If you desire to funny books, lots of novels, tale, jokes, and more fictions collections are along with launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all ebook collections The Portable Atheist Essential Readings For The No that we will agreed offer. It is not regarding the costs. Its not quite what you obsession currently. This The Portable Atheist Essential Readings For The No , as one of the most effective sellers here will utterly be in the midst of the best options to review.

The Happy Atheist - PZ Myers 2014-05-06
On his popular science blog, Pharyngula, PZ Myers has entertained millions of readers with his infectious love of evolutionary science and his equally infectious disdain for creationism,

biblical literalism, intelligent design theory, and other products of godly illogic. This funny and fearless book collects and expands on some of his most popular writings, giving the religious fanaticism of our times the gleeful disrespect it

deserves by skewering the apocalyptic fantasies, magical thinking, hypocrisies, and pseudoscientific theories advanced by religious fundamentalists of all stripes. Forceful and articulate, scathing and funny, *The Happy Atheist* is a reaffirmation of the revelatory power of humor and the truth-revealing powers of science and reason.

Tibetan Buddhism: A Very Short Introduction - Matthew Kapstein 2014

What does Tibetan Buddhism teach? Just what is the position of the Dalai Lama, and how will his succession be assured? This Very Short Introduction offers a brief account responding to these questions and more, in terms that are easily accessible to those who are curious to learn the most essential features of Tibetan Buddhist history, teachings, and practice.

The Portable Faulkner - William Faulkner 2003-02-25

"A real contribution to the study of Faulkner's work." —Edmund Wilson A Penguin Classic In

prose of biblical grandeur and feverish intensity, William Faulkner reconstructed the history of the American South as a tragic legend of courage and cruelty, gallantry and greed, futile nobility and obscene crimes. He set this legend in a small, minutely realized parallel universe that he called Yoknapatawpha County, Mississippi. No single volume better conveys the scope of Faulkner's vision than *The Portable Faulkner*. The book includes self-contained episodes from the novels *The Sound and the Fury*, *Light in August*, and *Sanctuary*; the stories "The Bear," "Spotted Horses," "A Rose for Emily," and "Old Man," among others; a map of Yoknapatawpha County and a chronology of the Compson family created by Faulkner especially for this edition; and the complete text of Faulkner's 1950 address upon receiving the Nobel Prize in literature. Malcolm Cowley's critical introduction was praised as "splendid" by Faulkner himself. For more than seventy years, Penguin has been the leading publisher of

classic literature in the English-speaking world. With more than 1,800 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Atheist's Bible - Georges Minois

2012-10-12

This intellectual history of a rumored book of heresy reveals a persistent undercurrent of atheism from the Middle Ages into the 18th century. In 1239, Pope Gregory IX accused Frederick II, the Holy Roman Emperor, of heresy. Without disclosing evidence of any kind, Gregory announced that Frederick had written a supremely blasphemous book—*De tribus impostoribus*, or the *Treatise of the Three Impostors*—in which Frederick denounced Moses, Jesus, and Muhammad as impostors. Of

course, Frederick denied the charge, and over the following centuries the story played out across Europe, with libertines, freethinkers, and other “strong minds” seeking a copy of the scandalous text. The fascination persisted until finally, in the eighteenth century, someone brought the purported work into actual existence—in not one but two versions, Latin and French. Although historians have debated the origins and influences of this most apocryphal book, there has not been a comprehensive biography of the *Treatise of the Three Impostors*. In *The Atheist's Bible*, historian Georges Minois tracks the course of the book from its origins in 1239 to its most salient episodes in the seventeenth and eighteenth centuries, introducing readers to the colorful individuals obsessed with possessing the legendary work—and the equally obsessive passion of those who wanted to punish people who sought it. Minois's compelling account sheds much-needed light on the power of

atheism, the threat of blasphemy, and the persistence of free thought during a time when the outspoken risked being burned at the stake. "[A] timely and elegant study...Readers who are intrigued or scandalized by the diatribes of Richard Dawkins or Christopher Hitchens will discover in *The Atheist's Bible* that, as that other Bible says, there is nothing new under the sun."—Walter Stephens, author of *Demon Lovers*

Against Atheism - Ian S. Markham 2011-09-13

In this new book, Ian Markham analyzes the atheistic world view, opposing the arguments given by renowned authors of books on atheism, such as Richard Dawkins. Unlike other responses to the new atheism, Markham challenges these authors on their own ground by questioning their understanding of belief and of atheism itself. The result is a transforming introduction to Christianity that will appeal to anyone interested in this debate. A fascinating challenge to the recent spate of successful books written by high-profile atheist authors such as

Richard Dawkins, Christopher Hitchens, and Sam Harris Tackles these authors on their own ground, arguing that they do not understand the nature of atheism, let alone theology and ethics. Draws on ideas from Nietzsche, cosmology, and art to construct a powerful response that allows for a faith that is grounded, yet one that recognizes the reality of uncertainty. Succinct, engaging, but robustly argued, this new book by a leading academic and writer contains a wealth of profound insights that show religious belief in a new light.

The Portable Atheist - Christopher Hitchens
2007-12-10

Christopher Hitchens's personally curated New York Times bestselling anthology of the most influential and important writings on atheism, including original pieces by Salman Rushdie and Ian McEwan. From the #1 New York Times bestselling author of *God Is Not Great*, a provocative and entertaining guided tour of atheist and agnostic thought through the ages--with never-

before-published pieces by Salman Rushdie, Ian McEwan, and Ayaan Hirsi Ali. Christopher Hitchens continues to make the case for a splendidly godless universe in this first-ever gathering of the influential voices--past and present--that have shaped his side of the current (and raging) God/no-god debate. With Hitchens as your erudite and witty guide, you'll be led through a wealth of philosophy, literature, and scientific inquiry, including generous portions of the words of Lucretius, Benedict de Spinoza, Charles Darwin, Karl Marx, Mark Twain, George Eliot, Bertrand Russell, Emma Goldman, H. L. Mencken, Albert Einstein, Daniel Dennett, Sam Harris, Richard Dawkins, and many others well-known and lesser known. And they're all set in context and commented upon as only Christopher Hitchens--"political and literary journalist extraordinaire" (Los Angeles Times)--can. Atheist? Believer? Uncertain? No matter: The Portable Atheist will speak to you and engage you every step of the way.

Religion and Spirituality - Eliot Deutsch
1995-07-01

Through the skillful use of a great variety of literary genres, this book explores the intimate relation and tension between religion and spirituality, evoking a wide range of responses that may awaken one to various possibilities of spiritual experience.

Letters to a Young Contrarian - Christopher Hitchens 2009-04-28

"Art of Mentoring" series In the book that he was born to write, provocateur and best-selling author Christopher Hitchens inspires future generations of radicals, gadflies, mavericks, rebels, angry young (wo)men, and dissidents. Who better to speak to that person who finds him or herself in a contrarian position than Hitchens, who has made a career of disagreeing in profound and entertaining ways. This book explores the entire range of "contrary positions"--from noble dissident to gratuitous pain in the butt. In an age of overly polite debate bending

5/20

Downloaded from latitudenews.com on
by guest

over backward to reach a happy consensus within an increasingly centrist political dialogue, Hitchens pointedly pitches himself in contrast. He bemoans the loss of the skills of dialectical thinking evident in contemporary society. He understands the importance of disagreement-to personal integrity, to informed discussion, to true progress-heck, to democracy itself.

Epigrammatic, spunky, witty, in your face, timeless and timely, this book is everything you would expect from a mentoring contrarian.

Marketplace of the Gods - Larry Witham
2010-05-05

Preface -- The economic approach -- Rational people and religion -- Life in the household -- The gods of risk -- Why religions form -- History of an idea -- Marketplace of the gods -- Debating secularism -- How religion shapes economics -- The merits of mammon.

[An Atheist's History of Belief](#) - Matthew Kneale
2014-01-14

What first prompted prehistoric man, sheltering

in the shadows of deep caves, to call upon the realm of the spirits? And why has belief thrived since, shaping thousands of generations of shamans, pharaohs, Aztec priests and Mayan rulers, Jews, Buddhists, Christians, Nazis, and Scientologists? As our dreams and nightmares have changed over the millennia, so have our beliefs. The gods we created have evolved and mutated with us through a narrative fraught with human sacrifice, political upheaval and bloody wars. Belief was man's most epic labor of invention. It has been our closest companion, and has followed mankind across the continents and through history.

The Portable Atheist - Christopher Hitchens
2007-11-06

Presents excerpts on the subject of religion from the writings of such notable non-believers as John Stuart Mill, Karl Marx, Charles Darwin, Mark Twain, H. L. Mencken, Albert Einstein, Richard Dawkins, and Salman Rushdie.

Mortality - Christopher Hitchens 2012-09-04

On June 8, 2010, while on a book tour for his bestselling memoir, *Hitch-22*, Christopher Hitchens was stricken in his New York hotel room with excruciating pain in his chest and thorax. As he would later write in the first of a series of award-winning columns for *Vanity Fair*, he suddenly found himself being deported "from the country of the well across the stark frontier that marks off the land of malady." Over the next eighteen months, until his death in Houston on December 15, 2011, he wrote constantly and brilliantly on politics and culture, astonishing readers with his capacity for superior work even in extremis. Throughout the course of his ordeal battling esophageal cancer, Hitchens adamantly and bravely refused the solace of religion, preferring to confront death with both eyes open. In this riveting account of his affliction, Hitchens poignantly describes the torments of illness, discusses its taboos, and explores how disease transforms experience and changes our relationship to the world around us. By turns

personal and philosophical, Hitchens embraces the full panoply of human emotions as cancer invades his body and compels him to grapple with the enigma of death. *MORTALITY* is the exemplary story of one man's refusal to cower in the face of the unknown, as well as a searching look at the human predicament. Crisp and vivid, veined throughout with penetrating intelligence, Hitchens's testament is a courageous and lucid work of literature, an affirmation of the dignity and worth of man.

A Manual for Creating Atheists - Peter Boghossian 2014-07-01

For thousands of years, the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another. Indeed, the faithful often view converting others as an obligation of their faith—and are trained from an early age to spread their unique brand of religion. The result is a world broken in large part by unquestioned faith. As an urgently needed counter to this tried-and-true tradition of

religious evangelism, *A Manual for Creating Atheists* offers the first-ever guide not for talking people into faith—but for talking them out of it. Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality, cast doubt on their religious beliefs, mistrust their faith, abandon superstition and irrationality, and ultimately embrace reason.

Arguably - Christopher Hitchens 2011-09-01

"All first-rate criticism first defines what we are confronting," the late, great jazz critic Whitney Balliett once wrote. By that measure, the essays of Christopher Hitchens are in the first tier. For nearly four decades, Hitchens has been telling us, in pitch-perfect prose, what we confront when we grapple with first principles—the principles of reason and tolerance and skepticism that define and inform the foundations of our civilization—principles that, to

endure, must be defended anew by every generation. "A short list of the greatest living conversationalists in English," said *The Economist*, "would probably have to include Christopher Hitchens, Sir Patrick Leigh-Fermor, and Sir Tom Stoppard. Great brilliance, fantastic powers of recall, and quick wit are clearly valuable in sustaining conversation at these cosmic levels. Charm may be helpful, too." Hitchens—who staunchly declines all offers of knighthood—hereby invites you to take a seat at a democratic conversation, to be engaged, and to be reasoned with. His knowledge is formidable, an encyclopedic treasure, and yet one has the feeling, reading him, of hearing a person thinking out loud, following the inexorable logic of his thought, wherever it might lead, unafraid to expose fraudulence, denounce injustice, and excoriate hypocrisy. Legions of readers, admirers and detractors alike, have learned to read Hitchens with something approaching awe at his felicity of language, the oxygen in every

sentence, the enviable wit and his readiness, even eagerness, to fight a foe or mount the ramparts. Here, he supplies fresh perceptions of such figures as varied as Charles Dickens, Karl Marx, Rebecca West, George Orwell, J.G. Ballard, and Philip Larkin are matched in brilliance by his pungent discussions and intrepid observations, gathered from a lifetime of traveling and reporting from such destinations as Iran, China, and Pakistan. Hitchens's directness, elegance, lightly carried erudition, critical and psychological insight, humor, and sympathy-applied as they are here to a dazzling variety of subjects-all set a standard for the essayist that has rarely been matched in our time. What emerges from this indispensable volume is an intellectual self-portrait of a writer with an exemplary steadiness of purpose and a love affair with the delights and seductions of the English language, a man anchored in a profound and humane vision of the human longing for reason and justice.

The Quotable Hitchens - Windsor Mann

2011-05-10

Includes never-before-collected quotes from the controversial best-selling author on hundreds of subjects--from atheism and alcoholism to Iraq and George Orwell.

Atheism - Michael Ruse 2015

Over the last decade, New Atheists such as Sam Harris, Richard Dawkins, and Christopher Hitchens have pushed the issue of atheism to the forefront of public discussion. Yet very few of the ensuing debates and discussions have managed to provide a full and objective treatment of the subject. *Atheism: What Everyone Needs to Know* provides a balanced look at the topic, considering atheism historically, philosophically, theologically, sociologically and psychologically. Written in an easily accessible style, the book uses a question and answer format to examine the history of atheism, arguments for and against atheism, the relationship between religion and science, and the issue of the

9/20

Downloaded from latitudenews.com on
by guest

meaning of life-and whether or not one can be a happy and satisfied atheist. Above all, the author stresses that the atheism controversy is not just a matter of the facts, but a matter of burning moral concern, both about the stand one should take on the issues and the consequences of one's commitment.

The God Argument - A. C. Grayling 2014-01-01

The first book to deal with all the arguments against religion and, equally important, to put forward an alternative - humanism

Atheism For Dummies - Dale McGowan

2013-02-25

The easy way to understand atheism and secular philosophy For people seeking a non-religious philosophy of life, as well as believers with atheist friends, Atheism For Dummies offers an intelligent exploration of the historical and moral case for atheism. Often wildly misunderstood, atheism is a secular approach to life based on the understanding that reality is an arrangement of physical matter, with no consideration of

unverifiable spiritual forces. Atheism For Dummies offers a brief history of atheist philosophy and its evolution, explores it as a historical and cultural movement, covers important historical writings on the subject, and discusses the nature of ethics and morality in the absence of religion. A simple, yet intelligent exploration of an often misunderstood philosophy Explores the differences between explicit and implicit atheism A comprehensive, readable, and thoroughly unbiased resource As the number of atheists worldwide continues to grow, this book offers a broad understanding of the subject for those exploring atheism as an approach to living.

Hitch-22 - Christopher Hitchens 2010-06-02
Over the course of his 60 years, Christopher Hitchens has been a citizen of both the United States and the United Kingdom. He has been both a socialist opposed to the war in Vietnam and a supporter of the U.S. war against Islamic extremism in Iraq. He has been both a foreign

correspondent in some of the world's most dangerous places and a legendary bon vivant with an unquenchable thirst for alcohol and literature. He is a fervent atheist, raised as a Christian, by a mother whose Jewish heritage was not revealed to him until her suicide. In other words, Christopher Hitchens contains multitudes. He sees all sides of an argument. And he believes the personal is political. This is the story of his life, lived large.

Arguing for Atheism - Robin Le Poidevin
2003-09-02

First Published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

The Rage Against God - Peter Hitchens
2011-07-21

In a fascinating account, Peter Hitchens describes his autobiographical and spiritual journey from atheism to faith in God through the power of reasoning.

Radical - Maajid Nawaz 2016-03-01

Maajid Nawaz spent his teenage years listening

to American hip-hop and learning about the radical Islamist movement spreading throughout Europe and Asia in the 1980s and 90s. At 16, he was already a ranking member in Hizb ut-Tahrir, a London-based Islamist group. He quickly rose through the ranks to become a top recruiter, a charismatic spokesman for the cause of uniting Islam's political power across the world. Nawaz was setting up satellite groups in Pakistan, Denmark, and Egypt when he was rounded up in the aftermath of 9/11 along with many other radical Muslims. He was sent to an Egyptian prison where he was, fortuitously, jailed along with the assassins of Egyptian President Anwar Sadat. The 20 years in prison had changed the assassins' views on Islam and violence; Maajid went into prison preaching to them about the Islamist cause, but the lessons ended up going the other way. He came out of prison four years later completely changed, convinced that his entire belief system had been wrong, and determined to do something about it. He met

with activists and heads of state, built a network, and started a foundation, Quilliam, funded by the British government, to combat the rising Islamist tide in Europe and elsewhere, using his intimate knowledge of recruitment tactics in order to reverse extremism and persuade Muslims that the 'narrative' used to recruit them (that the West is evil and the cause of all of Muslim suffering), is false. Radical, first published in the UK, is a fascinating and important look into one man's journey out of extremism and into something else entirely. This U.S. edition contains a "Preface for US readers" and a new, updated epilogue.

The Oxford Handbook of Atheism - Stephen Bullivant 2013-11

This handbook is a pioneering edited volume, exploring atheism - understood in the broad sense of 'an absence of belief in the existence of a God or gods' - in its historical and contemporary expressions. It probes the varied manifestations and implications of unbelief from

an array of disciplinary perspectives and in a range of global contexts.

Against Religion: The Atheist Writings of H.P. Lovecraft - H. P. Lovecraft 2010

Collection of letters and essays on religion, atheism, and related subjects.

The Age of Atheists - Peter Watson 2014-02-18

The distinguished historian and author of *The Medici Conspiracy* examines atheism as a modern intellectual achievement that has motivated individuals to pursue invention and self-reliance, citing the accomplishments of secular philosophers, scientists and artists who have worked in the absence of religious belief.

Why Orwell Matters - Christopher Hitchens 2008-08-06

"Hitchens presents a George Orwell fit for the twenty-first century." --Boston Globe In this widely acclaimed biographical essay, the masterful polemicist Christopher Hitchens assesses the life, the achievements, and the myth of the great political writer and participant

George Orwell. True to his contrarian style, Hitchens is both admiring and aggressive, sympathetic yet critical, taking true measure of his subject as hero and problem. Answering both the detractors and the false claimants, Hitchens tears down the façade of sainthood erected by the hagiographers and rebuts the critics point by point. He examines Orwell and his perspectives on fascism, empire, feminism, and Englishness, as well as his outlook on America, a country and culture toward which he exhibited much ambivalence. Whether thinking about empires or dictators, race or class, nationalism or popular culture, Orwell's moral outlook remains indispensable in a world that has undergone vast changes in the seven decades since his death. Combining the best of Hitchens' polemical punch and intellectual elegance in a tightly woven and subtle argument, this book addresses not only why Orwell matters today, but how he will continue to matter in a future, uncertain world.

Love, Poverty, and War - Christopher Hitchens

2004-11-24

"I did not, I wish to state, become a journalist because there was no other 'profession' that would have me. I became a journalist because I did not want to rely on newspapers for information." Love, Poverty and War: Journeys and Essays showcases America's leading polemicist's rejection of consensus and cliché, whether he's reporting from abroad in Indonesia, Kurdistan, Iraq, North Korea, or Cuba, or when his pen is targeted mercilessly at the likes of William Clinton, Mother Theresa ("a fanatic, a fundamentalist and a fraud"), the Dalai Lama, Noam Chomsky, Mel Gibson and Michael Bloomberg. Hitchens began the nineties as a "darling of the left" but has become more of an "unaffiliated radical" whose targets include those on the "left," who he accuses of "fudging" the issue of military intervention in the Balkans, Afghanistan and Iraq. Yet, as Hitchens shows in his reportage, cultural and literary criticism, and opinion essays from the last decade, he has not

jumped ship and joined the right but is faithful to the internationalist, contrarian and democratic ideals that have always informed his work.

Godless - Dan Barker 2008-09

A former preacher tell why he abandoned the guidance of the Bible to follow the dictates of own conscience.

The Portable Atheist - Christopher Hitchens 2007-12-10

Christopher Hitchens's personally curated New York Times bestselling anthology of the most influential and important writings on atheism, including original pieces by Salman Rushdie and Ian McEwan From the #1 New York Times best-selling author of God Is Not Great, a provocative and entertaining guided tour of atheist and agnostic thought through the ages--with never-before-published pieces by Salman Rushdie, Ian McEwan, and Ayaan Hirsi Ali. Christopher Hitchens continues to make the case for a splendidly godless universe in this first-ever gathering of the influential voices--past and

present--that have shaped his side of the current (and raging) God/no-god debate. With Hitchens as your erudite and witty guide, you'll be led through a wealth of philosophy, literature, and scientific inquiry, including generous portions of the words of Lucretius, Benedict de Spinoza, Charles Darwin, Karl Marx, Mark Twain, George Eliot, Bertrand Russell, Emma Goldman, H. L. Mencken, Albert Einstein, Daniel Dennett, Sam Harris, Richard Dawkins, and many others well-known and lesser known. And they're all set in context and commented upon as only Christopher Hitchens--"political and literary journalist extraordinaire" (Los Angeles Times)--can. Atheist? Believer? Uncertain? No matter: The Portable Atheist will speak to you and engage you every step of the way.

The Atheist's Bible - Joan Konner 2009-10-13

"All thinking men are atheists," Ernest Hemingway famously wrote. True? Here are quips, quotes, and questions from a distinguished assortment of geniuses and jokers,

giving readers a chance to decide for themselves.... When I think of all the harm [the bible] has done, I despair of ever writing anything to equal it. Oscar Wilde SAINT, n. A dead sinner revised and edited. Ambrose Bierce There ain't no answer. There ain't going to be any answer. There never has been an answer. That's the answer. Gertrude Stein Do not let yourself be deceived: great intellects are skeptical. Friedrich Nietzsche Millions long for immortality who don't know what to do with themselves on a rainy Sunday afternoon. Susan Ertz God is love, but get it in writing. Gypsy Rose Lee Nothing is at last sacred but the integrity of our own mind. Ralph Waldo Emerson The fact that a believer is happier than a skeptic is no more to the point than the fact that a drunken man is happier than a sober one. George Bernard Shaw

The Christian Delusion - John W. Loftus 2010
In this anthology of recent criticisms aimed at the reasonableness of Christian belief, former

evangelical minister and apologist Loftus has assembled fifteen outstanding articles by leading skeptics, expanding on themes introduced in Loftus' first book.

Atheism - George H. Smith 2010-11-02

"Does a god exist? This question has undoubtedly been asked, in one form or another, since man has had the ability to communicate. . . Thousands of volumes have been written on the subject of a god, and the vast majority have answered the questions with a resounding 'Yes!' " "You are about to read a minority viewpoint." With this intriguing introduction, George H. Smith sets out to demolish what he considers the most widespread and destructive of all the myths devised by man - the concept of a supreme being. With painstaking scholarship and rigorous arguments, Mr. Smith examines, dissects, and refutes the myriad "proofs" offered by theists - the defenses of sophisticated, professional theologians, as well as the average religious layman. He explores the historical and

psychological havoc wrought by religion in general - and concludes that religious belief cannot have any place in the life of modern, rational man. "It is not my purpose to convert people to atheism . . . (but to) demonstrate that the belief in God is irrational to the point of absurdity. If a person wishes to continue believing in a god, that is his prerogative, but he can no longer excuse his belief in the name of reason and moral necessity."

No One Left to Lie to - Christopher Hitchens
2000

Suggests that President Clinton's largest legacy may be the weakening of the presidency and of the Democratic Party.

Why There Is No God - Armin Navabi
2014-10-06

"Science can't explain the complexity and order of life; God must have designed it to be this way." "God's existence is proven by scripture." "There's no evidence that God doesn't exist." "God has helped me so much. How could

none of it be true?" "Atheism has killed more people than religion, so it must be wrong!" How many times have you heard arguments like these for why God exists? **Why There Is No God: Simple Responses to 20 Common Arguments for the Existence of God** provides simple, easy-to-understand counterpoints to the most popular arguments made for the existence of God. Each chapter presents a concise explanation of the argument, followed by a response illustrating the problems and fallacies inherent in it. Whether you're an atheist, a believer or undecided, this book offers a solid foundation for building your own inquiry about the concept of God.

God Is Not Great - Christopher Hitchens
2008-11-19

Christopher Hitchens, described in the London Observer as "one of the most prolific, as well as brilliant, journalists of our time" takes on his biggest subject yet-the increasingly dangerous role of religion in the world. In the tradition of

Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's recent bestseller, *The End Of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix.

The Atheist's Guide to Reality: Enjoying Life without Illusions - Alex Rosenberg 2011-10-03
A book for nonbelievers who embrace the reality-driven life. We can't avoid the persistent questions about the meaning of life-and the nature of reality. Philosopher Alex Rosenberg maintains that science is the only thing that can

really answer them—all of them. His bracing and ultimately upbeat book takes physics seriously as the complete description of reality and accepts all its consequences. He shows how physics makes Darwinian natural selection the only way life can emerge, and how that deprives nature of purpose, and human action of meaning, while it exposes conscious illusions such as free will and the self. The science that makes us nonbelievers provides the insight into the real difference between right and wrong, the nature of the mind, even the direction of human history. *The Atheist's Guide to Reality* draws powerful implications for the ethical and political issues that roil contemporary life. The result is nice nihilism, a surprisingly sanguine perspective atheists can happily embrace.

Atheism - S. T. Joshi 2000

An anthology of writings on atheism, agnosticism, and skepticism by some of the world's most celebrated thinkers.

Spinoza's Religion - Clare Carlisle 2021-09-07

A bold reevaluation of Spinoza that reveals his powerful, inclusive vision of religion for the modern age Spinoza is widely regarded as either a God-forsaking atheist or a God-intoxicated pantheist, but Clare Carlisle says that he was neither. In *Spinoza's Religion*, she sets out a bold interpretation of Spinoza through a lucid new reading of his masterpiece, the *Ethics*. Putting the question of religion centre-stage but refusing to convert Spinozism to Christianity, Carlisle reveals that "being in God" unites Spinoza's metaphysics and ethics. *Spinoza's Religion* unfolds a powerful, inclusive philosophical vision for the modern age—one that is grounded in a profound questioning of how to live a joyful, fully human life. Like Spinoza himself, the *Ethics* doesn't fit into any ready-made religious category. But Carlisle shows how it wrestles with the question of religion in strikingly original ways, responding both critically and constructively to the diverse, broadly Christian context in which Spinoza lived

and worked. Philosophy itself, as Spinoza practiced it, became a spiritual endeavor that expressed his devotion to a truthful, virtuous way of life. Offering startling new insights into Spinoza's famously enigmatic ideas about eternal life and the intellectual love of God, Carlisle uncovers a Spinozist religion that integrates self-knowledge, desire, practice, and embodied ethical life to reach toward our "highest happiness"—to rest in God. Seen through Carlisle's eyes, the *Ethics* prompts us to rethink not only Spinoza but also religion itself.

[Religion for Atheists](#) - Alain De Botton

2012-03-06

From the author of *The Architecture of Happiness*, a deeply moving meditation on how we can still benefit, without believing, from the wisdom, the beauty, and the consolatory power that religion has to offer. Alain de Botton was brought up in a committedly atheistic household, and though he was powerfully swayed by his parents' views, he underwent, in his mid-

twenties, a crisis of faithlessness. His feelings of doubt about atheism had their origins in listening to Bach's cantatas, were further developed in the presence of certain Bellini Madonnas, and became overwhelming with an introduction to Zen architecture. However, it was not until his father's death -- buried under a Hebrew headstone in a Jewish cemetery because he had intriguingly omitted to make more secular arrangements -- that Alain began to face the full degree of his ambivalence regarding the views of religion that he had dutifully accepted. Why are we presented with the curious choice between either committing to peculiar concepts about immaterial deities or letting go entirely of a host of consoling, subtle and effective rituals and practices for which there is no equivalent in secular society? Why do we bristle at the mention of the word "morality"? Flee from the idea that art should be uplifting, or have an ethical purpose? Why don't we build temples? What mechanisms do we have for expressing

gratitude? The challenge that de Botton addresses in his book: how to separate ideas and practices from the religious institutions that have laid claim to them. In *Religion for Atheists* is an argument to free our soul-related needs from the particular influence of religions, even if it is, paradoxically, the study of religion that will allow us to rediscover and rearticulate those needs.

Outgrowing God - Richard Dawkins 2019-10-08
Should we believe in God? In this brisk introduction to modern atheism, one of the world's greatest science writers tells us why we shouldn't. Richard Dawkins was fifteen when he stopped believing in God. Deeply impressed by the beauty and complexity of living things, he'd felt certain they must have had a designer. Learning about evolution changed his mind. Now one of the world's best and bestselling science communicators, Dawkins has given readers, young and old, the same opportunity to rethink the big questions. In twelve fiercely funny, mind-

expanding chapters, Dawkins explains how the natural world arose without a designer—the improbability and beauty of the “bottom-up programming” that engineers an embryo or a flock of starlings—and challenges head-on some of the most basic assumptions made by the world’s religions: Do you believe in God? Which one? Is the Bible a “Good Book”? Is adhering to a religion necessary, or even likely, to make people good to one another? Dissecting everything from Abraham’s abuse of Isaac to the construction of a snowflake, *Outgrowing God* is a concise, provocative guide to thinking for yourself. Praise for *Outgrowing God* “My son came home from his first day in the sixth grade with arms outstretched plaintively demanding to know: ‘Have you ever heard of Jesus?’ We burst out laughing. Maybe not our finest parenting

moment, given that he was genuinely distraught. He felt that he had woken up one day to a world in which his peers were expressing beliefs he found frighteningly unreasonable. He began devouring books like *The God Delusion*, books that helped him formulate his own arguments and helped him stand his ground. Dawkins’s new book is special in the terrain of atheists’ pleas for humanism and rationalism precisely since it speaks to those most vulnerable to the coercive tactics of religion. As Dawkins himself says in the dedication, this book is for ‘all young people when they’re old enough to decide for themselves.’ It is also, I must add, for their parents.”—Janna Levin, author of *Black Hole Blues* “When someone is considering atheism I tell them to read the Bible first and then Dawkins. *Outgrowing God*—second only to the Bible!”—Penn Jillette, author of *God, No!*
