Letters and Communities - Paola Ceccarelli 2018-08-16

The writing of letters often evokes associations of a single author and a single addressee, who share in the exchange of intimate thoughts across distances of space and time. This model underwrites such iconic notions as the letter representing an 'image of the soul of the author' or constituting 'one half of a dialogue'. However justified this conception of letter-writing may be in particular instances, it tends to marginalize a range of issues that were central to epistolary communication in the ancient world and have yet to receive sustained and systematic investigation. In particular, it overlooks the fact that letters frequently presuppose and were designed to reinforce communities-or, indeed, to constitute them in the first place. This volume explores the interrelation of letters and communities in the ancient world, examining how epistolary communication aided in the construction and cultivation of group-identities and communities, whether social, political, religious, ethnic, or philosophical. A theoretically informed Introduction establishes the interface of epistolary discourse and group formation as a vital but hitherto neglected area of research, and is followed by thirteen case studies offering multi-disciplinary perspectives from four key cultural configurations: Greece, Rome, Judaism, and Christianity. The first part opens the volume with two chapters on the theory and practice of epistolary communication that focus on ancient epistolary theory and the unavoidable presence of a letter-carrier who introduces a communal aspect into any correspondence, while the second comprises five chapters that explore configurations of power and epistolary

communication in the Greek and Roman worlds, from the archaic period to the end of the Hellenistic age. Five chapters on letters and communities in Ancient Judaism and Early Christianity follow in the third, part before the volume concludes with an envoi examining the trans-historical, or indeed timeless, philosophical community Seneca the Younger construes in his Letters to Lucilius.

Short Cuts - Alexander Humez 2010-08-03

Our everyday lives are inevitably touched--and immeasurably enriched--by an extraordinary variety of miniature forms of verbal communication, from classified ads to street signs, and from yesterday's graffiti to tomorrow's headline. Celebrating our long history of compact speech,

Short Cuts offers a well-researched and vibrantly written account of this unsung corner of the linguistic world, inspiring a new appreciation of the wondrously varied forms of our briefest exchanges. Alexander Humez, Nicholas Humez, and Rob Flynn shed light here on an ever-growing field of minimalist genres, ranging from the bank robbery note to the billboard, from the curse hurled from a car window (or the Senate floor) to the suicide note, and from the ghost-word to the ring tone. The book is divided into ten thematic sections, as varied as "In the Dictionary" (discussing such topics as Sniglets, Mountweazels, and the Wiktionary), "In and Out of Trouble" (error messages, weasel words, the pre-nup), and "On the Lam" (ransom notes, wanted posters, portraits parl?s). The authors look at the comic strip's maladicta balloon and the dinner-interrupter's robocalls, the advice column and the obit, and the many ways your personal appearance tells us who you are, from the message on your gimme cap to the tattoo with your S.O.'s name on your ankle. Uncovering the elegance, the humor, and the unspoken implications in these fleeting communications, this book provides a satisfying thoroughness and an abundance of connections that unravel how the oath became the swearword and the calling card salver turned into the Facebook wall. For readers who love language and enjoy rummaging through the cultural baggage that comes with it, Short Cuts gathers an engaging sampler of the most delightful and cogent--and above all brief--forms of contemporary English.

Constructing Paul (The Canonical Paul, vol. 1) - Luke Timothy Johnson 2020-03-05

First of a two-volume work providing a framework for understanding the life and thought of the apostle Paul. In this methodological tour de force, Luke Timothy Johnson offers an articulate, clear, and thought-provoking portrait of the life and thought of the apostle Paul. Drawing upon recent developments in the study of Paul, Johnson offers readers an invitation to the Apostle Paul. Rather than focusing on a few of Paul's letters, Johnson lays out the materials necessary to envision the apostle from the thirteen canonical letters of Paul and the Acts of the Apostles. *Constructing Paul* thus provides a framework within which an engagement with Paul's letters can take place. Johnson demonstrates the possibility of doing responsible and creative work across the canonical collection without sacrificing literary or historical integrity. By bringing out the facets of the apostle from the canonical evidence, Johnson shows the possibilities for further and better inquiry into the life and thought of Paul. This first volume imagines a plausible biography for Paul and serves as an introduction to the studies in the second volume. *Constructing Paul* addresses all the pertinent questions related to the study of Paul. Johnson uses the canonical material as building blocks to make a case for why Paul ought to be heard today as a liberating rather than oppressing voice.
