Louder Than Words - Matthew Leonard
2013-01-15

Is Catholicism more than giving up beer or chocolate for Lent? Even if it's good beer or great chocolate the answer is a resounding

"yes!" In fact, we're called to have such faith that when others meet us they actually see Christ. But how do we do that in a world where Notre Dame means "football" and not Our Lady? By following the lead of so many before us... We

have living examples of holy men and women who overcame the same types of temptations we face and shortcomings we all have, to become "huge, blinking neon signs that pointed to Jesus." And if they can do it so can we...with a little practice. Author, lecturer, and Catholic covert Matthew Leonard combines the stories of the saints' triumphs and struggles along with his own personal anecdotes and wry humor to show us all a fresh take on the art of being truly Catholic in a contemporary world.

[Antarctica's Hidden History](#) - Michael Salla
2018-03-25

Antarctica is a land about to be exposed over its well-guarded secrets and ancient hidden mysteries ... In 1955, as a result of a secret agreement reached between the Eisenhower Administration and a German breakaway group in Antarctica, a transnational corporate space program began to emerge. The secret infusion of personnel and resources from US military contractors into Antarctica allowed this

transnational corporate program to steadily grow into a major space power, which would eventually surpass and eclipse the secret space programs run by the US Navy, Air Force, and the classified space programs of other nations. Whistleblower claims substantiate that many of the classified programs conducted there violate the 1961 Antarctic Treaty, and constitute crimes against humanity due to the abuse of a captive slave labor force. Dr. Michael Salla daringly exposes the major corporations involved in these illegal programs, and how the truth is hidden from company shareholders and the public. Today, Antarctica's secrets are slowly being revealed by the increasing volcanic activity that is melting the massive ice shelves, exposing ancient artifacts and crashed extraterrestrial spacecraft. Full disclosure of Antarctica's history, and current events involving multiple space programs and transnational corporations, will vitally aid in transforming our planet, and prepare humanity for the major geological

events that lie ahead as the melting ice unveils all that has previously been hidden.

Space 2.0 - Rod Pyle 2019-02-26

We're on the cusp of new era in the great adventure of space exploration. More than a half-century ago, humanity first hurled objects into space, and almost 50 years ago, astronauts first walked on the moon. Since then, we have explored Earth's orbit with shuttles, capsules, and space stations; sent robots to Mars, Venus, Mercury, Jupiter, Saturn, and Uranus; sampled a comet; sent telescopes into orbit; and charted most of our own planet. What does the future hold? In Space 2.0, space historian Rod Pyle, in collaboration with the National Space Society, will give you an inside look at the next few decades of spaceflight and long-term plans for exploration, utilization, and settlement. No longer the exclusive domain of government entities such as NASA and other national agencies, space exploration is rapidly becoming privatized, with entrepreneurial startups

building huge rocket boosters, satellites, rocket engines, asteroid probes, prospecting craft, and even commercial lunar cargo landers to open this new frontier. Research into ever more sophisticated propulsion and life support systems will soon enable the journey to Mars and destinations deeper in our solar system. As these technologies continue to move forward, there are virtually no limits to human spaceflight and robotic exploration. While the world has waited since the Apollo lunar program for the next "giant leap," these critical innovations, most of which are within our grasp with today's technology, will change the way we live, both in space and on Earth. A new space age—and with it, a new age of peace and prosperity on Earth, and settlement beyond our planet—can be ours. Speaking with key leaders of the latest space programs and innovations, Pyle shares the excitement and promise of this new era of exploration and economic development. From NASA and the Russian space agency Roscosmos,

to emerging leaders in the private sector such as SpaceX, Blue Origin, Moon Express, Virgin Galactic, and many others, Space 2.0 examines the new partnerships that are revolutionizing spaceflight and changing the way we reach for the stars.

Alien Liaison - Timothy Good 1992

In *Above Top Secret*, Timothy Good examined evidence of US government research into alien visitations to Earth. In this book he investigates what he describes as top-secret UFO units in Britain, Canada and the USA, in which captured spacecraft are said to be tested and aliens subjected to medical examination. The book includes interviews with RAF and USAF personnel, scientists and doctors, as well as personal stories of alleged alien contact.

Exopolitics - Michael E Salla 2017-04-09

For almost 70 years the US government has engaged in an extensive "official effort" of disinformation, intimidation evidence-tampering in order to maintain a non-disclosure policy

about ET presence. Writes Dr. Salla: "Ever since I began to publish the early versions of the chapters in this book in January 2003 as 'Study Papers' on my website, <http://www.exopolitics.org>, I have received a consistent stream of supportive letters encouraging my research, and unsolicited information from former government, military, intelligence employees confirming many of my hypotheses. This has given me hope that eventually full disclosure of the extraterrestrial presence on the planet will occur, since interest is high and so much information is now in the public arena."

The Brain That Changes Itself - Norman Doidge
2007-03-15

"Fascinating. Doidge's book is a remarkable and hopeful portrait of the endless adaptability of the human brain."—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is neuroplasticity? Is it possible to change your brain? Norman Doidge's inspiring guide to the

new brain science explains all of this and more
An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has

us-air-force-secret-space-program-shifting-extrate

written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

Galactic Diplomacy: Getting to Yes with Et - Dr Michael E. Salla 2013-04

This book introduces first hand witness and whistleblower testimonies revealing that the USA, Britain, Russia and other major national governments have been secretly conducting, or known about, diplomatic relations with different extraterrestrial civilizations since at least 1952. Galactic diplomacy (aka 'exodiplomacy') with extraterrestrial visitors began with discussions over the development of thermonuclear weapons, the first of which was detonated by the Truman administration in November, 1952. Diplomatic discussions then expanded to include issues such as technology development, alien

bases, extraterrestrials living on Earth, human rights, and use of earth resources. In frustration over lack of government transparency with their citizens, some extraterrestrials began contacting private citizens to inform them of the true nature of alien activities on Earth, and relations with governments. The reader will be introduced to the basic principles of international diplomacy and how these apply to different extraterrestrial civilizations visiting Earth. Those desiring to expose secret government activity in diplomatic relations with extraterrestrial life, will be given the necessary information to hold responsible government, military and corporate officials accountable for past policies; and to ensure government transparency in the future. Alternatively, those desiring to become active in citizen diplomacy initiatives, will be given essential information for discerning the motivations and activities of visiting extraterrestrial civilizations. This is indispensable for practicing a citizen based form

of galactic diplomacy. This book prepares readers for the grandest adventure of all - the journey to galactic citizenship!

The Hidden Brain - Shankar Vedantam
2010-01-19

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner

of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

US Air Force Secret Space Program - Michael Salla 2019-05-21

The US Air Force is experiencing a profound shift! In order to aggregate the military's major space assets under one authority, they are being moved into a new branch under the purview of the Air Force. This new branch is to be called "Space Force". The true purpose of Space Force will be to publicly unveil the most well-guarded secrets in the Air Force's stunning arsenal of exotic spacecraft, unconventional weapons and mind-blowing technologies assembled over the more than seventy years since its official emergence in 1947. This book lays out the history of the Air Force Secret Space Program: Ushering in a new era with the recovery of

several extraterrestrial craft in the 1940's. Secret agreements with a breakaway German colony in Antarctica (the Fourth Reich) & different extraterrestrial groups in the 1950's. Its complicity in the German infiltration of NASA & the Military-Industrial Complex in the 1960's. Development of stealth space stations beginning from the 1970's. Deployment of squadrons of disk, triangle and rectangular-shaped craft in the 1980's & 1990's. After its 2016 discovery that it had been deceived by the Deep State and their shadowy Fourth Reich allies, Air Force leaders made the momentous decision to shift alliances and realigned their covert space program with human-looking extraterrestrials. This has led to bold steps being taken by the Air Force to reveal the existence of its arsenal of spacecraft to the US public.

Secret Journey to Planet Serpo - Len Kasten 2013-05-05

Documents how 12 people, as part of a top-secret U.S. government program, traveled to the

planet Serpo and lived there for 13 years •
Based on the debriefing of the Serpo team and
the diary of the expedition's commander •
Explains how the aliens helped us reverse-
engineer their antigravity spacecraft and
develop technology to solve our planet-wide
energy problems • Reveals how our government
has an ongoing relationship with the Serpo
aliens On July 16, 1965, a massive alien
spacecraft from the Zeta Reticuli star system
landed at the Nevada test site north of Las
Vegas. Following a plan set in motion by
President Kennedy in 1962, the alien visitors
known as the Ebens welcomed 12 astronaut-
trained military personnel aboard their craft for
the 10-month journey to their home planet,
Serpo, 39 light-years away. In November 2005,
former and current members of the Defense
Intelligence Agency--directed by Kennedy to
organize the Serpo exchange program--came
forward to reveal the operation, including details
from the 3,000-page debriefing of the 7

members of the Serpo team who returned after
13 years on the planet. Working with the DIA
originators of the Serpo project and the diary
kept by the expedition's commanding officer,
Len Kasten chronicles the complete journey of
these cosmic pioneers, including their
remarkable stories of life on an alien planet,
superluminal space travel, and advanced
knowledge of alien technologies. He reveals how
the Ebens presented the U.S. with "The Yellow
Book"--a complete history of the universe
recorded holographically, allowing the reader to
view actual scenes from pre-history to the
present. He explains how the Ebens helped us
reverse-engineer their antigravity spacecraft
and develop technology to solve our planet-wide
energy problems--knowledge still classified.
Exposing the truth of human-alien interaction
and interplanetary travel, Kasten reveals not
only that the Ebens have returned to Earth eight
times but also that our government continues to
have an ongoing relationship with them--a

relationship with the potential to advance the human race into the future.

Special Air Warfare and the Secret War in Laos - Air University Press 2019-07-02

The story of special air warfare and the Air Commandos who served for the ambassadors in Laos from 1964 to 1975 is captured through extensive research and veteran interviews. The author has meticulously put together a comprehensive overview of the involvement of USAF Air Commandos who served in Laos as trainers, advisors, and clandestine combat forces

to prevent the communist takeover of the Royal Lao Government. This book includes pictures of those operations, unveils what had been a US government secret war, and adds a substantial contribution to understanding the wider war in Southeast Asia.

Area 51 - Annie Jacobsen 2011-05-17

This "compellingly hard-hitting" bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government — but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The

prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than

fiction, especially when the distinction is almost impossible to make.

Global Trends 2040 - National Intelligence Council 2021-03

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) *Global Trends 2040-A More Contested World* (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic

power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

The Secret Space Program Who Is Responsible? Tesla? the Nazis? NASA? Or a Break Civilization?: Evidence We Have Already Established Bases on the Moon - Timothy Green Beckley 2012-03-01

IS A COVERT "BREAKAWAY CIVILIZATION" RESPONSIBLE FOR A SECRET "INVISIBLE" SPACE PROGRAM? DID THE NAZIS LAND ON THE MOON AND MARS DURING THE FINAL DAYS OF WORLD WAR II? HAVE ASTRONAUTS PLANTED THE MASONIC FLAG ON BOTH INTERPLANETARY BODIES? ARE THE

BOOMERANG AND TRIANGULAR UFOS OBSERVED WORLDWIDE PART OF A GLOBAL SURVEILLANCE PROGRAM, OFFERING EVIDENCE THAT "SOMEONE ELSE" IS CAPABLE OF TAKING OVER OUR SKY? WAS THE LATE SUPER SCIENTIST NIKOLA TESLA INVOLVED IN THE EARLY DEVELOPMENT OF THIS SECRET SPACE PROGRAM? WHAT RED BLOC NATION HAD AN ASTRONAUT PROGRAM NEARLY TWENTY YEARS BEFORE NASA LANDED ON THE MOON? IS THE FACE ON MARS DIRECT EVIDENCE THAT AN UNKNOWN "EMPIRE" HAS BEATEN US TO THE PUNCH AND ALREADY ESTABLISHED A VANGUARD ON THE RED PLANET? The Secret Space Program is among the most clandestine efforts ever undertaken and the questions are many as to who is responsible for its adaptation. Did the aliens establish colonies on the Lunar and Martian surfaces that we have seen and photographed despite attempts by NASA to eradicate them from photographic prints? Yes,

the answers are of utmost importance despite the fact that the American public is being kept in the dark about a subject so intriguing, so controversial, that its mere utterance creates a frustrating clash among skeptics and those in opposition who claim they have access to undeniable proof. Indeed, are scientists and others traveling back and forth between colonies already established in space? Have their memories been erased so they have only dream-like recollections of such "adventures?" Even Jules Verne - and other early science fiction pioneers - might have hinted that secret societies had developed "advanced" technologies that enabled them to venture beyond our atmosphere.

Engineering the Space Age - Robert V. Brulle 2012-08

Rarely is a reader exposed to such an extraordinary, multifaceted presentation of aerospace technology as Bob Brulle narrates in this book. After returning from duty as a combat

fighter pilot in World War II, this Belgian immigrant developed a multitalented and innovative aerospace career path that addressed many of the aerospace professions. Along the way he forged a career in the aviation and space field that resulted in his participating in several of the most momentous aerospace achievements of the past century. He also expanded his education through hard work to a level at which he was qualified to teach graduate-level aerospace engineering courses. It is interesting to follow how the analysis and design techniques of aerospace vehicles progressed over the years, which incidentally reveals the large role that the computer played in making that possible. The story on the early Cape Canaveral operations was amusing and showed that enterprising innovations played a large role in a successful undertaking. Some of the projects described were a surprise, as I had never heard of them, like reading how a pencil-shaped missile was built that could fly and maneuver over an

intercontinental distance at a high hypersonic velocity. He also described how American engineers and scientists fought the Cold War battle for technological supremacy on their desks and in their laboratories. The initiatives by which this enterprising engineer develops his technical approach to a project are very informative and offer the reader an insight into the workings of successful operations. He achieves an interesting behind-the-scenes look at how aerospace history is made by weaving in the historical significance of these projects as they are developed. As a former aeronautical engineer at the rapidly growing Mc- Donnell Aircraft Corporation, Bob gives us an interesting exposure to the importance of top management's relationship with the workforce in a successful company. "Mr. Mac" made it a point to make all his employees team members by frequent communication and friendly association. Inside the Secret Space Programs - Herbert Dorsey 2017-02-15

"Inside the Secret Space Programs" is a continuation of two previous works by the Author, Herbert G. Dorsey III - "Secret Science and the Secret Space Program," and "The Covert Colonization of Our Solar System." The previous two books, document the progress of antigravity propulsion, from the German Vrill Society and their Jensietsfugmaschine [otherworld flying machine], in 1923 and Thomas Townsend Brown's experiments with gravitators at about the same time, to the present black projects inside companies like Lockheed Martin, Northrup Grumman, Boeing Aerospace, and North American, which create antigravity craft for the Air Force, Navy and some private corporations like the secretive Interplanetary Corporate Conglomerate (ICC). As more information becomes available from persons, like Corey Goode, William Tompkins, and Tony Rodrigues and others who worked in the secret space programs is revealed, a better picture of what goes on inside these programs is made

possible. Sufficient new information has been revealed to warrant a new book on the subject. And remarkably, the new information, not only to a large degree, reinforces the information revealed in the previous two books, but also adds important information on subjects like where these kilometers long space craft are being built on this planet and how is it being financed. If you are interested in learning more about is really going on out in space, the covert colonizing, militarization, manufacturing and mining of Mars, other planets, moons and asteroids in our Solar system and even in other star systems, or you are curious about the technology used and how it works, this would be an excellent book to study.

The Los Angeles Air Raid on February 24/25, 1942 opened an unprecedented chapter in the evolution of the U.S. Navy. In response to this incident, a covert research program to investigate the feasibility of exotic antigravity propulsion technologies was developed. In addition, Navy operatives were embedded in Nazi occupied Europe to learn about the

Germans' advanced flying saucer programs, and they discovered the Nazis were receiving assistance from two extraterrestrial groups with very different agendas. The debriefing of the operatives took place at Naval Air Station, San Diego, led by Rear Admiral Rico Botta. He instructed a -Disseminator of Naval Research and Information-, William Tompkins, to take confidential briefing packets to select think tanks, corporations and university departments around the country. Later, Tompkins worked with a number of leading aerospace companies to design massive spacecraft for a secret U.S. Navy space program, and was fatefully assisted by extraterrestrial visitors described as -Nordics-. An extensive number of documents substantiate Tompkins' claims of the existence of a covert Navy program created to study, design and build deep space battle groups. They became operational in the 1980's. Now the Navy has a new goal to enact a plan to level the universal playing field, and the election of

President Donald Trump may just be the wild card they needed to reveal ... everything!

Space Force: Our Star Trek Future - Michael Salla 2021-04-17

On September 5, 2019, a Space Futures conference was hosted by the US Air Force Space Command which analyzed evolving conditions in space up to 2060. Eight possible negative and positive futures were identified, the optimal being a "Star Trek Future" which would involve countries with space programs forming a multinational alliance collaborating in civil, military and commercial affairs in space. Today, the emergence of Space Force, signing of the Artemis Accords, and creation of NATO's Space Center promise to be the fulcrum for ushering in this Star Trek scenario. Such a future is not assured however due to the existence of uncooperative rival space programs of China and Russia. Could one or both launch a Space Pearl Harbor that could devastate the entire US GPS system, as predicted 20 years ago by a blue-

ribbon Space Commission? Also, there is the wildcard of numerous secret space programs possessing reverse-engineered antigravity craft. Their existence is not officially acknowledged by major nations, but their space activities pose major challenges to a Star Trek future. Will Space Force be able to integrate the US based secret space programs or will these and their foreign counterparts be obstacles to its future operations? The ultimate question is how the existence of extraterrestrial life will factor into the activities of Space Force and its allies space forces. Will extraterrestrial visitors respond in a benign or a belligerent way to Space Force setting up a multinational space coalition to militarily project humanity's presence far into our solar system and beyond? How will a future "Starfleet" with Space Force and NATO at its core have to deal with rogue secret space programs and alien life operating throughout our solar system? The US Navy secret space program reportedly has space battle groups built

with the assistance of friendly human looking 'Nordic' extraterrestrials. Under what conditions will the Navy surrender authority over them to combine with Space Force? Space Force Our Star Trek Future provides answers to these and many other critical questions about humanity's bold emergence as an interplanetary space power.

Millennial Hospitality Iv - Charles James Hall
2007-10-30

In the first three volumes of his memoirs concerning experiences while serving at Nellis Air Force Base, Charles Hall gave astonishing testimony of having met with 'Tall White' extraterrestrials located at a secret underground facility at Nellis. Three independent witnesses have come forward to confirm important parts of Hall's testimony. Hall is a credible witness of extraterrestrials having reached agreements with military officials. This fourth volume offers more startling details that help confirm his experiences and help usher in new era of official

disclosure of extraterrestrial life. Micheal E. Salla, Ph.D. President and Founder, The Exopolitics Institute Charles Hall's report (Millennial Hospitality I-III) of his encounters and deep interactions with tall humanoid beings living on the Earth remains without serious challenge to this day. And this is remarkable, as its implications are so radical; they reveal an entrenched presence in the American Southwest that predates the arrival of Euro-Americans in the area, and that continues with covert protection and support from the government while maintaining communications with a distant home location. Hall's powerful and entirely self-consistent narrative, filled with surprising and revealing detail, is so impressive that I have chosen it as the only example of modern human-ET contact to receive major coverage in my web pages. Gerry Zeitlin, Open Seti Initiative It is possible that eventually the story Charles Hall tells will be seen as a pivotal moment in UFOlogy. His story has become the key to

linking a disparate series of reports, encounters and claims that have circulated in UFO circles without a home for many years. This fourth and final account gives us the most detailed look ever into one aspect of a covert military-alien liaison that has been underway for decades. Essential reading! Researcher, Author.

Covert Wars and Breakaway Civilizations -

Joseph P. Farrell 2012-12-05

Oxford-educated historian Joseph P. Farrell really delivers in this latest addition to his best-selling book series on suppressed technology, Nazi survival and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control few people even suspect exists. Farrell delves into the creation of a breakaway civilization by the Nazis in South America and other parts of the world. He discusses the advanced technology that they took with them at the "end" of World War II and the psychological war that they

waged for decades against America and NATO. He shows how the breakaway civilization has created a huge system of hidden finance with the involvement of the Vatican Bank (among others), and how NATO established a large covert warfare network and political slush fund. He investigates the secret space programs currently sponsored by the breakaway civilization and the current militaries in control of planet Earth. Farrell includes a fascinating discussion of "emulational" technologies (those that can manipulate acts of god/nature, like earthquakes and storms) from the standpoint of the culture of "full spectrum dominance" and the culture of "plausible deniability"-yes, there are plans for mass destruction that can never be traced back to their real source. Farrell also discusses the historical origin of the breakaway civilization with the continuing airship mystery; incredibly bold counterfeiting operations; and the nexus of spy satellites, nuclear weapons and UFOs. He includes plenty of astounding

accounts, documents and speculation on the amazing alternative history of hidden conflicts, secret super-finance and technology.

Dark Fleet - Len Kasten 2020-03-10

Reveals the Nazi-Reptilian infiltration of the U.S. government, their secret space program, and their slave colonies throughout the solar system

- Details “Operation Paperclip,” which enabled Nazis and their Reptilian partners to infiltrate the U.S. military-industrial complex, including NASA and the CIA
- Reveals their interstellar space ports in Antarctica and on Mars, their base on the Moon, and their alien technologies, including nano-technology, antigravity propulsion, mass mind control, and hyperdimensional teleportation capabilities
- Shares testimonies from American and British “supersoldiers” who participated in the “20 and Back” age-regression programs, revealing advanced human technology and our Space Armada that constitutes a counter-balance to the Nazi Dark Fleet

The Nazis did not really lose

World War II. They made it appear that way in order to divert attention from the alliance between the Fourth Reich and the race of aliens known as the Reptilians--an ancient galactic civilization obsessed with conquest and domination. After the German surrender in 1945, the Nazi-Reptilian alliance infiltrated the U.S. military-industrial complex. Through “Operation Paperclip,” the Nazis and Reptilians removed their political opponents, such as the Kennedys, and moved into policy-making positions in post-war America, infiltrating aerospace companies, banking, media, and the U.S. government, including NASA and the CIA. But their real target was not the United States--it was the solar system. As Len Kasten reveals in startling detail--including revelations of antigravity propulsion technology, alien techniques of mass mind control, and hyperdimensional teleportation capabilities--the Nazi-Reptilian alliance used their newfound power, wealth, and influence to launch a Secret

Space Program with interstellar spaceports in Antarctica and on Mars as well as an eleven-story base of operations on the Moon. They commenced mining and manufacturing operations on Mars and Ceres, forming colonies there and elsewhere in the solar system. And, most shocking, they have used thousands of human slaves, easily transported in their spaceships, for both work and sexual exploitation. Sharing testimonies from American and British “supersoldiers” who participated in the “20 and Back” age-regression programs, Kasten reveals the various forces inside and outside government that are resisting the Nazis and thwarting Reptilian attempts to achieve total dominance of the planet and the solar system. The U.S.-led Secret Space Program has its own fleet of spaceships, the Solar Warden Space Armada, which patrols the edges of the solar system and poses a growing threat to the Nazi Dark Fleet.

Rise of the Red Dragon - Michael Salla
2020-04-19

How did China undergo its meteoric rise from a technological backwater into a military superpower in outer space? This amazing transition began in top secret US Air Force programs over 75 years ago! While living in America, a brilliant Chinese scientist is chosen to work on the US military's most classified technologies for over a decade. Suddenly, he is outlandishly targeted by the FBI, traded in a prisoner exchange by President Eisenhower and must return to China. This episode ultimately led

to China's development of a military-run secret space program (SSP) using exotic electromagnetic propulsion systems now challenging US military dominance on Earth and in outer space. By 2030, China's economy will outgrow the US, and China plans to use its vast economic resources to project its presence deep into space in ways that will lead to increasing military confrontations with the newly created US Space Force. In this book, you will learn about: - The origins of China's SSP through the pioneering work of Dr. Tsien Hsue-shen who brought his advanced knowledge of SSPs in Nazi Germany and the US to China;- How ancient aviation technologies buried in China's mysterious pyramids are being secretly studied and reverse engineered;- Ancient artifacts from extraterrestrial contacts in remote regions of Tibet, the Gobi Desert, and the truth behind legends of Shamballa and Agartha;- China's participation in a United Nations run SSP designed to foster greater international

cooperation in responding to the existence of extraterrestrial life;- The space weapons and electromagnetically propelled spacecraft secretly being developed and deployed by China;- The threat posed by Communist China's plan to use Artificial Intelligence to become the dominant superpower on Earth and in Space.The Rise of the Red Dragon represents both a global crisis and opportunity presented by China. Are the US and China destined to violently clash in an inevitable cataclysmic space war or are they to become strategic partners in guiding humanity's peaceful transition into a space faring galactic civilization?

secrecy as a teenager, when the Navy took his personal ship models out of a Hollywood department store because they showed the classified locations of the radars and gun emplacements. He was personally present at the "Battle of L.A." when a thousand rounds of ammo were fired at UFOs, and one of the Nordic craft may have selected him to be their rep in the evolving aerospace race. This book is a partial autobiography about his life to the beginning of the 1970s including some of his early work for TRW. Selected by the Navy prior to completing high school to be authorized for research work, he regularly visited classified Naval facilities during WWII until he was discharged in 1946. After working at North American Aviation and Northrop, he was hired by Douglas Aircraft Company in 1950, and when they found out about his involvement in classified work, was given a job as a to create design solutions as a draftsman with a peripheral assignment to work in a "think tank."

This work was partly controlled by the Navy personnel who used to work for James Forrestal, who was allegedly assassinated because he was going to publicly reveal what he knew about UFOs. Bill Tompkins was asked to conceive sketches of mile-long Naval interplanetary craft designs. Later, as he became involved in the conventional aspects of the Saturn Program that later became the Apollo launch vehicle, his insight to system engineering resulted in his offering some critical suggestions personally to Dr. Wernher von Braun about ensuring more reliable checkout using the missiles in their vertical position and also some very efficient launch control concepts adopted by both NASA and the Air Force. This story is peppered with very personal interactions with his co-workers and secretaries, some of whom the author believes to be Nordic aliens helping the "good guys" here on Earth. Towards the end of this volume of his autobiography, he sketches what he personally saw on TV when Armstrong was

landing on the moon. Born in May 1923, Bill Tompkins is one of the few survivors of the "big war" who is still healthy, married to the same girl Mary, and is willing to tell his story about what he really did during his aerospace life in the 40s, 50s and 60s that relate to aliens, NASA and secrets that now can be told.

The Red Room - August Strindberg 2020-10-26
Arvid Falk is a young and idealistic government worker who always wanted to be a poet. When a journalist writes a newspaper exposé based on Arvid's stories about his useless government department, Arvid is fired immediately. Starting afresh he sets out to explore every corner of the Swedish society, and the hypocrisy and

corruption he finds shocks him. Walking the streets of Stockholm will never be the same again once this novel gets under your skin. Named the first modern Swedish novel, 'The Red Room' (1879) is wonderfully insightful and ironic. The Charles Dickens influence is undeniable and Strindberg's writing has been rightfully compared to that of Henrik Ibsen as well. August Strindberg (1849-1912) was a world-famous Swedish playwright, who, in Sweden, was known for his novels, poems, essays and paintings as well. Along with Henrik Ibsen, Hans Christian Andersen, Søren Kierkegaard and Selma Lagerlöf he is one of the all-time most influential authors of Scandinavia.
