Public Administration in the FRG - N. Von Oertzen 1983

The public administration in Germany has been described as one of the world's 'classic administrative systems'. It was on German soil that one of the prime examples of the efficient service structure in public affairs originally developed which is so characteristic of the modern state. In view of the cracks in recent German history the continuing efficiency of public administration is considered remarkable. In addition German scholars - from Max Weber to Fritz Morstein Marx - whose works have attracted attention from far beyond the confines of Germany, have contributed to the

establishment of basic academic principles for an international discussion of administrative phenomena. But even in Germany the negative aspects of state bureaucracies have not gone unobserved and criticism from abroad of our particular political system has not exactly spared our public administration either. In some places ideas may persist that no longer match the reality of state and administration in today's Federal Republic of Germany.

On Your Bicycle - Jim McGurn 2000-06-01

Previously published in 1987 by John Murray, this is an updated edition with many new illustrations. It tells the colourful story of cycling: from dandies on hobby-horses to the present day. This book shows how the status of cycling continually bobbed up and down the social scale. On Your Bicycle will appeal to anyone interested in people and their ways, rather than pure technology: although technological developments and the social role of cycling

are closely linked. It's a story of loud club-men on penny farthings, of aristocracy during the cycling boom of the 1890s, and of what happened when lower prices put bicycles into the hands of the working classes.

Bergeners - Tomas Espedal 2017-05-15

Bergeners is a love letter to a writer's hometown. The book opens in New York City at the swanky Standard Hotel and closes in Berlin at Askanischer Hof, a hotel that has seen better days. But between these two global metropolises we find Bergen, Norway--its streets and buildings and the people who walk those streets

and live in those buildings.

Using James Joyce's Dubliners as a discrete guide, celebrated Norwegian writer Tomas Espedal wanders the streets of his hometown. On the journey, he takes notes, reflects, writes a diary, and draws portraits of the city and its inhabitants. Espedal writes tales and short stories, meets fellow writers, and listens to their anecdotes.

In a way that anyone from a small town can relate to, he is drawn away from Bergen but at the same time he can't seem to stay away. Espedal's Bergeners is a book not just about Bergen, but about life--in a way no one else could have captured.

Aspects of (Post)Colonial Linguistics - Daniel Schmidt-Brücken 2016-01-15

Research in Colonial and Postcolonial Linguistics has experienced a significant increase in contributions from varying fields of language

studies, gaining the attention of scholars from all over the world. This volume aims to showcase the variety of topics relevant to the study of language(s) in colonial, postcolonial and decolonial contexts. A main reason of this variety is that the new paradigm invites and necessitates research on different subject matters such as language typology, grammar and cross-linguistics, meta-linguistics and research on language ideology, discourse analysis and pragmatics. The contributions of this volume are selected, peer-reviewed papers which were partly invited and partly given at the First Bremen Conference on Colonial and Postcolonial Linguistics, held in September 2013.
