Promise Me, Dad - Joe Biden 2019-01-05

A New York Times Bestselling Author In November 2014, the Biden family gathered on Nantucket for their traditional Thanksgiving celebration; it was the one constant in their hectic, scrutinized, and over-scheduled lives. But this year felt different from all those that had come before. Joe and Jill Biden's eldest son, Beau, had been diagnosed with a malignant brain tumor, and his survival was uncertain. Promise me, Dad, Beau had told his father, "Give me your word that no matter what happens, you're going to be all right." *Promise Me, Dad* chronicles the year that followed, the most momentous and challenging in Joe Biden's extraordinary life and career.

Beyond Paradigms - Rudra Sil 2010-08-31

While paradigm-bound research has generated powerful insights in international relations, it has fostered a tunnel vision that hinders progress and widens the chasm between theory and policy. In this important new book, Sil and Katzenstein draw upon recent scholarship to illustrate the benefits of a more pragmatic and eclectic style of research.

Multicast Networking and Applications - C. Kenneth Miller 1999

A tutorial and complete description of the core concepts and real-world applications of IP multicast, one of the most effective solutions alleviating network congestion. The author, one of the key technologists in multicasting, describes a series of multicast applications and shows how they can be used to improve business

processes and information dispersal without causing network infrastructure overload.

Eternal Marriages Don't Just Happen - Mark Shields 2018

Happy marriages don't just happen. As an experienced divorce lawyer, Mark Shields has seen the warning signs over and over again. He'll teach you how to protect your eternal relationship by counteracting the common causes of divorce with sound doctrinal principles. Whether you're dating, engaged, or married, this is a must-read book for creating and maintaining your happily ever after.

A Path with Heart - Jack Kornfield 2009-10-21

"This important guidebook shows in detail and with great humor and insight the way to practice the Buddha's universal teachings here in the West. Jack Kornfield is a wonderful storyteller and a great teacher."—Thich Nhat Hanh "Jack is helping to pave the path for American Buddhism, bringing essential basics into our crazy modern lives. And the language he uses is as simple and as lovely as our breath."—Natalie Goldberg Perhaps the most important book yet written on meditation, the process of inner transformation, and the integration of spiritual practice into our American way of life, *A Path with Heart* brings alive one by one the challenges of spiritual living in the modern world. Written by a teacher, psychologist, and meditation master of international renown, this warm, inspiring, and expert book touches on a wide range of essential issues including many rarely addressed in spiritual books. From compassion, addiction, and

psychological and emotional healing, to dealing with problems involving relationships and sexuality, to the creation of a Zen-like simplicity and balance in all facets of life, it speaks to the concerns of many modern spiritual seekers, both those beginning on the path and those with years of experience. A Path with Heart is filled with practical techniques, guided meditations, stories, koans, and other gems of wisdom that can help ease your journey through the world. The author's own profound—and sometimes humorous—experiences and gentle assistance will skillfully guide you through the obstacles and trials of spiritual and contemporary life to bring a clarity of perception and a sense of the sacred into your everyday experience. Reading this book will touch your heart and remind you of the promises inherent in meditation and in a life of the spirit: the blossoming of inner peace, wholeness, and understanding, and the achievement of a happiness that is not dependent on external conditions. Sure to be a classic, A Path with Heart shows us how we can bring our spirituality to flower every day of our lives. It is a wise and gentle guidebook for an odyssey into the soul that enables us to achieve a deeper, more satisfying life in the world.

12 Rules for Life - Jordan B. Peterson 2018-01-23

#1 NATIONAL BESTSELLER #1

INTERNATIONAL BESTSELLER What does everyone in the modern world need to know? Renowned psychologist Jordan B. Peterson's answer to this most difficult of questions uniquely combines the hard-won truths of ancient tradition with the stunning revelations of cutting-edge scientific research. Humorous, surprising and informative, Dr. Peterson tells us why skateboarding boys and girls must be left alone, what terrible fate awaits those who criticize too easily, and why you should always pet a cat when you meet one on the street. What does the nervous system of the lowly lobster have to tell us about standing up straight (with our shoulders back) and about success in life? Why did ancient Egyptians worship the capacity to pay careful attention as the highest of gods? What dreadful paths do people tread when they become resentful, arrogant and vengeful? Dr. Peterson journeys broadly, discussing discipline, freedom, adventure and responsibility, distilling the world's wisdom into 12 practical and

profound rules for life. 12 Rules for Life shatters the modern commonplaces of science, faith and human nature, while transforming and ennobling the mind and spirit of its readers.

No More Bananas - Jeroen Kraaijenbrink

2019-06-21

"Feel better, get done more and become a nicer person" In this age of social media, fake news, individualism and information overload, the certainties we relied on in the past are gone. In our quest for assurance and support, the only seemingly dependable pillar left is other people. So we look to them. But they are unsettled too. And by looking to them, we create and perpetuate our own vicious stress-cycle. As a result, we lose our sensible selves. And we go bananas. But there is good news. If we look around us, there are people who withstand the collective lunacy and stay grounded. They do something that most of us have a hard time doing: they stay themselves. And the best news is that what they can do, you can do too. It doesn't require any special talents or supernatural powers. It only requires doing. In this amiable, open and accessible book, Jeroen Kraaijenbrink takes you on his personal journey out of Bananaland. Drawing from cognitive psychology, martial arts, Saint Benedict, personal experience, and a wide range of other sources, the book offers a nine-step approach with some remarkably practical advice for keeping a cool head in the collective lunacy. "Free yourself from the collective lunacy and reclaim your calm and sensible self"

The 12 Week Year - Brian P. Moran 2013-05-15

The guide to shortening your execution cycle down from one year to twelve weeks Most organizations and individuals work in the context of annual goals and plans; a twelve-month execution cycle. Instead, The 12 Week Year avoids the pitfalls and low productivity of annualized thinking. This book redefines your "year" to be 12 weeks long. In 12 weeks, there just isn't enough time to get complacent, and urgency increases and intensifies. The 12 Week Year creates focus and clarity on what matters most and a sense of urgency to do it now. In the end more of the important stuff gets done and the impact on results is profound. Explains how to leverage the power of a 12 week year to drive improved results in any area of your life Offers a

how-to book for both individuals and organizations seeking to improve their execution effectiveness Authors are leading experts on execution and implementation Turn your organization's idea of a year on its head, and speed your journey to success.

How the Poor Can Save Capitalism - John Hope Bryant 2014-06-02

A successful entrepreneur and nonprofit founder shares his plan of action to help the American economy by assisting America's poor. John Hope Bryant, successful self-made businessman and founder of the nonprofit Operation HOPE, says business and political leaders are ignoring the one force that could truly re-energize the stalled American economy: the poor. If we give poor communities the right tools, policies, and inspiration, he argues, they will be able to lift themselves up into the middle class and become a new generation of customers and entrepreneurs. Raised in poverty-stricken, gang-infested South Central Los Angeles, Bryant saw firsthand how our institutions have abandoned the poor. He details how business loans, home loans, and financial investments have vanished from their communities. After decades of deprivation, the poor lack bank accounts, decent credit scores, and any real firsthand experience of how a healthy free enterprise system functions. Bryant radically redefines the meaning of poverty and wealth. (It's not just a question of finances; it's values too.) He exposes why attempts to aid the poor so far have fallen short and offers a way forward: the HOPE Plan, a series of straightforward, actionable steps to build financial literacy and expand opportunity so that the poor can join the middle class. Fully seventy percent of the American economy is driven by consumer spending, but more and more people have too much month at the end of their money. John Hope Bryant aspires to "expand the philosophy of free enterprise to include all of God's children" and create a thriving economy that works not just for the one percent or even the ninety-nine percent but for the one hundred percent. This is a free enterprise approach to solving the problem of poverty and raising up a new America. "Economic immobility is the defining issue of America in the twenty-first century. John Hope Bryant makes an engaging case for why we must

make our economy work for everyone. How the Poor Can Save Capitalism is a must-read for business leaders, policymakers, and community leaders who want to make the American Dream a reality for all our children." —Ben Jealous, former CEO, NAACP "John and I want the same things. And the goals of this book are the same goals of my Rebuild the Dream campaign. He has provided the road map to economic recovery for this country at a time when economic inequality is at its peak. I, for one, will be following the steps laid out in the HOPE Plan." —Van Jones, former Presidential Advisor to Barack Obama and current host of CNN's Crossfire

Empty Promises Participant's Guide - Pete Wilson 2012-04-02

What if you could find everything your soul is longing for? God has a plan to heal the soul's gnawing inner emptiness that is always longing for something more. What drives this futile attempt for fulfillment is the heart's true desire for significance, worth, and value—a desire that can only be met in the person and worship of Jesus Christ. Join Pastor Pete Wilson in his exploration of the empty promises of the "good life" that includes the seduction of achievement, addiction to approval, idolatry of religion, obsession with money, and more. Learn not only to relinquish these idols, but replace them by turning your focus and worship toward God. It is the only thing that will set you absolutely free from the endless pursuit of everything else. Features include: Six sessions of interactive study Five days of personal, interactive Bible study readings for each session Biblically sound teaching and questions for group interaction For use with the Empty Promises DVD-Based Study (ISBN 9781418550547).

The Goal - Eliyahu M. Goldratt 2016-08-12
Alex Rogo is a harried plant manager working ever more desperately to try and improve performance. His factory is rapidly heading for disaster. So is his marriage. He has ninety days to save his plant - or it will be closed by corporate HQ, with hundreds of job losses. It takes a chance meeting with a colleague from student days - Jonah - to help him break out of conventional ways of thinking to see what needs to be done. Described by Fortune as a 'guru to industry' and by Businessweek as a 'genius',

Eliyahu M. Goldratt was an internationally recognized leader in the development of new business management concepts and systems. This 20th anniversary edition includes a series of detailed case study interviews by David Whitford, Editor at Large, Fortune Small Business, which explore how organizations around the world have been transformed by Eli Goldratt's ideas. The story of Alex's fight to save his plant contains a serious message for all managers in industry and explains the ideas which underline the Theory of Constraints (TOC) developed by Eli Goldratt. Written in a fast-paced thriller style, *The Goal* is the gripping novel which is transforming management thinking throughout the Western world. It is a book to recommend to your friends in industry - even to your bosses - but not to your competitors!

Paper Towns - John Green 2013

Quentin Jacobson has spent a lifetime loving Margo Roth Spiegelman from afar. So when she cracks open a window and climbs into his life - dressed like a ninja and summoning him for an ingenious campaign of revenge - he follows. After their all-nighter ends, Q arrives at school to discover that Margo has disappeared.

Shaping School Culture - Terrence E. Deal
2003-02-10

Just as culture is critical to understanding the dynamics behind any thriving community, organization, or business, the daily realities and deep structure of school life hold the key to educational success. Reforms that strive for educational excellence are likely to fail unless they are meaningfully linked to the school's unique culture. In *Shaping School Culture*, Terrence E. Deal and Kent D. Peterson show how leaders can harness the power of school culture to build a lively, cooperative spirit and a sense of school identity. The authors draw from over twenty years of research on school improvement as well as from their own extensive work with school leaders across the country to identify viable new strategies for effective school leadership. They describe the critical elements of culture--the purposes, traditions, norms, and values that guide and glue the community together--and show how a positive culture can make school reforms work. Deal and Peterson also explore the harmful characteristics of toxic

cultures and suggest antidotes to negativity on the part of teachers, students, principals, or parents. Using real-life cases from their own research, Deal and Peterson provide concrete, detailed illustrations of exemplary practice in different school cultures. They reveal the key symbolic roles that leaders play in school change and identify the specific skills needed to change school culture successfully. *Shaping School Culture* provides an action blueprint for school leaders committed to transforming their schools for success.

Leadership on the Line - Ronald Abadian Heifetz
2002

Every day, in every facet of our lives, opportunities to lead call out to us. At work and at home, in our local communities and in the global village, the chance to make a difference beckons. Yet often, we hesitate. For all its passion and promise, for all its excitement and rewards, leading is risky, dangerous work. Why? Because real leadership--the kind that surfaces conflict, challenges long-held beliefs, and demands new ways of doing things--causes pain. And when people feel threatened, they take aim at the person pushing for change. As a result, leaders often get hurt both personally and professionally. In *Leadership on the Line*, renowned leadership authorities Ronald A. Heifetz and Marty Linsky marshal a half century of combined teaching and consulting experience to show that it is possible to put ourselves on the line, respond effectively to the risks, and live to celebrate our efforts. With compelling examples including the presidents of countries and the presidents of organizations, everyday managers and prominent activists, politicians and parents, the authors illustrate proven strategies for surviving and thriving amidst the dangers of leading: "Getting on the balcony": stepping back to get perspective while remaining fiercely engaged "Thinking politically": keeping the opposition close, but watching your allies, too "Orchestrating the conflict": using stress productively to work the issues "Giving the work back": putting the responsibility on those who need to make the change "Holding steady": maintaining your focus while taking the heat The authors also address often-neglected aspects of leadership, such as how to manage your personal vulnerabilities, and how to anchor

yourself and sustain your spirit through tough times. Both uplifting and practical, this essential book enables each of us to lead courageously and confidently-without losing ourselves.

AUTHORBIO: Ronald A. Heifetz and Marty Linsky are on the faculty at the John F. Kennedy School of Government at Harvard University. Heifetz is the author of *Leadership Without Easy Answers* and Co-director of the school's Center for Public Leadership. Linsky is Faculty Chair of many of the school's executive programs, including Senior Officials in State and Local Government and Leadership for the 21st Century.

Intercultural Marriage - Dugan Romano
2008-08-18

An insightful look at the stresses and challenges of intercultural relationships - from one who has been there. Today we live in a world without borders, a global village. Distance no longer defines who we meet, fall in love with or marry. The Internet and e-mail connect people around the world in seconds. Immigration, study abroad, travel and multinational business have created a thriving cross-cultural community. But the experiences shared across cultures and countries do not always bridge the fundamental differences in beliefs and behaviors that span diverse cultures. In *Intercultural Marriage*, Dugan Romano delivers a "reality check" for anyone already in, or contemplating, an intercultural marriage. This insightful book interweaves lessons learned from others and suggests that the joys of an intercultural marriage often result from turning the challenges of crossing cultures into an opportunity for a fulfilling and lasting relationship. Now in its third edition, *Intercultural Marriage* examines the impact of cultural differences in marriage and offers practical guidelines on how to deal with the complexities they bring to a partnership. Covering such topics as raising bicultural children, religion, values, male vs. female roles, sex and social class, Romano continues to give voice to hundreds of couples she has interviewed and followed for over a decade.

Raising Sons of Promise - Roland C. Warren
2021-12-07

As a single mother, you might find yourself in the difficult position of raising sons alone,

wounded by the broken promises of your child's father. But God offers a greater promise to you and your family. Roland Warren, himself the child of a single mother, invites you on a journey to heal your heart and parent your boys to become healthy men, good husbands, and strong fathers.

Avoiding Thesis and Dissertation Pitfalls - Robert Murray Thomas 2001

The authors give 61 cases of graduate students who are experiencing problems with their research projects. Each case is cast as a dialogue between a professor and a troubled student who is seeking the professor's help in solving a particular problem.

The Future of Brain Repair - Jack Price
2020-03-24

A scientist assesses the potential of stem cell therapies for treating such brain disorders as stroke, Alzheimer's disease, and Parkinson's disease. Stem cell therapies are the subject of enormous hype, endowed by the media with almost magical qualities and imagined by the public to bring about miracle cures. Stem cells have the potential to generate new cells of different types, and have been shown to do so in certain cases. Could stem cell transplants repair the damaged brain? In this book, neurobiologist Jack Price assesses the potential of stem cell therapies to treat such brain disorders as stroke, Alzheimer's disease, Parkinson's disease, and spinal cord injuries. Certainly brain disorders are in need of effective treatments. These disorders don't just kill, they disable, and conventional drug therapies have not had much success in treating them. Price explains that repairing the human brain is difficult, largely because of its structural, functional, and developmental complexity. He examines the self-repairing capacity of blood and gut cells—and the lack of such capacity in the brain; describes the limitations of early brain stem cell therapies for neurodegenerative disorders; and discusses current clinical trials that may lead to the first licensed stem cell therapies for stroke, Parkinson's and macular degeneration. And he describes the real promise of pluripotential stem cells, which can make all the cell types that constitute the body. New technologies, Price reports, challenge the very notion of cell transplantation, instead seeking to convince the

brain itself to manufacture the new cells it needs. Could this be the true future of brain repair?

Making Government Work - Katherine Barrett
2020-02-01

As performance management has evolved, it has encompassed many different tools and approaches including measurement, data analysis, evidence-based management, process improvement, research and evaluation. In the past, many of the efforts to improve performance in government have been fragmented, separated into silos and labeled with a variety of different names including performance-based budgeting, performance-informed management, managing for results and so on. *Making Government Work: The Promises and Pitfalls of Performance-Informed Management* by Katherine Barrett and Rich Greene is loaded with dozens of stories of what practitioners are currently working on—what’s working and what’s not. The benefits are ample, so are the challenges. This book describes both, along with practical steps taken by practitioners to make government work better. Readers will discover that while the authors strive to meet the documentation standards of carefully vetted academic papers, the approach they take is journalistic. Over the last year, Barrett and Greene talked to scores of state and local officials, as well as academics and other national experts to find out how performance management tools and approaches have changed, and what is coming in the near-term future. Performance management has been in a state of evolution for decades now, and so Barrett and Greene have endeavored to capture the state of the world as it is today. By detailing both the challenges and conquests of performance management in *Making Government Work: The Promises and Pitfalls of Performance-Informed Management*, Barrett and Greene ensure readers will find the kind of balanced information that is helpful to both academics and practitioners—and that can move the field forward.

[The Failed Promise](#) - Robert S. Levine
2022-08-02

Robert S. Levine foregrounds the viewpoints of Black Americans on Reconstruction in his absorbing account of the struggle between the great orator Frederick Douglass and President

Andrew Johnson. When Andrew Johnson assumed the presidency after Abraham Lincoln’s assassination, the country was on the precipice of radical change. Johnson, seemingly more progressive than Lincoln, looked like the ideal person to lead the country. He had already cast himself as a “Moses” for the Black community, and African Americans were optimistic that he would pursue aggressive federal policies for Black equality. Despite this early promise, Frederick Douglass, the country’s most influential Black leader, soon grew disillusioned with Johnson’s policies and increasingly doubted the president was sincere in supporting Black citizenship. In a dramatic and pivotal meeting between Johnson and a Black delegation at the White House, the president and Douglass came to verbal blows over the course of Reconstruction. As he lectured across the country, Douglass continued to attack Johnson’s policies, while raising questions about the Radical Republicans’ hesitancy to grant African Americans the vote. Johnson meanwhile kept his eye on Douglass, eventually making a surprising effort to appoint him to a key position in his administration. Levine grippingly portrays the conflicts that brought Douglass and the wider Black community to reject Johnson and call for a guilty verdict in his impeachment trial. He brings fresh insight by turning to letters between Douglass and his sons, speeches by Douglass and other major Black figures like Frances E. W. Harper, and articles and letters in the *Christian Recorder*, the most important African American newspaper of the time. In counterpointing the lives and careers of Douglass and Johnson, Levine offers a distinctive vision of the lost promise and dire failure of Reconstruction, the effects of which still reverberate today.

Predictably Irrational - Dan Ariely 2008-02
An upbeat cultural evaluation of the sources of illogical decisions explores the reasons why irrational thought often overcomes level-headed practices, offering insight into the structural patterns that cause people to make the same mistakes repeatedly. 150,000 first printing.

The Promise of a Pencil - Adam Braun
2014-03-18

The author describes how he left a lucrative business consulting job to found the nonprofit

Pencils of Promise, an organization responsible for building schools for the poor in developing countries around the world and which recently completed its two hundredth school.

Hoping to Help - Judith N. Lasker 2016-02-19
Overseas volunteering has exploded in numbers and interest in the last couple of decades. Every year, hundreds of thousands of people travel from wealthier to poorer countries to participate in short-term volunteer programs focused on health services. Churches, universities, nonprofit service organizations, profit-making "voluntourism" companies, hospitals, and large corporations all sponsor brief missions. Hoping to Help is the first book to offer a comprehensive assessment of global health volunteering, based on research into how it currently operates, its benefits and drawbacks, and how it might be organized to contribute most effectively. Given the enormous human and economic investment in these activities, it is essential to know more about them and to understand the advantages and disadvantages for host communities. Most people assume that poor communities benefit from the goodwill and skills of the volunteers. Volunteer trips are widely advertised as a means to "give back" and "make a difference." In contrast, some claim that health volunteering is a new form of colonialism, designed to benefit the volunteers more than the host communities. Others focus on unethical practices and potential harm to the presumed "beneficiaries." Judith N. Lasker evaluates these opposing positions and relies on extensive research—interviews with host country staff members, sponsor organization leaders, and volunteers, a national survey of sponsors, and participant observation—to identify best and worst practices. She adds to the debate a focus on the benefits to the sponsoring organizations, benefits that can contribute to practices that are inconsistent with what host country staff identify as most likely to be useful for them and even with what may enhance the experience for volunteers. Hoping to Help illuminates the activities and goals of sponsoring organizations and compares dominant practices to the preferences of host country staff and to nine principles for most effective volunteer trips.
[The Promise and Pitfalls of Grand Strategy \(Enlarged Edition\)](#) - Hal Brands 2012

Louder and Faster - Deborah Wong 2019-09-10
A free open access ebook is available upon publication. Learn more at www.luminosoa.org.
Louder and Faster is a cultural study of the phenomenon of Asian American taiko, the thundering, athletic drumming tradition that originated in Japan. Immersed in the taiko scene for twenty years, Deborah Wong has witnessed cultural and demographic changes and the exponential growth and expansion of taiko particularly in Southern California. Through her participatory ethnographic work, she reveals a complicated story embedded in memories of Japanese American internment and legacies of imperialism, Asian American identity and politics, a desire to be seen and heard, and the intersection of culture and global capitalism. Exploring the materialities of the drums, costumes, and bodies that make sound, analyzing the relationship of these to capitalist multiculturalism, and investigating the gender politics of taiko, Louder and Faster considers both the promises and pitfalls of music and performance as an antiracist practice. The result is a vivid glimpse of an Asian American presence that is both loud and fragile.

Shaping School Culture - Terrence E. Deal 2016-07-22
The most trusted guide to school culture, updated with current challenges and new solutions Shaping School Culture is the classic guide to exceptional school leadership, featuring concrete guidance on influencing the subtle symbolic features of schools that provide meaning, belief, and faith. Written by renowned experts in the area of school culture, this book tackles the increasing challenges facing public schools and provides clear, candid suggestions for more effective symbolic leadership. This new third edition has been revised to reflect the reality of schools today, including the increased emphasis on high-stakes testing, federal reforms such as No Child Left Behind (NCLB) and Every Student Succeeds Act (ESSA), state sponsored improvement programs, and other major issues that impact organizational culture and the role of school leaders. Each chapter features new examples and cases that illustrate persistent problems, spelling out key cultural implications and offering concrete examples of overcoming the challenges while maintaining a meaningful

learning environment. The chapter on toxic schools continues to provide the field's most trusted advice on navigating this rocky terrain, and the discussion's focus on how to manage negativity remains especially integral to besieged school administrators across the U.S. Recent years have jolted the nation's school system with a number of new developments that spell problems for the cultural tapestry of schools. This book provides expert perspective and sage, doable advice for administrators tending to external pressures while sustaining or evolving a more positive school culture. Navigate new challenges including Every Student Succeeds Act (ESSA) and waning confidence and faith Turn around a toxic school culture with confidence and success Foster a culture of passion, purpose, and meaning Adopt a more active form of symbolic leadership to support students, faculty, staff, parents, and community Test scores as the primary metric, relentless reforms, waning public support, and timid initiatives wrapped in bureaucratic packaging: while among the most prominent issues administrators face are only the tip of the iceberg. Shaping School Culture charts a route through competing pressures to help educational leaders hew a positive learning environment for schools.

[Sex Integration in Sport and Physical Culture](#) - Alex Channon 2018-10-11

Scholars working in the academic field of sport studies have long debated the relationship between sport and gender. Modern sport forms, along with many related activities, have been shown to have historically supported ideals of male superiority, by largely excluding women and/or celebrating only men's athletic achievements. While the growth of women's sport throughout the 20th and 21st centuries has extinguished the notion of female frailty, revealing that women can embody athletic qualities previously thought exclusive to men, the continuation of sex segregation in many settings has left something of a discursive 'back door' through which ideals of male athletic superiority can escape unscathed, retaining their influence over wider cultural belief systems. However, sex-integrated sport potentially offers a radical departure from such beliefs, as it challenges us to reject assumptions of male

superiority, entertaining very different visions of sex difference and gender relations to those typically constructed through traditional models of physical culture. This comprehensive collection offers a diverse range of international case studies that reaffirm the contemporary relevance of sex integration debates, and also articulate the possibility of sport acting as a legitimate space for political struggle, resistance and change. This book was originally published as a special issue of *Sport in Society*.

[The 9 Pitfalls of Data Science](#) - Jay Cordes 2019-07-08

Data science has never had more influence on the world. Large companies are now seeing the benefit of employing data scientists to interpret the vast amounts of data that now exists. However, the field is so new and is evolving so rapidly that the analysis produced can be haphazard at best. The 9 Pitfalls of Data Science shows us real-world examples of what can go wrong. Written to be an entertaining read, this invaluable guide investigates the all too common mistakes of data scientists - who can be plagued by lazy thinking, whims, hunches, and prejudices - and indicates how they have been at the root of many disasters, including the Great Recession. Gary Smith and Jay Cordes emphasise how scientific rigor and critical thinking skills are indispensable in this age of Big Data, as machines often find meaningless patterns that can lead to dangerous false conclusions. The 9 Pitfalls of Data Science is loaded with entertaining tales of both successful and misguided approaches to interpreting data, both grand successes and epic failures. These cautionary tales will not only help data scientists be more effective, but also help the public distinguish between good and bad data science.

[Geographical Indications at the Crossroads of Trade, Development, and Culture](#) - Irene Calboli 2017-06-16

This volume focuses on the procedures for determining the geographical indicator labels for globally traded goods in the Asia-Pacific region. The book is also available as Open Access.

[Health Economics and Policy](#) - Victor R. Fuchs 2018

The collection represents an extraordinary intellectual achievement and ... a handbook for

anyone thinking about health and health policy.

Out of Office - Charlie Warzel 2021-12-07

The future isn't about where we will work, but how. For years we have struggled to balance work and life, with most of us feeling overwhelmed and burned out because our relationship to work is broken. This "isn't just a book about remote work. It's a book that helps us imagine a future where our lives—at the office and home—are happier, more productive, and genuinely meaningful" (Charles Duhigg, best-selling author of *The Power of Habit*). *Out of Office* is a book for every office worker - from employees to managers - currently facing the decision about whether, and how, to return to the office. The past two years have shown us that there may be a new path forward, one that doesn't involve hellish daily commutes and the demands of jam-packed work schedules that no longer make sense. But how can we realize that future in a way that benefits workers and companies alike? Based on groundbreaking reporting and interviews with workers and managers around the world, *Out of Office* illuminates the key values and questions that should be driving this conversation: trust, fairness, flexibility, inclusive workplaces, equity, and work-life balance. Above all, they argue that companies need to listen to their employees - and that this will promote, rather than impede, productivity and profitability. As a society, we have talked for decades about flexible work arrangements; this book makes clear that we are at an inflection point where this is actually possible for many employees and their companies. *Out of Office* is about so much more than zoom meetings and hybrid schedules: it aims to reshape our entire relationship to the office.

The Distance Between Us - Reyna Grande
2012-08-28

In this inspirational and unflinchingly honest memoir, acclaimed author Reyna Grande describes her childhood torn between the United States and Mexico, and shines a light on the experiences, fears, and hopes of those who choose to make the harrowing journey across the border. Reyna Grande vividly brings to life her tumultuous early years in this "compelling...unvarnished, resonant" (BookPage) story of a childhood spent torn

between two parents and two countries. As her parents make the dangerous trek across the Mexican border to "El Otro Lado" (The Other Side) in pursuit of the American dream, Reyna and her siblings are forced into the already overburdened household of their stern grandmother. When their mother at last returns, Reyna prepares for her own journey to "El Otro Lado" to live with the man who has haunted her imagination for years, her long-absent father. Funny, heartbreaking, and lyrical, *The Distance Between Us* poignantly captures the confusion and contradictions of childhood, reminding us that the joys and sorrows we experience are imprinted on the heart forever, calling out to us of those places we first called home. Also available in Spanish as *La distancia entre nosotros*.

One Billion Hungry - Gordon Conway
2012-10-15

Hunger is a daily reality for a billion people. More than six decades after the technological discoveries that led to the Green Revolution aimed at ending world hunger, regular food shortages, malnutrition, and poverty still plague vast swaths of the world. And with increasing food prices, climate change, resource inequality, and an ever-increasing global population, the future holds further challenges. In *One Billion Hungry*, Sir Gordon Conway, one of the world's foremost experts on global food needs, explains the many interrelated issues critical to our global food supply from the science of agricultural advances to the politics of food security. He expands the discussion begun in his influential *The Doubly Green Revolution: Food for All in the Twenty-First Century*, emphasizing the essential combination of increased food production, environmental stability, and poverty reduction necessary to end endemic hunger on our planet. Conway addresses a series of urgent questions about global hunger: • How we will feed a growing global population in the face of a wide range of adverse factors, including climate change? • What contributions can the social and natural sciences make in finding solutions? • And how can we engage both government and the private sector to apply these solutions and achieve significant impact in the lives of the poor? Conway succeeds in sharing his informed optimism about our collective ability to address

these fundamental challenges if we use technology paired with sustainable practices and strategic planning. Beginning with a definition of hunger and how it is calculated, and moving through issues topically both detailed and comprehensive, each chapter focuses on specific challenges and solutions, ranging in scope from the farmer's daily life to the global movement of food, money, and ideas. Drawing on the latest scientific research and the results of projects around the world, Conway addresses the concepts and realities of our global food needs: the legacy of the Green Revolution; the impact of market forces on food availability; the promise and perils of genetically modified foods; agricultural innovation in regard to crops, livestock, pest control, soil, and water; and the need to both adapt to and slow the rate of climate change. *One Billion Hungry* will be welcomed by all readers seeking a multifaceted understanding of our global food supply, food security, international agricultural development, and sustainability.

Alcoholics Anonymous - Alcoholics Anonymous World Services 1986

The basic text for Alcoholics Anonymous.

NOT "Just Friends" - Shirley Glass 2007-11-01

One of the world's leading experts on infidelity provides a step-by-step guide through the process of infidelity—from suspicion and revelation to healing, and provides profound, practical guidance to prevent infidelity and, if it happens, recover and heal from it. You're right to be cautious when you hear these words: "I'm telling you, we're just friends." Good people in good marriages are having affairs. The workplace and the Internet have become fertile breeding grounds for "friendships" that can slowly and insidiously turn into love affairs. Yet you can protect your relationship from emotional or sexual betrayal by recognizing the red flags that mark the stages of slipping into an improper, dangerous intimacy that can threaten your marriage.

The Love Hypothesis - Ali Hazelwood
2021-09-14

The Instant New York Times Bestseller and TikTok Sensation! As seen on THE VIEW! A BuzzFeed Best Summer Read of 2021 When a fake relationship between scientists meets the irresistible force of attraction, it throws one

woman's carefully calculated theories on love into chaos. As a third-year Ph.D. candidate, Olive Smith doesn't believe in lasting romantic relationships—but her best friend does, and that's what got her into this situation.

Convincing Anh that Olive is dating and well on her way to a happily ever after was always going to take more than hand-wavy Jedi mind tricks: Scientists require proof. So, like any self-respecting biologist, Olive panics and kisses the first man she sees. That man is none other than Adam Carlsen, a young hotshot professor—and well-known ass. Which is why Olive is positively floored when Stanford's reigning lab tyrant agrees to keep her charade a secret and be her fake boyfriend. But when a big science conference goes haywire, putting Olive's career on the Bunsen burner, Adam surprises her again with his unyielding support and even more unyielding...six-pack abs. Suddenly their little experiment feels dangerously close to combustion. And Olive discovers that the only thing more complicated than a hypothesis on love is putting her own heart under the microscope.

Empty Promises - Pete Wilson 2012-04-09

We all long for more of something in our lives. In our endless pursuit to feel worth and acceptance we find ourselves sacrificing everything for the promise to be a little more beautiful, a little richer, a little more powerful and successful, a little more loved. How do we break free from these empty pursuits and start chasing the only Promise that will ever satisfy? How do we uncover the hidden idols that are driving us and turn our devotion toward the one true God? Join Pastor and best-selling author Pete Wilson in discovering the joy and freedom that comes with seeking after God with your whole life. Learn how to replace, and not just relinquish, life's empty promises by turning your focus and worship toward Him. It is the only thing that will set you absolutely free from the endless pursuit of everything else.

Peers Inc - Robin Chase 2015-06-09

When Robin Chase cofounded Zipcar, she not only started a business but established the foundation for one of the most important economic and social ideas of our time: the collaborative economy. With this important book, she broadens our thinking about the ways

in which the economy is being transformed and shows how the Peers Inc model is changing the very nature of capitalism. When the best of people power is combined with the best of corporate power to form “Peers Inc” organizations, a potent creative force is released. The “Inc” in these collaborations delivers the industrial strengths of significant scale and resources, and the “Peers” bring together the individual strengths of localization, specialization, and customization, unlocking the power of the collaborative economy. When excess capacity is harnessed by the platform and diverse peers participate, a completely new dynamic is unleashed. In Peers Inc, Robin Chase brings her provocative insights to work, business, the economy, and the environment, showing:

- How focusing on excess capacity transforms the economics of what's possible and delivers abundance to all
- How the new collaboration between the Inc and the Peers enables companies to grow more quickly, learn faster, and deliver smarter products and services
- How leveraging the Peers Inc model can address climate change with the necessary speed and scale
- How the Peers Inc model can help legacy companies overcome their shortening life cycle by inviting innovation and evolution
- Why power parity between the Peers and the Inc is a prerequisite for long-term success
- How platforms can be built within the existing financial system or outside of it
- What government can do to enhance economic possibility and protect people working in this new decentralized world

Chase casts a wide net, illuminating the potential of the Peers Inc model to address broader issues such as climate

change and income inequality, and proves the impact that this innovative economic force can have on the most pressing issues of our time.

Metrics - Vincanne Adams 2016-03-05

This volume's contributors evaluate the accomplishments, limits, and consequences of using quantitative metrics in global health. Whether analyzing maternal mortality rates, the relationships between political goals and metrics data, or the links between health outcomes and a program's fiscal support, the contributors question the ability of metrics to solve global health problems. They capture a moment when global health scholars and practitioners must evaluate the potential effectiveness and pitfalls of different metrics—even as they remain elusive and problematic. Contributors. Vincanne Adams, Susan Erikson, Molly Hales, Pierre Minn, Adeola Oni-Orisan, Carolyn Smith-Morris, Marlee Tichenor, Lily Walkover, Claire L. Wendland

Reviving Evangelical Ethics - Wyndy Corbin Reuschling 2008-04-01

Classic theories of Aristotle, Kant, and Mill have influenced Christian thought in morality and ethics for centuries. But they can go only so far, Wyndy Corbin Reuschling writes in *Reviving Evangelical Ethics*. While the philosophers' approach to three key elements--virtue, duty, and utility--have been used widely in forming ethical and moral practices, Corbin Reuschling sees spiritual danger in their limitations. She probes deeply to deconstruct each philosophy, then reconstructs a broader, biblically based framework for personal and group ethics. This introductory text provides helpful biblical and theological reflection for students of Christian ethics.
