Humans on the Run - Kumar M. Tiku

2018-05-21

In fleeing sometimes there is freedom, sometimes safety, sometimes sheer survival. Twenty-five individuals in flight, long disconnected from the certitudes of a settled, anchored existence. They map their journeys when moving to the next village, town, city, country, or continent, in the hope of beating certain death, denigration, and abuse. These stories—rather lives—from India, Pakistan, Sri Lanka, Afghanistan, Tibet, Iraq, Syria, Yemen, Ukraine, Eritrea, and South Sudan speak of the many effects of international intrigues and the raging fires of ethnic, communal, and religion-based violence on ordinary lives. Humans on the

Run is a collection of memories of several microscopic journeys embarked upon by humans, in time and space, compelled by political and sectarian strife. It is about homeless lives and textured human experiences in forced migration, when war and violence consign individuals and families to a lifetime of uncertainty. But it is also about how, in fleeing bombs and battered neighbourhoods, life, hope, and resilience triumph against all odds.

Higher Education in Ethiopia - Tebeje Molla

2018-01-18

This book focuses on higher education in

Ethiopia, analysing persisting inequalities and policy responses against the backdrop of the extensive expansion and reform that the system has experienced in recent years. Drawing on empirical data generated through interviews, policy reviews and focus-group discussions, it explicates factors of structural inequality ranging from neoliberal policy orientations to repressive gender culture and geo-political peripherality. In a departure from conventional studies that consider policy a response to social problems, the book takes a critical perspective to show the constitutive role of policy, and explains how the representation of the problem of social inequality undermines equity policy outcomes in Ethiopian higher education. Not only does the book problematise the framing of the problem of inequality in the system, it also outlines strategies for designing transformative equity instruments. In explaining structural factors of inequality and equity provisions, the book productively combines sociological

concepts with historical accounts and political economy insights. Given the increased economic optimism associated with higher education in sub-Saharan Africa and the neoliberal ideals underpinning much of the restructuring of the system in the region, this is a timely and important contribution that sheds light on the social justice implications and consequences of such changes. It offers fresh accounts of largely neglected qualitative cases of inequality, making it a valuable read for students and researchers in the areas of Ethiopian education policy studies, international and comparative education, and international development.

The Ethiopian Jews of Israel - Leonard Lyons
2007

"In 1977 there were about one hundred Ethiopian Jews in Israel; now there are more than one hundred thousand. Their exodus from their native land and their mass immigration to Israel is a unique historical event." "This book is the first one to recount in photographs and

candid interviews the challenging and inspiring accomplishments of Ethiopian Jews struggling to become Ethiopian Israelis. Featuring more than fifty men and women - religious leaders, soldiers, lawyers, students, actors, musicians, a member of the Knesset, and more - this book reveals their personal stories. A historical narrative that traces how some Ethiopians became Jewish and how they got to Israel. Then, in their own words, they reveal how they experience Israel as a part of its most impoverished and culturally different minority." "Their dream is to become accepted and integrated without losing their own character, identity and values. They declare their devotion to their religious homeland and to overcoming the illiteracy, unemployment, crime and alienation that have plagued their community."--

AIR CRASH INVESTIGATIONS - THE BOEING 737 MAX DISASTER PART II -The Crash of Ethiopian Airlines Flight 302 - Dirk Barreveld 2021-11-11

On March 10, 2019, at 05:38 UTC, Ethiopian Airlines flight 302, Boeing 737-8 (MAX), ET-AVJ, took off as a scheduled international flight, from Addis Ababa Bole International Airport bound to Nairobi, Kenya. It departed Addis Ababa with 157 persons on board: 2 flight crew (a Captain and a First Officer), 5 cabin crew and one IFSO, 149 regular passengers. The take-off roll and lift-off was normal, including normal values of left and right angle-of-attack (AOA). Shortly after liftoff, the left Angle of Attack sensor recorded value became erroneous and the left stick shaker activated and remained active until near the end of the recording. In addition, the airspeed and altitude values from the left air data system began deviating from the corresponding right side values. The left and right recorded AOA values began deviating. At 5:40:22, the second

automatic nose-down trim activated. Following nose-down trim activation GPWS DON'T SINK sounded for 3 seconds and "PULL UP" also displayed on PFD for 3 seconds. The Captain was unable to maintain the flight path and requested to return back to the departure airport. At 05:43:21, an automatic nose-down trim activated for about 5 s. The stabilizer moved from 2.3 to 1 unit. The rate of climb decreased followed by a descent in 3 s after the automatic trim activation. The descent rate and the airspeed continued increasing. Computed airspeed values reached 500kt, pitch and descent rate values were greater than 33,000 ft/min. Finally; both recorders stopped recording at around 05: 44 the Aircraft impacted terrain 28 NM South East of Addis Ababa near Ejere. All 157 persons on board: 2 flight crew, 5 cabin crew and one IFSO, and 149 regular passengers were fatally injured. The crash of Ethiopian Airlines Flight 302 was, after the crash of Lion Air Flight 610 on October 29, 2018, the second

crash of a Boeing 737 MAX 8 within a period of 4 months.
