The final installment of the Reading Street curriculum series, Reading Street: Grade 6, comes complete with everything you'll need to create English and Language Arts lessons for your child. This system includes reading selections designed to help your child hone his or her skills, a Teacher Resource DVD to make your task of developing lessons easier, and a packet of curriculum materials. Reading Street: Grade 6 is a comprehensive system designed to enhance your child's skills in reading, writing and language. Each assignment in Reading Street helps your child progress toward that goal. While such a

dynamic curriculum might sound challenging for you as a parent and educator to use, you can rest assured that the materials will guide you through 12 weeks of English and Language Arts lesson planning with ease. If you prefer a structured homeschooling program format, Reading Street (in all of its Grade level structures) is the right fit for you and your child. Grade 6 comes with two volumes of six units. By the time you complete Grade 6, your child will be able to: Read through a variety of complex literature, including biographies and fictional stories. Discover additional reading material based on personal taste. Relate individual chapters or concepts to the book as a whole. Write complete stories using proper grammar, punctuation and word choice. Compose a written argument using appropriate sources. Examine and edit his or her own writing, as well as the writing of others. Present an oral presentation based on the lessons. Unlike

other curricula, Reading Street imparts a love of reading upon your child. From Grade 1 through Grade 6, your child will learn not only the skills he or she needs to advance his or her education, but become a lifelong student and reader. For more information about the specific materials included in the Reading Street: Grade 6 curriculum for homeschooling, visit the Features and Benefits page.

Democratic Education for Social Studies - Anna S. Ochoa-Becker 2006-12-01

In the first edition of this book published in 1988, Shirley Engle and I offered a broader and more democratic curriculum as an alternative to the persistent back-to-the-basics rhetoric of the '70s and '80s. This curriculum urged attention to democratic practices and curricula in the school if we wanted to improve the quality of citizen

participation and strengthen this democracy. School practices during that period reflected a much lower priority for social studies. Fewer social studies offerings, fewer credits required for graduation and in many cases, the job descriptions of social studies curriculum coordinators were transformed by changing their roles to general curriculum consultants. The mentality that prevailed in the nation's schools was "back to the basics" and the basics never included or even considered the importance of heightening the education of citizens. We certainly agree that citizens must be able to read, write and calculate but these abilities are not sufficient for effective citizenship in a democracy. This version of the original work appears at a time when young citizens, teachers and schools find themselves deluged by a proliferation of curriculum standards and concomitant mandatory testing. In the '90s, virtually all subject areas including United States history, geography,

economic and civics developed curriculum standards, many funded by the federal government. Subsequently, the National Council for the Social Studies issued the Social Studies Curriculum Standards that received no federal support. Accountability, captured in the No Child Left Behind Act passed by Congress, has become a powerful, political imperative that has a substantial and disturbing influence on the curriculum, teaching and learning in the first decade of the 21st century.

History Textbooks - American Textbook Council 1994

Based on expert review and research, this book provides an innovative standard and guide to social studies textbooks used in kindergarten through 12th grade classrooms for content, style, and design. The standards provide a foundation for individuals to select satisfactory textbooks and to help educators and school boards in the adoption of instructional materials. Chapter 1 addresses the problems of textbook content and style. Chapter 2 discusses the vast business of social studies publishing and the increased complexity of textbook packaging with the movement away from state-

level adoption of textbooks. Chapter 3 focuses on the content of social studies textbooks with a comparison of past and present textbooks, a discussion of revisionism and reality, and a look at religion in textbooks. Chapter 4 examines the style and story of textbooks and finds that although the content of past textbooks may be flawed, the prose is superior to recent textbooks. Ideas on narrative, readability, vocabulary, instructional design, history, and style provide ways for textbooks to improve. Chapter 5 addresses the issue of format and proposes clarity and simplicity in technical design of books. Chapter 6 provides an outline to review textbooks for content and style and instructional activities and teacher guidance materials for usefulness. Chapter 7 includes an annotated list of the major U.S. and world history textbooks. (CK)
