Liberty and the Great Libertarians - Charles T. Sprading 2015-04-15

In 1913, Charles T. Sprading (1871-1959) wrote a book of remarkable prescience that anticipated the systematic development of an American libertarian tradition. He called it *Liberty and the Great Libertarians*. What he provided was a biography and intellectual analysis of some thirty great thinkers. Most valuable is his extraordinary job of editing. He chooses the best and most enlightening of their writings and brings them to life. The thinkers covered include Edmund Burke, Thomas Paine, Thomas Jefferson, William Godwin, Wilhelm von Humboldt, John Stuart Mill, Ralph Waldo Emerson, William Lloyd Garrison, Wendell Phillips, Josiah Warren, Max Stirner, Henry D. Thoreau, Herbert Spencer, Lysander Spooner, Henry George, Benjamin Tucker, Pierre Kropotkin, Abraham Lincoln, Auberon Herbert, G. Bernard Shaw, Oscar Wilde, Maria Montessori, and others. Now, not all of these people would be considered libertarians by the modern understanding. Some even called themselves socialists, as absurd as that may sound to us today. But they all exhibited in their writings a deep and abiding attachment to the idea of human liberty. They agree in the primacy of the individual. They agreed that the greatest threat to individual rights is the state. And they believed in fighting for these rights. They believed in the freedom of assembly, freedom of press, freedom of religion, freedom to think and act. They hated war and social control. They rejected every form of authoritarianism, and, in all these areas, they made huge contributions. As Sprading says in his introduction: The greatest violator of the principle of equal liberty is the State. Its functions are to control, to rule, to dictate, to regulate, and in exercising these functions it interferes with and injures individuals who have done no wrong. The objection to government is, not that it controls those who invade the liberty of others, but that it controls the non-invader. It may be necessary to govern one who will not govern himself, but that in no wise justifies governing one who is capable of and willing to govern himself. To argue that because some need restraint all must be restrained is neither consistent nor logical. Governments cannot accept liberty as their fundamental basis for justice, because governments rest upon authority and not upon liberty. To accept liberty as the fundamental basis is to discard authority; that is, to discard government itself; as this would mean the dethronement of the leaders of government, we can expect only those who have no economic compromises to make, to accept equal liberty as the basis of justice. The introduction alone is extraordinary, given the times. On war he writes: "How is war to be abolished? By going to war? Is bloodshed to be stopped by the shedding of blood? No; the way to stop war is to stop going to war; stop supporting it and it will fall, just as slavery did, just as the Inquisition did. The end of war is in sight; there will be no more world wars. The laboring-man, who has always done the fighting, is losing his patriotism; he is beginning to realize that he has no country or much of anything else to fight for, and is beginning to decline the honor of being killed for the glory and profits of the few. Those who profit by war, those who own the country, will not fight for it; that is, they are not patriotic if it is necessary for them to do the killing or to be killed in war. In all the wars of history there are very few instances of the rich meeting their death on the battlefield." This is a fat book, 542 pages, with a vast index. It remains the best chronicle of libertarian thought ever put together, which is why Murray Rothbard chose this book as one of his favorites. This edition is a reprint of the original 1913 volume.

The Chanel Sisters - Judith Little 2020-12-29

A USA Today and Globe and Mail bestseller! A novel of survival, love, loss, triumph—and the sisters who changed fashion forever. Antoinette and Gabrielle “Coco” Chanel know they’re destined for something better. Abandoned by their family at a young age, they’ve grown up under the guidance of nuns preparing them for simple lives as the wives of tradesmen or shopkeepers. At night, their secret stash of romantic novels and magazine cutouts beneath the floorboards are all they have to keep their dreams of the future alive. The walls of the convent can’t shield them forever, and when they’re finally of age, the Chanel sisters set out together with a fierce determination to prove themselves worthy to a society that has never accepted them. Their journey propels them out of poverty and to the stylish cafés of Moulins, the dazzling performance halls of Vichy—and to a small hat shop on the rue Cambon in Paris, where a boutique business takes hold and expands to the glamorous French resort towns. But the sisters’ lives are again thrown into turmoil when World War I breaks out, forcing them to make irrevocable choices, and they’ll have to gather the courage to fashion their own places in the world, even if apart from each other. “The Chanel Sisters explores with care the timeless need for belonging, purpose, and love, and the heart’s relentless pursuit of these despite daunting odds. Beautifully told to the last page.” —Susan Meissner, bestselling author of *The Last Year of the War*

[Impact on the Firm Value of Financial Institutions From Penalties for Violating Anti-Money Laundering and Economic Sanctions](#) - Kathleen Gowin 2019-08-07

Abstract: This research uses an event study to examine the impact on firm value of U.S. financial institutions as a result of receiving an enforcement action for violations of anti-money laundering (AML) regulations or the Office of Foreign Assets Control (OFAC) economic sanction regulations. There are 989 enforcement actions that are hand-collected in the period from January 2000 to November 2018. The final sample includes 8,948 firm-quarterly observations representing 157 publicly traded financial institutions. The proxy for firm value is the Tobin's Q ratio. The results demonstrate a negative impact on firm value by the civil money penalties (CMP) issued by regulators or agencies of the federal government. The findings are robust and statistically significant with three CMP proxies controlling for firm size, net interest margin, market return, Tier 1 capital, debt, dividend yield, credit loss ratio, non-performing loans, and provision for loan losses. Bedazzled by tales of gold and movie stardom, she tricks them into buying tickets for America. Yet no sooner do they land on the squalid Lower East Side of Manhattan when Malka is crippled and abandoned in the street. [The Velvet Hours](#) - Alyson Richman 2016-09-06

From the international bestselling author of *The Lost Wife* and *The Garden of Letters*, comes a story—inspired by true events—of two women pursuing freedom and independence in Paris during WWII. As Paris teeters on the edge of the German occupation, a young French woman closes the door to her late grandmother’s treasure-filled apartment, unsure if she’ll ever return. An elusive courtesan, Marthe de Florian cultivated a life of art and beauty, casting out all recollections of her impoverished childhood in the dark alleys of Montmartre. With Europe on the brink of war, she shares her story with her granddaughter Solange Beaugiron, using her prized possessions to reveal her innermost secrets. Most striking of all are a beautiful string of pearls and a magnificent portrait of Marthe painted by the Italian artist Giovanni Boldini. As Marthe’s tale unfolds, like velvet itself, stitched with its own shadow and light, it helps to guide Solange on her own path. Inspired by the true account of an abandoned Parisian apartment, Alyson Richman brings to life Solange, the young woman forced to leave her fabled grandmother’s legacy behind to save all that she loved.

The Blue Orchard - Jackson Taylor 2010-01-12

On the eve of the Great Depression, Verna Krone, the child of Irish immigrants, must leave the eighth grade and begin working as a maid to help support her family. Her employer takes inappropriate liberties, and as Verna matures, it seems as if each man she meets is worse than the last. Through sheer force of will and a few chance encounters, she manages to teach herself to read and becomes a nurse. But Verna's new life falls to pieces when she is arrested for assisting a black doctor with "illegal surgeries." As the media firestorm rages, Verna reflects on her life while awaiting trial. Based on the life of the author's own grandmother and written after almost three hundred interviews with those involved in the real-life scandal, *The Blue Orchard* is as elegant and moving as it is exact and convincing. It is a dazzling portrayal of the changes America underwent in the first fifty years of the twentieth century. Readers will be swept into a time period that in many ways mirrors our own. Verna Krone's story is ultimately a story of the indomitable nature of the human spirit—and a reminder that determination and self-education can defy the deforming pressures that keep women and other disenfranchised groups down.

Mahgub is a fiercely proud student who is determined to keep both his poverty and his lack of principles secret from his idealistic friends. When he finds that there are no jobs for those without connections, out of desperation he agrees to participate in an elaborate deception. But what begins as a mere strategy for survival soon becomes much more for both Mahgub and his partner in crime, an equally desperate young woman named Ihsan. Honolulu - Alan Brennert 2009-03-03

From the bestselling author of the "dazzling historical saga" (The Washington Post), Moloka'i, comes the irresistible story of a young immigrant bride in a ramshackle town that becomes a great modern city "In Korea in those days, newborn girls were not deemed important enough to be graced with formal names, but were instead given nicknames, which often reflected the parents' feelings on the birth of a daughter: I knew a girl named Anger, and another called Pity. As for me, my parents named me Regret." Honolulu is the rich, unforgettable story of a young "picture bride" who journeys to Hawai'i in 1914 in search of a better life. Instead of the affluent young husband and chance at an education that she has been promised, she is quickly married off to a poor, embittered laborer who takes his frustrations out on his new wife. Renaming herself Jin, she makes her own way in this strange land, finding both opportunity and prejudice. With the help of three of her fellow picture brides, Jin prospers along with her adopted city, now growing from a small territorial capital into the great multicultural city it is today. But paradise has its dark side, whether it's the daily struggle for survival in Honolulu's tenements, or a crime that will become the most infamous in the islands' history... With its passionate knowledge of people and places in Hawai'i far off the tourist track, Honolulu is most of all the spellbinding tale of four women in a new world, united by dreams, disappointment, sacrifices, and friendship.

The Demands of Humanity - Gaines M. Foster 2005-01-01

From the earliest days of the Republic, the United States Army has not just maintained the national defense but has also performed a wide variety of peacetime missions. Army officers helped explore the West, Army engineers built early flood control systems, and Army pilots flew the first airmail routes. The Army Medical Department in particular has long aided the civilian community. Its members regularly contributed to the advancement of medical knowledge and in special situations provided health care for civilians. *The Demands of Humanity* examines one aspect of that direct assistance, medical aid rendered during natural disasters. Discussing help given both at home and abroad, this third volume in the Special Studies Series examines the origin of the relief mission in the nineteenth century and recounts its history to 1976. With their special expertise in public health and the treatment of mass casualties, Army medical personnel during these years compiled an impressive record of assistance. After the Spanish-American War, Army doctors made medical history in their campaigns against epidemic diseases in Cuba, Puerto Rico, and the Philippines. In times of twentieth century floods, hurricanes, tornadoes, earthquakes, famines, and epidemics, Army medical personnel aided individuals and furnished stricken communities valuable advice on sanitation and health care. *The Demands of Humanity* chronicles the humanitarian contribution made by Army doctors, nurses, and medical corpsmen during disaster situations. It also examines the problems their units encountered in relief operations and explains the development of the Army's assistance role. It

thereby contributes not only to the often-neglected history of the peacetime role of the military but to the history of social welfare policy in the United States as well. James L. Collins, Jr. Brigadier General, USA Chief of Military History

The Annals of the Barber-surgeons of London - Sidney Young 1890

The Comic History of England - Gilbert Abbott À Beckett 1894

A'Beckett and Leech were original contributors to "Punch, or the London Charivari" magazine, established 1841. It became the famous "Punch" magazine and remained in publication to 2002. A'Beckett also wrote editorials for a similar concept magazine, "Figaro in London" that ceased publication in 1839. "In commencing this work, the object of the Author was, as he stated in the Prospectus, to blend amusement with instruction, by serving up, in as palatable a shape as he could, the facts of English History. He pledged himself not to sacrifice the substance to the seasoning; and though he has certainly been a little free in the use of his sauce, he hopes that he has not produced a mere hash on the present occasion. His object has been to furnish something which may be allowed to take its place as a standing at the library table, and which, though light, may not be found devoid of nutriment."--Preface.
