Madness and Civilization - Michel Foucault 2013-01-30

Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

Upside Down - Eduardo Galeano 2014-05-13

From the winner of the first Lannan Prize for Cultural Freedom, a biting funny, kaleidoscopic vision of the first world through the eyes of the third Eduardo Galeano, author of the incomparable Memory of Fire Trilogy, combines a novelist's intensity, a poet's lyricism, a journalist's fearlessness, and the strong judgments of an engaged historian. Now his talents are richly displayed in Upside Down, an eloquent, passionate, sometimes hilarious exposé of our first-world privileges and assumptions. In a series of lesson plans and a "program of study" about our beleaguered planet, Galeano takes the reader on a wild trip through the global looking glass. From a master class in "The Impunity of Power" to a seminar on "The Sacred Car"--with tips along the way on "How to Resist Useless Vices" and a declaration of "The Right to Rave"--he surveys a world unevenly divided between abundance and deprivation, carnival and torture, power and helplessness. We have accepted a reality we should reject, Galeano teaches us, one where machines are more precious than humans, people are hungry, poverty kills, and children toil from dark to dark. A work of fire and charm, Upside Down makes us see the world anew and even glimpse how it might be set right. "Galeano's outrage is tempered by intelligence, an ineradicable sense of humor, and hope." -

Red Moon - M.a. Grant 2013-08-01

Dark, moving and original, a story of family, survival, and getting on with life... Flynn Sinclair understands pack loyalty - for years as his Alpha father's enforcer, he has done things in the name of duty that he can't ever forget. But the vast expanse of Alaska offers him a peace he's never known. Alone, removed from pack life, he can focus on his research and try to forget his life before. But duty has a way of inviting itself in, and Flynn finds himself doing two reckless things in one week: leaving the safety of Alaska to save his brother Connor's life, and unwittingly falling in love with Evie Thompson, a woman who doesn't deserve to be drawn into his terrifying world. Connor carries news of their father's descent into madness, and it looks like neither geography nor Flynn's attempts at disengagement will put off a confrontation. Flynn had finally begun to believe that he might deserve something good in his life - something like Evie - but to move forward in the light, he must first reconcile with the dark.

Marx's Ecology - John Bellamy Foster 2000-03-01

Progress requires the conquest of nature. Or does it? This startling new account overturns conventional interpretations of Marx and in the process outlines a more rational approach to the current environmental crisis. Marx, it is often assumed, cared only about industrial growth and the development of economic forces. John Bellamy Foster examines Marx's neglected writings on capitalist agriculture and soil ecology, philosophical naturalism, and evolutionary theory. He shows that Marx, known as a powerful critic of capitalist society, was also deeply concerned with the changing human relationship to nature. Marx's Ecology covers many other thinkers, including Epicurus, Charles Darwin, Thomas Malthus, Ludwig Feuerbach, P. J. Proudhon, and William Paley. By reconstructing a materialist conception of nature and society, Marx's Ecology challenges the spiritualism prevalent in the modern Green movement, pointing toward a method that offers more lasting and sustainable solutions to the ecological crisis.

The Diary of a Young Girl - Anne Frank 1996-02-01

THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

Sapiens - Yuval Noah Harari 2015-02-10

New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, Sapiens integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

A pioneering work from a visionary anthropologist, *The Children of Sanchez* is hailed around the world as a watershed achievement in the study of poverty—a uniquely intimate investigation, as poignant today as when it was first published. It is the epic story of the Sánchez family, told entirely by its members—Jesus, the 50-year-old patriarch, and his four adult children—as their lives unfold in the Mexico City slum they call home. Weaving together their extraordinary personal narratives, Oscar Lewis creates a sympathetic but ultimately tragic portrait that is at once harrowing and humane, mystifying and moving. An invaluable document, full of verve and pathos, *The Children of Sanchez* reads like the best of fiction, with the added impact that it is all, undeniably, true.

Genesis - Eduardo Galeano 2014-04-29

“An epic work of literary creation . . . There could be no greater vindication of the wonders of the lands and people of Latin America than *Memory of Fire*.” —The Washington Post Eduardo Galeano's monumental three-volume retelling of the history of the New World begins with *Genesis*, a vast chain of legends sweeping from the birth of creation to the era of savage colonialism. Through lyrical prose and deep understanding, Galeano (author of the celebrated *Open Veins of Latin America*) recounts creation myths, pre-Columbian societies, and the brutality of conquest, from the Andes to the Great Plains. Galeano's project to restore to history “breath, liberty, and the word” unfolds as a unique, powerful work of literature. This daring masterpiece sets the past free, weaving a new kind of history from mythology, silenced voices, and the clash of worlds. *Genesis* is the first book of the *Memory of Fire* trilogy, which continues with *Faces and Masks* and *Century of the Wind*.

Five Weeks in a Balloon (Annotated with Biography of Verne and Plot Analysis) - Jules Verne 2013-11-22

Five Weeks in a Balloon was Jules Verne's first published novel – he had adapted it from a work of non-fiction at the suggestion of his editor, Jules Hetzel. The novel was published in 1863, before successful balloon-air flight was accomplished. The story is pure adventure and typically Verne. It is not without its drawbacks – it is unpolished compared to some of Verne's later works and the racism is difficult for today's readers to accept. As a first adventure story, it was a testament as to what was to come from Verne – proving his publisher Hetzel had backed a winner. This annotated edition includes a biography and critical essay.

Loving Pablo, Hating Escobar - Virginia Vallejo 2018-06-19

A revealing memoir of Colombian television journalist Virginia Vallejo's affair with the "King of Cocaine," notorious Medellín drug lord, Pablo Escobar. Soon to be a major motion picture starring Javier Bardem and Penelope Cruz. At 33, Virginia Vallejo was media elite. A renowned anchorwoman and socialite, and a model who appeared on magazine covers worldwide, Vallejo was the darling of Colombia's most powerful politicians and billionaires. Meeting Pablo Escobar in 1983, and becoming his mistress for many years, she witnessed the rise of a drug empire that was characterized by Escobar's far-reaching political corruption, his extraordinary wealth, and a network of violent crime that lasted until his death in 1993. In this highly personal and insightful story, Vallejo characterizes the duality of Escobar's charm and charisma as a benefactor to the people of Colombia, and the repulsion of his criminal actions as a tyrannical terrorist and enemy of many world leaders. Told from the present day perspective, and reflecting on her cooperation with the US Department of Justice, in 2006, as she testified against high-ranking Colombian ministers on trial for conspiracy and murder, Vallejo offers a compelling work of intimate reflection and critical journalism--a unique perspective on the Colombian drug wars and the endlessly fascinating figure, Pablo Escobar.

One Hundred Years of Solitude - Gabriel Garcia Marquez 2003-06-24

One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leonidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—"The Butterflies." In this extraordinary novel, the voices of all four sisters—Minerva, Patria, María Teresa, and the survivor, Dedé—speak across the decades to tell their own stories, from hair ribbons and secret crushes to gunrunning and prison torture, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human cost of political oppression.

Nada - Carmen Laforet 2020-08-11

Renowned as Spain's *The Catcher in the Rye*, this passionate coming-of-age novel follows a rebellious

college-age girl as she uncovers her family's secrets in chaotic, polarized, post-Civil War Barcelona. Andrea, an eighteen-year-old orphan, moves in with her volatile Barcelona relatives to attend the local University. Living in genteel squalor in a mysterious house on Calle de Aribau, Andrea relies on her wealthy, beautiful, bohemian friend Ena to prove that normal life exists beyond the gothic dwelling she calls home. In one year, as her innocence melts away, Andrea learns the truth about her overbearing and religious Aunt Angustias, her cruelly sensual, musically gifted uncle Román and his violent brother Juan, and her lovely Aunt Gloria, who provides the family's bread with furtive gambling expeditions. She also learns the truth about Ena—and why her friendship goes hand in hand with her interest in Andrea's family. Things We Lost in the Fire - Mariana Enriquez 2017-02-21

In these wildly imaginative, devilishly daring tales of the macabre, internationally bestselling author Mariana Enriquez brings contemporary Argentina to vibrant life as a place where shocking inequality, violence, and corruption are the law of the land, while military dictatorship and legions of desaparecidos loom large in the collective memory. In these stories, reminiscent of Shirley Jackson and Julio Cortázar, three young friends distract themselves with drugs and pain in the midst a government-enforced blackout; a girl with nothing to lose steps into an abandoned house and never comes back out; to protest a viral form of domestic violence, a group of women set themselves on fire. But alongside the black magic and disturbing disappearances, these stories are fueled by compassion for the frightened and the lost, ultimately bringing these characters—mothers and daughters, husbands and wives—into a surprisingly familiar reality. Written in hypnotic prose that gives grace to the grotesque, *Things We Lost in the Fire* is a powerful exploration of what happens when our darkest desires are left to roam unchecked, and signals the arrival of an astonishing and necessary voice in contemporary fiction.
