What's Eating Gilbert Grape - Peter Hedges

2014-11-12

“Wonderfully entertaining . . . This distinctive first novel goes down like a chocolate milkshake

but boasts the sharpness and finesse of a complex wine” (Publishers Weekly). Gilbert Grape is a twenty-four-year-old grocery store clerk stuck in Endora, Iowa, where the population is 1,091 and shrinking. After the suicide of Gilbert’s father, his family never fully recovered. Once the town beauty queen, Gilbert’s mother is now morbidly obese and planted eternally in front of the TV; his younger

sister has recently turned both boy-crazy and God-fearing, while his older sister sacrifices everything for her family. And then there's Arnie, Gilbert's younger brother with special needs. With no one else to care for Arnie, Gilbert becomes his brother's main parent, and all four siblings must tend to the needs of their helpless, grieving mother. So Gilbert is in a rut—until a mysterious new girl named Becky arrives in this small town. As his family gathers for Arnie's eighteenth birthday, Gilbert finds himself at a crossroads . . . This "completely original" portrait of a family (The New York Times), "charged with sardonic intelligence" (The Washington Post Book World), was the basis for a film starring Johnny Depp and Leonardo DiCaprio, and stands as one of the most memorable novels of recent decades. "Sometimes funny, sometimes sad, and always engaging." —The Atlantic "By the book's exhilaratingly luminous ending . . . we have already been mesmerized." —The Philadelphia

Inquirer "A funny, touching, caring first novel whose characters are familiar and moving in spite of (or perhaps because of) their peculiarities." —Booklist

Twelve Years a Slave - Solomon Northup
2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

In Defiance of Painting - Christine Poggi
1992-01-01

The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of

modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book - the first comprehensive study of collage and its relation to modernism - challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage - and the Futurist multimedia work that was inspired by it - undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of exchange.

Capitalism As Civilisation - Ntina Tzouvala
2020-10-29

Methodologically and theoretically innovative, this monograph draws from Marxism and deconstruction bringing together the textual and the material in our understanding of international law. Approaching 'civilisation' as an argumentative pattern related to the distribution of rights and duties amongst different communities, Ntina Tzouvala illustrates both its contradictory nature and its pro-capitalist bias. 'Civilisation' is shown to oscillate between two poles. On the one hand, a pervasive 'logic of improvement' anchors legal equality to demands that non-Western polities undertake extensive domestic reforms and embrace capitalist modernity. On the other, an insistent 'logic of biology' constantly postpones such a prospect based on ideas of immutable difference. By detailing the tension and

synergies between these two logics, Tzouvala argues that international law incorporates and attempts to mediate the contradictions of capitalism as a global system of production and exchange that both homogenises and stratifies societies, populations and space.

Friendship and Peer Culture in the Early Years - William A. Corsaro 1985

Based on a year-long micro-ethnography of a nursery school, this book presents a unique approach to childhood socialization by focusing directly upon the social, interactive, and communicative processes that make up the world of young children. It contains micro-sociolinguistic analyses of videotaped peer interactive episodes which are the basis of

explanations of children's development and use of social concepts such as status, role, norms, and friendship. Stable features of peer culture in the nursery school are identified, and the importance of interpreting children's behavior from their own perspective is demonstrated. The author also addresses the implications of the findings for early childhood education.
