Keepers of Tradition - Maggie Holtzberg 2008

Throughout Massachusetts, artists carry on and revitalize deeply rooted traditions that take many expressive forms--from Native American basketry to Yankee wooden boats, Armenian lace, Chinese seals, Puerto Rican santos, and Irish music and dance. These keepers of tradition are recognized in their communities as outstanding practitioners of craft, music, dance, and sacred arts. Yet much of this work is hidden to the public at large, remaining essentially unknown beyond the local community in which it flourishes. This beautifully illustrated volume celebrates and shares the work of a wide array of these living artists. Passed down from person to person within both long-settled and new immigrant communities, traditional art involves the shaping of deeply held cultural values into meaningful artistic forms. Keepers of Tradition presents material drawn from eight years of intensive field research by folklorists at the Massachusetts Cultural Council--an investigation that has taken researchers into the homes, kitchens, workshops, dance halls, places of worship, parade routes, and festival sites where traditional art is produced, used, valued, and displayed. Featuring more than sixty artists from communities across the state, Keepers of Tradition showcases high levels of mastery in diverse media--the uniformity and handiness of a Nantucket Lightship basket, the Native quill work on a tobacco pouch, the vibrant colors and textures of a Caribbean Carnival costume, the exquisite gestures of Cambodian dance. At the same time, the text describes the deeply personal and cultural context for each piece of work. This volume is published in conjunction with an exhibition of the same name, organized by the Massachusetts Cultural Council and the National Heritage Museum in Lexington, Massachusetts, and on view there from May 2008 through February 2009.

Learn To Draw Kolam Designs With 5 Dots - Nolan Schumer 2021-07-07

This book covers kolams of varying complexity and for daily use and festive occasions. These kolams are so authentic and bring back old memories of growing up in south India where every street is adorned with kolams. Kōlam drawing is an integral part of South Indian tradition. Drawn freehand at the entrance to a home, kolam patterns represent the interconnected existence of the universe and its life forms, exemplifying geometrical symmetry, beauty and precision. The cultural and ritual significance of kolam is depicted in ancient Vedic literature as the

interaction between space, time and energy denoting the symbolic mapping of the cosmos. By connecting the dots, the artist creates a complex network of intertwined designs that represents the rhythm of life, movement, health and happiness. The designs are hand-drawn by women to honor, welcome and invite guests to their home and express gratitude to the divine. In this book, the author's mother illustrates the step-by-step process of connecting the dots to create simple to intricate kolams. It can be used by any art enthusiast to explore techniques for recreational drawing, team building activities, art projects, meditation and focus, or to simply study and practice South India's rich culture and tradition.

Women - 2015-10-20

"Rosetti's illustrations are personalized affirmations of the rights of women. They congratulate the empowered, comfort the survivors, and present rebuttals to the oppressive comments that rain down upon women from the heights of the patriarchy." —Bust The message we receive from the world is clear: we're not good enough. We're not skinny enough, pretty enough, smart enough. Women is all about accepting ourselves. Carol Rossetti asks us instead to say, "We're not good enough—we're even better." Despite the progress we've made as a society, there is still a cruel and subtle gender oppression that exists today—and many don't realize it's there. In response, Rossetti decided to draw women to focus on the issues we face. Her illustrations are of women who feel safe expressing themselves by showing the world their fashion, sexuality, relationships, religion, disabilities, and even traumatic experiences. Rossetti's commanding images belong on billboards and street corners and in schools and offices to remind us that our unique experiences and expressions should make us feel beautiful, intelligent, and proud. We have the power to embrace who we are and can stop trying so hard to please the rest of the world. Carol Rossetti and Women offer us a vision of who we can be.

Shakahaari - Pritpal Marwaha 2012-10-23

The Cookbook with a New Twist! There are a lot of Vegetarians all over the world now, as compared to some couple of decades ago, when it was extremely difficult for a Vegetarian to even buy cookies or bread without eggs, wondering what was in the package! You could never really know about the quality and integrity of the contents within. Years ago, being Vegetarians was looked upon with disdain, frowned upon, and sometimes with very surprised looks, as if we were from another planet! It was unbelievable to them as to how a Vegetarian could even survive without meat! We grew up in five countries, and we were constantly on the move for a good 20 years. My father, Atma Singh, was a Diplomat in the Indian Foreign Service, and we did a lot of entertaining and partying, and needed great food – and lots of varieties, too! With my mom, Kuljit's expert culinary skills, bless her generous heart, we churned out tons of mouth-watering sweet and savoury snacks and foods. I had a first hand experience with the culinary expert, my mom, who improvised and invented recipes. I was amazed that she had all the recipes in her memory, with the exact proportions. She was the darling and life of the party. We were the famous Indian Vegetarian Family! Many recipes in this Book are North Indian, some South Indian as well, with some great contributions from friends and family. We used to make our own fried snacks, homemade Ketchup, Pizzas, sweet and savoury snacks, and even potato chips, crunchies and fried munchies – which is now readily available in many local supermarkets and ethnic food stores. This Book contains wonderful recipes from friends and relatives, adapted to my own special version, which will be of great benefit to both Vegetarians and non-Vegetarians alike, and especially to new Vegetarians. Of course, this book is for anyone and everyone, young and old alike, and especially the new generation.
