Flesh and Spirit - Rachel Adcock 2016-05-16
This anthology makes accessible to readers ten little-known and under-studied works by seventeenth-century women (edited from manuscript and print) that explore the relationship between spiritual and physical health in the period. Providing a detailed and engaging introduction to the issues confronted when studying women's writing from this era, the anthology also examines female

interpretations of illness, exploring beliefs that toothache and miscarriage could be God's punishments, but also, paradoxically, that such terrible suffering could be understood as proof that a believer was eternally beloved. The extracts in the anthology explore how illness was an important part of women's religious conversion, often confirming religious belief, but also how women could advise others about their physical and spiritual health in manuscript and print. The anthology includes a thorough introduction to the period's medical and religious beliefs, as well as an introduction to contemporary ideas about women's physical and spiritual make up. Each of the ten extracts also has its own preface, highlighting relevant contexts and further reading, and is fully annotated.

Our Ebenezer - Pam Dysinger 2016-10-20

John and Pam Dysinger started life together with the desire to serve. Young and idealistic, they headed to Kenya with the passion to make a difference in the lives of children and youth. For the next eight years the classroom was their platform for ministry. Then the call came. Like Abraham's call to leave the comforts of home for an unknown destination, their call was to leave the comforts of employment, for an unknown occupation. In a world of fractured relationships, John was called to come home and join Pam in the raising of their children. Farming was God's appointed vehicle to unite the family. Together they worked toward common goals and experienced the exhilaration of conquering seemingly insurmountable tasks; together they experienced the fears and struggles of "failure" and the financial constraints of "poverty." Walk with them through this candid account of their experience as they learned to follow God and depend on Him alone. Grapple with them as they faced the harsh realities of learning to farm; cling with them to the promises of God and the desire to be faithful to His call. Above all, come to know that, while your path may not be exactly the same, God wants this same kind of intimate relationship with you.

The American Plutarch - Russell M. Lawson 1998

Creating an unconventional portrait of the life and thought of an Enlightenment historian and scientist, this study focuses upon Jeremy Belknap's letters, journals, and essays, which provide a clear sense of how a dialogue with the past can yield an appreciation of life and acceptance of self. Author of the three volume History of New Hampshire and the two volume American Biography, Jeremy Belknap (1744-1798) was the American Plutarch because he used the past to learn more about his own life and the lives of others. He experienced the past vicariously through his imagination and experientially through his journeys throughout New England in search of clues to the explanation of the natural and human past of America. The book is built around Belknap's engaging correspondence with his friend Ebenezer Hazard, as well as Belknap's own travel journals of his expeditions to upstate New York and throughout New Hampshire. His journey to the White Mountains of New Hampshire in 1784 was the climax of his active inquiry into the past. Far from a dry, historiographical account, this study provides a fluid and descriptive narrative of Belknap, his journeys, and his times. This is a unique portrayal of human nature in general and 18th century society in particular.

AIDS, Intimacy and Care in Rural KwaZulu-

Natal - Patricia C. Henderson 2011

This book describes how HIV/AIDS became part of the lives of the people of the mountainous Okhahlamba in the South African province of KwaZulu-Natal. Based on extensive research in the area between 2003 and 2006, the author shows what impact the disease had - and still does - for adults and children, and the different ways people tried to find answers to the devastating presence of HIV / AIDS. Henderson focuses on informal care by family members and volunteers at a time when anti-retroviral drugs were not yet available. She also shows what it meant to the community once the drugs became available.

The FitzOsbornes in Exile - Michelle Cooper
2011-04-05

Michelle Cooper combines the drama of pre-War Europe with the romance of debutante balls and gives us another compelling historical page turner. Sophia FitzOsborne and the royal family of Montmaray escaped their remote island home when the Germans attacked, and now find themselves in the lap of luxury. Sophie's journal fills us in on the social whirl of London's 1937 season, but even a princess in lovely new gowns finds it hard to fit in. Is there no other debutante who reads?! And while the balls and house parties go on, newspaper headlines scream of war in Spain and threats from Germany. No one wants a second world war. Especially not the Montmaravians—with all Europe under attack, who will care about the fate of their tiny island kingdom? Will the FitzOsbornes ever be able to go home again? Could Montmaray be lost forever?

The American Presidents From Polk to

Hayes - Robert A. Nowlan, Ph.D. 2016-01-31
American Presidents, Polk to Hayes. What They Did. What They Said, What Was Said About Them is the second book in a planned five volume series, covering all the Presidents. These 43 men (so far) have succeeded in some regards and failed in others as they strove to do the best they could in what is surely one of the most difficult jobs in the world. Only they can truly appreciate what it takes to be the president. Others can only speculate. People feel strongly about U.S. Presidents. Some they admire - others they hate. It is fair game to criticize a president's actions and policies. However, questioning their commitment to American ideals seems like hitting below the belt. There are no willing villains. Most people can find justification for their actions, beliefs, and prejudices. Each president strove to do the best he could for the nation and its people. This goal of the book is not to praise presidents, nor is it to condemn them. The subtitle of each of the five books in the series: What They Did. What They Said, What Was Said About Them, perfectly describes the approach adopted to tell their stories in a unique, way, meant to entertain as well as inform. Readers are asked to make their own judgments of the presidencies based on more information than the semi-myths they may recall History courses or what is preached in the many longstanding and despicable negative campaigning, mudslinging and character assassination reports they hear from partisans. One can find much to admire about each of the presidents and unfortunately much to deplore. Soldiers are told that in giving salutes to officers is not honoring the individuals, but rather their rank. If there are presidents, readers just feel they cannot salute, hopefully they can salute the presidency.

The Twenty-Seventh Letter of the Alphabet - Kim Adrian 2018-10-01

Clear-sighted, darkly comic, and tender, The Twenty-Seventh Letter of the Alphabet is about a daughter's struggle to face the Medusa of generational trauma without turning to stone. Growing up in the New Jersey suburbs of the 1970s and 1980s in a family warped by mental illness, addiction, and violence, Kim Adrian spent her childhood ducking for cover from an alcoholic father prone to terrifying acts of rage and trudging through a fog of confusion with her mother, a suicidal incest survivor hooked on prescription drugs. Family memories were buried--even as they were formed--and truth was obscured by lies and fantasies. In The Twenty-Seventh Letter of the Alphabet Adrian tries to make peace with this troubled past by cataloguing memories, anecdotes, and bits of family lore in the form of a glossary. But within this strategic reckoning of the past, the unruly present carves an unpredictable path as Adrian's aging mother plunges into ever-deeper realms of drug-fueled paranoia. Ultimately, the glossary's imposed order serves less to organize emotional chaos than to expose difficult but necessary truths, such as the fact that some problems simply can't be solved, and that loving someone doesn't necessarily mean saving them.

Max Yergan - David Henry Anthony 2006-01
Through the Refugee Act of 1980, the United States offers the prospect of safety to people who flee to America to escape rape, torture, and even death in their native countries. In order to be granted asylum, however, an applicant must prove to an asylum officer or immigration judge that she has a well-founded fear of persecution in her homeland. The chance of winning asylum should have little if anything to do with the personality of the official to whom a case is randomly assigned, but in a ground-breaking and shocking study, Jaya Ramji-Nogales, Andrew I. Schoenholtz, and Philip G. Schrag learned that life-or-death asylum decisions are too frequently influenced by random factors relating to the decision makers. In many cases, the most important moment in an asylum case is the instant in which a clerk randomly assigns the application to an adjudicator. The system, in its current state, is like a game of chance. Refugee Roulette is the first analysis of decisions at all four levels of the asylum adjudication process: the Department of Homeland Security, the immigration courts, the Board of Immigration

Appeals, and the United States Courts of Appeals. The data reveal tremendous disparities in asylum approval rates, even when different adjudicators in the same office each considered large numbers of applications from nationals of the same country. After providing a thorough empirical analysis, the authors make recommendations for future reform. Original essays by eight scholars and policy makers then discuss the authors' research and recommendations Contributors: Bruce Einhorn, Steven Legomsky, Audrey Macklin, M. Margaret McKeown, Allegra McLeod, Carrie Menkel-Meadow, Margaret Taylor, and Robert Thomas.
