The International Baccalaureate Diploma Programme - Tim Pound 2006-05-02

The International Baccalaureate (IB) is a respected qualification gaining

increasing currency around the world, and which has been adopted by a wide variety of schools, both public and private. In the UK, growing dissatisfaction with the A-level system has led to an intense debate about alternative qualifications, and in many schools IB courses have been introduced alongside conventional A-level courses. This practical introduction to the IB takes a balanced look at the pros and cons and features a wealth of advice from those actually involved in teaching and implementing it in schools. Providing comparative material on how IB courses differ from A-levels and a subject-by-subject account of best practice in teaching the IB, this book offers a rich source of practical advice for teachers, school leaders or managers involved in teaching or implementing the IB programmes.

Advanced Biology - Michael Roberts 2000

Advanced Biology provides clear, well-illustrated information, which will help develop a full understanding of biological structure and function and of relevant applications. The topics have been carefully organised into parts, which give a logical sequence to the book. This new text has been developed to replace the best-selling titles *Biology: Principles and Processes* and *Biology, A Functional Approach*. Features include: full-colour design with clear diagrams and photographs; up-to-date

information on biotechnology, health, applied genetics and ecology; clearly written text using the latest Institute of Biology terminology; a useful summary and a bank of practice questions at the end of every chapter; support boxes help bridge the gap from GCSE or equivalent courses; extension boxes providing additional depth of content - some by guest authors who are experts in their field; and a comprehensive index so you can quickly locate information with ease. There is also a website providing additional support that you can access directly at www.advancedbiolgy.co.uk.

Teen Spirits - Dr Chris Richards 2013-04-03

Relating to both the practice of teaching media studies and also to theoretical questions within media and cultural studies, this study examines pop music, media studies and the micro-cultural politics of adolescence. It argues that media education has neglected pop music, and that, as something of enormous significance in the lives of young people, it merits a serious place in the field.; The author provides accounts of media studies in action, including detailed accounts of classroom discussions, interviews with students and teachers, examples

of students' work and their biographical reflections. He links this to broader debates both within cultural studies and around the place of pop music in young people's lives.; "Teen Spirits" should be of interest to students of media and cultural studies, as well as to practicing teachers, and readers with an interest in questions of youth and identity.

Could You Be Loved - Trevor Fitz-Henley 2017-02-09

COULD YOU BE LOVED is of all Humankind acknowledging shared origin for Progress with Peace. " . . insightful . . incisive and instructive . . a beautiful poetic move . . brilliant . . author, poet, philosopher Tekla Mekfet relates Bob Marley's poetics to African philosophy, the Bible and the problems of Babylon as we encounter them in Jamaica and the world. . . helps to resolve the tension between the individual and the community, in Rasta poetics . . Historical memory . . clues to liberation in the present. Out of history and prophecy . . philosophy in Rastafari offers unaccustomed wide practical application." (Dr. Noel Erskine, Professor of Theology & Ethics, Emory University, USA). " . . deep understanding of world politics . . knowledge of the world's literary works whether fiction or treatise . . wide knowledge of music of all genres . . erudite . . encyclopedic . . for every and anyone." (Dr. Erna Brodber, sociologist-historian-novelist, University of the West Indies). "In his own thoroughly original way Tekla Mekfet evokes the largesse of spirit and innovative rhetorical performances of Walt Whitman . . Whitman opened up the space of the line in American verse; he had an agile poetic persona; he was chronicler, seer, prophet. In our time Ras Mekfet is accomplishing much the same through his vision and voice." (Michael Kuelker, Professor of English, St. Charles Community College, Rastafari-Reggae researcher, DJ, Missouri). Structure is as vocabulary item, social commentary, music of meaning, "Often, life is not nice neat sentences". The index invites piece-meal focus on such as The Word, Logic RHYTHM Household-Community, Reality, Freedom, Whiteness, or Oneness. Varied subjects are explored as symbiotic - as could be related to Spinoza's 'All is One and The One is Divine', to 'Selassie is The Chapel', to Hegel's 'God' dwelling within Humankind & permanently pervading the universe - related to shared African principles of an all-manifesting

all-embracing 'NTU', or JAH of Rastafari. Of Nature's Logic & Kant's 'Categorical Imperative' for universal oneness. Concept 'Babylon' deconstructed throughout, as is 'Zion'. Of 'Concrete Jungle', The City, Marketed 'God', Moral Relativity, "life-long insecurity." " . . the heavy and the weary weight / Of all this unintelligible world / Is lightened." Mekfet invites you to be free 'of being psychologically blind. For YOU, are living of some measure & mix of philosophy . . that you may be living unperceived." to be recognized "for sense of options for direction. ." - Mother Africa's Philosophy, Rastafari, The Bible, & cross-refs philosophy of West & East - Philosophy in Reggae, Jazz, Dancehall Music: Atavistic Appeal African Rhythms Worldwide - Culture of Politics, Mis-Education, Violence & Masculinity in 'Jamaica/'Carry-beyond' - A Rastafari Journey, Jamaica & Social Prejudice - Animism & Literary Imagery. Multi-cultural imagery 'Christ'/Re-patria-tion/Ancestor Worship - 'Israel' & 'Jerusalem' not as geographical entities, but as universal concepts for social organization related to Rhythm of Ecology & Bio-diversity, the Cosmos as a single organism, & Bio-mimicry - all antithesis of concept of 'Babylon' *The Calendar of Owens college, Manchester* - Manchester univ 1883

Multiple Representations in Chemical Education - John K. Gilbert 2009-02-28

Chemistry seeks to provide qualitative and quantitative explanations for the observed behaviour of elements and their compounds. Doing so involves making use of three types of representation: the macro (the empirical properties of substances); the sub-micro (the natures of the entities giving rise to those properties); and the symbolic (the number of entities involved in any changes that take place). Although understanding this triplet relationship is a key aspect of chemical education, there is considerable evidence that students find great difficulty in achieving mastery of the ideas involved. In bringing together the work of leading chemistry educators who are researching the triplet relationship at the secondary and university levels, the book discusses the learning involved, the problems that students encounter, and successful approaches to teaching. Based on the reported research, the editors argue for a coherent model for understanding the triplet relationship in chemical education.
