[A Conscious Life](#) - Funmi Oyetunji 2016-07-16
In my observation of lives around me, I often wonder, What happened there? I imagine what that person might have done to contribute to the success or failure of their own life. Usually, a life attracts my attention because of its exceptionality for good or for bad. Over time, I have come to see that many people seem to wander through life, just to wake up one day, usually at about middle age, and realize that their life had happened while they were not looking! This is a clarion call and encouragement to consciousness and deliberateness in living the life one would be

proud of in the end. It is also a summary of the lessons I have learned from my own experiences or from books and other resources I have used in my quest for answers on the subject of life. The chapters are arranged based on the different stages and aspects to point out signposts, road junctions, and time lines that the reader can expect to navigate on the journey of life. It is to bring consciousness to the consideration and planning that the different aspects of life need for your own particular journey. The book must not be read in a particular sequence; you can read particular chapters or aspects as required by your particular stage, situation, or need for counsel at different times. Different chapters will be more applicable and enlightening for different readers at different times. It could be growing up and career building time for some, marriage and parenting for others. It might be about maneuvering middle and old age for yet another. In the end, no one can control all aspects of life all the time, but you can be awake

and write your own story by making things happen instead of just waiting and watching them happen, accepting whatever life brings. Make your life happen.

Life in Between: Creating a Home Away From Home - Anya Pallamreddy 2021-04-29

While essentially bringing light to the theme of migration, the book targets a more contemporary audience: today's adolescents and young adults. Relocation, especially amongst this age group, can be a big change, affecting both one's mental and physical health. The book aims to offer support in terms of finding a sense of belonging, making friends and dealing with homesickness in a new environment amongst many more issues that migrant children seem to grapple with. Through interactions with candidates from all over the world, it can evidently be concluded that most migratory experiences are made better with some guidance

and the knowledge that all struggles during this time are completely normal, justified and understandable. The book includes a few real-life stories from migrant teenagers who have moved and their advice and coping mechanisms to deal with moving away that is, often accompanied by several heartrending goodbyes and, most importantly, a loss of comfort. The book is, in its own special way, a little like a "How to", aiming to offer some sort of support and reassurance that things in life fall into place eventually. Written in a very conversational tone by someone who has observed migratory experiences first-hand, the book hopes to spark discussion about the possibility of a creation of a new life away from home, whilst also acknowledging all the difficulty that comes with relocation.

How to Create a Life Well-Lived - Andrew Wood
2019-07-11

Whatever your age, in this book I will challenge you to re-evaluate your life for the better. To ask yourself deeper more powerful questions about how you spend your time on earth. To think clearly about how you prioritize the things in life

that are most important to you. To make changes and take actions that will enhance your experience, friendships and general enjoyment of life. To live with a passion, you might have forgot is even there...Do you feel you are you getting the most from your life, maximizing every single day?Are you passionate about your daily work or activities? Do you travel frequently and see many of the places you dreamed of seeing in the world? Do you feel time is running out too quickly on your goals or bucket list? Do you feel trapped in a situation that's holding you back? Would you like to ask better questions, take stronger actions and add more meaning, experience and color to your life? "Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did so. So, throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover. "Let us live so that when we come to die even the undertaker will be sorry." - Mark Twain

My Close Friends Never Saw Their 50th Birthday's I was lucky in a strange sort of way in that one of my best friends died when I was in my early 30's. He was a world-class athlete and only 42 years old. It quickly brought home to me how fickle life can be at an age when few people think of death. Most of us pretty much take our lives and our health for granted until we get ill or someone close to us dies. Since Dave's death 30 years ago three more of my good friends one man and two ladies have also died of various forms of cancer before, they were 50. Randy, Trish and Donna all had a whole lot of life still in them. Only Randy smoked, the rest had a healthy lifestyle and just got a bad draw in the gene pool. There is not much you can do about that except get constant check-ups and try and nip it in the bud. Even when the prognosis was fatal none of them expected to die. Two were convinced their faith in God would save them, the other that natural healing could do the job. All were making big plans for their future "when

they got better." The future never came. Donna never got to see Hawaii, although we practically begged her to go, even offering frequent flyer miles and hotels to make it easy. Too many great people die with the life still in them. While there is little, we can do with the winds of fate we can make sure we get more joy, experience and adventure in our lives. As Jon Bon Jovi so eloquently said. "I don't want to live forever I just want to live while I'm alive!" *Creating Your New Life Blueprint* You are neither too young or too old to start living a more fulfilling life. Go back through the 50 questions from chapter four and review them. Answer the hard ones with zero based thinking and re-evaluate how you will move forward. Shun the idea of living a balanced life and go all in to the key things that you love with passion. Start checking off that bucket list, take more chances and most of all take action towards creating a life truly well lived. Your life! ONE THING I PROMISE...By the end of this book you will not look at your life the same way

again...While the book is packed with stimulating ideas, it's an easy read with no chapter longer than 3 pages. To back up my point of view, I have dug deep into the biographies of some very accomplished people and quote them at the start of each chapter. I have added their pictures as well to give addition meaning to them and provide additional stimulation to you.

Earn More, Work Less, Live Free: Take Back Your Freedom and Create the Lifestyle You Desire - Sean Tepper 2015-08-20

Earn More, Work Less, Live Free provides the formula's on how to create a six-figure income while working part-time with a traditional service based business. Although the result of increasing income in less time, is a major win, the real win is the achievement of FREEDOM. You see, Sean believes that life is about living, not about working. Yes, it's important to work and use our time, talent, and resources to help others; however, but the majority of the world's working population is overworked and underpaid. These days, how many people actually work 40-hours per week? To many employees and business owners, that's a part-

time job! Most full-time salaried employees and business owners are working 50, 60, 70, and sometimes over 80 hours per week. But that's not where success in life is found. Unfortunately, the rat race of the world, and perhaps especially the United States, is forcing people to work more. These long hours are causing more stress and leading to myriad of problems that affect both our health and our relationships. Why are we working more? Why are we risking our health and our relationships? Why are we becoming slaves to a mind-numbing, exhausting, and infuriating culture? What happened to our morals, our values, our ability to stand our ground and say "No! I value my freedom more than a 3 percent pay increase. I value my family and friends more than the company's quarterly statements. I value my life more than I value that next promotion." It's 2015. We live in a day and age where we can implement new, forward-thinking systems that work for us so we can earn more, work less, and live free. By systems, I'm

talking about leveraging current software and technology to make life easier. I'm also talking about improving your efficiency through simple steps toward better self-discipline. These are the life-changing principles I hope to provide for you in this book. Although Sean Tepper explains the formula's in an easy-to-understand format, the path to achieve success was far from easy. His first five years of business were extremely difficult. Not only were business challenges faced but personal challenges made these five years seem like an eternity. In that fifth year, he took a step back and evaluated his career as well as his future and decided to optimize three areas of the business: Marketing, Sales, and Operations. By doing so, he quadrupled his income while working half the time. Now, Sean Tepper wants to simplify your path to success, because he knows, as a business owner, or someone who wants to start a business, you have very limited time. He wants you to use this book to inspire, inform, and structure your working

foundation. Whether you have no employees or thousands of employees, implementing these systems and processes will help you increase revenue, boost profits, and save money at the same time. By simply changing your mindset, structuring your workflow, and implementing the right systems, you'll see that, for the success of your business and your life, earning more, working less, and living free is not out of reach. Earn More, Work Less, Live free is perfect for individuals who want to increase business revenues and profits, create a highly profitable service based business, work online with a lucrative internet based business, work from home, earn extra money, increase their income, and create financial freedom.
