Dismantling Apartheid - Walton Johnson 2018-08-06

As a result of Pretoria's 1976 imposition of independence on the "black homeland" of Transkei, its capital city, Umtata, became one of the first communities in South Africa to experience fundamental changes in the apartheid. This timely book discusses those relationships that remained unchanged, as well as the important race and class realignments that

accompanied apartheid's dismantling. Walton R. Johnson shows that although the universal franchise radically altered municipal government and desegregation changed access to some public and private amenities, transformation of the basic patterns of dominance and subordination occurred slowly. He describes how the established dominant group perpetuated key parts of the old order by guiding and manipulating a pliable new African middle class. For the mass of Africans the facade was new, he makes clear, but the underlying structures were the same: effective social and political control stayed for a long while in the hands of the white elite and few new economic opportunities opened for Africans. His chapter on personal ideologies shows how deeply cultural much of this behavior was. Providing an informed account of change and continuity in one town, *Dismantling Apartheid* is a compelling preview of future social relations in South Africa.

A History of Tourism in Africa - Todd Cleveland 2021-02-23

An engaging social history of foreign tourists' dreams, the African tourism industry's efforts to fulfill them, and how both sides affect each other. Since the nineteenth century, foreign tourists and resident tourism workers in Africa have mutually relied upon notions of exoticism, but from vastly different perspectives. Many of the countless tourists who have traveled to the African continent fail to acknowledge or even realize that skilled African artists in the tourist industry repeatedly manufacture "authentic" experiences in order to fulfill foreigners' often delusional, or at least uninformed, expectations. These carefully nurtured and controlled performances typically reinforce tourists' reductive impressions—formed over centuries—of the continent, its peoples, and even its wildlife. In turn, once back in their respective homelands, tourists' accounts of their travels often substantiate, and thereby reinforce, prevailing stereotypes of "exotic" Africa. Meanwhile, Africans' staged performances not only impact their own lives, primarily by generating remunerative opportunities, but also subject the continent's residents to objectification, exoticization, and myriad forms of exploitation.

Victoria Falls and Colonial Imagination in British Southern Africa

- Andrea L. Arrington-Sirois 2017-03-22

This is the first full-length historical analysis of Victoria Falls. The text offers a critical examination of Victoria Falls providing new insight into the British Southern African project and reveals how Victoria Falls became one of the first modern African tourist destinations. This book makes a case for a critical reading of Victoria Falls as much more than a localized natural wonder. Europeans with multiple and often competing agendas, as well as African leaders and laborers were brought into contact with one another at Victoria Falls. Their visions of the past and hopes for the future shared Victoria Falls as a common point of inspiration. The value these parties placed on the Falls extended far beyond its location on the Zambezi and had broad implications for the British Empire in Southern and Central Africa.

Plunkett's Airline, Hotel & Travel Industry Almanac 2009 - Jack W. Plunkett 2008-09

The travel industry has been through exceptional upheaval and change. Plunkett's Airline, Hotel & Travel Industry Almanac will be your complete guide to this fascinating industry. After reeling from the effects of the September 11, 2001 tragedies, the travel business is now emerging as a more streamlined, efficient and focused industry. Many of the biggest, most successful firms are becoming extremely global in nature. Meanwhile, most airlines are struggling to return to profitability, while low-cost providers Southwest Airlines and JetBlue continue to set the standard for air travel. Deregulation is opening up huge travel markets in India and China. On the hotel side, massive management firms, development companies and real estate investment trusts are gaining in scale and influence. The booking of travel online is perhaps the most successful niche of all of the world's e-commerce efforts. Consumers use the Internet to become better informed and to seek bargains. Online sites like Travelocity, Priceline and Orbitz steer millions of consumers toward specific airlines and hotels in a manner that lowers prices and improves satisfaction among consumers. The exciting new reference book (which includes a fully-featured database on CD-ROM) will give you access to the complete scope of the travel industry, including: Analysis of major trends; Market research; Statistics and historical tables; Airlines; Hotel operators; Entertainment destinations such as resorts and theme parks; Tour operators; The largest travel agencies; E-commerce firms;

Cruise lines; Casino hotels; Car rental; and much, much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. It contains thousands of contacts for business and industry leaders, industry associations, Internet sites and other resources. This book also includes statistical tables, a travel industry glossary, industry contacts and thorough indexes. The corporate profile section of the book includes our proprietary, in-depth profiles of over 300 leading companies in all facets of the travel industry.

Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.
