The cats of America are under siege! Long gone are the good old days when a cat's biggest worries were mean dogs or a bath. Modern cats must confront satanists, online predators, the possibility of needing to survive in a post-apocalyptic wasteland, and countless other threats to their nine lives. For over four decades, the American Association of Patriots have stood at the vanguard of our country's defense by helping to prepare our nation's cat owners for the difficult conversations they dread having with their pets. Written in a simple Q&A format, [How to Talk to Your Cat About Gun Safety](#) answers crucial questions such as, "What is the right age to talk to my cat about the proper use of firearms?" and "What are the benefits of my cat living a lifestyle of abstinence?" and

especially "Why does my cat need to use the internet? Can't he just play with yarn like cats used to do?" Our country—and our cats—stand at a precipice. It will take courage, and it will take hard work, but armed with the knowledge within these pages, we can make our cats—and America—great again!

**A Planet to Win** - Kate Aronoff 2019-11-12

All politics are climate politics in the twenty-first century—and this bold book argues for a Green New Deal that confronts both climate change and inequality. The age of climate gradualism is over, as unprecedented disasters are exacerbated by inequalities of race and class. We need profound, radical change. A Green New Deal can tackle the climate emergency and rampant inequality at the same time. Cutting carbon emissions while winning immediate gains for the many is the only way to build a movement strong enough to defeat big oil, big business, and the super-rich—starting right now. A

Planet to Win explores the political potential and concrete first steps of a Green New Deal. It calls for dismantling the fossil fuel industry and building beautiful landscapes of renewable energy, guaranteeing climate-friendly work and no-carbon housing and free public transit. And it shows how a Green New Deal in the United States can strengthen climate justice movements worldwide. We don't make politics under conditions of our own choosing, and no one would choose this crisis. But crises also present opportunities. We stand on the brink of disaster—but also at the cusp of wondrous, transformative change.

*The Book of Lost Names* -

Kristin Harmel 2021-05-25

Eva Traube Abrams, a semiretired librarian in Florida, is at the returns desk one morning when her eyes lock on to a photograph in a newspaper nearby. She freezes; it's an image of a book she hasn't seen in sixty-five years--a book she recognizes as

the Book of Lost Names. The accompanying article describes the looting of libraries across Europe by the Nazis during World War II--an experience Eva remembers all too well. As a graduate student in 1942, Eva was forced to flee Paris after the arrest of her father, a Polish Jew. Finding refuge in a small mountain town in the Free Zone, she begins forging identity documents for Jewish children fleeing to neutral Switzerland. But erasing people comes with a price, and along with a mysterious, handsome forger named Rémy, Eva decides she must find a way to preserve the real names of the children who are too young to remember who they really are. The records they keep in the Book of Last Names will become even more vital when the Resistance cell they work with is betrayed and Rémy disappears. As the Germans close in, Eva records a last, vital message in the book. Decades later, does she have the strength to seek out its answer--and help reunite those lost during the war?

In the spring of 1942, young Elzbieta Rabinek is aware of the swiftly growing discord just beyond the courtyard of her comfortable Warsaw home. She has no fondness for the

Germans who patrol her streets and impose their

curfews, but has never given much thought to what goes on behind the walls that contain

her Jewish neighbors. She knows all too well about German brutality--and that it's the reason she must conceal

the reason she must conceal

her true identity. But in befriending Sara, a nurse who shares her apartment floor, Elzbieta makes a discovery that propels her into a dangerous world of deception and heroism. Using Sara's credentials to smuggle children out of the ghetto brings Elzbieta face-to-face with the reality of the war behind its walls, and to the plight of the Gorka family, who must make the impossible decision to give up their newborn daughter or watch her starve. For Roman Gorka, this final injustice stirs him to rebellion with a zeal not even his newfound love for Elzbieta can suppress. But his recklessness brings unwanted attention to Sara's cause, unwittingly putting Elzbieta and her family in harm's way until one violent act threatens to destroy their chance at freedom forever. From Nazi occupation to the threat of a communist regime, *The Warsaw Orphan* is the unforgettable story of Elzbieta and Roman's perilous attempt to reclaim the love and life they once knew. The series is devoted to the publication of monographs and high-level textbooks in mathematics, mathematical methods and their applications. Apart from covering important areas of current interest, a major aim is to make topics of an interdisciplinary nature accessible to the non-specialist. The works in this series are addressed to advanced students and researchers in mathematics and theoretical physics. In addition, it can serve as a guide for lectures and seminars on a graduate level. The series *de Gruyter Studies in Mathematics* was founded ca. 35 years ago by the late Professor Heinz Bauer and Professor Peter Gabriel with the aim to establish a series of monographs and

textbooks of high standard, written by scholars with an international reputation presenting current fields of research in pure and applied mathematics. While the editorial board of the Studies has changed with the years, the aspirations of the Studies are unchanged. In times of rapid growth of mathematical knowledge carefully written monographs and textbooks written by experts are needed more than ever, not least to pave the way for the next generation of mathematicians. In this sense the editorial board and the publisher of the Studies are devoted to continue the Studies as a service to the mathematical community. Please submit any book proposals to Niels Jacob. **Kabbalah for Beginners** - Michael Laitman 2004-01-01

The goal of this book is to assist individuals in confronting the first stages of the spiritual realm. This unique method of study, which encourages sharing this wisdom with others, not only helps overcome the trials and tribulations of everyday life, but initiates a process in which individuals extend themselves beyond the standard limitations of today's world.

**The Green New Deal and the Future of Work** - Craig Calhoun 2022-08-30

Catastrophic climate change overshadows the present and

the future. Wrenching economic transformations have devastated workers and hollowed out communities. However, those fighting for jobs and those fighting for the planet have often been at odds. Does the world face two separate crises, environmental and economic? The promise of the Green New Deal is to tackle the threat of climate change through the empowerment of working people and the strengthening of democracy. In this view, the crisis of nature and the crisis of work must be addressed together—or they will not be addressed at all. This book brings together leading experts to explore the possibilities of the Green New Deal, emphasizing the future of work. Together, they examine transformations that are already underway and put forth bold new proposals that can provide jobs while reducing carbon consumption—building a world that is sustainable both economically and ecologically. Contributors also debate urgent questions: What is the

value of a federal jobs program, or even a jobs guarantee? How do we alleviate the miseries and precarity of work? In key economic sectors, including energy, transportation, housing, agriculture, and care work, what kind of work is needed today? How does the New Deal provide guidance in addressing these questions, and how can a Green New Deal revive democracy? Above all, this book shows, the Green New Deal offers hope for a better tomorrow—but only if it accounts for work's past transformations and shapes its future.

"Christian and Jewish scholars respond to the role of Gospel texts (particularly Lenten readings) in fostering anti-semitism"--

**Kristallnacht** - Martin Gilbert  
2007-05-29

In the early hours of November 10, 1938, Nazi storm troopers and Hitler Youth rampaged through Jewish neighborhoods across Germany, leaving

behind them a horrifying trail of terror and destruction. More than a thousand synagogues and many thousands of Jewish shops were destroyed, while thirty thousand Jews were rounded up and sent to concentration camps.

Kristallnacht—the Night of Broken Glass—was a decisive stage in the systematic eradication of a people who traced their origins in Germany to Roman times and was a sinister forewarning of the Holocaust. With rare insight and acumen, Martin Gilbert examines this night and day of terror, presenting readers with a meticulously researched, masterfully written, and eye-opening study of one of the darkest chapters in human history.

**Reclaiming Our Forgotten Heritage** - Curt Landry  
2019-01-15

"A timely and groundbreaking take on the roots of the Christian church and its place in the entirety of God's kingdom. . . . There is no better time than now to learn about and become firmly grounded

within your spiritual heritage." —from the foreword by Perry Stone The early church was made up of Jewish and Gentile followers of Jesus, and the church's culture was rooted in Judaism and a Jewish understanding of God's relationship to His people. Over time, however, Christianity became increasingly more Roman than Jewish, and the church lost its identity. Rabbi Curt Landry's personal story is remarkably similar. Born to a Jewish mother and a Catholic father, Landry was put up for adoption, and for more than thirty years he had no understanding of his heritage, his roots, or who his parents were. But when he discovered the truth of his story, his life changed completely. The key to a life of power and purpose is understanding who you are. In this revelatory book, Curt Landry helps Christians discover their roots in Judaism, empowering them to walk in the revelation of who they really are and who they are born to be. Reclaiming Our

Forgotten Heritage reveals the mysteries of the church, letting Christians grasp the power that comes from connecting with their true identity.

**A Threshold Crossed** - Omar Shakir 2021

"The widely held assumption that the Israeli occupation of Palestinian territory is a temporary situation and that the 'peace process' will soon bring an end to Israeli abuses has obscured the reality on the ground today of Israel's entrenched discriminatory rule over Palestinians. A single authority, the Israeli government, rules primarily over the area between the Jordan River and Mediterranean Sea, populated by two groups of roughly equal size, methodologically privileging Jewish Israelis while repressing Palestinians, most severely in the Occupied Palestinian Territory (OPT), made-up of the West Bank, including East Jerusalem, and Gaza. Drawing on years of human rights documentation, case studies and a review of government planning

documents, statements by officials and other sources, [this report] examines Israel's treatment of Palestinians and evaluates whether particular Israeli policies and practices in certain areas amount to the crimes against humanity of apartheid and persecution."-- Page 4 of cover.

*Healing Collective Trauma -*

Thomas Hübl 2020-11-17

A Comprehensive Guide to Understanding and Healing Shared Trauma What can you do when you carry scars not on your body, but within your soul? And what happens when those spiritual wounds exist not just in you, but in everyone in your family, community, and even beyond? Spiritual teacher Thomas Hübl has spent years investigating why it is that old and seemingly disconnected traumas can seed their way through communities and across generations. His work culminates in *Healing Collective Trauma*, a new perspective on trauma that addresses both its visible effects and its most hidden roots. Thomas combines deep

knowledge of mystical traditions with the latest scientific research. "In this way," writes Thomas, "we are weaving a double helix between ancient wisdom and contemporary understanding." Thomas details the Collective Trauma Integration Process, a group-based modality for evoking and eventually dissolving stuck traumatic energies. Providing structured practices for both students and group facilitators, *Healing Collective Trauma* is intended to build a practical tool kit for integration. Here, you will learn: The innumerable ways trauma shapes our world—from identity and health to economy, geopolitics, and the state of the environment The concept of "trauma loyalty"—unconscious group bonds based in a pain narrative How the climate crisis is both a manifestation of humanity's collective trauma and an opportunity to heal "Retrocausality"—how the power of presence can reshape the past and make new futures possible Including essays contributed by experts such as

Dr. Gabor Maté, Dr. Otto Scharmer, Dr. Christina Bethell, and Ken Wilber, Healing Collective Trauma offers not just an advanced look at community trauma but also a hopeful glimpse of the future. As Thomas declares, "Together, I believe we can and must heal the 'soul wound' that marks us all. In so doing, we will awaken to the luminous possibility and profound potential of our true, mutual nature as humankind."

Covid-19: The Great Reset - Thierry Malleret 2020-07-09 "The Corona crisis and the Need for a Great Reset" is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems, and what changes will be needed to create a more inclusive, resilient and sustainable world

going forward. Thierry Malleret, founder of the Monthly Barometer, and Klaus Schwab, founder and executive Chairman of the World Economic Forum, explore what the root causes of these crisis were, and why they lead to a need for a Great Reset. Theirs is a worrying, yet hopeful analysis. COVID-19 has created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, at least to a certain extent, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and to show the deficiencies which were manifest in our global system, even before COVID broke out. *Data Protection* - Preston de Guise 2017-03-03

This is the fundamental truth about data protection: backup is dead. Or rather, backup and recovery, as a standalone topic, no longer has relevance in IT. As a standalone topic, it's been killed off by seemingly

exponential growth in storage and data, by the cloud, and by virtualization. So what is data protection? This book takes a holistic, business-based approach to data protection. It explains how data protection is a mix of proactive and reactive planning, technology and activities that allow for data continuity. It shows how truly effective data protection comes from a holistic approach considering the entire data lifecycle and all required SLAs. Data protection is neither RAID nor is it continuous availability, replication, snapshots or backups—it is all of them, combined in a considered and measured approach to suit the criticality of the data and meet all the requirements of the business. The book also discusses how businesses seeking to creatively leverage their IT investments and to drive through cost optimization are increasingly looking at data protection as a mechanism to achieve those goals. In addition to being a type of insurance policy, data protection is becoming an enabler for new

processes around data movement and data processing. This book arms readers with information critical for making decisions on how data can be protected against loss in the cloud, on-premises, or in a mix of the two. It explains the changing face of recovery in a highly virtualized data center and techniques for dealing with big data. Moreover, it presents a model for where data recovery processes can be integrated with IT governance and management in order to achieve the right focus on recoverability across the business.

**The Key to Every Thing** - Pat Schmatz 2018-05-08

For eleven-year-old Tash, Cap'n Jackie isn't just the elderly next-door neighbor — she's family. When she disappears, only Tash holds the key that might bring her back. Tash didn't want to go to camp, didn't want to spend the summer with a bunch of strangers, didn't want to be separated from the only two people she has ever been able to count on: her uncle Kevin,

who saved her from foster care, and Cap'n Jackie, who lives next door. Camp turns out to be pretty fun, actually, but when Tash returns home, Cap'n Jackie is gone. And Tash needs her — the made-up stories of dolphin-dragons, the warm cookies that made everything all right after a fight, the key Cap'n Jackie always insisted had magic in it. The Captain always said all Tash had to do was hold it tight and the magic would come. Was it true? Could the key bring Cap'n Jackie back? In a heartfelt and stunningly written story, Pat Schmatz introduces readers to a tenacious, fiercely loyal girl struggling to let go of the fantasies and fears of her childhood . . . and say yes to everything that lies ahead.

**Rejuvenile** - Christopher Noxon 2006-06-20

Once upon a time, boys and girls grew up and set aside childish things. Nowadays, moms and dads skateboard alongside their kids and download the latest pop-song ringtones. Captains of industry pose for the cover of BusinessWeek holding Super Soakers. The average age of video game players is twenty-nine and rising. Top chefs develop recipes for Easy-Bake Ovens. Disney World is the world's top adult vacation destination (that's adults without kids). And young people delay marriage and childbirth longer than ever in part to keep family obligations from interfering with their fun fun fun. Christopher Noxon has coined a word for this new breed of grown-up: rejuveniles. And as a self-confessed rejuvenile, he's a sympathetic yet critical guide to this bright

and shiny world of people who see growing up as “winding down”—exchanging a life of playful flexibility for anxious days tending lawns and mutual funds. In *Rejuvenile*, Noxon explores the historical roots of today’s rejuveniles (hint: all roads lead to Peter Pan), the “toyification” of practical devices (car cuteness is at an all-time high), and the new gospel of play. He talks to parents who love cartoons more than their children do, twenty-somethings who live happily with their parents, and grown-ups who evangelize on behalf of all-ages tag and Legos. And he takes on the “Harrumphing Codgers,” who see the rejuvenile as a threat to the social order. Noxon tempers stories of his and others’ rejuvenile tendencies with cautionary notes about “lost souls whose taste for childish things is creepy at best.” (Exhibit A: Michael Jackson.) On balance, though, he sees rejuveniles as optimists and capital-R Romantics, people driven by a desire “to hold on to the part of ourselves

that feels the most genuinely human. We believe in play, in make believe, in learning, in naps. And in a time of deep uncertainty, we trust that this deeper, more adaptable part of ourselves is our best tool of survival.” Fresh and delightfully contrarian, *Rejuvenile* makes hilarious sense of this seismic culture change. It’s essential reading not only for grown-ups who refuse to “act their age,” but for those who wish they would just grow up.

**House of Glass** - Hadley Freeman 2020-03-24  
Writer Hadley Freeman investigates her family’s secret history in this “exceptional” (The Washington Post) “masterpiece” (The Daily Telegraph) uncovering a story that spans a century, two World Wars, and three generations. Hadley Freeman knew her grandmother Sara lived in France just as Hitler started to gain power, but rarely did anyone in her family talk about it. Long after her grandmother’s death, she found a shoebox tucked in the

closet containing photographs of her grandmother with a mysterious stranger, a cryptic telegram from the Red Cross, and a drawing signed by Picasso. This discovery sent Freeman on a decade-long quest to uncover the significance of these keepsakes, taking her from Picasso's archives in Paris to a secret room in a farmhouse in Auvergne to Long Island to Auschwitz. Freeman pieces together the puzzle of her family's past, discovering more about the lives of her grandmother and her three brothers, Jacques, Henri, and Alex. Their stories sometimes typical, sometimes astonishing—reveal the broad range of experiences of Eastern European Jews during the Holocaust. This “frightening, inspiring, and cautionary” (Kirkus Reviews) family saga is filled with extraordinary twists, vivid characters, and famous cameos, illuminating the Jewish and immigrant experience in the World War II era. Reviewers have asked: “is

there a better book about being Jewish?” (The Daily Telegraph) Addressing themes of assimilation, identity, and home, *House of Glass* is “a triumph” (The Bookseller) and a powerful story about the past that echoes issues that remain relevant today.

**Rise and Kill First** - Ronen Bergman 2019-07-09  
NEW YORK TIMES  
BESTSELLER • The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by The New York Times as “an exceptional work, a humane book about an incendiary subject.” WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist • The New York Times Book Review • BBC History Magazine • Mother Jones • Kirkus Reviews The Talmud says: “If someone comes to kill you, rise up and kill him first.”

This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman—praised by David Remnick as “arguably [Israel’s] best investigative reporter”—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare

cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country's military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world's most feared intelligence agency), Caesarea (a “Mossad within the Mossad” that carries out attacks on the highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, Rise and Kill First brings us deep into the heart of Israel's most secret activities. Bergman

traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative."—John le Carré

*In the Country of Women* - Susan Straight 2020-01-29

Straight heard for decades the stories of Dwayne's female ancestors. Some women escaped violence in post-slavery Tennessee, some escaped murder in Jim Crow Mississippi, and some fled abusive men. Straight's mother-in-law, Alberta Sims, is the descendant at the heart of this memoir. Susan's family, too, reflects the hardship and resilience of women pushing

onward — from Switzerland, Canada, and the Colorado Rockies to California.

How to Practice Dharma - Lama Zopa Rinpoche 2012

This expanded edition contains both of the very popular Lama Yeshe booklets, *Becoming Your Own Therapist* and *Make Your Mind an Ocean*. *Becoming Your Own Therapist* first published in 1998, this booklet contains three public talks by Lama Yeshe on the general topic of Buddhism. Each lecture is followed by a question and answer session. Lama and his audiences always enjoyed the give and take of these lively exchanges, and pretty much anything went. Although these talks were called lectures, Lama would have each of us use them as a mirror for our minds and look beyond the words, find ourselves, and become our own psychologist. *Make Your Mind an Ocean* The talks in this booklet are on the general topic of the mind. Two were lunchtime lectures at Melbourne and Latrobe Universities. One was an

evening lecture given to the general public. Perhaps of greatest interest is the lecture entitled "A Buddhist Approach to Mental Illness." Lama presented this talk to a group of psychiatrists at Prince Henry's Hospital who were delighted to meet and question Lama, and this historic exchange underscores the difference between Western and Buddhist concepts of mental health.

### **Pioneers and Partisans: An Oral History of Nazi**

### **Genocide in Belorussia -**

Anika Walke 2015-07-13  
The Nazi regime and local collaborators killed 800,000 Belorussian Jews, many of them parents or relatives of young Jews who survived the war. Thousands of young girls and boys were thus orphaned and struggled for survival on their own. This book is the first systematic account of young Soviet Jews' lives under conditions of Nazi occupation and genocide. These orphans' experiences and memories are rooted in the 1930s, when Soviet policies promoted and sometimes actually created interethnic solidarity and social equality. This experience of interethnic solidarity provided a powerful framework for the ways in which young Jews

survived and, several decades after the war, represented their experience of violence and displacement. Through oral histories with several survivors, video testimonies, and memoirs, Anika Walke reveals the crucial roles of age and gender in the ways young Jews survived and remembered the Nazi genocide, and shows how shared experiences of trauma facilitated community building within and beyond national groups. *Pioneers and Partisans* uncovers the repeated transformations of identity that Soviet Jewish children and adolescents experienced, from Soviet citizens in the prewar years, to a target of genocidal violence during the war, to a barely accepted national minority in the postwar Soviet Union.

**Life Insurance Fact Book - 1992**

The Plague Year - Lawrence Wright 2021-06-08  
From the Pulitzer Prize-winning author of *The Looming Tower*, and the pandemic novel *The End of*

October: an unprecedented, momentous account of Covid-19—its origins, its wide-ranging repercussions, and the ongoing global fight to contain it “A book of panoramic breadth ... managing to surprise us about even those episodes we ... thought we knew well ... [With] lively exchanges about spike proteins and nonpharmaceutical interventions and disease waves, Wright’s storytelling dexterity makes all this come alive.” —The New York Times Book Review From the fateful first moments of the outbreak in China to the storming of the U.S. Capitol to the extraordinary vaccine rollout, Lawrence Wright’s *The Plague Year* tells the story of Covid-19 in authoritative, galvanizing detail and with the full drama of events on both a global and intimate scale, illuminating the medical, economic, political, and social ramifications of the pandemic. Wright takes us inside the CDC, where a first round of faulty test kits lost America precious time . . . inside the halls of the White

House, where Deputy National Security Adviser Matthew Pottinger's early alarm about the virus was met with confounding and drastically costly skepticism . . . into a Covid ward in a Charlottesville hospital, with an idealistic young woman doctor from the town of Little Africa, South Carolina . . . into the precincts of prediction specialists at Goldman Sachs . . . into Broadway's darkened theaters and Austin's struggling music venues . . . inside the human body, diving deep into the science of how the virus and vaccines function—with an eye-opening detour into the history

of vaccination and of the modern anti-vaccination movement. And in this full accounting, Wright makes clear that the medical professionals around the country who've risked their lives to fight the virus reveal and embody an America in all its vulnerability, courage, and potential. In turns steely-eyed, sympathetic, infuriated, unexpectedly comical, and always precise, Lawrence Wright is a formidable guide, slicing through the dense fog of misinformation to give us a 360-degree portrait of the catastrophe we thought we knew.
