The Hollow - Jessica Verday 2009-09-01

When Abbey's best friend, Kristen, vanishes at the bridge near Sleepy Hollow Cemetery, everyone else is all too quick to accept that Kristen is dead—and rumors fly that her death was no accident. Abbey goes through the motions of mourning her best friend, but privately, she refuses to believe that Kristen is really gone. It only makes things worse that everyone now treats Abbey like either a freak show or a charity case. Thank goodness for Caspian, the gorgeous and mysterious boy who shows up out of nowhere at Kristen's funeral, and keeps reappearing in Abbey's life. Caspian clearly has secrets of his own, but he's the only person who makes Abbey feel normal again...but also special. Just when Abbey starts to feel that she might survive all this, she learns a secret that makes her question everything she thought she knew about her best friend. How could Kristen have kept silent about so much? And could this secret have led to her death? As Abbey struggles to understand Kristen's betrayal, she uncovers a frightening truth that nearly unravels her—one that will challenge her emerging love for Caspian, as well as her own sanity.

**Auto Mechanics** - Kevin L. Borg 2007-06

The history of automobiles is not just the story of invention, manufacturing, and marketing; it is also a story of repair. Auto Mechanics opens the repair shop to historical study—for the first time—by tracing the emergence of a dirty, difficult, and important

profession. Kevin L. Borg's study spans a century of automotive technology—from the horseless carriage of the late nineteenth century to the "check engine" light of the late twentieth. Drawing from a diverse body of source material, Borg explores how the mechanic's occupation formed and evolved within the context of broad American fault lines of class, race, and gender and how vocational education entwined these tensions around the mechanic's unique expertise. He further shows how aspects of the consumer rights and environmental movements, as well as the design of automotive electronics, reflected and challenged the social identity and expertise of the mechanic. In the history of the American auto mechanic, Borg finds the origins of a persistent anxiety that even today accompanies the prospect of taking one's car in for repair.

**Objective Agribusiness Management 3rd Ed** - Ritambhara Singh 2019-02-19

The book OBJECTIVE AGRIBUSINESS MANAGEMENT 3rd Edition consists more than four thousand five hundred objective questions and the unique characteristics of all these objectives are that they have covered all most all the subjects of ICAR syllabus for agribusiness management. This is a handbook to refresh the memory at instant before the examination and the basic reliability and accuracy of questions and

their answers are very pertinent from the examination point of view. We always come across different objective books like Objective Agriculture, Objective Agricultural Economics etc in the market and this book was the first one that was introduced in this segment four years before. This year it comes in its new version and look for its stakeholders. This book consists of thirteen core chapters like Principle of Management, Organisational Behaviour, Human Resource Management Strategic Management, Accounting Control and Financial Management, Agricultural Finance, Marketing Management, Agricultural and Rural Marketing, Agricultural supply Chain Management, Production and Operations Management, Operations Research, Managerial Economics and Farm Business Management, Agribusiness Policy, Project Management and Entrepreneurship Development, Research Methodology and General study in Agribusiness Management. Besides that five practice tests are also attached in this book for its readers. This book will also be helpful to the Management students who appear for UGC NET examination as the pattern of this examination is now objective based unlike before. This book will be one window solutions for the readers who are going to appear ICAR NET, ICAR ARS, and UGC NET Examination particularly in India.
