Making Migration Law - Eve Lester 2018-03-22
The emergence of international human rights law and the end of the White Australia immigration policy were events of great historical moment. Yet, they were not harbingers of a new dawn in migration law. This book argues that this is because migration law in Australia is best understood as part of a longer jurisprudential tradition in which certain political-economic interests have shaped the relationship between the foreigner and the

sovereign. Eve Lester explores how this relationship has been wrought by a political-economic desire to regulate race and labour; a desire that has produced the claim that there exists an absolute sovereign right to exclude or condition the entry and stay of foreigners. Lester calls this putative right a discourse of 'absolute sovereignty'. She argues that 'absolute sovereignty' talk continues to be a driver of migration lawmaking, shaping the foreigner-sovereign relation and making thinkable some of the world's harshest asylum policies.

Flight to Finland: A Noverametry - Mehdi Ghasemi 2016-10-21

Flight to Finland: A Noverametry is a combination of novel, drama and poetry all in one line on the issue of immigration to Finland. The work starts with the narrator's doctoral defense session and his or her lectio when he or she addresses custos, opponent and audiences and ends with the concluding remark of the custos and in between the narrator moves back

and forth to recount his or her narratives of living and studying in Finland while every now and then he or she answers the opponent's questions. The author has also employed some characters from different eras of Finnish culture and history, including The First Woman Voter, The First Finnish Immigrant, The Finnish Refugee, King Charles Frederick, The Finnish Finn and The Swedish Finn, etc., to recount their chronicles. The language is mainly English but the author uses some Finnish, Swedish and German based on the backgrounds of characters. The book should be read by all Finns, especially by those who serve in the government such as cabinet ministers, members of parliament, politicians, etc., as well as all immigrants residing in Finland. It helps Finns to see themselves from a different perspective and offers immigrants a review of Finnish culture and history along with five year experience of living in Finland.

Danes in Wisconsin - Frederick Hale 2013-03-28

Wisconsin Territory's first Dane arrived in 1829, and by 1860 the state's Danish-born population had reached 1,150. Yet these newcomers remained only a small segment of Wisconsin's increasingly complex cultural mosaic, and the challenges of adapting to life in this new land shaped the Danish experience in the state. In this popular book, now revised and expanded with additional historical photos and documents, Frederick Hale offers a concise introduction to Wisconsin's Danish settlers, exploring their reasons for leaving their homeland, describing their difficult journeys, and examining their adjustments to life on Wisconsin soil. New to this edition are the selected letters of Danish immigrant Andrew Frederickson. These compelling documents, written over a 40-year span, capture the personal observations of one Dane as he made a new life in Wisconsin.

Exit West - Mohsin Hamid 2017-03-07

FINALIST FOR THE BOOKER PRIZE & WINNER
OF THE L.A. TIMES BOOK PRIZE FOR FICTION

and THE ASPEN WORDS LITERARY PRIZE “It was as if Hamid knew what was going to happen to America and the world, and gave us a road map to our future... At once terrifying and ... oddly hopeful.” —Ayelet Waldman, *The New York Times Book Review* “Moving, audacious, and indelibly human.” —*Entertainment Weekly*, “A” rating *The New York Times* bestselling novel: an astonishingly visionary love story that imagines the forces that drive ordinary people from their homes into the uncertain embrace of new lands, from the author of *The Reluctant Fundamentalist* and the forthcoming *The Last White Man*. In a country teetering on the brink of civil war, two young people meet—sensual, fiercely independent Nadia and gentle, restrained Saeed. They embark on a furtive love affair, and are soon cloistered in a premature intimacy by the unrest roiling their city. When it explodes, turning familiar streets into a patchwork of checkpoints and bomb blasts, they begin to hear whispers about doors—doors that

can whisk people far away, if perilously and for a price. As the violence escalates, Nadia and Saeed decide that they no longer have a choice. Leaving their homeland and their old lives behind, they find a door and step through. . . . Exit West follows these remarkable characters as they emerge into an alien and uncertain future, struggling to hold on to each other, to their past, to the very sense of who they are. Profoundly intimate and powerfully inventive, it tells an unforgettable story of love, loyalty, and courage that is both completely of our time and for all time.

Marrying for a Future - Sidharthan Maunaguru
2019-03-25

The civil war between the Sri Lankan state and Tamil militants, which ended in 2009, lasted more than three decades and led to mass migration, mainly to India, Canada, England, and continental Europe. In *Marrying for a Future*, Sidharthan Maunaguru argues that the social institution of marriage has emerged as a critical

means of building alliances between dispersed segments of Tamil communities, allowing scattered groups to reunite across national borders. Maunaguru explores how these fragmented communities were rekindled by connections fostered by key participants in and elements of the marriage process, such as wedding photographers, marriage brokers, legal documents, and transit places. *Marrying for a Future* contributes to transnational and diaspora marriage studies by looking at the temporary spaces through which migrants and refugees travel in addition to their home and host countries. It provides a new conceptual framework for studies on kinship and marriage and addresses a community that has been separated across borders as a result of war.

Journal Topanga Canyon is home to two couples on a collision course. Los Angeles liberals Delaney and Kyra Mossbacher lead an ordered sushi-and-recycling existence in a newly gated hilltop community: he a sensitive nature writer, she an obsessive realtor. Mexican immigrants Candido and America Rincon desperately cling to their vision of the American Dream as they fight off starvation in a makeshift camp deep in the ravine. And from the moment a freak accident brings Candido and Delaney into intimate contact, these four and their opposing worlds gradually intersect in what becomes a tragicomedy of error and misunderstanding. Black Identities - Mary C. WATERS 2009-06-30
The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

Strengthening Forensic Science in the United States - National Research Council
2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward*

provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science

educators.

The Negro Motorist Green Book - Victor H. Green

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.
