How to Write Successful Letters of Recommendation

- Kimberly Sarmiento
2014-12-22

Letters of recommendation are a part of every standard school or job application. As an employer, professor, colleague, peer, or friend, chances are that at one point or another, you will be asked to put a person on paper and every word counts. How to Write Successful Letters of Recommendation is your one-stop source for painting the perfect picture in just one short letter. You will learn everything you need to know about writing the perfect letter of recommendation that will get your friend, colleague, or student accepted or hired. The most effective letters of recommendation are accurate, succinct, descriptive, and powerful, and include realistic evaluations of performance and capability. With ideas about how to start your letter and topics to include, this complete guide will teach you how to do just that, as you construct the perfect letter from start to finish. Outlined in ten easy steps, this complete guide gives you the tools you need to write reference letters that

your employees, colleagues, students, and friends will appreciate. This book is filled with tips and tricks for personalizing the letter and making your friend, student, employee, or coworker shine. With a word bank of powerful phrases and descriptive words, you'll have everything you need to make your letter stand out at your fingertips. Sample letters of recommendation are also included, along with explanations of why each one is effective and tips for replicating these letters in just minutes. You will learn about the different types of recommendation letters, from employment to academic to volunteer, and how to direct your letter to the appropriate audience. You'll even learn what to do if someone you haven't worked with closely asks you to be a reference, or how to deal with being asked for hundreds of recommendations at once. This exhaustively researched book will even teach you how to politely avoid writing letters for those people you aren't quite

comfortable recommending. The Companion CD-ROM is filled with templates, examples, word banks, and worksheets, so that you can easily learn to verify experience, confirm competence, build credibility, and bolster confidence with just a simple letter. A recommendation is more than just a letter; it's often make-or-break in a candidate's application for school, volunteering, or employment. With the step-by-step instructions and writing guidelines in this book, you will learn how to write introductions; opening statements; the body, including a well-written, vivid assessment of character and work ethic; and a strong conclusion. This new book will also teach you how to appropriately sign your letter, and will provide you with tips of re-reading and editing it to make sure you gave an effective recommendation. We spent hundreds of hours interviewing high school teachers, college professors, employers, and more who have

nailed the art of composing effective communications. With *How to Write Successful Letters of Recommendation*, your employees, colleagues, students, and friends will see you as their go-to source to helping them succeed in their next big venture.

The Principles of Banking -

Moorad Choudhry 2012-06-13

The ultimate guide for bank management: how to survive and thrive throughout the business cycle An essential guide for bankers and students of finance everywhere, *The Principles of Banking* reiterates that the primary requirement of banking—sound capital and

liquidity risk management—had been forgotten in the years prior to the financial crash. Serving as a policy guide for market practitioners and regulators at all levels, the book explains the keys to success that bankers need to follow during good times in order to be prepared for the bad, providing in-depth guidance and technical analysis of exactly what constitutes good banking practice.

Accessible to professionals and students alike, *The Principles of Banking* covers issues of practical importance to bank practitioners, including asset-liability management, liquidity risk, internal transfer pricing, capital management, stress testing, and more. With an emphasis on viewing business cycles as patterns of stable and stressful market behavior, and rich with worked examples illustrating the key principles of bank asset-liability management, the book is an essential policy guide for today and tomorrow. It also offers readers access to an accompanying website holding

Downloaded from
latitudenews.com on by

policy templates and teaching aids. Illustrates how unsound banking practices that were evident in previous bank crashes were repeated during the creation of the 2007-2008 financial market crisis Provides a template that can be used to create a sound liquidity and asset-liability management framework at any bank An essential resource for the international banking community as it seeks to re-establish its credibility, as well as for students of finance Explains the original principles of banking, including sound lending policy and liquidity management, and why these need to be restated in order to avoid another bank crisis at the time of the next economic recession Covers topics of particular importance to students and academia, many of which are marginally—if ever—addressed in current text books on finance Offers readers access to a companion website featuring invaluable learning and teaching aids Written by a banking practitioner with extensive

professional and teaching experience in the field, The Principles of Banking explains exactly how to get back to basics in risk management in the banking community, essential if we are to maintain a sustainable banking industry. “engaging and interesting and, more importantly, easily understood, allowing a clear picture to emerge of how the principle or concept under discussion is to be applied in the real world.” - Graeme Wolvaardt, Head of Market & Liquidity Risk Control, Europe Arab Bank Plc

How to Analyse Bank Financial Statements -

Thomas Padberg 2017-01-30

The financial statements of banks differ very much from those of non-banks. The assets and liabilities are mostly financial based, and the equity ratio is far lower than the equity ratios of industrial companies. Banking supervision has a big influence on the financial statements too. Recent years have shown the risks which can evolve from banks, but normal instruments

Downloaded from
latitudenews.com on by
guest

of financial statement analysis are not sufficient to analyse banks and locate these risks: different methods are needed. This book, by experienced bank analyst Thomas Padberg, provides analysts and investors with the tools to analyse bank financial statements, find problems in bank finances, and assess the risks of banks. Examples with real bank financial data are used to show readers the step-by-step methods to follow when looking at bank financial statements. The book covers: - The specific accounting rules that apply to banks - How to analyse bank segment reporting - The ratios to use when analysing bank financial statements - How to analyse bank profit and loss accounts - Equity analysis and stock analysis of banks This is an essential guide for all analysts and serious investors who need to analyse bank financial statements.

Ask a Manager - Alison Green
2018-05-01

From the creator of the

popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask

a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate

playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application.

Downloaded from
latitudenews.com on by
guest

Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement

agencies, criminal prosecutors and attorneys, and forensic science educators.

Impact Evaluation in Practice, Second Edition - Paul J. Gertler 2016-09-12

The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely

Downloaded from
latitudenews.com on by
guest

across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact

evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Asher's Bible of Executive Résumés and how to Write Them - Donald Asher 1997

Don Asher, author of the popular OVERNIGHT series, tackles one of the hottest topics in business today: the executive résumé. From V.P. on up to C.E.O., this book provides the largest compendium of executive résumés available to the general public. Whether he's giving hints on getting head-hunted, upgrading your current position, or launching an all-out top-level job hunt, Asher has the tricks of the trade, and the successful executive client base to back it up. Through *Righters*, his very successful service, he has

Transparency, Risk Management and International Financial Fragility - Mario Draghi 2003

Discussions of the role of derivatives and their risks, as well as discussions of financial risks in general, often fail to distinguish between risks that are taken consciously and ones that are not. To understand the breeding conditions for financial crises, the prime source of concern is not risk per se, but the unintended, or unanticipated accumulation of risks by individuals, institutions or governments including the concealing of risks from stakeholders and overseers of those entities. This report, the fourth in the ICMB/CEPR series of Geneva Reports on the World Economy, analyses specific situations in which significant unanticipated and unintended financial risks can accumulate. The focus is, in particular, on the implicit guarantees that governments extend to banks and other financial institutions, and which may result in the accumulation, often

unrecognised from the viewpoint of the government, of unanticipated risks in the balance sheet of the public sector. that a government's exposure to risk arising from a guarantee is non-linear. For instance, in the case of a government which guarantees the liabilities of the banking system, the additional liability transferred onto the government's balance sheet by a 10% shock to the capital of firms is larger the lower that capital is to start with. Recognising this non-linearity in the transmission of risk exposures is essential to the reduction of the accumulation of unanticipated risks on the government's balance sheet. Analyses of recent international financial crises recognise that the implicit guarantees governments extend to banks and corporations create the potential to greatly weaken their balance sheets. exist, rather than on measurement of the exposures they create. This report offers just such a framework for measuring the

extent of a government's exposure to risk and how that exposure changes over time. The report also discusses ideas on how risk exposures can be controlled, hedged and transferred through the use of derivatives, swap contracts, and other contractual agreements.

Among Heroes - Brandon Webb
2016-05-10

Navy SEAL sniper and New York Times bestselling author Brandon Webb's personal account of eight of his friends and fellow SEALs who made the ultimate sacrifice. "Knowing these great men—who they were, how they lived, and what they stood for—has changed my life. We can't let them be forgotten. We've mourned their deaths. Let's celebrate their lives."—Brandon Webb As a Navy SEAL, Brandon Webb rose to the top of the world's most elite sniper corps, experiencing years of punishing training and combat missions from the Persian Gulf to Afghanistan. Along the way, Webb served beside, trained,

Downloaded from
latitudenews.com on by
guest

and supported men he came to know not just as fellow warriors, but as friends and, eventually, as heroes. This is his personal account of eight extraordinary SEALs who gave all for their comrades and their country with remarkable valor and abiding humanity: Matt "Axe" Axelson, who perished on Afghanistan's Lone Survivor mission; Chris Campbell, Heath Robinson, and JT Tumilson, who were among the casualties of Extortion 17; Glen Doherty, Webb's best friend, killed while helping secure the successful rescue and extraction of American CIA and State Department diplomats in Benghazi; and other close friends, classmates, and fellow warriors. These are men who left behind powerfully instructive examples of what it

means to be alive—and what it truly means to be a hero. INCLUDES PHOTOGRAPHS **Learning, Practicing, and Living the New Careering** - Anna Miller-Tiedeman 1999 "Learning, Practicing, and Living the New Careering presents a theoretical overview of conventional career counseling theories and compares them to the New Careering. This volume does not dismiss traditional career theories, but rather illustrates the symbiosis while placing conventional wisdom in a subordinate position to personal reality. Miller-Tiedeman uses case studies and discussion points to help both professionals and students learn practical application."-- Jacket.
