—physical, of course, but also mental. Vonn opens up about her decades-long depression and struggles with self-confidence, discussing candidly how her mental health challenges influenced her career without defining her. Through it all, she dissects the moments that sidelined her and how, each time, she clawed her way back using an iconoclastic approach rooted in hard work—pushing boundaries, challenging expectations, and speaking her mind, even when it got her into trouble. At once empowering and raw, *Rise* is an inspirational look at her hard-fought success as well as an honest appraisal of the sacrifices she made along the way—an emotional journey of winning that understands all too well that every victory comes with a price.
