

Medical Surgical Virtual Clinical Excursion Answer Key

This is likewise one of the factors by obtaining the soft documents of this **Medical Surgical Virtual Clinical Excursion Answer Key** by online. You might not require more mature to spend to go to the books introduction as competently as search for them. In some cases, you likewise get not discover the pronouncement Medical Surgical Virtual Clinical Excursion Answer Key that you are looking for. It will certainly squander the time.

However below, bearing in mind you visit this web page, it will be as a result utterly simple to acquire as capably as download lead Medical Surgical Virtual Clinical Excursion Answer Key

It will not resign yourself to many get older as we explain before. You can attain it though play a part something else at house and even in your workplace. for that reason easy! So, are you question? Just exercise just what we offer below as skillfully as evaluation **Medical Surgical Virtual Clinical Excursion Answer Key** what you subsequent to to read!

Medical-Surgical Nursing - Donna D. Ignatavicius 2020-10 Master the essential medical-surgical nursing content you'll need for success on the Next-Generation NCLEX® Exam

(NGN) and safe clinical practice! Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 10th Edition uses a conceptual approach to provide

adult health knowledge and help you develop the clinical nursing judgment skills that today's medical-surgical nurses need to deliver safe, effective care. "Iggy" emphasizes three emerging trends in nursing - interprofessional collaborative care, concept-based learning, and clinical judgment and systems thinking - trends that will ground you in how to think like a nurse and how to apply your knowledge in the classroom, simulation laboratory, and clinical settings. A perennial bestseller, "Iggy" also features NCLEX Exam-style Challenge and Mastery questions to prepare you for success on the NGN! UNIQUE! Interprofessional collaborative approach to care views medical and nursing management through the lens of the nursing process and the NCSBN Clinical Judgment Model and aligns with the Interprofessional Education Collaborative (IPEC) Core Competencies for Interprofessional Collaborative Practice. Consistent use of

interprofessional terminology promotes interprofessional collaboration through the use of a common healthcare language, instead of using isolated nursing-specific diagnostic language. UNIQUE! Enhanced conceptual approach to learning integrates nursing concepts and exemplars, providing a foundation in professional nursing concepts and health and illness concepts and showing their application in each chapter. Unparalleled emphasis on clinical reasoning and clinical judgment helps you develop these vital skills when applying concepts to clinical situations. UNIQUE! Emphasis on Next-Generation NCLEX® Exam (NGN) preparation includes chapter-opening Learning Outcomes and chapter-ending Get Ready for the NCLEX Examination! sections, plus NCLEX Examination Challenge questions and new Mastery Questions, with an answer key in the back of the book and on the companion Evolve website. Emphasis on QSEN and patient safety focuses on safety and

evidence-based practice with Nursing Safety Priority boxes, including Drug Alert, Critical Rescue, and Action Alert boxes. Direct, easy-to-read writing style features concise sentences and straightforward vocabulary. Emphasis on health promotion and community-based care reflects the reality that most adult health care takes place in environments outside of high-acuity (hospital) settings. NEW! Strengthened conceptual approach with data-driven Concept and Exemplar selections adds the concepts of pain, inflammation, and infection, and presents Exemplar disorders with a nursing-process format and depth to help prepare you for the Next-Generation NCLEX® Exam (NGN). NEW and UNIQUE! Enhanced focus on clinical judgment and systems thinking ensures alignment with the NCSBN Clinical Judgment Model and emphasizes the six cognitive skills you'll need for effective clinical judgment, for the NGN, and for safe clinical practice.

NEW! Emphasis on need-to-know content provides a solid foundation for beginning nurse generalists, including only the most important patient problems for each medical condition, with streamlined chapters and concise coverage of nursing skills for preoperative and postoperative care. NEW! Updated content throughout reflects the latest national and international evidence-based guidelines and protocols. NEW! Improved learning resources on the companion Evolve website are thoroughly updated and closely integrated with the textbook. NEW! Interprofessional Collaboration boxes highlight how the nurse collaborates with other members of the healthcare team. NEW! Ethical/Legal Considerations boxes address dilemmas that medical-surgical nurses face related to technological changes and socioeconomic disparities. NEW! Increased emphasis on home care, health promotion, and community-based care reflects the ongoing shift of care from hospitals to

the home environment. NEW!
Updated illustrations include new anatomy and physiology images, procedure images, and disorder photos. NEW!
Updated drug tables are designed for quick reference and the use of drug trade names is eliminated for better alignment with the NGN. NEW!
Coverage of opioid misuse is updated to reflect the opioid crisis in the U.S. NEW!
Content on personal safety and preparedness for mass casualty events has been expanded to equip you for the realities of healthcare today. NEW!
Key terms and definitions at the beginning of each chapter give you advance familiarity with essential terminology. NEW!
Revised Key Points align closely with Learning Outcomes and each includes a QSEN or Clinical Nursing Concept "tag" to maximize your study efficiency. NEW!
Simplified and streamlined chapters make the book easier to use and information easier to find.

Success in Practical/Vocational

Nursing - Signe S. Hill
2012-09-04

Using an engaging, interactive, 1-2-3 approach, this text helps you develop problem-solving skills that will be useful throughout your nursing career. Active participation and application of critical thinking are utilized through questions, quizzes, and self-assessments to provide you with practical and efficient aids to learning. You will also discover learning strategies, tips on taking the NCLEX-PN®, guidance on the job search, and an in-depth discussion of supervision, delegation, assignment of tasks, and the distinctions among them. An LPN Threads Series title. UNIQUE! 1-2-3 approach in a clear, simple, engaging writing style instructs you in what you need to do and how to do it. UNIQUE! Learning Exercises challenge you to imagine, visualize, and think outside the box. UNIQUE! Leadership Activities provide exercises to practice and develop leadership skills and Leadership Hints provide

helpful pointers to follow and remember when in various leadership situations. UNIQUE! Management Tools and Management Hints provide practical instructions, resources, and tips to use when in a management situation. UNIQUE! Offers time-management tips to help prioritize. Integrates wellness and personal care throughout the text, including information and coping skills for stress management and burnout, nutrition and exercise, the impaired nurse, and co-dependency. Includes separate chapters on "Ethics Apply to Nursing" and "Nursing and the Law" that address pertinent legal and ethical issues that directly and indirectly affect LPN/LVNs. Features information on Medicare and the many changes that affect health care, including health care settings, medication coverage, and the costs of managed care. Includes a separate chapter on learning strategies for the adult student and updated approaches for traditional and returning

students. A separate chapter on critical thinking and many critical thinking exercises promotes the development of critical thinking and problem solving skills in both academic and personal situations. Includes updated State Boards of Nursing and Internet Resources Appendixes with the most up-to-date addresses for nursing boards and website addresses for nursing, medical, and health-related information as an all-in-one ready resource for you as you prepare to enter the work world. UNIQUE! Keep In Mind boxes located in each chapter introduce readers to the underlying theme in the chapter. UNIQUE! Evolve Student Resources includes 230 NCLEX Exam-Style Interactive Questions per chapter, with correct response and rationales for both correct and incorrect responses, to encourage self-study and review. UNIQUE! The "Learning During School, for the NCLEX-PN, and Beyond" chapter includes new content on the role of simulation in nursing education and

etiquette for electronic device use, such as cell phones and iPods. UNIQUE! The "Personal Health Promotion" chapter helps you provide a positive role model for patients with new content on MyPyramid, the benefits of exercise, personal steps to help prevent hospital-acquired infections, burnout versus stress, and tips for personal safety. UNIQUE! Culture content has been expanded content addressing the growing needs of patient care for special populations and to help students develop cultural sensitivity. Includes the latest protocols from NAPNES regarding standards of practice and educational competencies that LPN/LVN nursing students need to know.

Virtual Clinical Excursions 1. 0 to Accompany Medical-Surgical Nursing - Elaine Kennedy 2001-11

CD-ROM features virtual hospital setting with five unique patients, whose charts, lab data and medical administration records can be assessed and monitored; each lesson in workbook has a

reading assignment from Ignatavicius & Workman, Medical-surgical nursing, 4th edition, Saunders, c2001.

Medical-surgical Nursing -

Donna D. Ignatavicius 2010

The sixth edition includes a new emphasis on clinical decision-making for patient-centered collaborative care and more streamlined and balanced coverage of the core body of knowledge needed for safe clinical practice. There is also expanded coverage of emergency and disaster preparedness along with an enhanced "Get Ready for the NCLEX Examination" feature that includes the addition of new NCLEX Challenge questions. --from publisher description.

Medical-surgical Nursing - Joyce M. Black 2005

Accompanying CD-ROMs contains open book quizzes that consist of crossword puzzles and multiple choice, fill-in-the-blank, and matching questions; Fluid and Electroplate Module; case studies with accompanying discussions, exercises, and

nursing care plan; Health Assessment Animations; and discussions to the thinking critically questions.

Medical-surgical Nursing -

Donna D. Ignatavicius 2013
Care of patients with skin problems -- Care of patients with burns -- Assessment of the respiratory system -- Care of patients requiring oxygen therapy or tracheostomy -- Care of patients with noninfectious upper respiratory problems -- Care of patients with noninfectious lower respiratory problems -- Care of patients with infectious respiratory problems -- Care of critically ill patients with respiratory problems -- Assessment of the cardiovascular system -- Care of patients with dysrhythmias -- Care of patients with cardiac problems -- Care of patients with vascular problems -- Care of patients with shock -- Care of patients with acute coronary syndromes -- Assessment of the hematologic system -- Care of patients with hematologic problems.

Introduction to Medical-

Surgical Nursing - Adrienne Dill Linton, PhD, RN, FAAN
2015-02-06

The leading medical-surgical text for LPN/LVN students, Linton's Introduction to Medical-Surgical Nursing, 6th Edition offers just the right level of information to equip today's students to effectively care for adults and older adults. Covering both medical-surgical and psychiatric mental health conditions and disorders, this comprehensive text addresses the LPN/LVN's role in a variety of care settings, including acute care and long-term care, with a special emphasis on assignment and supervision responsibilities. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN test plan content No other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student.

Foundational units on basic concepts related to the health care system, care settings, the

nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics, avoid repetition later in the text and create a foundation to build your understanding of disorders by body system. Safety alerts are highlighted throughout the text with a Safety Considerations icon. A separate unit on psychiatric mental health nursing covers psychosocial responses to illness, psychiatric disorders, and substance abuse - eliminating the need for a separate psychiatric mental health nursing text. Content related to the NCLEX-PN test plan is emphasized throughout the text, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication/medical errors. Separate chapters on common, high-profile disorders (including hypertension, diabetes, and shock), provide an in-depth understanding for patient care. Focus on

assignment and supervision helps you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and makes sure they understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. A separate unit on gerontologic nursing provides comprehensive coverage of the care of the older adult and related disorders. No other LPN/LVN med-surg text offers as much coverage of this primary patient group. Diagnostic Tests and

Procedures tables offer quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Nutrition Considerations boxes are spotlighted at appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care. Nursing care plans reinforce the nursing process and focus on critical thinking. Cultural Considerations boxes discuss the importance of providing culturally-competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Get Ready for the NCLEX-PN Examination! sections at the

end of chapters include key points, review questions, and case studies that address the various NCLEX Client Needs categories. NEW! Continued emphasis on evidence-based practice and the most current research findings include specific examples of how scientific evidence can justify and support patient care. NEW! Updated nursing diagnoses all reflect the most current NANDA listings for NCLEX compliance.

Virtual Clinical Excursions 2.0 to Accompany Fundamental Concepts and Skills for Nursing - Susan C. de Wit 2004-10

This groundbreaking workbook/CD-ROM package brings learning to life in a "virtual" hospital setting. Each lesson has a textbook reading assignment with corresponding CD-ROM and workbook activities. The workbook acts as a map, guiding students through the CD-ROM as they care for patients in the virtual hospital, and helping them make connections between what they experience through

the CD-ROM and what they've learned in their textbook. Each virtual hospital visit allows the student to access realistic information essential to patient care. The result is a true-to-life, hands-on learning experience. The learning environment: Offers multiple information sources that can be examined and evaluated to understand how and why care is implemented. Has meaningful real-world problems that place the student in nursing scenarios where they can set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems. The workbook includes lessons that complement the content in the textbook and guide the student through the multi-floor virtual hospital. The multi-floor virtual hospital includes a Surgery Department, Intensive Care Unit, and Medical-Surgical/Telemetry Floor. Content is included on patient care, patient records, case conference, and clinical review to engage the user in the subject matter and allow for

further exploration. The CD-ROM offers users the opportunity to visit each patient and access realistic information essential for patient care, including charts, medication administration records, electronic patient records, video streaming of dialogue with nurses, and other related patient materials. A clock icon appears under each lesson, estimating how much time it will take to complete. A linkage icon alerts the user whenever they are about to begin an exercise that connects with previous lessons. TOC/Index matches chapters from the textbook with patients and lessons in the workbook.

Virtual Clinical Excursions 2.0 to Accompany Medical-Surgical Nursing - Joyce M. Black 2004-07

Take a guided tour through Canyon View Regional Medical Center with Virtual Clinical Excursions 2.0. This interactive learning aid combines a CD-ROM with a workbook and the parent textbook to provide the perfect learning experience. The student is able to learn and

develop patient care skills in a virtual hospital environment. It includes such features as patient medical charts, medical administration records, and video streaming of nurse patient interactions. These resources provide the student the opportunity to assess and analyze patient information, establish a nursing diagnosis, set priorities, implement care, and evaluate the outcomes.

Foundations and Adult Health Nursing - Kim Cooper, RN, MSN 2014-08-25

An all-inclusive guide to fundamentals and medical-surgical nursing for the LPN/LVN, Foundations and Adult Health Nursing, 7th Edition covers the skills you need for clinical practice, from anatomy and physiology to nursing interventions and maternity, neonatal, pediatric, geriatric, mental health, and community health care.

Guidelines for patient care are presented within the framework of the five-step nursing process; Nursing Care Plans are described within a case-study format to help you

develop skills in clinical decision-making. Written by Kim Cooper and Kelly Gosnell, this text includes all of the content from their Foundations of Nursing and Adult Health Nursing books, including review questions to help you prepare for the NCLEX-PN® examination! Full-color, step-by-step instructions for over 100 skills show nursing techniques and procedures along with rationales for each.

The 5-step Nursing Process connects specific disorders to patient care - with a summary at the end of each chapter. Nursing Care Plans emphasize patient goals and outcomes within a case-study format, and promotes clinical decision-making with critical thinking questions at the end of each care plan. Clear coverage of essential A&P is provided by an Introduction to Anatomy and Physiology chapter along with an overview of A&P in all body systems chapters. Student-friendly features enhance the learning of nursing skills with summary boxes for Patient Teaching, Health Promotion

Considerations, Complementary and Alternative Therapy, Cultural Considerations, Older Adult Considerations, Home Care Considerations, Safety Alert, and Prioritization, Assignment, and Supervision. UNIQUE! Mathematics review in Dosage Calculation and Medication Administration chapter covers basic arithmetic skills prior to the discussion of medication administration. A focus on preparing for the NCLEX examination includes review questions and Get Ready for the NCLEX Examination! sections with key points organized by NCLEX Client Needs Categories. Evidence-Based Practice boxes provide synopses of nursing research articles and other scientific articles applicable to nursing, along with nursing implications for the LPN/LVN. Nursing Diagnosis boxes summarize nursing diagnoses for specific disorders along with the appropriate nursing interventions. UNIQUE! Delegation Considerations boxes provide parameters for

delegation to nurse assistants, patient care technicians, and unlicensed assistive personnel. Medication Therapy tables provide quick access to actions, dosages, precautions, and nursing considerations for commonly used drugs. NEW! Reorganized chapters make it easier to follow and understand the material. NEW! Icons in page margins indicate videos, audios, and animations on the Evolve companion website that may be accessed for enhanced learning. UPDATED illustrations include photographs of common nursing skills.

Virtual Clinical Excursions 2.0 to Accompany Fundamentals of Nursing - Patricia A. Potter 2004-06

A multi-floor, virtual hospital, VCE 2.0: Canyon View Regional Medical Center contains 14 patient rooms with five floors - a Well Child Clinic, a Pediatrics Floor, a Surgery Department, an Intensive Care Unit, and a Medical-Surgical Telemetry Floor. These patients are included in VCE 2.0: Canyon View Regional Medical Center: · Darlene

Martin Ms. Martin, age 49, was admitted with uterine leiomyomata, irregular periods, and endometrial hyperplasia. She opts for a total abdominal hysterectomy. · James Franklin Mr. Franklin, age 67, admitted after experiencing episodic light-headedness, left arm and left leg numbness, and one episode of expressive aphasia. He undergoes a carotid endarterectomy. · James Story Mr. Story, age 42, has renal failure and Type 1 Diabetes Mellitus. He arrives complaining of significant weakness, nausea, and an increasingly edematous right arm. · Paul Jungerson Mr. Jungerson, age 61, complains of persistent left lower quadrant abdominal pain that has lasted for 3 days. Diagnosed with a coloanal anastomosis disruption, he undergoes a colostomy. · Elizabeth Washington Ms. Washington, age 63, is admitted following an automobile accident which fractures her hip. · Tom Handy Mr. Handy, age 62, is admitted for a right upper lobectomy

with bronchoscopy for moderately differentiated squamous cell carcinoma of the right lung. · Julia Parker Ms. Parker, age 55, is admitted with indigestion and mid back pain. She suffers a myocardial infarction. Includes a guided tutorial which shows students how to work with a patient in the virtual hospital · collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions) · record patient data · listen to a report and itemize a patient's problems and high-priority concerns · and sometimes administer medications. Requires students to use their critical thinking skills to set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. Encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with

data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills. A new clock icon appears under each lesson, offering an estimate on how much time it will take to complete. A new linkage icon alerts users whenever they are about to begin an exercise that connects with previous lessons. A new Table of Contents-Index matches the chapters from the textbook with patients and lessons in the workbook. A series of groundbreaking, new workbooks and CD-ROMs, Virtual Clinical Excursions bring learning to life in two different "virtual" hospital settings! Each lesson in Virtual Clinical Excursions has a core textbook reading assignment with corresponding CD-ROM and workbook activities. The exercises in the workbook complement the content in the the parent text and provide a perfect environment in which

students may "practice" what they are learning in the text. The workbooks act as maps - guiding students through the CD-ROM as they care for patients in the virtual hospital. Virtual hospital visits on the CD-ROM allow students to access realistic information resources that are essential to patient care.

Adult Health Nursing E-Book - Kim Cooper 2018-10-16

The basics you need to succeed! Covering basic anatomy & physiology and medical-surgical nursing for the LPN/LVN, Adult Health Nursing, 8th Edition provides just the right amount of information you need — with a level of detail that is neither overwhelming nor too superficial. Guidelines for patient care are presented within the framework of the nursing process; Nursing Care Plans are described within a case-study format to help you develop skills in clinical decision-making. New to this edition, an updated art program replaces line art to provide a realistic view of

procedures and skills. In addition, enhanced holistic health care options, and updated health promotion topics, provide an updated view of current practice. This easy-to-understand text is best when used with Foundations of Nursing, 8th Edition, to give you complete coverage of all the content needed in an LPN/LVN curriculum!

Medical-surgical Nursing -

Sharon L. Lewis 2004

The 6th edition has been thoroughly revised to incorporate the most recent medical-surgical nursing information. This comprehensive resource contains essential information that students need to prepare for lectures, classroom activities, examinations, clinical assignments, and comprehensive care of patients.

Medical-Surgical Nursing - E-

Book - Sharon L. Lewis

2014-03-14

Over the past three decades, more and more nursing educators have turned to Lewis: Medical-Surgical

Nursing for its accurate and up-to-date coverage of the latest trends, hot topics, and clinical developments in the field of medical-surgical nursing — and the new ninth edition is no exception! Written by a dedicated team of expert authors led by Sharon Lewis, Medical-Surgical Nursing, 9th Edition offers the same easy-to-read style that students have come to love, along with the timely and thoroughly accurate content that educators have come to trust. Completely revised and updated content explores patient care in various clinical settings and focuses on key topics such as prioritization, critical thinking, patient safety, and NCLEX® exam preparation. Best of all — a complete collection of interactive student resources creates a more engaging learning environment to prepare you for clinical practice. Highly readable format gives you a strong foundation in medical-surgical nursing. Content written and reviewed by leading experts in the field ensures that the

information is comprehensive, current, and clinically accurate. Bridge to NCLEX Examination review questions at the end of each chapter reinforce key content while helping you prepare for the NCLEX examination with both standard and alternate item format questions. UNIQUE! "Levels of Care" approach explains how nursing care varies for different levels of health and illness. More than 50 comprehensive nursing care plans in the book and online incorporate NIC, NOC, and current NANDA diagnoses, defining characteristics, expected outcomes, specific nursing interventions with rationales, evaluation criteria, and collaborative problems. Over 800 full-color illustrations and photographs clearly demonstrate disease processes and related anatomy and physiology. NEW! Unfolding case studies included throughout each assessment chapter help you apply important concepts and procedures to real-life patient care. NEW! Managing Multiple

Patients case studies at the end of each section give you practice applying your knowledge of various disorders and help you prioritize and delegate patient care. NEW! Informatics boxes discuss how technology is used by nurses and patients in health care settings. NEW! Expanded coverage of evidence-based practice helps you understand how to apply the latest research to real-life patient care. NEW! Expanded Safety Alerts throughout the book cover surveillance for high-risk situations. NEW! Separate chapter on genetics expands on this key topic that impacts nearly every condition with a focus on the practical application to nursing care of patients. NEW! Expanded coverage of delegation includes additional Delegation Decisions boxes covering issues such as hypertension and postoperative patient care. NEW! Genetic Risk Alerts and Genetic Link headings highlight specific genetic issues related to body system assessments and disorders. NEW! Revised art

program enhances the book's visual appeal and lends a more contemporary look throughout. *You CAN Teach Advanced Med-Surg Nursing!* - Mary A. Miller

Print+CourseSmart

You CAN Teach Advanced Med-Surg Nursing! - Mary A. Miller, RN, MSN,CCRN
2014-08-18

This is the first comprehensive resource for clinical medical-surgical nursing instructors responsible for guiding students through their entire clinical rotation. Filling a huge gap in resources for instructors required to teach the medical-surgical nursing course, it contains everything the new or adjunct instructor needs to teach expertly and confidently. The guide features a week-by-week instructional plan for the clinical rotation and includes all materials necessary to effectively perform administrative leadership and supervision, assess students' knowledge and learning styles, maximize the learning process, simplify evaluation, and help ensure a smooth transition to

clinical practice. The guide will serve as a welcome companion to both experienced and novice medical-nursing instructors with its week-by-week instruction guide that encompasses organizational teaching templates, teaching and learning resources, and evaluation materials. These include everything from the Adjunct Faculty Contract to the Course Syllabus to a Comprehensive Skills Checklist. Key clinical instruction materials, including PowerPoints and simulation scenarios are provided for each body system. Additionally the book contains quizzes with answers, discussion questions, and interactive student activities and exercises. Key Features: Comprises the first complete resource for successfully guiding students through their clinical rotations from start to finish Helps to allay the 'fear factor' for new and adjunct clinical nursing instructors Provides a week-by-week instructional guide that includes organizational teaching templates, teaching

and learning resources, and evaluation aids Includes numerous forms and templates to facilitate administrative responsibilities, student assessment, and student evaluation Key clinical information is organized by body system and includes multiple interactive teaching tools

Medical-Surgical Nursing Virtual Excursions - Jean Giddens 2001-09-04

Introduction to Medical-Surgical Nursing - E-Book - Adrienne Dill Linton 2015-02-19

The leading medical-surgical text for LPN/LVN students, Linton's Introduction to Medical-Surgical Nursing, 6th Edition offers just the right level of information to equip today's students to effectively care for adults and older adults. Covering both medical-surgical and psychiatric mental health conditions and disorders, this comprehensive text addresses the LPN/LVN's role in a variety of care settings, including acute care

and long-term care, with a special emphasis on assignment and supervision responsibilities. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN test plan content No other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student.

Handbook for Brunner and Suddarth's Textbook of Medical-Surgical Nursing - Hilarie Surrena 2010

This concise clinical companion to the twelfth edition of Brunner and Suddarth's Textbook of Medical-Surgical Nursing presents nearly 200 diseases and disorders in alphabetical format, allowing rapid access to need-to-know information on the most commonly clinical problems nurses are likely to encounter. The content is completely cross-referenced to the main text. Pages are tabbed alphabetically for speedy

reference. Online Tutoring powered by Smarthinking-- Free online tutoring, powered by Smarthinking, gives students access to expert nursing and allied health science educators whose mission, like yours, is to achieve success. Students can access live tutoring support, critiques of written work, and other valuable tools.

Virtual Clinical Excursions 2.0 to Accompany Medical-Surgical Nursing - Jean Foret Giddens 2004-07

CD-ROM guides you through a multi-floor virtual hospital to provide you with a hands-on learning experience. You'll meet a series of pediatric patients at Canyon View Regional Medical Center. Each patient has their own diverse health problems, medical histories, families, cultural backgrounds, and personalities.

Virtual Clinical Excursions 1.0 to Accompany Medical-Surgical Nursing - Jean Foret Giddens 2003-06

Guiding students through a virtual clinical experience,

VCE: Red Rock Canyon Medical Center is a teaching hospital that is modeled after a real medical-surgical floor. It contains five patient rooms, a nurses' station, a supervisor's office, two conference rooms, a nurses' lounge, and a waiting room with an elevator. The following patients are seeking treatment in Red Rock Canyon Medical Center: Carmen Gonzalez: This older Hispanic female presents with an infected leg that has become gangrenous. She has Type 2 diabetes mellitus, as well as complications of congestive heart failure and osteomyelitis David Ruskin: Following a car-bicycle accident, this young adult African-American male is admitted with a possible closed head injury and a badly fractured right humerus. He undergoes an open reduction and internal fixations of the right humerus. Sally Begay: This Native American woman enters the hospital and is initially suspected of having a Hanta virus infection. She has a confirmed diagnosis of bacterial lung infection. This

client's complications include chronic obstructive pulmonary disease and inactive tuberculosis. Ira Bradley: Ira is a caucasian adult male with late-stage HIV disease who is admitted for an opportunistic respiratory infection. He has complications of oral fungal infection, malnutrition, and wasting. Andrea Wang: This young Asian female entered the hospital after a diving accident in which T6 is crushed, with partial transection of the spinal cord. After a week in the ICU, she has been transferred to the medical-surgical unit, where she is being closely monitored. Includes a guided tutorial which shows students how to work with a patient in the virtual hospital · collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions) · record patient data · listen to a report and itemize a patient's problems and high-priority concerns · and sometimes administer medications. Requires students to use their

critical thinking skills to set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. Encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills.. A series of groundbreaking, new workbooks and CD-ROMs, Virtual Clinical Excursions bring learning to life in two different "virtual" hospital settings! Each lesson in Virtual Clinical Excursions has a core textbook reading assignment with corresponding CD-ROM and workbook activities. The exercises in the workbook complement the content in the the parent text and provide a perfect environment in which students may "practice" what

they are learning in the text. The workbooks act as maps - guiding students through the CD-ROM as they care for patients in the virtual hospital. Virtual hospital visits on the CD-ROM allow students to access realistic information resources that are essential to patient care.

Success in

Practical/Vocational

Nursing - E-Book - Signe S.

Hill 2013-12-27

Part of the LPN Threads series, Success in Practical/Vocational Nursing: From Student to Leader, 7th Edition helps you develop the practical knowledge and problem-solving skills you need for a successful career as an LPN/LVN. This edition features up-to-date content that is logically organized with concepts that build on each other as you progress through the material. 1-2-3-approach walks you through the steps of what you need to do and how to do it. A separate chapter on critical thinking and plentiful critical thinking exercises encourage you to apply your knowledge to

solve problems in both academic and personal situations. Coverage of Medicare helps you understand the costs of managed care, especially in long-term settings for older adults, and how it affects LPN/LVN practice and patients. Keep In Mind boxes prompt you to consider the underlying theme as you read the chapter. New Research and Evidence Based Practice chapter addresses topics commonly encountered in LPN/LVN practice. New technology content helps you understand the role of simulation in nursing education and the proper etiquette for using electronic devices. Content reflects the concepts contained in the most current NCLEX-PN test plan. Professional Pointers throughout the text offer valuable advice on expectations in the professional arena during and after nursing school. Revised chapter on Health Care Systems reflects the implementation of dramatic changes. Updated nutrition and dietary information includes

new MyPlate information. The latest protocols from the NAPNES, including student confidentiality, keeps you updated on your national association's practice standards. Revised, updated, and expanded culture content allows you to provide culturally sensitive care.

Foundations and Adult Health Nursing - E-Book -

Kim Cooper 2014-10-01

An all-inclusive guide to fundamentals and medical-surgical nursing for the LPN/LVN, Foundations and Adult Health Nursing, 7th Edition covers the skills you need for clinical practice, from anatomy and physiology to nursing interventions and maternity, neonatal, pediatric, geriatric, mental health, and community health care.

Guidelines for patient care are presented within the framework of the five-step nursing process; Nursing Care Plans are described within a case-study format to help you develop skills in clinical decision-making. Written by Kim Cooper and Kelly Gosnell,

this text includes all of the content from their Foundations of Nursing and Adult Health Nursing books, including review questions to help you prepare for the NCLEX-PN® examination! Full-color, step-by-step instructions for over 100 skills show nursing techniques and procedures along with rationales for each. The 5-step Nursing Process connects specific disorders to patient care — with a summary at the end of each chapter. Nursing Care Plans emphasize patient goals and outcomes within a case-study format, and promotes clinical decision-making with critical thinking questions at the end of each care plan. Clear coverage of essential A&P is provided by an Introduction to Anatomy and Physiology chapter along with an overview of A&P in all body systems chapters. Student-friendly features enhance the learning of nursing skills with summary boxes for Patient Teaching, Health Promotion Considerations, Complementary and Alternative Therapy, Cultural

Considerations, Older Adult Considerations, Home Care Considerations, Safety Alert, and Prioritization, Assignment, and Supervision. UNIQUE! Mathematics review in Dosage Calculation and Medication Administration chapter covers basic arithmetic skills prior to the discussion of medication administration. A focus on preparing for the NCLEX examination includes review questions and Get Ready for the NCLEX Examination! sections with key points organized by NCLEX Client Needs Categories. Evidence-Based Practice boxes provide synopses of nursing research articles and other scientific articles applicable to nursing, along with nursing implications for the LPN/LVN. Nursing Diagnosis boxes summarize nursing diagnoses for specific disorders along with the appropriate nursing interventions. UNIQUE! Delegation Considerations boxes provide parameters for delegation to nurse assistants, patient care technicians, and unlicensed assistive personnel.

Medication Therapy tables provide quick access to actions, dosages, precautions, and nursing considerations for commonly used drugs. NEW! Reorganized chapters make it easier to follow and understand the material. NEW! Icons in page margins indicate videos, audios, and animations on the Evolve companion website that may be accessed for enhanced learning. UPDATED illustrations include photographs of common nursing skills. *Medical-surgical Nursing - Sharon Mantik Lewis 2007 Accompanying CD-ROM, in v. 1, contains ... "more than 50 interactive case studies with realistic, 3-D animations to help you visualize disease processes from the inside out; a unique Stress-Busting Kit for Nursing Students with strategies for managing your (and your patients') stress; a collection of Multimedia Supplements with audio and video clips, plus additional animations; 375 NCLEX Examination-style review questions."*--Page 4 of cover. Medical-Surgical Nursing -

Susan C. deWit 2016-02-05
Providing a solid foundation in medical-surgical nursing, Susan deWit's Medical-Surgical Nursing: Concepts and Practice, 3rd Edition ensures you have the information you need to pass the NCLEX-PN® Examination and succeed in practice. Part of the popular LPN/LVN Threads series, this uniquely understandable, concise text builds on the fundamentals of nursing, covering roles, settings, and health care trends; all body systems and their disorders; emergency and disaster management; and mental health nursing. With updated content, chapter objectives, and review questions, this new edition relates national LPN/LVN standards to practice with its integration of QSEN competencies, hypertension, diabetes, and hypoglycemia. Concept Maps in the disorders chapters help you visualize difficult material, and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Get Ready for the

NCLEX® Examination! section includes Key Points that summarize chapter objectives, additional resources for further study, review questions for the NCLEX® Examination, and critical thinking questions. Nursing Care Plans with critical thinking questions provide a clinical scenario and demonstrate application of the nursing process with updated NANDA-I nursing diagnoses to individual patient problems. Anatomy and physiology content in each body system overview chapter provides basic information for understanding the body system and its disorders, and appears along with Focused Assessment boxes highlighting the key tasks of data collection for each body system. Assignment Considerations, discussed in Chapter 1 and highlighted in feature boxes, address situations in which the RN delegates tasks to the LPN/LVN, or the LPN/LVN assigns tasks to nurse assistants, per the individual state nurse practice act. Gerontologic nursing presented

throughout in the context of specific disorders with Elder Care Points boxes that address the unique medical-surgical care issues that affect older adults. Safety Alert boxes call out specific dangers to patients and teach you to identify and implement safe clinical care. Evidence-based Practice icons highlight current references to research in nursing and medical practice. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care - and prepare you to educate patients on their health condition and recovery. Health Promotion boxes address wellness and disease prevention strategies that you can provide in patient teaching. NEW! Content updated with the most current health care standards, including QSEN competencies, hypertension, diabetes, and hypoglycemia, to relate national standards to LPN/LVN practice. UPDATED! Revised chapter objectives and content reflects higher-level critical thinking, communication,

patient safety, and priority setting. UPDATED! Get Ready for the NCLEX®! review questions updated per the 2014 NCLEX-PN® test plan. [Virtual Clinical Excursions 3.0 to Accompany Fundamentals of Nursing](#) - Patricia A. Potter 2005-07

Virtual clinical excursions (VCE) is a workbook/CD-ROM package that accompanies many Elsevier nursing textbooks. The workbook guides users through Pacific View Regional Hospital, a virtual hospital setting, where one can learn communication, documentation, assessment, and safe medication administration. VCE offers a hands-on learning experience to help nurses improve both clinical judgement and critical thinking skills while interacting with a number of virtual patients.

Adult Health Nursing - E-Book - Barbara Lauritsen Christensen 2014-04-11

Part of the popular LPN Threads series, this comprehensive text includes all of the vital medical-surgical

and anatomy and physiology content you need to know. From an introduction to A&P to discussions of disorders by body system and beyond, *Adult Health Nursing, 6th Edition*, is an indispensable reference. Companion CD includes animations and audio clips depicting physiologic processes, physical assessment video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. Chapters begin with an overview of anatomy and physiology, providing a clear, basic understanding of A&P that LPN/LVNs need to know. The consistent, logical framework of the nursing process connects specific disorders to patient care. Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings, with considerations for special populations. Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific

disorders paired with the appropriate nursing interventions. Skills in a step-by-step format with full-color illustrations present clearly defined nursing actions with rationales for the skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans, presented in a case-study format, emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. An emphasis on communication features real-life examples of nurse-patient dialogue and illustrates practical guidelines for effective communication. Patient Teaching boxes and Family Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span

Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion boxes provide key information on staying healthy and preventing disease, with tips on wellness from Healthy People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Complementary and Alternative Therapy boxes includes disorder-specific therapies, precautions, and possible side effects of non-traditional treatments. Enhanced focus on the NCLEX® Examination offers end-of-chapter Get Ready for the NCLEX Examination! sections with key points for self-guided study and remediation and an extensive set of review questions for thorough self-assessment.

Additional review questions on Evolve provide instant feedback with correct answer and rationale for even more test-taking practice. Evidence-Based Practice boxes summarize the latest research findings and highlight how they apply to LPN/LVN practice. Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts.

Medical-Surgical Nursing -

Sharon L. Lewis, RN, PhD,
FAAN 2013-12-02

Over the past three decades, more and more nursing educators have turned to Lewis: Medical-Surgical Nursing for its accurate and up-to-date coverage of the latest trends, hot topics, and clinical developments in the field of medical-surgical nursing - and the new ninth edition is no exception! Written by a dedicated team of expert authors led by Sharon Lewis, Medical-Surgical Nursing, 9th Edition offers the same easy-to-read style that students have come to love, along with the

timely and thoroughly accurate content that educators have come to trust. Completely revised and updated content explores patient care in various clinical settings and focuses on key topics such as prioritization, critical thinking, patient safety, and NCLEX® exam preparation. Best of all - a complete collection of interactive student resources creates a more engaging learning environment to prepare you for clinical practice. Highly readable format gives you a strong foundation in medical-surgical nursing. Content written and reviewed by leading experts in the field ensures that the information is comprehensive, current, and clinically accurate. Bridge to NCLEX Examination review questions at the end of each chapter reinforce key content while helping you prepare for the NCLEX examination with both standard and alternate item format questions. UNIQUE! "Levels of Care" approach explains how nursing care varies for different levels of

health and illness. More than 50 comprehensive nursing care plans in the book and online incorporate NIC, NOC, and current NANDA diagnoses, defining characteristics, expected outcomes, specific nursing interventions with rationales, evaluation criteria, and collaborative problems. Over 800 full-color illustrations and photographs clearly demonstrate disease processes and related anatomy and physiology. NEW! Unfolding case studies included throughout each assessment chapter help you apply important concepts and procedures to real-life patient care. NEW! Managing Multiple Patients case studies at the end of each section give you practice applying your knowledge of various disorders and help you prioritize and delegate patient care. NEW! Informatics boxes discuss how technology is used by nurses and patients in health care settings. NEW! Expanded coverage of evidence-based practice helps you understand how to apply the latest

research to real-life patient care. NEW! Expanded Safety Alerts throughout the book cover surveillance for high-risk situations. NEW! Separate chapter on genetics expands on this key topic that impacts nearly every condition with a focus on the practical application to nursing care of patients. NEW! Expanded coverage of delegation includes additional Delegation Decision boxes covering issues such as hypertension and postoperative patient care. NEW! Genetic Risk Alerts and Genetic Link headings highlight specific genetic issues related to body system assessments and disorders. NEW! Revised art program enhances the book's visual appeal and lends a more contemporary look throughout. *Networking Health* - National Research Council 2000-07-12 Consumer health websites have garnered considerable media attention, but only begin to scratch the surface of the more pervasive transformations the Internet could bring to health and health care. *Networking Health* examines ways in which

the Internet may become a routine part of health care delivery and payment, public health, health education, and biomedical research. Building upon a series of site visits, this book: Weighs the role of the Internet versus private networks in uses ranging from the transfer of medical images to providing video-based medical consultations at a distance. Reviews technical challenges in the areas of quality of service, security, reliability, and access, and looks at the potential utility of the next generation of online technologies. Discusses ways health care organizations can use the Internet to support their strategic interests and explores barriers to a broader deployment of the Internet. Recommends steps that private and public sector entities can take to enhance the capabilities of the Internet for health purposes and to prepare health care organizations to adopt new Internet-based applications.

Virtual Clinical Excursions 2. 0 to Accompany

Introduction to Medical-Surgical Nursing - Adrienne

Dill Linton 2003-07

Virtual Clinical Excursions (Phase 2) is a workbook/CD-ROM package that guides the student through a multi-floor virtual hospital in a hands-on learning experience. The student is actively engaged with the workbook, CD-ROM and parent text throughout each lesson. Each lesson has a core textbook reading assignment and activities based on "visiting" the patients in the hospital. The lessons in the workbook complement the content in the textbook and provide a perfect environment in which students may "practice" what they are learning in the text. The multi-floor virtual hospital also has built-in testing of clinical knowledge with NCLEX type questions. As the student "visits" each patient, they are able to access realistic information resources essential for patient care. Information resources include: charts, medical administration records, electronic patient

records, video streaming of patient dialogue with nurses and other related materials. These resources provide an opportunity for the student to assess and analyze information, make a diagnosis, set priorities and implement and evaluate care. Includes a guided tutorial which shows students how to work with a patient in the virtual hospital · collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions) · record patient data · listen to a report and itemize a patient's problems and high-priority concerns · and sometimes administer medications. Requires students to use their critical thinking skills to set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. Encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with

data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills. Produced in conjunction with the Virtual Clinical Excursions CD-ROM authors: Jay Shiro Tashiro, PhD, RN, Director of Systems Design, Wolfson Informatics, Tucson, Arizona; Ellen Sullins, PhD, Director of Research, Wolfson Informatics, Tucson, Arizona; Gina Long, RN, DNSc, Assistant Professor, Department of Nursing, College of Health Professions, Northern Arizona University, Flagstaff, Arizona Virtual Clinical Excursions is a hybrid CD so it runs on both Macintosh and Windows platforms.

Virtual Clinical Excursions 2.0 to Accompany Wong's Essentials of Pediatric Nursing - Marilyn J. Hockenberry
2002-12

CD-ROM guides you through a multi-floor virtual hospital to

provide you with a hands-on learning experience. You'll meet a series of pediatric patients at Canyon View Regional Medical Center. Each patient has their own diverse health problems, medical histories, families, cultural backgrounds, and personalities.

Black's Medical-Surgical Nursing, First South Asia Edition - Malarvizhi S.

2019-05-27

Content revised, updated, and adapted to suit the South Asian curricula A new chapter added on Geriatric Nursing, in line with the curriculum prescribed by the Indian Nursing Council Statistics, health programs, and nursing practice guidelines updated for regional adaptation Review questions added to all the units within the book Digital resources available on MedEnact: Instructor Resources 1. Image collection 2. Instructor's manual 3. PowerPoint presentations Student Resources 1. Case studies 2. Critical thinking questions 3. Guides to clinical pathways 4.

Medical Surgical Nursing: Clinical Management for Positive Outcomes, 8e (2 Vol Set) Without CD - Joyce M. Black 2009-11-10

Medical-Surgical Nursing: Clinical Management for Positive Outcomes, 8th Edition takes you from basic to advanced medical-surgical nursing with an enhanced multimedia package that makes it easier to learn and apply concepts. This text provides a reliable foundation in anatomy and physiology, pathophysiology, medical management, and nursing care for the full spectrum of adult health conditions. The roles of various healthcare professionals in managing each disorder and are clearly outlined, and evidence-based practice and clinical guidelines are integrated throughout the text. UNIQUE! Evidence-Based Practice icons identify statements based on primary research or standardized guidelines and teach you to base your practice on solid research evidence. Translating

Evidence into Practice boxes present a topic in the form of a clinical question and summarize the conclusions of 4-5 research articles, encouraging you to judge the research for yourself and consider how it relates to the nursing setting. Care Plans highlight nursing diagnoses and collaborative problems, expected outcomes, interventions with rationales, and evaluation to help you prioritize tasks and determine the appropriate treatment. Thinking Critically questions at the end of each nursing care chapter pose short, typical client scenarios followed by questions about what actions to take to test your critical thinking skills. Concept Maps illustrate the links among pathophysiological processes, clinical manifestations, medical treatment, and nursing interventions. Integrating Pharmacology boxes help you understand how medications can be used for disease management by exploring common classifications of routinely used medications.

Bridge to Critical Care and Bridge to Home Health Care boxes introduce you to critical care and home health nursing by connecting these related specialties to medical-surgical nursing. Feature boxes highlight issues in Critical Monitoring, Management and Delegation, Genetics, Terrorism, Community-Based Practice, and Physical Assessment in the Healthy Adult.

Brunner & Suddarth's Textbook of Medical-Surgical Nursing - Suzanne C. Smeltzer, R.N. 2012-06-29

Medical-surgical Nursing - 2005

Medical-Surgical Nursing - E-Book - Donna D. Ignatavicius 2020-10-01
Master the essential medical-surgical nursing content you'll need for success on the Next Generation NCLEX® Exam (NGN) and safe clinical practice! Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 10th Edition uses a

conceptual approach to provide adult health knowledge and help you develop the clinical nursing judgment skills that today's medical-surgical nurses need to deliver safe, effective care. "Iggy" emphasizes three emerging trends in nursing — interprofessional collaborative care, concept-based learning, and clinical judgment and systems thinking — trends that will ground you in how to think like a nurse and how to apply your knowledge in the classroom, simulation laboratory, and clinical settings. A perennial bestseller, "Iggy" also features NCLEX Exam-style Challenge and Mastery questions to prepare you for success on the NGN! Consistent use of interprofessional terminology promotes interprofessional collaboration through the use of a common healthcare language, instead of using isolated nursing-specific diagnostic language. UNIQUE! Enhanced conceptual approach to learning integrates nursing concepts and exemplars, providing a foundation in

professional nursing concepts and health and illness concepts, and showing their application in each chapter. Unparalleled emphasis on clinical reasoning and clinical judgment helps you develop these vital skills when applying concepts to clinical situations. Emphasis on QSEN and patient safety focuses on safety and evidence-based practice with Nursing Safety Priority boxes, including Drug Alert, Critical Rescue, and Action Alert boxes. Direct, easy-to-read writing style features concise sentences and straightforward vocabulary. Emphasis on health promotion and community-based care reflects the reality that most adult health care takes place in environments outside of high-acuity (hospital) settings.

The Software Encyclopedia - 1986

Maternity and Women's Health Care - E-Book - Deitra Leonard Lowdermilk
2014-12-18

The #1 maternity book in the market is getting even better.

Maternity and Women's Health Care, 11th Edition provides evidence-based coverage of everything you need to know about caring for women of childbearing age. Not only does this text emphasize childbearing concerns like newborn care, it also addresses wellness promotion and management of women's health problems. In describing the continuum of care, it integrates the importance of understanding family, culture, and community-based care. Boasting new medication alerts and updated content throughout, this edition covers the new maternal levels of care, and the revised AAP policy on breastfeeding and infant sleep. Expert authors of the market-leading maternity nursing textbook deliver the most accurate, up-to-date content. Clinical reasoning case studies provide you with opportunities to test and develop your analytical skills and to apply knowledge in various settings. Community Activity boxes focus on maternal and newborn

activities that can be pursued in local community settings and illustrate nursing care in a variety of settings. Cultural Considerations stress the importance of considering the beliefs and health practices of patients from various cultures when providing care.

Emergency boxes provide information about various emergency situations and offer a quick reference in critical situations. Family-Centered Care boxes highlight the needs and concerns of families that you should consider to provide family-centered care.

Medication guides provide an important reference of drugs and their interactions. Nursing care plans include rationales for interventions and provide you with an overview of, and specific guidelines for, delivering effective nursing care. Safety alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Signs of potential complications highlight vital concerns, alerting you to signs

and symptoms of complications and the immediate interventions to provide.

Teaching for Self-Management boxes highlight important information that nurses need to communicate to patients and families for follow-up care.

Virtual Clinical Excursions 1. 0 to Accompany Medical-Surgical Nursing - Mary Ann Hogan 2002-11

Dynamic and engaging, Virtual Clinical Excursions is a workbook and CD-ROM package that guides users through a virtual hospital featuring highly complex and diverse patients.

Complementing core textbook reading assignments in Phipps: Medical-Surgical Nursing: Health and Illness

Perspectives, 7th Edition, lessons in the workbook provide a perfect opportunity for users to practice what they are learning in the text in a realistic clinical environment.

Covers everything from general medical-surgical nursing concepts related to adult patients through pathophysiologic mechanisms

to the nursing management of a full range of medical-surgical problems. Explores each disease and disorder in detail - discussing its etiologic and pathophysiologic basis, clinical manifestations, collaborative care, and nursing management. Includes a guided tutorial which shows students how to work with a patient in a virtual hospital · collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions) · record patient data · listen to a report and itemize a patient's

problems and high-priority concerns · sometimes administer medication · and more. Emphasizes the importance of patient care - from nursing assessment, diagnosis, planning, and implementation to evaluation. Requires students to document client-nurse interactions - retrieving clinical data, maintaining quality and continuity of care, tracking client outcomes, and meeting current practice standards. Produced in conjunction with the Virtual Clinical Excursions CD-ROM authors: Jay Shiro Tashiro, PhD, RN; Ellen Sullins, PhD; Gina Long, RN, DNSc
