### **Your Walk Walks and Your Talk Talks** - Lora Goss 2021-10-20

Making decisions at any age is not always an easy feat. When you are walking with the Lord Jesus Christ, it makes sense to pray and do the next right thing. As life moves at ninety miles an hour, moving with the flow can set you up to make split-second decisions. Taking what we think is the easy way is often the hardest of all. We are told in 1 Peter 5:7 to cast all our cares on Him because He cares for us. Taking the Jesus way out is always the best way. It may not be the easy that we are looking for, but it will not leave the collateral damage that our way leaves behind. The roads that we walk down in life are covered with attractive billboards drawing us to off-ramps that will lead us to destruction. It is so important to keep our eyes fixed on Jesus Christ as we walk life's highways and byways so we are not lured into the craziness that the world has to offer. Taking life one moment at a time is actually a doable thing. Life moves in seconds, not days. Don't let one trial take you down. Romans 8:13 says that we are more than conquerors, and thankfully, God is a god of do-overs!

*The World's Best Sailboats* - Ferenc Maté

2014-11-18

A guided tour of the world's best sailboats with an entertaining expert at your side. With over 100,000 copies sold, these volumes have become invaluable reference for sailors and would-be sailors alike. Using 400 magnificent color photographs and black-and-white illustrations per volume, Maté analyzes the designs and construction methods of the 30 best boat-builders in the world, builders who have, over the years, consistently shown the highest quality and most creative innovation. He visited boatyards in Europe, Canada, and the United States, for his scrupulous firsthand survey. While revealing the secrets of the best builders, he lucidly demonstrates what makes these boats the best, furnishing knowledge that can then be applied while choosing any sailboat of whatever make. Besides the perennial classics of Alden, Baltic, Hinckley and Swan, are new entries like the super-fast J-Boats and super luxurious Oysters. The color photographs are benchmarks in nautical publishing, while the writing is thoughtful, hugely informative and always entertaining.

**Best Boats to Build Or Buy** - Ferenc Maté 1982

Lovingly written and beautifully photographed, *Best Boats* is an evaluation of the most elegantly designed and best-built sailboats in stages—from a bare hull to a finished yacht. In addition to evaluating overall design, performance and layout, this book, like no other, analyses how and how well the boats are built. Ranging from the ageless Herreshoff day-sailer to the ultra-light Santa Cruz flyers, the book features some of the finest works of designers such as German Frers, Chuck Paine, Bill Crealock, Doug Peterson, Lyle Hess, and others. Even more importantly, it contains interviews with legendary builders such as Tom Morris, the Cherubinis, Cecil Lange, and Tom Dreyfus. Using the surveyed boats as examples, Máté; shows what to look for when contemplating the purchase of any sailboat. For the boatbuilder, it points out the weaknesses and strengths of all aspects of construction, using hundreds of photographs and illustrations to clarify.

Motorized Obsessions - Paul R. Josephson  
2007-09-02

2008 Outstanding Academic Title, Choice Magazine From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In

the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.
