The History of Cartography: Cartography in prehistoric, ancient, and medieval Europe and the Mediterranean - John Brian Harley 2015-04-21

From satellite imaging techniques to the Internet, the technologies of the twentieth century transformed both the production and consumption of maps. Volume 6 of the authoritative "History of Cartography" series covers this pivotal century, in which mapping

became an important tool for coping with complexity, organizing knowledge, and influencing public opinion in all parts of the globe and at all levels of society. The first volume in the long-running series to be arranged in encyclopedic format, it includes 529 articles ranging from short biographical sketches of key individuals and institutions to multipart entries on such broad topics as Topographic Mapping, Military Mapping by Major Powers, and Wayfinding and Travel Maps. Editor Mark Monmonier and more than 300 expert contributors offer both original factual research often based on their own participation in the developments they describe and interpretation of larger trends in cartography. Each entry includes bibliographical references, and the volume is illustrated with more than 1,100 images, the majority of them in full color."

Camino de Santiago Maps - John Brierley
2017-12-01

A complete set of maps and town plans in English, Spanish, French, German, Portuguese, Italian, Dutch and Polish make up this indispensable guidebook for spiritual seekers and travelers wishing to walk the way of Saint James. Covering the sacred route from St. Jean Pied de Port to Santiago, this portable book of maps makes the perfect companion for adventurers attempting to heed the spiritual calling. Revised and updated to offer the most recent information, this exploration is light enough to carry while walking long distances each day. The maps show the location of all pilgrim hostels en route, the distances between villages, and points of interest, as well as counter guides, alternative routes, and accommodations.

The History of Cartography, Volume 6 - Mark

Monmonier 2015-05-18

For more than thirty years, the History of Cartography Project has charted the course for scholarship on cartography, bringing together research from a variety of disciplines on the creation, dissemination, and use of maps. Volume 6, Cartography in the Twentieth Century, continues this tradition with a groundbreaking survey of the century just ended and a new full-color, encyclopedic format. The twentieth century is a pivotal period in map history. The transition from paper to digital formats led to previously unimaginable dynamic and interactive maps. Geographic information systems radically altered cartographic institutions and reduced the skill required to create maps. Satellite positioning and mobile communications revolutionized wayfinding. Mapping evolved as an important tool for coping with complexity, organizing knowledge, and influencing public opinion in all parts of the globe and at all levels of society. Volume 6

covers these changes comprehensively, while thoroughly demonstrating the far-reaching effects of maps on science, technology, and society—and vice versa. The lavishly produced volume includes more than five hundred articles accompanied by more than a thousand images. Hundreds of expert contributors provide both original research, often based on their own participation in the developments they describe, and interpretations of larger trends in cartography. Designed for use by both scholars and the general public, this definitive volume is a reference work of first resort for all who study and love maps.

The Nightingale - Kristin Hannah 2015-02-03

In love we find out who we want to be. In war we find out who we are. FRANCE, 1939 In the quiet village of Carriveau, Vianne Mauriac says goodbye to her husband, Antoine, as he heads for the Front. She doesn't believe that the Nazis will invade France...but invade they do, in droves of marching soldiers, in caravans of trucks and tanks, in planes that fill the skies and drop bombs upon the innocent. When a German captain requisitions Vianne's home, she and her daughter must live with the enemy or lose everything. Without food or money or hope, as danger escalates all around them, she is forced to make one impossible choice after another to keep her family alive. Vianne's sister, Isabelle, is

a rebellious eighteen-year-old girl, searching for purpose with all the reckless passion of youth. While thousands of Parisians march into the unknown terrors of war, she meets Gaëtan, a partisan who believes the French can fight the Nazis from within France, and she falls in love as only the young can...completely. But when he betrays her, Isabelle joins the Resistance and never looks back, risking her life time and again to save others. With courage, grace and powerful insight, bestselling author Kristin Hannah captures the epic panorama of WWII and illuminates an intimate part of history seldom seen: the women's war. *The Nightingale* tells the stories of two sisters, separated by years and experience, by ideals, passion and circumstance, each embarking on her own dangerous path toward survival, love, and freedom in German-occupied, war-torn France--a heartbreakingly beautiful novel that celebrates the resilience of the human spirit and the durability of women. It is a novel for everyone, a

novel for a lifetime.

No Rules Rules - Reed Hastings 2020-09-08
The New York Times bestseller Shortlisted for the 2020 Financial Times & McKinsey Business Book of the Year Netflix cofounder Reed

Hastings reveals for the first time the unorthodox culture behind one of the world's most innovative, imaginative, and successful companies. There has never before been a company like Netflix. It has led nothing short of a revolution in the entertainment industries, generating billions of dollars in annual revenue while capturing the imaginations of hundreds of millions of people in over 190 countries. But to reach these great heights, Netflix, which launched in 1998 as an online DVD rental service, has had to reinvent itself over and over again. This type of unprecedented flexibility would have been impossible without the counterintuitive and radical management principles that cofounder Reed Hastings established from the very beginning. Hastings rejected the conventional wisdom under which other companies operate and defied tradition to instead build a culture focused on freedom and responsibility, one that has allowed Netflix to adapt and innovate as the needs of its members

and the world have simultaneously transformed. Hastings set new standards, valuing people over process, emphasizing innovation over efficiency, and giving employees context, not controls. At Netflix, there are no vacation or expense policies. At Netflix, adequate performance gets a generous severance, and hard work is irrelevant. At Netflix, you don't try to please your boss, you give candid feedback instead. At Netflix, employees don't need approval, and the company pays top of market. When Hastings and his team first devised these unorthodox principles, the implications were unknown and untested. But in just a short period, their methods led to unparalleled speed and boldness, as Netflix quickly became one of the most loved brands in the world. Here for the first time, Hastings and Erin Meyer, bestselling author of *The Culture Map* and one of the world's most influential business thinkers, dive deep into the controversial ideologies at the heart of the Netflix psyche, which have generated results

that are the envy of the business world. Drawing on hundreds of interviews with current and past Netflix employees from around the globe and never-before-told stories of trial and error from Hastings's own career, *No Rules Rules* is the fascinating and untold account of the philosophy behind one of the world's most innovative, imaginative, and successful companies.

The Culture Map - Erin Meyer 2014-05-27

An international business expert helps you understand and navigate cultural differences in this insightful and practical guide, perfect for both your work and personal life. Americans precede anything negative with three nice comments; French, Dutch, Israelis, and Germans get straight to the point; Latin Americans and Asians are steeped in hierarchy; Scandinavians think the best boss is just one of the crowd. It's no surprise that when they try and talk to each other, chaos breaks out. In *The Culture Map*, INSEAD professor Erin Meyer is your guide through this subtle, sometimes treacherous

terrain in which people from starkly different backgrounds are expected to work harmoniously together. She provides a field-tested model for decoding how cultural differences impact international business, and combines a smart analytical framework with practical, actionable advice.

Gastro Obscura - Cecily Wong 2021-10-12

A New York Times, USA Today, and national indie bestseller. *A Feast of Wonder!* Created by the ever-curious minds behind *Atlas Obscura*, this breathtaking guide transforms our sense of what people around the world eat and drink. Covering all seven continents, *Gastro Obscura* serves up a loaded plate of incredible ingredients, food adventures, and edible wonders. Ready for a beer made from fog in Chile? Sardinia's "Threads of God" pasta? Egypt's 2000-year-old egg ovens? But far more than a menu of curious minds delicacies and unexpected dishes, *Gastro Obscura* reveals food's central place in our lives as well as our

bellies, touching on history—trace the network of ancient Roman fish sauce factories.

Culture—picture four million women gathering to make rice pudding. Travel—scale China’s sacred Mount Hua to reach a tea house. Festivals—feed wild macaques pyramid of fruit at Thailand’s Monkey Buffet Festival. And hidden gems that might be right around the corner, like the vending machine in Texas dispensing full sized pecan pies. Dig in and feed your sense of wonder. “Like a great tapas meal, Gastro Obscura is deep yet snackable, and full of surprises. This is the book for anyone interested in eating, adventure and the human condition.”

—Tom Colicchio, chef and activist “This exquisite guide kept me at the breakfast table until dinner time.” —Kyle MacLachlan, actor and vintner

My Map of the World - Michelin 2014-01-01

Michelin's beautifully colored and engaging laminated world wall map is designed to capture children's interest and lead them to interact with the map and its reusable flag stickers. In the

process children discover world geography and learn to identify countries in an enjoyable yet informative way. A child chooses a flag from the sticker sheet, locates the associated country with the help of the map's flag border, and places the flag on the proper country on the map. The laminated wall map serves as a constant visual reference, illustrating the different countries of the world.

Philip's Navigator Scotland - George Philip & Son 2012-04-01

Philip's Navigator Scotland is part of a series of Navigator regional road atlases. The Navigator maps provide highly detailed coverage of the region's road network, including minor country

lanes and rural tracks. In this atlas, much of the Central Lowlands and Scottish Borders are shown at 1.5 miles to 1 inch, while the rest of Scotland is shown at 3 miles to 1 inch. There is an abundance of other detail, including hundreds of individually named farms, houses and hamlets. Also shown are airports, airfields, stations, ferries, canals, marinas, and a wide range of places of interest. There are also useful details of many services that may be needed while travelling, such as tourist information centres. The atlas has a comprehensive index and includes indexed town plans of major regional centres. The front of the atlas contains a 15-page guide to regional leisure with full details of places of interest, such as castles, houses, cathedrals and museums, plus guides to nature reserves, parks and gardens, and listings of a wide variety of activities from abseiling to yachting. The atlas is designed with the leisure user particularly in mind, and is ideal for touring with its large scale and wealth of travel

information. The exceptional detail also makes the atlas ideal for local business use, such as planning and delivery driving.
