Being Love - Sister Shivani

We can each radiate unconditional love. We don't even need to create it - we are love. But the flow of love is blocked in moments of hurt, blame, anger, criticism, competition or insecurity. These emotions have dominated our emotional space, and hardly enable us to feel our own love. So today, we rely on someone else to love us. This book teaches us to think right, enable self-love, feel it and extend it to other people. The central message here is that love is not 'out there', but within us. A spectrum of emotions like attachment, expectations, hurt, worry, stress, fear or anger, which we use in the pretext of love, are analysed. The conversations also explore the fact that the parent-child relationship is not challenging - It does not need to be. As you free yourself from

judgments and expectations, as you start thinking right for people, and as you accept people for who they are, you become a Radiator of unconditional love. You are one decision away from vibrating at a frequency of love ... by not needing love or giving love - but just by being love.

Leaders Eat Last - Simon Sinek 2014-01-07

The New York Times bestseller by the acclaimed, bestselling author of *Start With Why* and *Together is Better*. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video "Millenials in the workplace" (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear

during a conversation with a Marine Corps general.

"Officers eat last," he said.

Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice their own comfort--even their own survival--for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a "Circle of Safety" that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.

tension. The Awkward Black Man collects seventeen of Mosley's most accomplished short stories to showcase the full range of his remarkable talent. Touching, contemplative, and always surprising, these stories introduce an array of imperfect characters—awkward, self-defeating, elf-involved, or just plain odd. In *The Awkward Black Man*, Mosley overturns the stereotypes that corral black male characters and paints subtle, powerful portraits of unique individuals. In "The Good News Is," a man's insecurity about his weight gives way to illness and a loneliness so intense that he'd do anything for a little human comfort. "Pet Fly," previously published in the *New Yorker*, follows a man working as a mailroom clerk—a solitary job for which he is overqualified—and the unforeseen repercussions he endures when he attempts to forge a new connection. And "Almost Alyce" chronicles failed loves, family loss, alcoholism, and a Zen approach

to the art of begging that proves surprisingly effective. [The Ukrainian Night](#) - Marci Shore 2018-01-09
A vivid and intimate account of the Ukrainian Revolution, the rare moment when the political became the existential. What is worth dying for? While the world watched the uprising on the Maidan as an episode in geopolitics, those in Ukraine during the extraordinary winter of 2013-14 lived the revolution as an existential transformation: the blurring of night and day, the loss of a sense of time, the sudden disappearance of fear, the imperative to make choices. In this lyrical and intimate book, Marci Shore evokes the human face of the Ukrainian Revolution. Grounded in the true stories of activists and soldiers, parents and children, Shore's book blends a narrative of suspenseful choices with a historian's reflections on what revolution is and what it means. She gently sets her portraits of individual revolutionaries against the past as they understand it—and the
