Improving Drug Abuse Treatment - 1991

Aurality - Ana María Ochoa Gautier 2014-11-05

In this audacious book, Ana María Ochoa Gautier explores how listening has been central to the production of notions of language, music, voice, and sound that determine the politics of life. Drawing primarily from nineteenth-century Colombian sources, Ochoa Gautier locates sounds produced by different living entities at the juncture of the human and nonhuman. Her "acoustically tuned" analysis of a wide array of texts reveals multiple debates on the nature of the aural. These discussions were central to a politics of the voice harnessed in the service of the production of different notions of personhood and belonging. In Ochoa Gautier's groundbreaking work, Latin America and the Caribbean emerge as a historical site where the politics of life and the politics of expression inextricably entangle the musical and the linguistic, knowledge and the sensorial.

Facilitating Higher Education Growth through Fundraising and Philanthropy - Alphin Jr., Henry C. 2015-12-02

Many institutions facing dwindling state and government funding often rely on the patronage of others in order to establish monetary security. These donations assist in the overall success and development of the institution, as well as the students who attend. Facilitating Higher Education Growth through Fundraising and Philanthropy explores current and emergent approaches in the financial development and sustainability of higher education institutions through altruistic actions and financial assistance. Featuring global perspectives on the economics

of philanthropy in educational settings and subsequent growth and development within these environments, this book is an exhaustive reference source for professors, researchers, educational administrators, and politicians interested in the effects of altruism on colleges and universities.

Sports Law - Patrick K. Thornton 2010-02-04

Sports Law looks at major court cases, statutes, and regulations that explore a variety of legal issues in the sports industry. The early chapters provide an overview of sports law in general terms and explore its impact on race, politics, religion, and everyday affairs. Later chapters address hot button issues such as gender equity, drug testing, and discrimination. Written from a sport management perspective, rather than from a lawyer's, this text covers all the major areas presented in sports law today including: cases relating to torts, contracts, intellectual property, and agents. Factual scenarios throughout the text allow students to critically examine and apply sport management principles to legal issues facing the sports executive. Spec Ops - William H. McRaven 2009-02-04

Vice Adm. William H. McRaven helped to devise the strategy for how to bring down Osama bin Laden, and commanded the courageous U.S. military unit that carried it out on May 1, 2011, ending one of the greatest manhunts in history. In Spec Ops, a well-organized and deeply researched study, McRaven analyzes eight classic special operations. Six are from WWII: the German commando raid on the Belgian fort Eben Emael (1940); the Italian torpedo attack on the Alexandria harbor (1941); the British commando raid on Nazaire, France (1942); the German glider rescue of Benito Mussolini (1943); the British midget-submarine attack on the Tirpitz (1943); and the U.S. Ranger rescue mission at the Cabanatuan POW camp in the Philippines (1945). The two post-WWII examples are the U.S. Army raid on the Son Tay POW camp in North Vietnam (1970) and the Israeli rescue of the skyjacked hostages in Entebbe, Uganda (1976). McRaven—who commands a U.S. Navy SEAL team—pinpoints six essential principles of "spec ops" success: simplicity, security, repetition, surprise, speed and purpose. For each of the case studies, he provides political and military context, a meticulous reconstruction of the mission itself and an analysis of the operation in relation to his six principles. McRaven deems the Son Tay raid "the best modern example of a successful spec op [which] should be considered textbook material for future missions." His own book is an instructive textbook that will be closely studied by students of the military arts. Maps, photos.

The Rhetoric of the Roman Fake - Irene Peirano 2012-08-16

Previous scholarship on classical pseudepigrapha has generally aimed at

proving issues of attribution and dating of individual works, with little or no attention paid to the texts as literary artefacts. Instead, this book looks at Latin fakes as sophisticated products of a literary culture in which collaborative practices of supplementation, recasting and role-play were the absolute cornerstones of rhetorical education and literary practice. Texts such as the *Catalepton*, the *Consolatio ad Liviam* and the *Panegyricus Messallae* thus illuminate the strategies whereby Imperial audiences received and interrogated canonical texts and are here explored as key moments in the Imperial reception of Augustan authors such as Virgil, Ovid and Tibullus. The study of the rhetoric of these creative supplements irreverently mingling truth and fiction reveals much not only about the neighbouring concepts of fiction, authenticity and reality, but also about the tacit assumptions by which the latter are employed in literary criticism.

The Moral Case for Fossil Fuels - Alex Epstein 2014-11-13

Could everything we know about fossil fuels be wrong? For decades, environmentalists have told us that using fossil fuels is a self-destructive addiction that will destroy our planet. Yet at the same time, by every measure of human well-being, from life expectancy to clean water to climate safety, life has been getting better and better. How can this be? The explanation, energy expert Alex Epstein argues in *The Moral Case for Fossil Fuels*, is that we usually hear only one side of the story. We're taught to think only of the negatives of fossil fuels, their risks and side effects, but not their positives—their unique ability to provide cheap, reliable energy for a world of seven billion people. And the moral significance of cheap, reliable energy, Epstein argues, is woefully underrated. Energy is our ability to improve every single aspect of life, whether economic or environmental. If we look at the big picture of fossil fuels compared with the alternatives, the overall impact of using fossil fuels is to make the world a far better place. We are morally obligated to use more fossil fuels for the sake of our economy and our environment. Drawing on original insights and cutting-edge research, Epstein argues that most of what we hear about fossil fuels is a myth. For instance . . . Myth: Fossil fuels are dirty. Truth: The environmental benefits of using fossil fuels far outweigh the risks. Fossil fuels don't take a naturally clean environment and make it dirty; they take a naturally dirty environment and make it clean. They don't take a naturally safe climate and make it dangerous; they take a naturally dangerous climate and make it ever safer. Myth: Fossil fuels are unsustainable, so we should strive to use "renewable" solar and wind. Truth: The sun and wind are intermittent, unreliable fuels that always need backup from a reliable source of energy—usually fossil fuels. There are huge amounts of fossil fuels left, and we have plenty of time to find something cheaper. Myth: Fossil fuels are hurting the developing world. Truth: Fossil fuels are the key to improving the quality of life for billions of people in the developing world. If we withhold them, access to clean water plummets, critical medical machines like incubators become impossible to operate, and life expectancy drops significantly. Calls to "get off fossil fuels" are calls to degrade the lives of innocent people who merely want the same opportunities we enjoy in the West. Taking everything into account, including the facts about climate change, Epstein argues that "fossil fuels are easy to misunderstand and demonize, but they are absolutely good to use. And they absolutely need to be championed. . . . Mankind's use of fossil fuels is supremely virtuous—because human life is the standard of value and because using fossil fuels transforms our environment to make it wonderful for human life."

The Populist Vision - Charles Postel 2009

A major reinterpretation of the Populist movement, this text argues that the Populists were modern people, rejecting the notion that Populism opposed modernity and progress.

Mary Austin Holley - Rebecca Smith Lee 2010-07-22

Mary Austin Holley found life challenging and made it interesting for others. As wife and widow of Horace Holley, eminent orator, clergyman, and educator, and as cousin and friend of Stephen F. Austin, founder of the first Texas colony, she formed friendships among important people. From New Haven to New Orleans and Brazoria, Texas, she was beloved. The panorama of her life, described in vivid detail by a former head of the English Department at Texas Christian University, transports the reader to the tempestuous early years of the American Republic and, finally, to Texas during its colonization and early Republic years. Throughout this charming book Mrs. Holley's "intuition for important people" brings the reader into the company of many of America's great and accomplished: Noah Webster, John Quincy Adams, President and Mrs. Monroe, Andrew Jackson, Sam Houston, and many others.

Stephen F. Austin - Gregg Cantrell 2016-02-09

The Texas State Historical Association is pleased to offer a reprint edition of Stephen F. Austin: *Empresario of Texas*, Gregg Cantrell's path-breaking biography of the founder of Anglo Texas. Cantrell's portrait goes beyond the traditional interpretation of Austin as the man who spearheaded American Manifest Destiny. Cantrell portrays Austin as a borderlands figure who could navigate the complex cultural landscape of 1820s Texas, then a portion of Mexico. His command of the Spanish language, respect for the Mexican people, and ability to navigate the shoals of Mexican politics made him the perfect advocate for his colonists and often for all of Texas. Yet when conflicts between Anglo colonists and Mexican authorities turned violent, Austin's accommodationist stance became outdated. Overshadowed by the military hero Sam Houston, he died at the age of forty-three, just six months after Texas independence. Decades after his death, Austin's reputation was resurrected and he became known as the "Father of Texas." More than just an icon, Stephen F. Austin emerges from these pages as a shrewd, complicated, and sometimes conflicted figure.

Walking TCU - Joan Hewatt Swaim 1992

The colorful history of Fort Worth's major university began over a century ago in the city's Hell's Half Acre. After brief periods in the Texas communities of Thorp Spring and Waco, the school moved to its present campus in 1910. Today it occupies 243 acres, has a faculty and staff of over 1500 and a student body of 7000. Take a campus walk...see just how far TCU has come.

The Ethnohistorical Map in New Spain - Alexander Hidalgo 2014-06-30

This special issue brings together a multidisciplinary group of scholars to examine the relationship between cartography and the expression of ethnicity in the Viceroyalty of New Spain from 1521 to 1821. Maps from Oaxaca, central Mexico, and the Philippines, spanning the sixteenth through the early nineteenth centuries, provide important yet understudied illustrations of the social, political, and geographic complexity of the regions. This collection of essays scrutinizes maps made by cosmographers, surveyors, indigenous painters, and scientists. The contributors explicate how ethnicity can inform discussions of colonialism, social memory, land tenure, visual representation, and science and technology, ultimately demonstrating how New Spain's culture and society were forged during the early modern period. Essays featured in this issue analyze the use of cartography to communicate the urban form of early colonial Mexico City and the application of botanical and protochemical knowledge to make ink for native maps from Oaxaca. Other essays address the representation of ethnicity and space in seventeenth-century Manila, the construction of spatial boundaries through the use of word and image in central Mexico, and the survival of Nahuatl place names and social ordering in eighteenth-century Mexico City. Alexander Hidalgo is Assistant Professor of Latin American History at Texas Christian University. John F. López is a Provost's Postdoctoral Scholar at the University of Chicago.

Transformational Piano Teaching - Derek Kealii Polischuk 2018-12-03
Transformational Piano Teaching: Mentoring Students from All Walks of Life examines the concept of the piano teacher as someone who is more than just a teacher of a musical skill, but also someone who wields tremendous influence on the development of a young person's artistic and empathic potential, as well as their lifelong personal motivational framework. The specific attributes of today's students are explored, including family and peer influences from interpersonal relationships to social media. Additionally, students from specific circumstances are discussed, including those with special needs such as Autism Spectrum Disorders, ADHD, and Depression. Finally, motivation of a teacher's students is related to a teacher's own motivation in their work, as a cycle of positivity and achievement will be recommended as a way to keep an instructor's work fresh and exciting.

The Witness - Sandra Brown 2013-06-25

After stumbling upon a chilling small-town secret in South Carolina, a determined public defender must protect herself -- and her young son -- from those who want them dead. Kendall Deaton pulls herself and her baby out of a wrecked car, and a mixture of courage and fear gets her to the top of a ravine, where she flags down help. But she doesn't dare reveal her true identity to the authorities. Instead, she plans her immediate escape, and her perilous flight begins. Kendall, the best public defender in Prosper, South Carolina, has stumbled upon a chilling town secret, turning her marriage to one of Prosper's most powerful men into a living hell. Now Kendall is a terrified mother trying to save her child's life, a reluctant witness who knows too much about an insidious evil . . . and a woman surrounded by forces that will stop at nothing to protect what is "theirs."

Make Your Bed - Admiral William H. McRaven 2017-04-04

Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post "Superb, smart, and succinct." --Forbes

Journey to God - Dr. Ron Hansen 2014-11-18

Is God for real? Is there any meaning to life? These are the questions that urged a nine-year-old to start a quest that has lasted over sixty-nine years. The journey goes from coast to coast and from border to border. The events run the gamut of the last half of the previous century: racial prejudice, school integration, Vietnam debates, and the place of Christianity in our sociopolitical society. The accounts describe facing violence without fear, and finding solutions to complex problems. What is it like to raise a family in a parsonage? Raising a family anywhere is a challenge and a joy. Whether in a parsonage or neighborhood household, having a faith to live by is a resource that makes the difference. What is different about Journey to God? The approach is to use the experiences in our everyday life together and in language anyone can understand. One does not have to be highly educated or have special spiritual experiences to discover how the divine works in today's society. Journey to God demonstrates how an everyday person with everyday abilities can experience a presence today that is usually reserved for the days of the Bible. While the characters in the Bible seem bigger than life, one does not have to be bigger—one only has to be alive to experience the same sense of the divine most assume exists only in the past.

Building Construction Handbook - Roy Chudley 2016-04-14

Ideal for students on all construction courses Topics presented concisely in plain language and with clear drawings Updated to include revisions to Building and Construction regulations The Building Construction Handbook is THE authoritative reference for all construction students

Discovering Texas History - Bruce A. Glasrud 2014-09-09

"'Discovering Texas History' is a historiographical reference book that will be invaluable to teachers, students, and researchers of Texas history. Chapter authors are familiar names in Texas history circles--a 'who's who' of high profile historians. Conceived as a follow-up to the award winning (but increasingly dated) 'A Guide the History of Texas' (1988), 'Discovering Texas History' focuses on the major trends in the study of Texas history since 1990. In part one, topical essays address significant historical themes, from race and gender to the arts and urban history. In part two, chronological essays cover the full span of Texas historiography from the Spanish era to the modern day. In each case, the goal is to analyze and summarize the subjects that have captured the attention of professional historians so that 'Discovering Texas History' will take its place as the standard work on the history of Texas history"--

Love Remembers - Kathe Goodwin 2022-06-07

Alzheimer's is a merciless thief, but it can't steal love. Dementia is a terrifying disease, snatching away memory and independence from those close to our hearts. Early-onset Alzheimer's takes even more, stealing whole chapters of people's lives. But love and hope do not have to fall victim to the disease. In Love Remembers, Kathe Ambrose Goodwin shares how her family has coped with her husband Steve's battle with early-onset Alzheimer's, from the first signs something was wrong to living with the final stages of the disease with dignity, peace, and even joy. Kathe lays bare the pain and frustration of their journey and how her family's love and faith shine through, giving meaning and hope to even the darkest days.

The Human Tradition in Texas - Ty Cashion 2001

The rich and unique history of the 'Lone Star State' is presented in this new book through the lives of a variety of Texans who put a human face on the state's history. Biographical sketches of fifteen famous and little-known men and women of different colors, religions, and economic backgrounds offer new insight into the history of the state. Starting in the sixteenth century with Alvar N?Oez Cabeza de Vaca, the first European to make contact with Texas Indian tribes, and tracing Texas history to the late twentieth century with a final sketch of Gary Gaines, a high-school football coach, *The Human Tradition in Texas* brings the state's history to life by showing real people and the events and times in which they lived. Written by leading and rising scholars of Texas history, this book presents the major themes and periods in Texas history, including the settling of Anglo-Americans in the region, bringing an American democ-racy that supported slavery; the Civil War and Reconstruction; technologi-cal developments in the late nineteenth century, including railroads and irrigation for crops and livestock; Texas's transformation in the early twentieth century from a world of cotton and cattle to a world of paved streets, electricity and running water; the challenges to modernization faced by the state with the development of the oil industry, the growth in industrialization, and the increasing size of Texas's cities; the new age, with Texas taking leadership roles in the oil, aviation, and entertainment industries; and the expanding inclusiveness of Texas society, nowhere more complete than on the sports field-particularly the football field. A collection of accessible and entertaining essays on this vast, vibrant state, *The Human Tradition in Texas* is an excellent resource for courses in Texas history and the history of the American West.

Why America Fights - Susan A. Brewer 2011-03-17

Originally published in hardcover by Oxford University Press, 2009.

Honors at TCU - Peggy Watson 2019

Celebrating Fifty Years of Achievement: Honors at TCU traces the history and impact of Honors at TCU from its beginning as a small program in the early 1960s through the present day, highlighting how its courses and cocurricular activities not only enrich student learning but also campus culture. A unique resource for anyone interested in Honors education, this volume examines how various TCU administrators, faculty, and students imagined, created, and adapted a program and then a college to enhance TCU's educational experiences. Much of the material in this book was gathered as part of an Honors oral history project. Honors students interviewed dozens of administrators, faculty, staff, students, and alumni, whose words they then transcribed, edited, and annotated. Thus *Celebrating Fifty Years of Achievement* is a uniquely collaborative book filled with multiple voices, perspectives, and events. Combined with editorial introductions and descriptions, these voices explore course development and curriculum initiatives, student research and creativity, cocurricular activities and events, experiential learning, and community building. As its title indicates, this book celebrates a half century of commitment and accomplishment in Honors education at TCU. Beginning with a foreword by Chancellor Victor J. Boschini Jr. and a preface by Provost R. Nowell Donovan, this book traces Honors from its earliest discussions to its current status as the John V. Roach Honors College and is filled with stories and photos from those involved in all areas of Honors at TCU. Yet *Celebrating 50 Years of Achievement* is not simply about the past but looks forward to the future, concluding with a section of advice to future Honors students and an epilogue by Dr. Diane Snow, Wassenich Endowed Family Chair and dean of the John V. Roach Honors College, who outlines goals of Honors in the future.

History of Texas Christian University - Colby D. Hall 2014-03-31

First published by TCU Press in 1947, Colby Hall's book *History of Texas Christian University: A College of the Cattle Frontier* is the story of the first seventy-five years of the institution. Tracing the evolution of Add Ran College to Add Ran University, and ultimately to Texas Christian University, Hall shows the struggles and success in the transformation of

a frontier college dedicated to educating and developing Christian leadership for all walks of life to a university dedicated to facing the challenges imposed by a new world frontier following World War II. Drawing upon numerous sources, including many unpublished documents, personal correspondence, and the author's own recollections of his association with the university, Hall provides a detailed account of TCU's history and reveals how its founders' dreams were realized. Hall's narrative skillfully weaves the development of the school into the history of Texas, at the same time elaborating upon the development of collegiate education in Texas and the establishment of the Christian Church (Disciples of Christ) in the state. Recognizing that TCU is much more than an institution, Hall specifically emphasizes the contributions of the people and personalities who helped shape the growth of the school.

Trail of Footprints - Alex Hidalgo 2019-07-12

Trail of Footprints offers an intimate glimpse into the commission, circulation, and use of indigenous maps from colonial Mexico. A collection of one hundred, largely unpublished, maps from the late sixteenth to the eighteenth centuries made in the southern region of Oaxaca, anchors an analysis of the way ethnically diverse societies produced knowledge in colonial settings. Mapmaking, proposes Hidalgo, formed part of an epistemological shift tied to the negotiation of land and natural resources between the region's Spanish, Indian, and mixed-race communities. The craft of making maps drew from social memory, indigenous and European conceptions of space and ritual, and Spanish legal practices designed to adjust spatial boundaries in the New World. Indigenous mapmaking brought together a distinct coalition of social actors—Indian leaders, native towns, notaries, surveyors, judges, artisans, merchants, muleteers, collectors, and painters—who participated in the critical observation of the region's geographic features. Demand for maps reconfigured technologies associated with the making of colorants, adhesives, and paper that drew from Indian botany and experimentation, trans-Atlantic commerce, and Iberian notarial culture. The maps in this study reflect a regional perspective associated with Oaxaca's decentralized organization, its strategic position amidst a network of important trade routes that linked central Mexico to Central America, and the ruggedness and diversity of its physical landscape.

Teaching Race and Anti-Racism in Contemporary America - Kristin Haltinner 2013-10-16

This book presents thoughtful reflections and in-depth, critical analyses of the new challenges and opportunities instructors face in teaching race during what has been called the "post-racial era". It examines the racial dimensions of the current political, economic, and cultural climate. The book features renowned scholars and experienced teachers from a range of disciplines and offers successful strategies for teaching important concepts through case studies and active learning exercises. It provides innovative strategies, novel lesson plans and classroom activities for college and university professors who seek effective methods and materials for teaching about race and racism to today's students. A valuable handbook for educators, this book should be required reading for all graduate students and college instructors.
