Owl Moon - Jane Yolen 1987-10-23

Celebrating 30 years of the beloved classic Owl Moon from renowned children's book author Jane Yolen and Caldecott Medal-winning illustrator John Schoenherr! Late one winter night a little girl and her father go owling. The trees stand still as statues and the world is silent as a dream. Whoo-who-who, the father calls to the mysterious nighttime bird. But there is no answer. Wordlessly the two companions walk along, for when you go owling you don't need words. You don't need anything but hope. Sometimes there isn't an owl, but sometimes there is. Distinguished author Jane Yolen has created a gentle, poetic story that lovingly depicts the special companionship of a young child and her father as well as humankind's close relationship to the natural world. Wonderfully complemented by John Schoenherr's soft, exquisite watercolor illustrations, this is a verbal and visual treasure, perfect for reading aloud and sharing at bedtime.

Journey Through God's Word - Lessons, Condensed - Charles Babers 2015-12-17

"Journey Through God's Word" is a versatile and easy to use system for teaching children between the ages of 5 and 12 the Word of God. More than just a set of lessons, it is a comprehensive curriculum that provides every resource that you might need to be a successful Bible teacher. The various elements of the curriculum are designed to support all the different ways that children learn and all the different methods and techniques that teachers use to teach. It tells you WHAT to teach, but not HOW to teach it, leaving you free to use your individual imagination and creativity to make each lesson your own. We've done all the hard work to make sure that you have all that you need. The only things missing are the students...and YOU! Condensed Lessons are two-page summaries of each of the lessons that are part of the Journey Through God's Word

curriculum. They may be used alone or in conjunction with the full lessons and the other curriculum resources.

Grandpa Stops a War - Susan Robeson 2019-04-09

"It takes a man of peace to stop a war." The true story of Paul Robeson's visit to the front lines of the Spanish Civil War is a tale of courage and activism told by his granddaughter, Susan Robeson. Grandpa Paul was a world-famous actor and singer with a deep and rumbling voice, a man of peace and principle who worried about the safety of children and families living in countries at war. He wanted to use his voice to promote social justice all over the world. Though people warned Grandpa Paul that it was too dangerous, he traveled with his friend Captain Fernando to the battlefields of the Spanish Civil War to sing to the soldiers. And then something amazing happened... With gorgeous illustrations from fine artist Rod Brown, *Grandpa Stops a War* celebrates Paul Robeson's global activism and towering achievements, and shows readers the power of music in times of discord and war. An author's note helps readers learn more about the author's personal experience growing up in the Robeson family, and gives parents, teachers, and librarians more in-depth material to expand the reader's understanding of the war and Robeson as a champion of civil rights, global freedom, and world peace.

Reset Your Child's Brain - Victoria L. Dunckley, MD 2015-06-23

Increasing numbers of parents grapple with children who are acting out without obvious reason. Revved up and irritable, many of these children are diagnosed with ADHD, bipolar illness, autism, or other disorders but don't respond well to treatment. They are then medicated, often with poor results and unwanted side effects. Based on emerging scientific research and extensive clinical experience, integrative child psychiatrist Dr. Victoria Dunckley has pioneered a four-week program to treat the frequent underlying cause, Electronic Screen Syndrome (ESS). Dr. Dunckley has found that everyday use of interactive screen devices —

such as computers, video games, smartphones, and tablets — can easily overstimulate a child's nervous system, triggering a variety of stubborn symptoms. In contrast, she's discovered that a strict, extended electronic fast single-handedly improves mood, focus, sleep, and behavior, regardless of the child's diagnosis. It also reduces the need for medication and renders other treatments more effective. Offered now in this book, this simple intervention can produce a life-changing shift in brain function and help your child get back on track — all without cost or medication. While no one in today's connected world can completely shun electronic stimuli, Dr. Dunckley provides hope for parents who feel that their child has been misdiagnosed or inappropriately medicated, by presenting an alternative explanation for their child's difficulties and a concrete plan for treating them.

The Passive Programming Playbook: 101 Ways to Get Library Customers

[off the Sidelines](#) - Paula Willey 2021-05-31

This book offers 101 passive programming ideas that are extendable, adaptable, customizable, and above all, stealable—so your passive programming never runs dry. Passive programming is a cheap, quick, fun way to make all library customers feel like part of the community. It can support reading initiatives, foster family engagement, encourage visit frequency, and coax interaction out of library lurkers—while barely making a dent in your programming budget. Passive programming can be targeted at children, adults, seniors, or teens; used to augment existing programs; and executed in places where staff-led programming can't reach. It can be light-footed and spontaneous, easily deployed to reflect and respond to current news, media, library events, and even the weather. But even passive programming pros run out of ideas sometimes, and when that happens, they want a fresh, funny source of inspiration. Make programming less intimidating Get the most bang for your buck from whatever resources you have available Make diverse customers feel welcome and seen Encourage repeat/regular library visits Boost your programming statistics

Sometimes Reading is Hard - Robin Bright 2021-08-24

When students say that reading is boring, difficult, overwhelming, or they cannot find a good book, it is almost impossible to sell them on the idea that reading is fun and worthwhile. *Sometimes Reading is Hard* shows teachers how to develop the skills students need to be successful and how to cultivate passionate, lifelong readers. An intriguing look at the science of reading, the book helps teachers understand the foundations upon which language and reading are learned so they can make their own good decisions about programs, resources, strategies, and activities. Classroom vignettes, promising practices, and step-by-step activities illustrate how teachers can weave teaching the skills of decoding, vocabulary, comprehension, and fluency with real reasons to read. This hands-on teacher resource shows what a comprehensive, research-based reading program looks like in action.

Surviving the City Teacher Guide - Christine M'Lot 2020-01-06

The *Surviving the City Teacher Guide* provides support for teachers addressing sensitive topics in the classroom (such as racism, caregiver illness, the child welfare system, residential schools, and Missing and Murdered Indigenous Women, Girls, and Two-Spirit People) when reading the graphic novels in the *Surviving the City* series. This teacher guide is meant to be a no-prep resource for educators to use either for individual, stand-alone lessons, or as a complete unit plan. In this teacher guide, Students will be learning about, exploring, researching, and presenting on essential themes that arise in the graphic novel. The lesson plans are formatted using the Activate, Acquire, Apply, and Assess

(AAAA) format for ease of use. Activities throughout the lessons infuse Indigenous pedagogical practice. This teacher guide is best suited for use in grades 9-12 classrooms such as Grades 9-12 English, Grade 12 Global Issues, and Grade 12 Current Topics in First Nations, Métis, and Inuit Studies.

The Gingerbread Man Loose in the School - Laura Murray 2011-07-07

When a class leaves for recess, their just-baked Gingerbread Man is left behind. But he's a smart cookie and heads out to find them. He'll run, slide, skip, and (after a mishap with a soccer ball) limp as fast as he can because: "I can catch them! I'm their Gingerbread Man!" With help from the gym teacher, the nurse, the art teacher and even the principal, the Gingerbread Man does find his class, and he's assured they'll never leave him behind again. Teachers often use the Gingerbread Man story to introduce new students to the geography and staff of schools, and this fresh, funny twist on the original can be used all year long. Includes a poster with fun activities!

The Zones of Regulation - Leah M. Kuypers 2011

"... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.

The Writing Revolution - Judith C. Hochman 2017-08-07

Why you need a writing revolution in your classroom and how to lead it The *Writing Revolution (TWR)* provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The *Writing Revolution* can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The *Writing Revolution* is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
